Subject: Docket Number 04-7984

Dear Mr. Vogl

This email is in response to the Department of Health and Human Services (DHHS) proposed guidelines for the adoption of alternate matrices for the analysis of drugs other than alcohol under Docket Number 04-7984.

In Section 12:10 DHHS has used the term "periodic inspection" to ensure compliance. This some what vague terminology IE: "periodic", should be replaced with a specific number of months or years.
