WORKING FOR TAMPA

Kathy secured \$67 million in federal grants for safer streets and transportation projects in the City of Tampa and Hillsborough County. These investments are vital for the growing, dynamic communities of West Tampa, Tampa Heights and Seminole Heights and will connect neighborhoods, decrease traffic and improve safety for pedestrians and bicyclists. Federal investments in Tampa's Riverwalk have been a catalyst to Tampa's success.

MacDill Means Mobility — working with local leaders, Kathy's years of advocating for Tampa as "Tanker Town" has paid off. MacDill Air Force Base was chosen as the new preferred main operating base for 24 KC-46s Pegasus aircraft. This ensures the 6th Air Refueling Wing will provide nextgeneration aerial refueling support and AirPower for our nation's defense for decades to come.

TENESHIES.

To ensure veterans get the highest-quality health care available, Kathy secured \$148 million in Congressional appropriations for the construction of a new bed tower addition with modern

amenities at Tampa's James A. Haley Hospital. Haley will feature approximately 100 new single-patient rooms and 40 intensive care unit beds.
