

# Congress of the United States

Washington, DC 20515

June 9, 2021

Mr. Mark Zuckerberg  
Chief Executive Officer  
Facebook, Inc.  
1 Hacker Way  
Menlo Park, CA 94025

Dear Mr. Zuckerberg:

Big Tech is out to get conservatives. We have witnessed several examples in recent years of how Facebook has censored conservative speech on its platform. Newly released documents indicate that you, personally, communicated with Dr. Anthony Fauci, Director of the National Institute of Allergy and Infectious Diseases, about the COVID-19 pandemic. In light of Facebook's subsequent censorship of certain COVID-19 content—including content about the pandemic's origin—these communications with Dr. Fauci raise the prospect that the federal government induced Facebook to censor certain speech in violation of the First Amendment.

For well over a year, Facebook has censored various speech related to COVID-19.<sup>1</sup> Facebook censored speech about COVID-19's prevention and treatment.<sup>2</sup> It censored speech about citizens' protests of government-mandated quarantines.<sup>3</sup> Facebook also censored speech about COVID-19's origins.<sup>4</sup> While censoring and suppressing these types of speech, Facebook amplified sources like the World Health Organization<sup>5</sup>—even though such sources have proven

to be conflicted and unreliable in the past.<sup>6</sup>

Facebook's censorship decisions did not occur in a vacuum, and there are indications that Facebook may have made content-moderation decisions regarding COVID-19 at the behest of certain government policies and positions.<sup>7</sup> The federal government appears to have had significant contact with Facebook about COVID-19 during the pandemic.<sup>8</sup> You emailed personally with Dr. Fauci to enlist him in Facebook's "Coronavirus Information Hub" and encouraged him to provide a video "because people trust and want to hear from experts rather than just a bunch of agencies and political leaders."<sup>9</sup> It also appears that you shared some of Facebook's confidential trade or commercial secrets with Dr. Fauci, as portions of your email exchange with Dr. Fauci were redacted when made publicly available.<sup>10</sup>

Your appeal to Dr. Fauci to serve as an "expert" voice of Facebook's platform suggests that the government's views may have directly guided and led to Facebook's approach to content moderation. This conclusion is bolstered by the circumstances of Facebook's recent change in its content moderation approach relating to COVID-19's origins. Shortly after President Biden announced that he had directed the intelligence community to investigate the origin of the COVID-19 pandemic, Facebook announced that it would no longer censor certain content that effectively includes whether the pandemic originated in a Wuhan lab.<sup>11</sup> It appears possible that Facebook's altered approach to content moderation concerning the COVID-19 pandemic, after "consultation with public health experts,"<sup>12</sup> could have been driven or strongly encouraged by U.S. officials.<sup>13</sup>

Government should not enlist private firms to help skirt the First Amendment. When a private company—especially one with Facebook’s market dominance—suppresses free speech at government’s behest, it tramples citizens’ Constitutional rights. As Justice Thomas recently explained, although “a private entity is not ordinarily constrained by the First Amendment, it is if the government coerces or induces it to take action the government itself would not be permitted to do, *such as censor expression of a lawful viewpoint.*”<sup>14</sup> This principle is even more important when a tremendous amount of political speech occurs on privately-moderated electronic platforms. As Judge Silberman has said, the First Amendment “embodies the most important value of American Democracy.”<sup>15</sup> The “[r]epression of political speech by large institutions with market power” is “fundamentally un-American.”<sup>16</sup> This woke corporate censorship of certain political speech can have effects similar to government’s directly “driv[ing] certain ideas or viewpoints from the marketplace.”<sup>17</sup> This government-driven censorship undercuts American values and harms users’ rights online.

Millions of Americans, including both conservatives and progressives, use Facebook. Censorship about COVID-19—or topics like “climate change” or “elections”<sup>18</sup>—seems likely to continue throttling free speech. As Congress continues to examine the size, scope, and competitiveness of Big Tech and how to best protect Americans’ free speech rights, please provide:

1. All documents and communications between or among Facebook employees and U.S. government employees—including Dr. Anthony Fauci and other employees of the National Institute of Allergy and Infectious Diseases (NIAID)—referring or relating to COVID-19, including about the origins of the virus, nature of the virus, treatment of or remedies for the virus, or government policies relating to the COVID-19 pandemic.
2. All documents and communications between or among Facebook employees referring or relating to Dr. Anthony Fauci, the NIAID, or the National Institutes of Health, including about the origins of the virus, nature of the virus, treatment of or remedies for the virus, or government policies relating to the COVID-19 pandemic.
3. All documents and communications between or among Facebook employees referring or relating to any request by any U.S. government official to censor or moderate content related to COVID-19.
