**Airport Improvement Program (AIP)
Department of Transportation
Guidelines and Requirements for Appropriations Submissions Database**

AIP community project funding requests shall be used for enhancing airport safety, capacity, and security, and mitigating environmental concerns.

All projects must be:

- AIP eligible in accordance with sections 47101 to 47175 of title 49, United States Code, and FAA [policy and guidance](#).
- Supported broadly by local stakeholders, including residents, businesses, and elected officials.
- Administered by an airport and/or airport sponsor.

For each AIP community project funding request, Members will need to provide specific information through the database. The database will include the following questions to assist the Subcommittee in vetting and selecting projects. Several of them will require additional information from your office.

The average award in this account for FY22 was \$4 million. Note that the Committee may consider project amounts of up to \$7 million for FY23, but any caps will be determined by the Chairman after reviewing the full universe of requests. Please ensure community project funding requests are not duplicative of requests to another Committee or Subcommittee.

Community project questions in the database for AIP:

- **Project Name.**
EXAMPLE: *Rehabilitate runway 6/24, Airport Name (3 letter or number airport code), City, State (2 letter postal code).*

NOTE: This description may be used to list the project in the House report and should be as accurate as possible to ensure that the funding goes to the correct project and location and must include both the name of the airport and the airport code.

- **General description of the project and why it is needed.**
- **What are the benefits of this project and why is it a priority?**
NOTE: Benefits could include safety, environmental, economic, equity, mobility, etc. This description will not appear in the House report.

EXAMPLE: *Constructing a new apron (50,000 square feet) will reduce the risk of aircraft-to-aircraft and aircraft-to-ground vehicle incursions by 40 percent.*

- **Amount requested for the community project for FY23 and the total project cost.**
NOTE: The community project funding may be a subset of the total project cost.
