

VETERANS, having difficulty dealing with stress?

Feeling frustrated? Trouble coping?

Try Phone-based Mindfulness Meditation

Join us to learn what it's about!

MINDFULNESS MEDITATION

is an evidenced-based, VA-supported mind-body technique that can help you to better manage the challenges and stressors of everyday life.

Mindfulness Meditation teaches awareness of what's going on around you as well as what's going on inside of you, and acceptance of whatever shows up. It has been effective in treating health conditions such as insomnia, anxiety, high blood pressure, chronic pain and PTSD. Mindfulness Meditation can be practiced sitting down, lying down, stretching, eating, even while walking the dog!

Meditation can be safely used in conjunction with mental health and medical treatments such as prescribed medication or exercise, however, this class is not intended to serve as mental health treatment.

Please discuss the class topic with your provider prior to participating to ensure they are aware and can discuss any physical and/or mental health concerns.

UPCOMING MINDFULNESS MEDITATION CLASSES

Take any or all classes!
