

parties; and local libraries and newspapers. Major issues raised during scoping included wetland impacts and mitigation, and dredge material testing and beneficial reuse.

The U.S. Coast Guard; U.S. Department of Energy; U.S. Department of Transportation, Pipeline and Hazardous Materials Safety Administration; U.S. Army Corps of Engineers, Galveston District; and U.S. Environmental Protection Agency are cooperating agencies in the preparation of the EIS.

Additional Information

In order to receive notification of the issuance of the EIS and to keep track of all formal issuances and submittals in specific dockets, the Commission offers a free service called eSubscription. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to www.ferc.gov/docs-filing/esubscription.asp.

Additional information about the Projects is available from the Commission's Office of External Affairs at (866) 208-FERC or on the FERC website (www.ferc.gov). Using the eLibrary link, select General Search from the eLibrary menu, enter the selected date range and Docket Number excluding the last three digits (*i.e.*, CP17-20, CP17-21, or CP18-7), and follow the instructions. For assistance with access to eLibrary, the helpline can be reached at (866) 208-3676, TTY (202) 502-8659, or at FERCOnlineSupport@ferc.gov. The eLibrary link on the FERC website also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rule makings.

Dated: August 31, 2018.

Nathaniel J. Davis, Sr.,

Deputy Secretary.

BILLING CODE 6560-50-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[30Day-18-17AZI]

Agency Forms Undergoing Paperwork Reduction Act Review

In accordance with the Paperwork Reduction Act of 1995, the Centers for Disease Control and Prevention (CDC) has submitted the information collection request titled Understanding Decisions and Barriers about PrEP Use and Uptake Among Men Who Have Sex With Men to the Office of Management and Budget (OMB) for review and approval. CDC previously published a "Proposed Data Collection Submitted for Public Comment and Recommendations" notice on October 10, 2017 to obtain comments from the public and affected agencies. CDC did not receive comments related to the previous notice. This notice serves to allow an additional 30 days for public and affected agency comments.

CDC will accept all comments for this proposed information collection project. The Office of Management and Budget is particularly interested in comments that:

(a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(b) Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(c) Enhance the quality, utility, and clarity of the information to be collected;

(d) Minimize the burden of the collection of information on those who

are to respond, including, through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses; and

(e) Assess information collection costs.

To request additional information on the proposed project or to obtain a copy of the information collection plan and instruments, call (404) 639-7570 or send an email to omb@cdc.gov. Direct written comments and/or suggestions regarding the items contained in this notice to the Attention: CDC Desk Officer, Office of Management and Budget, 725 17th Street NW, Washington, DC 20503 or by fax to (202) 395-5806. Provide written comments within 30 days of notice publication.

Proposed Project

Understanding Decisions and Barriers about PrEP Use and Uptake Among Men Who Have Sex With Men—New—National Center for HIV/AIDS, Viral Hepatitis, STD, and TB Prevention, Centers for Disease Control and Prevention (CDC).

Background and Brief Description

This project involves original, formative research toward improving the uptake and adherence necessary to achieve efficacious levels of protection offered by pre-exposure prophylaxis (PrEP) among the most highly affected population. HIV incidence and prevalence are higher among gay,

bisexual, and other men who have sex with men (MSM) than any other risk group in the U.S. Approximately half of all diagnosed HIV infections are among gay, bisexual, and other MSM. The FDA-approved PrEP regimen, daily Tenofovir/emtricitabine (aka Truvada®), has shown greater than 90% efficacy in reducing HIV infections among MSM when taken in accordance with its prescribed daily schedule. In 2014, CDC published clinical practice guidelines for the use of PrEP in high-risk populations, and began national promotion of PrEP as an effective HIV prevention strategy for MSM. While hailed as an HIV-prevention “game-changer,” in reality PrEP uptake has been slow. Some studies report a wide range in the percentages of MSM (28–81%) interested in PrEP. In addition, other studies indicate that specific cities have alarmingly low rates of PrEP uptake (for example, the estimate for Atlanta is 2%). Moreover, recent survey findings have shown that less than 1 in 10 MSM on PrEP are adherent to their PrEP regimen; adherence is necessary to optimize efficacy.

In order to develop effective programs that increase PrEP uptake among MSM at greatest risk for HIV, studies are needed to better understand the decisions men make about their HIV prevention needs. Qualitative methods will be used to explore in-depth the “Whys” and “How’s” of MSM’s decisions to refuse or use PrEP, and barriers and challenges to successfully undertake a PrEP medication regimen. Quantitative methods will be used to

understand the HIV risk behavior context, attitudes towards PrEP, health seeking behavior, and acceptability of new modes of PrEP delivery (that differ from current recommendation of daily PrEP and that are in development or discussion) and emerging biomedical HIV prevention options.

The purpose of this research is to explore decisions, barriers, and facilitators about PrEP use among MSM: (1) Who were offered PrEP but refused it; (2) who were interested in or started a PrEP regimen but did not follow through; and (3) who are eligible for PrEP per CDC guidelines (report condomless anal sex within last three months) but not currently on PrEP.

This study will provide insight on individual and community level PrEP-related decision-making, and identify barriers and facilitators to successful PrEP initiation and PrEP acceptability. Findings will improve programming, in line with the CDC Division of HIV/AIDS Prevention goal of high-impact prevention to reduce HIV infections in the U.S. Findings will assist the CDC and frontline public health programs in identifying and designing programs and intervention approaches that encourage, support, and maintain appropriate PrEP uptake among eligible MSM and anticipate future HIV prevention needs, including anticipated changes in PrEP delivery.

The total annual burden hours are 335. There are no other costs to the respondents other than their time to participate.

ESTIMATED ANNUALIZED BURDEN HOURS

| Type of respondents | Form name | Number of respondents | Number of responses per respondent | Average burden per response (in hours) |
|-----------------------------|---|-----------------------|------------------------------------|--|
| General Public—Adults | Screener | 600 | 1 | 5/60 |
| General Public—Adults | Contact Information Form | 300 | 1 | 1/60 |
| General Public—Adults | In-Depth Interview Guide | 60 | 1 | 45/60 |
| General Public—Adults | Focus Group Moderator Guide | 60 | 1 | 1 |
| General Public—Adults | Eligibility verification (verification of continuing eligibility) | 300 | 1 | 5/60 |
| General Public—Adults | Structured response self-administered behavioral assessment .. | 300 | 1 | 30/60 |

Jeffrey M. Zirger,

Acting Chief, Information Collection Review Office, Office of Scientific Integrity, Office of the Associate Director for Science, Office of the Director, Centers for Disease Control and Prevention.
