

DoD 4100.39-M
VOLUME 14

**FEDERAL
LOGISTICS
INFORMATION
SYSTEM**

**FLIS PROCEDURES MANUAL
MANAGEMENT STATISTICS
JANUARY 2004**

CHAPTER 1 INTRODUCTION

14.1.1 GENERAL

Management Statistics On-Line provides counts of data elements related to the operations of the Federal Catalog System (FSC). The statistics system database consists of tables which store counts specific to each type of Management Statistics. These tables are updated daily. If the stats required are not on-line, we can now provide Ad Hoc reports tailored to your specific requirements, upon request.

Management Statistics are grouped into three categories: **LOLA, LOGISTICS AND TRANSACTIONS**. All LOLA and Transaction statistics are available on-line. Twenty Logistics statistics are available on-line while the remaining 2 are in development.

LOGISTICS STATISTICS: Provides information related to item data.

- 22 Statistics
- 20 Available On-Line
- 2 In Development - Acquisition Advice Code (AAC) and Interchangeability and Substitutability (I&S)

LOLA STATISTICS: Focuses on type of on-line inquiries.

- Available On-Line

TRANSACTIONS STATISTICS: Provides catalog input and output information as well as other information relative to transaction processing.

- 5 Statistics
- All Available

NOTE: There are more statistics to be added. This document will also be published as the DoD 4100.39-M, Volume 14 of the FLIS Procedures Manual. For any questions or additional copies, you may contact the following:

- Mary Brininstool, DSN 932-4389/Commercial (616)-961-4389
- Robert Warren, DSN 932-4525/Commercial (616)-961-4525

14.1.2 ADDITIONAL FEATURES OF THE ON-LINE SYSTEM

a. **On-Line History:** On-Line History provides three (3) years of monthly detail data for Logistic Statistics and five (5) years of monthly detailed data Transaction Statistics.

b. **Restoration of Archive Data:** This feature allows the user to request archived data which is over two (2) years old to be restored overnight and made available on-line. This data will only stay on-line for 24 hours after restoration.

c. **Ad Hoc Query:** Ad Hoc query allows the user to tailor requests for counts of any data elements stored in either the Management Statistics or DLIS databases.

14.1.3 CURRENT STATISTICS' NAMES - OLD REPORT NAME

The listing on the following page cross-references the current statistic to the old report name. The asterisk (*) is used to indicate that the stat is not available on-line.

a. LOGISTICS STATISTICS

<u>CURRENT NAME</u>	<u>OLD REPORT NAME</u>
Abbreviated Master Reply Code	New
*Acquisition Advice Code (AAC)	IMSS-9
Acquisition Method Code/Acquisition Method Suffix Code (AMC/AMSC)	IMSS-11
Commercial and Government Entity code (CAGE)	No Change
Document Availability Code (DAC)	New
Demilitarization (DEMIL)	New
Federal Catalog System (FSC) Goals	IMSS-3
Federal Catalog System Quality Stats	No Change
Federal Item Identification Guide (FIIG) Count	No Change
Freight	No Change
Federal Supply Class (FSC)/Item Name Code (INC)	No Change
*Interchangeability and Substitutability (I&S)	IMSS-23
Item Commonality	IMSS-5
Item Name New Item Population	IMSS-15
Item Standardization	IMSS-10
Management Changes	IMSS-12
Management Responsibility	IMSS-8
Major Organizational Entity Code/Federal Supply code (MOE Code/FSC)	No Change
Major Organizational Entity Rules (MOE Rules)	IMSS-21
Reparability Codes New Type of Item Identification (Type II)	IMSS-6
Type of Item Identification Transfers (Type II Transfers)	CSS-4

b. LOGISTICS ON-LINE ACCESS (LOLA)

LOLA

NEW

c. TRANSACTIONS STATISTICS

<u>CURRENT NAME</u>	<u>OLD REPORT NAME</u>
Document Identifier Code Input/Output (DIC Input/Output)	CSS-2
Document Identifier Code Submitting Activity Code/ Originating Activity Code (DIC SAC/OAC)	IMSS-18
Priority Indicator Code	FSS-3
Screening	FSS-2
Timing	IMSS-22

14.1.4 ACCESSING MANAGEMENT STATISTICS

a. **WHAT YOU NEED TO DO:** Access to the FLIS on-line Management Statistics application is controlled through the User ID codes and Passwords. If you don't have a User ID, contact your Authorized Security Representative (ASR) or the DLIS Customer Service Office (AV) 932-4725, (FTS) 552-4725, commercial (616) 961-4725, or FAX (616) 961-5305.

b. "HOW TO" INFORMATION:

(1) QUICK REFERENCE ACCESS STEPS:

Before accessing the on-line MGMT STATS, you must first access LOGRUN. (The procedures for doing this will vary between service/agency/activity.)

- a. If you are accessing LOGRUN via DLANET, the address is ALIDIS.
- b. If you are using DDN, the address for TN 3270 is 131.87.13.125.
- c. If you are using DDN and/or dial-up, the address is 131.87.1.40.

(2) AT THE LOGON SCREEN:

- a. "Tab" from command line to User ID line (See Screens 1 and 2 on the following page.)
- b. Enter your assigned seven character User ID.

c. Press TAB key (or your equivalent).

d. Enter your password, press ENTER.

NOTE: You may receive a screen before the LOGRUN SELECTION MENU. After reading the information, type END or press (PF03/F3).

(3) LOGRUN MENU SCREENS:

a. On the following pages are samples of LOGRUN Menu Screens:

b. The applicable sub-menus will then appear allowing you to select the exact statistical data you need.

(4) HOW TO RESOLVE PROBLEMS/QUESTIONS: Contact the DLIS Customer Service Office, (AV) 932-4725, (FTS) 552-4725, commercial(616) 961-4725, FAX (616) 961-5305, or e-mail via DDN: dlsc-jbd@dlsc.dla.mil.

a. **SCREEN EXPLANATION:** This screen allows the end-user to retrieve LOLA Statistics data. The end-user may request desired information by keying in specific field entries or combinations as follows:

Note: This LOLA Statistics does not use an Asterisk(*) in any fields to retrieve data. Because of this difference a screen example of the data has been provided for this Statistic at the end of "PROCESSING OPTIONS/RESULTS."

VALID ENTRIES AND COMBINATIONS

DATE	PERIOD	DEPARTMENT	ACTIVITY
X	X		
X	X	X	
X	X	X	X

Note: This LOLA Statistics does not use an Asterisk(*) in any of its fields.

The result of specific end-user requests will vary in accordance with the combination of entries made.

b. **FIELD ENTRY REQUIREMENTS:** The fields listed below allow the end-user to enter information. Other fields shown on the screen are display only fields and will display data based on the entries made.

- (1) Field Name: DATE
Entry Requirement: Month, day, and Year
Example: Month = 01 - 12 (07312000)
Day = 01 - 31 (07312000)
Year = 2000 Q4 (07312000)
- (2) Field Name: PERIOD
Entry Requirement: D, W, or M
Valid Entries: D = Day ending
W = Week ending
M = Month ending
- (3) Field Name: DEPARTMENT
Entry Requirement: A Department
Valid Entries: Any valid Department (for system leave blank)
- (4) Field Name: ACTIVITY
Entry Requirement: An Activity or an Asterisk(*)
Valid Entries: Any valid Activity or an Asterisk(*)

c. **PROCESSING OPTIONS/RESULTS:** Use of the field entries and combinations in the table above will display results as follows:

(1) Enter DATE and PERIOD in the DATE and PERIOD fields leave DEPARTMENT blank; then place an X beside the data category you wish to receive counts on. Press the enter key; results, counts for data requested for the DATE and PERIOD entered for the SYSTEM.

(2) Enter DATE, PERIOD and DEPARTMENT in the DATE, PERIOD, and DEPARTMENT fields; then place an X beside the data category you wish to receive counts on. Press the enter key; results, counts for data requested for the DATE, PERIOD, and DEPARTMENT entered.

(3) Enter DATE, PERIOD and DEPARTMENT in the DATE, PERIOD, and DEPARTMENT fields; then place an X beside the data category you wish to receive counts on. Press the enter key; results, counts for data requested for the DATE, PERIOD, and DEPARTMENT entered.

(4) Enter DATE, PERIOD, DEPARTMENT, and ACTIVITY in the DATE, PERIOD, DEPARTMENT, ACTIVITY fields; then place an X beside the data category you wish to receive counts on. Press the enter key; results, counts for data requested for the DATE, PERIOD, DEPARTMENT, and ACTIVITY entered.

Valid Entries: Month = 01 - 12 (072000)
Quarter = Q1 - Q4 (Q32000)
Year = YY (YY2000)
- (2) Field Name: DEPARTMENT
Entry Requirement: D, W, or M
Valid Entries: D = Day ending
W = Week ending
M = Month ending
- (3) Field Name: DEPARTMENT
Entry Requirement: A Department
Valid Entries: Any valid Department (for system leave blank)
- (4) Field Name: ACTIVITY
Entry Requirement: An Activity or an Asterisk(*)
Valid Entries: Any valid Activity or an Asterisk(*)

c. **PROCESSING OPTIONS/RESULTS:** Use of the valid field entries and combinations

referenced in the table above will display results as follows: (To retrieve information from a pick list, place an 'X' by the desired selection and press the appropriate 'Process' PF Key.)

(1) Enter ASTERISK(*) in the PERIOD field; results, a pick list of valid Months and Years of data available.

(2) Enter PERIOD and an ASTERISK(*) in the ACTIVITY CODE field; results, a pick list of ACTIVITY CODES available.

(3) Enter PERIOD and ACTIVITY; results, a TOTAL NUMBER of TRANSACTIONS PROCESSED by the ACTIVITY CODE entered.

(4) Enter PERIOD and an ASTERISK(*) in the INPUT DIC field; results, a pick list of INPUT DICs available.

(5) Enter PERIOD and INPUT DIC; results, a TOTAL NUMBER of TRANSACTIONS PROCESSED for the INPUT DIC entered.

(6) Enter PERIOD, ACTIVITY, and an ASTERISK(*) in the INPUT DIC field; results, a pick list of INPUT DICs available for the ACTIVITY entered.

(7) Enter PERIOD, ACTIVITY, and INPUT DIC; results, a TOTAL NUMBER of TRANSACTIONS PROCESSED for the DIC AND ACTIVITY entered.

d. **AVAILABLE FUNCTION KEYS:** See [Appendix C](#).

X	X		X

The result of specific end-user requests will vary in accordance with the combination of entries made.

b. **FIELD ENTRY REQUIREMENTS:** The fields listed below allow the end-user to enter information. Other fields shown on the screen are display only fields and will display data based on the entries made.

- (1) Field Name: PERIOD
Entry Requirement: An Asterisk (*) or Month and Year
Valid Entries: Asterisk(*)
Month = 01 - 12 (072000)
Quarter = Q1 - Q4 (Q32000)
Year = YY (YY2000)
- (2) Field Name: DEPARTMENT
Entry Requirement: A Department or an Asterisk(*)
Valid Entries: Any valid Department or an Asterisk(*)
- (3) Field Name: ACTIVITY
Entry Requirement: An Activity or an Asterisk(*)
Valid Entries: Any valid Activity or an Asterisk(*)
- (4) Field Name: DIC
Entry Requirement: A DIC or an Asterisk(*)
Valid Entries: Any valid DIC or an Asterisk(*)

c. **PROCESSING OPTIONS/RESULTS:** Use of field entries and combinations referenced in the table above will display results as follows: (To retrieve information from a pick

list, place an 'X' by the desired selection and press the appropriate 'Process' PF Key.)

(1) Enter ASTERISK(*) in the PERIOD field; results, a pick list of Months and Years of data available.

(2) Enter PERIOD and an ASTERISK(*) in the DEPARTMENT field; results, a pick list of DEPARTMENTS available for the PERIOD entered.

(3) Enter PERIOD and DEPARTMENT; results, received transaction counts for PIC 1 and 2, a count of TOTAL TRANSACTIONS RECEIVED and PIC 1 and 2 STANDARD, ACTUAL, and DEVIATION percentages for the DEPARTMENT entered.

(4) Enter PERIOD, DEPARTMENT and an ASTERISK(*) in the ACTIVITY CODE field; results, a pick list of Activities available for the DEPARTMENT entered.

(5) Enter PERIOD, DEPARTMENT and ACTIVITY; results, received transaction counts for PIC 1 and 2, a count of TOTAL TRANSACTIONS RECEIVED and PIC 1 and 2 STANDARD, ACTUAL and DEVIATION percentages for the ACTIVITY entered.

(6) Enter PERIOD, DEPARTMENT, ACTIVITY and an ASTERISK(*) in the DIC field; results, a pick list of DICs available for the ACTIVITY and DEPARTMENT entered.

(7) Enter PERIOD, DEPARTMENT, ACTIVITY and DIC; results, received transaction counts for PIC 1 and 2, a count of TOTAL TRANSACTIONS RECEIVED and PIC 1 and 2 STANDARD, ACTUAL and DEVIATION percentages for the ACTIVITY and DIC entered.

(8) Enter PERIOD, DEPARTMENT and an ASTERISK(*) in the DIC field; results, a pick list of DICs available for the DEPARTMENT entered.

(9) Enter PERIOD, DEPARTMENT, and DIC; results, received transaction counts for PIC 1 and 2, a count of TOTAL TRANSACTIONS RECEIVED and PIC 1 and 2 STANDARD, ACTUAL, and DEVIATION percentages for the DEPARTMENT and DIC entered.

d. **AVAILABLE FUNCTION KEYS:** See [Appendix C](#).

a. **SCREEN EXPLANATION:** This screen allows the end-user to retrieve Priority Indicator Code - Summary data. The end-user may request desired information by keying in specific field entries or combinations as follows:

VALID ENTRIES AND COMBINATIONS

PERIOD	DEPARTMENT
*	
X	*

(6) Enter PERIOD, FSC, DEPARTMENT, and an ASTERISK(*) in the LOA field; results, a pick list of LOAs available for DEPARTMENT and FSC entered.

(7) Enter PERIOD, FSC, DEPARTMENT and LOA; results, TOTAL NSNs with DESCRIPTIVE METHOD, APPROVED ITEM NAMES, REFERENCE NUMBERS, and DESCRIPTIVE METHOD PERCENT, APPROVED ITEM NAME PERCENT, and REFERENCE NUMBER RATIO by LOA, DEPARTMENT, and FSC entered.

d. **AVAILABLE FUNCTION KEYS:** See [Appendix C](#).

a. **SCREEN EXPLANATION:** This screen allows the end-user to retrieve FCS Goals-Wholesale/Retail Managed data. The end-user may request desired information by keying in specific field entries or combinations.

VALID ENTRIES AND COMBINATIONS

PERIOD	DEPARTMENT	FSC	ACTIVITY
*			
X	X	*	
X	X	X	
X	X	X	*
X	X	X	X

The result of specific end-user requests will vary in accordance with the combination of entries made.

b. **FIELD ENTRY REQUIREMENTS:** The fields listed below allow the end-user to enter information. Other fields shown on the screen are display only fields and will display data based on the entries made.

- (1) Field Name: PERIOD
Entry Requirement: An Asterisk (*) or Month and Year
Valid Entries: Asterisk(*)
Month = 01 - 12 (072000)
Quarter = Q1 - Q4 (Q32000)
Year = YY (YY2000)
- (2) Field Name: DEPARTMENT
Entry Requirement: A Department or an Asterisk(*)
Valid Entries: Any valid Department or an Asterisk(*)
- (3) Field Name: FSC
Entry Requirement: An FSC or an Asterisk(*)
Valid Entries: Any valid FSC or an Asterisk(*)
- (4) Field Name: ACTIVITY
Entry Requirement: An Activity or an Asterisk(*)
Valid Entries: Any valid Activity or an Asterisk(*)

c. **PROCESSING OPTIONS/RESULTS:** Use of the entries and combinations referenced in the table above will display results as follows: (To retrieve information from a pick list, place an 'X' by the desired selection and press the appropriate 'Process' PF Key.)

(1) Enter ASTERISK(*) in the PERIOD field; results, a pick list of Months and Years of data available.

(2) Enter PERIOD, DEPARTMENT, and an ASTERISK(*) in the FSC field; results, a pick list of FSCs available for DEPARTMENT entered.

(3) Enter PERIOD, DEPARTMENT, and FSC; results, TOTAL NSNs with DESCRIPTIVE METHOD, APPROVED ITEM NAMES, and REFERENCE NUMBERS; and DESCRIPTIVE METHOD PERCENT, APPROVED ITEM NAME PERCENT, and REFERENCE NUMBER RATIO by DEPARTMENT and FSC entered.

(4) Enter PERIOD, DEPARTMENT, FSC and an ASTERISK(*) in the Activity Code field; results, a pick list of Activities available for FSC and DEPARTMENT entered.

(5) Enter PERIOD, DEPARTMENT, FSC and ACTIVITY; results, TOTAL MANAGED Count of NSNs, by DESCRIPTIVE METHOD, APPROVED ITEM NAMES, and REFERENCE NUMBERS; and DESCRIPTIVE PERCENT, APPROVED ITEM NAME PERCENT, and REFERENCE NUMBER RATIO for ACTIVITY and DEPARTMENT entered.

d. **AVAILABLE FUNCTION KEYS:** See [Appendix C](#).

a. **SCREEN EXPLANATION:** This screen allows the end-user to retrieve FCS Goals-Wholesale/Retail Managed data. The end-user may request desired information by keying in specific field entries or combinations.

VALID ENTRIES AND COMBINATIONS

PERIOD	FSC	DEPARTMENT
*		
X	X	*
X	X	X

The result of specific end-user requests will vary in accordance with the combination of entries made.

b. **FIELD ENTRY REQUIREMENTS:** The fields listed below allow the end-user to enter information. Other fields shown on the screen are display only fields and will display data based on the entries made.

- (1) Field Name: PERIOD
Entry Requirement: An Asterisk (*) or Month and Year
Valid Entries: Asterisk(*)
Month = 01 - 12 (072000)
Quarter = Q1 - Q4 (Q32000)
Year = YY (YY2000)
- (2) Field Name: LSC
Entry Requirement: An FSC
Valid Entries: Any valid FSC
- (3) Field Name: DEPARTMENT
Entry Requirement: A Department or an Asterisk(*)
Valid Entries: Any valid Department or an Asterisk(*)

c. **PROCESSING OPTIONS/RESULTS:** Use of the valid field entries and combinations referenced in the table above will display results as follows: (To retrieve information from a pick list, place an 'X' by the desired selection and press the appropriate 'Process' PF Key.)

(1) Enter ASTERISK(*) in the PERIOD field; results, a pick list of Months and Years of data available.

(2) Enter PERIOD, FSC and an ASTERISK(*) in the DEPARTMENT field; results, a pick list of DEPARTMENTS available for the FSC entered.

(3) Enter PERIOD, FSC and DEPARTMENT; results, TOTAL NSNs with DESCRIPTIVE METHOD, APPROVED ITEM NAMES, and REFERENCE NUMBERS; and DESCRIPTIVE METHOD PERCENT, APPROVED ITEM NAME PERCENT, and REFER-

ENCE NUMBER RATIO by DEPARTMENT and FSC entered.

d. **AVAILABLE FUNCTION KEYS:** See [Appendix C](#).

a. **SCREEN EXPLANATION:** This screen provides a listing of the screens available through the FCS Quality Status (By Submitter) Main Menu.

b. **FIELD ENTRY REQUIREMENTS:** This screen requires the end user to make a selection. Press Tab to desired selection and press Enter.

a. **SCREEN EXPLANATION:** This screen allows the end-user to retrieve Type of Item Identification (By Submitter) data. The end-user may request desired information by keying in specific field entries or combinations.

VALID ENTRIES AND COMBINATIONS

PERIOD	DEPARTMENT	ACTIVITY

Entry Requirement:	An Asterisk(*)
Valid Entries:	An Asterisk(*)

c. **PROCESSING OPTIONS/RESULTS:** Use of the valid field entries and combinations referenced in the table above will display results as follows: (To retrieve information from a pick list, place an 'X' by the desired selection and press the appropriate 'Process' PF Key.)

(1) Enter ASTERISK(*) in the PERIOD field; results, a pick list of Months and Years of data available.

(2) Enter PERIOD and DEPARTMENT; results, a count of DOD TOTAL and MULTIPLE MANAGED NSNs plus a PERCENTAGE broken out by DEPARTMENT OF DEFENSE, MILITARY SERVICES, INTEGRATED MANAGER and OTHER DOD for the DEPARTMENT entered.

(3) Enter PERIOD, DEPARTMENT and an ASTERISK(*) in the LOA field; results, a pick list of LOAs available for the DEPARTMENT entered.

(4) Enter PERIOD, and an ASTERISK(*) in the CLASS MANAGER field; results, a pick list of CLASS MANAGERS available.

(5) Enter PERIOD and CLASS MANAGER; results, a count of DOD TOTAL and MULTIPLE MANAGED NSNs plus a PERCENTAGE broken out by DEPARTMENT OF DEFENSE, MILITARY SERVICES, INTEGRATED MANAGER and OTHER DOD for the CLASS MANAGER entered.

(6) Enter PERIOD, CLASS MANAGER and an ASTERISK(*) in the FSC field; results, a pick list of FSCs for the CLASS MANAGER entered.

(7) Enter PERIOD, CLASS MANAGER and FSC; results, a count of DOD TOTAL and MULTIPLE MANAGED NSNs plus a PERCENTAGE broken out by DEPARTMENT OF DEFENSE, MILITARY SERVICES, INTEGRATED MANAGER and OTHER DOD for the CLASS MANAGER and FSC entered.

(8) Enter PERIOD, CLASS MANAGER and an ASTERISK(*) in the LOA field; results, a pick list of PICA/SICA LOA combinations for the CLASS MANAGER entered.

(9) Enter PERIOD, CLASS MANAGER, FSC, and an ASTERISK(*) in the LOA field; results, a pick list of LOAs available for the CLASS MANAGER and FSC entered.

d. **AVAILABLE FUNCTION KEYS:** See [Appendix C](#).

a. **SCREEN EXPLANATION:** This screen allows the end-user to retrieve ITEM COMMONALITY - DOD / DETAIL data. The end-user may requests desired information by keying in specific field entries or combinations.

VALID ENTRIES AND COMBINATIONS

a. **SCREEN EXPLANATION:** This screen allows the end-user to retrieve Manage Change Item Additions and Reductions data. The end-user may request desired information by keying in specific field entries or combinations.

VALID ENTRIES AND COMBINATIONS

PERIOD	DEPARTMENT	ACTIVITY
*		
X	*	
X	X	
X	X	*
X	X	X

The result of specific end-user requests will vary in accordance with the combination of entries made.

b. **FIELD ENTRY REQUIREMENTS:** The fields listed below allow the end-user to request information based on the entries made.

- (1) Field Name: PERIOD

Entry Requirement:	An Asterisk (*) or Month and Year
Valid Entries:	Asterisk(*) Month = 01 - 12 (072000) Quarter = Q1 - Q4 (Q32000) Year = YY (YY2000)
(2) Field Name:	DEPARTMENT
Entry Requirement:	A Department or an Asterisk(*)
Valid Entries:	Any valid Department or an Asterisk(*)
(3) Field Name:	ACTIVITY
Entry Requirement:	An Activity or an Asterisk(*)
Valid Entries:	Any valid Activity or an Asterisk(*)

c. **PROCESSING OPTIONS/RESULTS:** Use of the valid field entries and combinations referenced in the table above will display results as follows: (To retrieve information from a pick, place an 'X' by the desired selection and press the appropriate 'Process' PF Key).

(1) Enter ASTERISK(*) in the PERIOD field; results, a pick list of Months and Years of data available, for the period entered.

(2) Enter PERIOD, and an ASTERISK(*) in the Department field; results, a pick list of DEPARTMENTS available.

(3) Enter PERIOD, and DEPARTMENT; results, the ACTIVE ITEMS STARTING NET count, ADDITIONS, REDUCTIONS and the ACTIVE ITEMS ENDING NET count for the DEPARTMENT entered.

(4) Enter PERIOD, DEPARTMENT and an ASTERISK(*) in the ACTIVITY CODE field; results, a pick list of ACTIVITY CODES available for the DEPARTMENT entered.

(5) Enter PERIOD, DEPARTMENT and ACTIVITY; results, the ACTIVE ITEMS STARTING NET count, ADDITIONS, REDUCTIONS and the ACTIVE ITEMS ENDING NET count for the DEPARTMENT and ACTIVITY entered.

d. **AVAILABLE FUNCTION KEYS:** See [Appendix C](#).

a. **SCREEN EXPLANATION:** This screen provides a listing of the statistics available through the Management Responsibility Menu.

b. **FIELD ENTRY REQUIREMENTS:** There are no valid field entry requirements used with this screen. Tab to desired selection and press Enter.

(2) Enter PERIOD, and an ASTERISK(*) in the FIIG field; results, a pick list of FIIGS available.

(3) Enter PERIOD, FIIG and an ASTERISK(*) in the in INC field; results, a pick list of INCs available for the FIIG entered.

(4) Enter PERIOD, FIIG, INC, and an ASTERISK(*) in the FSC field; results, a pick list of FSCs available for the INC entered. (1*, 20*, etc., tailors the request to list specific FSCs or an FSG.)

(5) Enter PERIOD, FIIG, INC, and FSC; results, MANAGED and TYPE II NSN counts for the FSC entered.

d. **AVAILABLE FUNCTION KEYS:** See [Appendix C](#).

a. **SCREEN EXPLANATION:** This screen allows the end-user to retrieve NSN Population by FIIG (Non-Managed) data. The end-user may requests desired information by keying in specific field entries or combinations as follows:

VALID ENTRIES AND COMBINATIONS

PERIOD	FIIG	INC	FSC
*			
X	*		
X	X	*	
X	X	X	*
X	X	X	X

NOTE: When an asterisk is used, additional formats are acceptable; i. e., '1*' provides a list of FSCs that begin with 1; '10*' provides a list of all FSCs in FSG 10, etc.

The result of specific end-user requests will vary in accordance with the combination of entries made.

b. **FIELD ENTRY REQUIREMENTS:** The fields listed below allow the end-user to enter information. Other fields shown on the screen are display only fields and will display data based on the entries made.

- (1) Field Name: PERIOD
Entry Requirement: An Asterisk (*) or Month and Year
Valid Entries: Asterisk(*)
Month = 01 - 12 (072000)
Quarter = Q1 - Q4 (Q32000)
Year = YY (YY2000)
- (2) Field Name: FIIG
Entry Requirement: A FIIG or an Asterisk(*)
Valid Entries: Any valid FIIG or an Asterisk(*)
- (3) Field Name: INC
Entry Requirement: An INC or an Asterisk(*)
Valid Entries: Any valid INC or an Asterisk(*)
- (4) Field Name: FSC
Entry Requirement: A FSC or an Asterisk(*)
Valid Entries: Any valid FSC or an Asterisk(*) or any number plus an Asterisk(*)
(1*, 20*, etc.)

c. **PROCESSING OPTIONS/RESULTS:** Use of the valid field entries and combinations

referenced in the table above will display results as follows. (To retrieve information from a pick list, place an 'X' by the desired selection and press the appropriate 'Process' PF Key).

(1) Enter ASTERISK(*) in the PERIOD field; results, a pick list of Months and Years of data available.

(2) Enter PERIOD, and an ASTERISK(*) in the FIIG field; results, a pick list FIIGs available.

(3) Enter PERIOD, FIIG, and an ASTERISK(*) in the INC field; results, a pick list of INCs available for the FIIG entered.

(4) Enter PERIOD, FIIG, INC and an ASTERISK(*) in the FSC field; results, a pick list of FSCs available for the INC entered. (1*, 20*, etc., tailors the request to list only specific FSCs or FSCs within an FSG.)

(5) Enter PERIOD, FIIG, INC, and FSC; results, NON/MANAGED NSNs and TYPE II NSN counts for the FSC entered.

d. **AVAILABLE FUNCTION KEYS:** See [Appendix C](#).

Note: Enter Period and FSC, then press F10 to obtain the FSC total; enter period, FSC, and FIIG, then press F9 to obtain the FIIG total.

a. **SCREEN EXPLANATION:** This screen allows the end-user to retrieve NSN Population Index by FSC (Managed) data. The end-user may requests desired information by keying in specific field entries or combinations as follows:

VALID ENTRIES AND COMBINATIONS

PERIOD	FSC	FIIG	INC
*			
X	*		
X	X	*	
X	X	X	*
X	X	X	X

Note: When an as trick is used, additional formats are acceptable; i.e., '1*' Provides a list of FSCs that begin with 1, '10*' provides all of the FSCs in FSG 10, etc.

The result of specific end-user requests will vary in accordance with the combination of entries made.

b. **FIELD ENTRY REQUIREMENTS:** The fields listed below allow the end-user to enter information. Other fields shown on the screen are display only fields and will display data based on the entries made.

- (1) Field Name: PERIOD
Entry Requirement: An Asterisk (*) or Month and Year
Valid Entries: Asterisk(*)
Month = 01 - 12 (072000)
Quarter = Q1 - Q4 (Q32000)
Year = YY (YY2000)
- (2) Field Name: FSC
Entry Requirement: An FSC or an Asterisk(*)
Valid Entries: Any valid FSC or an Asterisk(*) or Any number plus as an Asterisk(*)
(1*, 10*, etc.)
- (3) Field Name: FIIG
Entry Requirement: A FIIG or an Asterisk(*)
Valid Entries: Any valid FIIG or an Asterisk(*)
- (4) Field Name: INC
Entry Requirement: An Activity or an Asterisk(*)

Valid Entries:	An INC or an Asterisk(*)
Valid Entries:	Any valid INC or an Asterisk(*)

c. **PROCESSING OPTIONS/RESULTS:** Use of the valid field entries and combinations referenced in the table above will display results as follows: (To retrieve information from a pick list, place an 'X' by the desired selection and press the appropriate 'Process' PF Key).

(1) Enter ASTERISK(*) in the PERIOD field; results, a pick list of Months and Years of data available.

(2) Enter PERIOD and an ASTERISK(*) in the FSC field; results, a pick list of FSCs available.

(3) Enter PERIOD, FSC and an ASTERISK(*) in the FIIG field; results, a pick list of FIIGs available for the FSC entered.

(4) Enter PERIOD, FSC, FIIG and an ASTERISK(*) in the INC field; results, a pick list of INCs available for the FIIG, and FSC entered.

(5) Enter PERIOD, FSC, FIIG and INC; results, Total MANAGED, TYPE II and activity NSN counts for the FSC/FIIG/INC entered.

d. **AVAILABLE FUNCTION KEYS:** See [Appendix C](#).

Note: Enter Period and FSC, then press F10 to obtain the FSC total; enter period, FSC, and FIIG, then press F9 to obtain the FIIG total.

a. **SCREEN EXPLANATION:** This screen allows the end-user to retrieve NSN Population Index by FSC (Non-Managed) data. The end-user may requests desired information by keying in specific field entries or combinations as follows:

VALID ENTRIES AND COMBINATIONS

PERIOD	FSC	FIIG	INC
*			
X	*		
X	X	*	
X	X	X	*
X	X	X	X

Note: When an asterisk is used, additional formats are acceptable; i.e., '1*' provides a list of FSCs that begin with '1'; '10*' provides a list of all FSCs in FSG 10, etc.

The result of specific end-user requests will vary in accordance with the combination of entries made.

b. **FIELD ENTRY REQUIREMENTS:** The fields listed below allow the end-user to enter information. Other fields shown on the screen are display only fields and will display data based on the entries made.

- (1) Field Name: PERIOD
Entry Requirement: An Asterisk (*) or Month and Year
Valid Entries: Asterisk(*)
Month = 01 - 12 (072000)
Quarter = Q1 - Q4 (Q32000)
Year = YY (YY2000)
- (2) Field Name: FSC
Entry Requirement: An FSC or an Asterisk(*)
Valid Entries: Any valid FSC or an Asterisk(*) or Any number plus as an Asterisk(*)
(1*, 10*, etc.)
- (3) Field Name: FIIG
Entry Requirement: A FIIG or an Asterisk(*)
Valid Entries: Any valid FIIG or an Asterisk(*)
- (4) Field Name: INC

Entry Requirement:	An Activity or an Asterisk(*)
Valid Entries:	An INC or an Asterisk(*)
Valid Entries:	Any valid INC or an Asterisk(*)

c. **PROCESSING OPTIONS/RESULTS:** Use of the valid field entries and combinations referenced in the table above will display results as follows: (To retrieve information from a pick list, place an 'X' by the desired selection and press the appropriate 'Process' PF Key).

(1) Enter ASTERISK(*) in the PERIOD field; results, a pick list of Months and Years of data available.

(2) Enter PERIOD, and an ASTERISK(*) in the FSC field; results, a pick list of FSCs available.

(3) Enter PERIOD, FSC and an ASTERISK(*) in the FIIG field; results, a pick list of FIIGs available for the FSC entered.

(4) Enter PERIOD, FSC, FIIG and an ASTERISK(*) in the INC field; results, a pick list of INCs for the FIIG available, and FSC entered.

(5) Enter PERIOD, FSC, FIIG and INC; results, Total NON-MANAGED NSNs by TYPE II for FSC, FIIG AND INC entered.

d. **AVAILABLE FUNCTION KEYS:** See [Appendix C](#).

a. **SCREEN EXPLANATION:** This screen allows the end-user to retrieve NSN Population Index NAIN Summary data. The end-user may requests desired information by keying in specific field entries or combinations as follows:

VALID ENTRIES AND COMBINATIONS

PERIOD	FSC
*	
X	*
X	X

The result of specific end-user requests will vary in accordance with the combination of entries made.

b. **FIELD ENTRY REQUIREMENTS:** The fields listed below allow the end-user to enter information. Other fields shown on the screen are display only fields and will display data based on the entries made.

- (1) Field Name: PERIOD
Entry Requirement: An Asterisk (*) or Month and Year
Valid Entries: Asterisk(*)
Month = 01 - 12 (072000)
Quarter = Q1 - Q4 (Q32000)
Year = YY (YY2000)
- (2) Field Name: FSC
Entry Requirement: An FSC or an Asterisk(*)
Valid Entries: Any valid FSC or an Asterisk(*)

c. **PROCESSING OPTIONS/RESULTS:** Use of the valid field entries and combinations referenced in the table above will display results as follows: (To retrieve information from a pick list, place an 'X' by the desired selection and press the appropriate 'Process' PF Key).

(1) Enter ASTERISK(*) in the PERIOD field; results, a pick list of Months and Years of data available.

(2) Enter PERIOD, and an ASTERISK(*) in the FSC field; results, a pick list of FSCs available.

(3) Enter PERIOD, and FSC; results, a TOTAL NSN count for the FSC entered.

d. **AVAILABLE FUNCTION KEYS:** See [Appendix C](#).

a. **SCREEN EXPLANATION:** This screen allows the end-user to retrieve NSN Population Index NAIN by Class data. The end-user may requests desired information by keying in specific field entries or combinations as follows:

VALID ENTRIES AND COMBINATIONS

PERIOD	FSC	NAIN
*		
X	*	
X	X	*
X	X	X

Note: When an asterisk is used in the NAIN field, you must input the first three (3) letters of the NAIN then the asterisk(*).

The result of specific end-user requests will vary in accordance with the combination of entries made.

b. **FIELD ENTRY REQUIREMENTS:** The fields listed below allow the end-user to enter information. Other fields shown on the screen are display only fields and will display data based on the entries made.

- (1) Field Name: PERIOD
Entry Requirement: An Asterisk (*) or Month and Year
Valid Entries: Asterisk(*)
Month = 01 - 12 (072000)
Quarter = Q1 - Q4 (Q32000)
Year = YY (YY2000)
- (2) Field Name: FSC
Entry Requirement: An FSC or an Asterisk(*)
Valid Entries: Any valid FSC or an Asterisk(*)
- (3) Field Name: NAIN
Entry Requirement: A NAIN or partial NAIN and an Asterisk(*)
Valid Entries: Any NAIN or partial NAIN and an Asterisk(*)

c. **PROCESSING OPTIONS/RESULTS:** Use of the valid field entries and combinations referenced in the table above will display results as follows: (To retrieve information from a pick list, place an 'X' by the desired selection and press the appropriate 'Process' PF Key).

(1) Enter ASTERISK(*) in the PERIOD field; results, a pick list of Months and Years of data available.

(2) Enter PERIOD and an ASTERISK(*) in the FSC field; result, a pick list of FSCs available.

(3) Enter PERIOD, FSC and the first three (3) letters of the NAIN plus an Asterisk(*) in the NAIN field; result, a pick list of NAINs available for the FSC entered.

(4) Enter PERIOD, FSC, and NAIN; results, TOTAL MANAGED, INACTIVE, and Activity NSN Counts for the FSC and NAIN entered.

d. **AVAILABLE FUNCTION KEYS:** See [Appendix C](#).

The result of specific end-user requests will vary in accordance with the combination of entries made.

b. **FIELD ENTRY REQUIREMENTS:** The fields listed below allow the end-user to request information. Other fields shown on the screen are used to display information based on the entries made.

- (1) Field Name: PERIOD
Entry Requirement: An Asterisk (*) or Month and Year
Valid Entries: Asterisk(*)
Month = 01 - 12 (072000)
Quarter = Q1 - Q4 (Q32000)
Year = YY (YY2000)
- (2) Field Name: CLASS MANAGER
Entry Requirement: A Class Manager
Valid Entries: Any valid Class Manager
- (3) Field Name: DEPARTMENT
Entry Requirement: A Department or an Asterisk(*)
Valid Entries: Any valid Department or an Asterisk(*)
- (4) Field Name: ACTIVITY
Entry Requirement: An Activity or an Asterisk(*)
Valid Entries: Any valid Activity or an Asterisk(*)
- (5) Field Name: LOA

Entry Requirement: An LOA or an Asterisk(*)
Valid Entries: Any valid LOA or an Asterisk(*)

c. **PROCESSING OPTIONS/RESULTS:** Use of the valid field entries and combinations referenced in the table above will display results as follows: (To retrieve information from a pick list, place an 'X' by the desired selection and press the appropriate 'Process' PF Key.)

(1) Enter an ASTERISK (*) in the PERIOD field; results, a pick list of Months and Years of data available.

(2) Enter PERIOD, CLASS MANAGER and an ASTERISK (*) in the DEPARTMENT field; result, a pick list of DEPARTMENTS available for the CLASS MANAGER entered.

(3) Enter PERIOD, CLASS MANAGER and DEPARTMENT; results, a count of TOTAL MANAGED NSNs; a count of FULL DESCRIPTIVE, PARTIAL DESCRIPTIVE and REFERENCE Type NSNs; and Type II Percentages for the DEPARTMENT entered.

(4) Enter PERIOD, CLASS MANAGER, DEPARTMENT and an ASTERISK (*) in the LOA field; results, a pick list of LOAs available for the DEPARTMENT entered.

(5) Enter PERIOD, CLASS MANAGER, DEPARTMENT and LOA; results, a count of TOTAL MANAGED NSNs; a count of FULL DESCRIPTIVE, PARTIAL DESCRIPTIVE and REFERENCE Type NSNs; and Type II Percentages for the LOA entered.

(6) Enter PERIOD, CLASS MANAGER, DEPARTMENT and an ASTERISK (*) in the ACTIVITY field; results, a pick list of ACTIVITIES available for the DEPARTMENT entered.

(7) Enter PERIOD, CLASS MANAGER, DEPARTMENT and ACTIVITY; results, a count of TOTAL MANAGED NSNs; a count of FULL DESCRIPTIVE, PARTIAL DESCRIPTIVE and REFERENCE Type NSNs; and Type II Percentages for the ACTIVITY entered.

(8) Enter PERIOD, CLASS MANAGER, DEPARTMENT, ACTIVITY and an ASTERISK (*) in the LOA field; results, a pick list of LOAs available for the ACTIVITY, entered.

(9) Enter PERIOD, CLASS MANAGER, DEPARTMENT, ACTIVITY and LOA; results, a count of TOTAL MANAGED NSNs; a count of FULL DESCRIPTIVE, PARTIAL DESCRIPTIVE and REFERENCE Type NSNs; and Type II Percentages for the LOA entered.

d. **AVAILABLE FUNCTION KEYS:** See [Appendix C](#).

a. **SCREEN EXPLANATION:** This screen allows the end-user to retrieve Type of Item Identification data accumulated across all Non-Assigned Classes. The end-user may request desired information by keying in specific field entries or combinations as follows:

VALID ENTRIES AND COMBINATIONS

PERIOD	DEPARTMENT	ACTIVITY	LOA
*			
X	*		
X	X		
X	X		*
X	X		X
X	X	*	
X	X	X	
X	X	X	*
X	X	X	X

The result of specific end-user requests will vary in accordance with the combination of entries made.

b. **FIELD ENTRY REQUIREMENTS:** The fields listed below allow the end-user to request information. Other fields shown on the screen are used to display information based on the entries made.

- (1) Field Name: PERIOD
Entry Requirement: An Asterisk (*) or Month and Year
Valid Entries: Asterisk(*)
Month = 01 - 12 (072000)
Quarter = Q1 - Q4 (Q32000)
Year = YY (YY2000)
- (2) Field Name: DEPARTMENT
Entry Requirement: A Department or an Asterisk(*)
Valid Entries: Any valid Department or an Asterisk(*)
- (3) Field Name: ACTIVITY
Entry Requirement: An Activity or an Asterisk(*)
Valid Entries: Any valid Activity or an Asterisk(*)
- (4) Field Name: LOA
Entry Requirement: An LOA or an Asterisk(*)
Valid Entries: Any valid LOA or an Asterisk(*)

c. **PROCESSING OPTIONS/RESULTS:** Use of the valid field entries and combinations referenced in the table above will display results as follows: (To retrieve information from a

pick list, place an 'X' by the desired selection and press the appropriate 'Process' PF Key.)

(1) Enter an ASTERISK (*) in the PERIOD field; results, a pick list of Months and Years of data available.

(2) Enter PERIOD and an ASTERISK (*) in the DEPARTMENT field; results, a pick list of DEPARTMENTS available.

(3) Enter PERIOD and DEPARTMENT; results, a count of TOTAL MANAGED NSNs; a count of FULL DESCRIPTIVE, PARTIAL DESCRIPTIVE and REFERENCE Type NSNs; and Type II Percentages for the DEPARTMENT entered.

(4) Enter PERIOD, DEPARTMENT and an ASTERISK (*) in the LOA field; result, a pick list of LOAs available for the DEPARTMENT entered.

(5) Enter PERIOD, DEPARTMENT and LOA; results, a count of TOTAL MANAGED NSNs; a count of FULL DESCRIPTIVE, PARTIAL DESCRIPTIVE and REFERENCE Type NSNs; and Type II Percentages for the LOA entered.

(6) Enter PERIOD, DEPARTMENT and an ASTERISK (*) in the ACTIVITY field; results, a pick list of ACTIVITIES available for the DEPARTMENT entered.

(7) Enter PERIOD, DEPARTMENT and ACTIVITY; results, a count of TOTAL MANAGED NSNs; a count of FULL DESCRIPTIVE, PARTIAL DESCRIPTIVE and REFERENCE Type NSNs; and Type II Percentages for the ACTIVITY entered.

(8) Enter PERIOD, DEPARTMENT, ACTIVITY and an ASTERISK(*) in the LOA field; results, a pick list of LOAs available for the ACTIVITY entered.

(9) Enter PERIOD, DEPARTMENT, ACTIVITY and LOA; results, a count of TOTAL MANAGED NSNs; a count of FULL DESCRIPTIVE, PARTIAL DESCRIPTIVE and REFERENCE Type NSNs; and Type II Percentages for the LOA entered.

d. **AVAILABLE FUNCTION KEYS:** See [Appendix C](#).

a. **SCREEN EXPLANATION:** This screen allows the end-user to retrieve Type of Item Identification data summarized by Federal Supply Class (FSC). The end-user may request desired information by keying in specific field entries or combinations as follows:

VALID ENTRIES AND COMBINATIONS

PERIOD	FSC	DEPARTMENT	ACTIVITY	LOA
*				
X	X	*		
X	X	X		
X	X	X		*
X	X	X		X
X	X	X	*	
X	X	X	X	
X	X	X	X	*
X	X	X	X	X

The result of specific end-user requests will vary in accordance with the combination of entries made.

b. **FIELD ENTRY REQUIREMENTS:** The fields listed below allow the end-user to request information. Other fields shown on the screen are used to display information based on the entries made.

- (1) Field Name: PERIOD
Entry Requirement: An Asterisk (*) or Month and Year
Valid Entries: Asterisk(*)
Month = 01 - 12 (072000)
Quarter = Q1 - Q4 (Q32000)
Year = YY (YY2000)
- (2) Field Name: FSC
Entry Requirement: An FSC
Valid Entries: Any valid FSC
- (3) Field Name: DEPARTMENT
Entry Requirement: A Department or an Asterisk(*)
Valid Entries: Any valid Department or an Asterisk(*)
- (4) Field Name: ACTIVITY
Entry Requirement: An Activity or an Asterisk(*)
Valid Entries: Any valid Activity or an Asterisk(*)
- (5) Field Name: LOA or an Asterisk(*)

Entry Requirement: An LOA or an Asterisk(*)
Valid Entries: Any valid LOA or an Asterisk(*)

c. **PROCESSING OPTIONS/RESULTS:** Use of the valid field entries and combinations referenced in the table above will display results as follows: (To retrieve information from a pick list, place an 'X' by the desired selection and press the appropriate 'Process' PF Key.)

(1) Enter ASTERISK (*) in the PERIOD field; results, a pick list of Months and Years of data available.

(2) Enter PERIOD, FSC and an ASTERISK (*) in the Department field; result, a pick list of DEPARTMENTS available for the FSC entered.

(3) Enter PERIOD, FSC and DEPARTMENT; results, a count of TOTAL MANAGED NSNs; a count of FULL DESCRIPTIVE, PARTIAL DESCRIPTIVE and REFERENCE Type NSNs; and Type of II Percentages for the DEPARTMENT entered.

(4) Enter PERIOD, FSC, DEPARTMENT and an ASTERISK (*) in the LOA field; results, a pick list of LOAs available for the DEPARTMENT entered.

(5) Enter PERIOD, FSC, DEPARTMENT and LOA; results a count of TOTAL MANAGED NSNs; a count of FULL DESCRIPTIVE, PARTIAL DESCRIPTIVE and REFERENCE Type NSNs; and Type II Percentages for the LOA entered.

(6) Enter PERIOD, FSC, DEPARTMENT and an ASTERISK (*) in the ACTIVITY field; results, a pick list of ACTIVITIES available for the DEPARTMENT entered.

(7) Enter PERIOD, FSC, DEPARTMENT and ACTIVITY; results, a count of TOTAL MANAGED NSNs; a count of FULL DESCRIPTIVE, PARTIAL DESCRIPTIVE and REFERENCE Type NSNs, and Type II Percentages for the ACTIVITY entered.

(8) Enter PERIOD, FSC, DEPARTMENT, ACTIVITY and an ASTERISK(*) in the LOA field; results, a pick list of LOAs available for the ACTIVITY and FSC entered.

(9) Enter PERIOD, FSC, DEPARTMENT, ACTIVITY and LOA; results, a count of TOTAL MANAGED NSNs; a count of FULL DESCRIPTIVE, PARTIAL DESCRIPTIVE and REFERENCE Type NSNs; and Type II Percentages for the ACTIVITY and LOA entered.

d. **AVAILABLE FUNCTION KEYS:** See [Appendix C](#).

a. **SCREEN EXPLANATION:** This screen allows the end-user to retrieve Type of Item Identification data summarized across all assigned classes. The end-user may request desired information by keying in specific field entries or combinations as follows:

VALID ENTRIES AND COMBINATIONS

PERIOD	DEPARTMENT	ACTIVITY	LOA
*			
X	*		
X	X		
X	X		*
X	X		X
X	X	*	
X	X	X	
X	X	X	*
X	X	X	X

The result of specific end-user requests will vary in accordance with the combination of entries made.

b. **FIELD ENTRY REQUIREMENTS:** The fields listed below allow the end-user to request information. Other fields shown on the screen are display only fields and will display data based on the entries made.

- (1) Field Name: PERIOD
Entry Requirement: An Asterisk (*) or Month and Year
Valid Entries: Asterisk(*)
Month = 01 - 12 (072000)
Quarter = Q1 - Q4 (Q32000)
Year = YY (YY2000)
- (2) Field Name: DEPARTMENT
Entry Requirement: A Department or an Asterisk(*)
Valid Entries: Any valid Department or an Asterisk(*)
- (3) Field Name: ACTIVITY
Entry Requirement: An Activity or an Asterisk(*)
Valid Entries: Any valid Activity or an Asterisk(*)
- (4) Field Name: LOA
Entry Requirement: An LOA or an Asterisk(*)
Valid Entries: Any valid LOA or an Asterisk(*)

c. **PROCESSING OPTIONS/RESULTS:** Use of the valid field entries and combinations referenced in the table above will display results as follows: (To retrieve information from a

pick list, place an 'X' by the desired selection and press the appropriate 'Process' PF Key.)

(1) Enter an ASTERISK (*) in the PERIOD field; results, a pick list of Months and Years of data available.

(2) Enter PERIOD and an ASTERISK (*) in the DEPARTMENT field; results, a pick list of DEPARTMENTS available.

(3) Enter PERIOD and DEPARTMENT; results, a count of TOTAL MANAGED NSNs; a count of FULL DESCRIPTIVE, PARTIAL DESCRIPTIVE and REFERENCE Type NSNs; and Type II Percentages for the DEPARTMENT entered.

(4) Enter PERIOD, DEPARTMENT and an ASTERISK (*) in the LOA field; result, a pick list of LOAs available for the DEPARTMENT entered.

(5) Enter PERIOD, DEPARTMENT and LOA; results, a count of TOTAL MANAGED NSNs; a count of FULL DESCRIPTIVE, PARTIAL DESCRIPTIVE and REFERENCE Type NSNs; and Type II Percentages for the LOA entered.

(6) Enter PERIOD, DEPARTMENT and an ASTERISK (*) in the ACTIVITY field; results, a pick list of ACTIVITIES available for the DEPARTMENT entered.

(7) Enter PERIOD, DEPARTMENT and ACTIVITY; results, a count of TOTAL MANAGED NSNs; a count of FULL DESCRIPTIVE, PARTIAL DESCRIPTIVE and REFERENCE Type NSNs; and Type II Percentages for the ACTIVITY entered.

(8) Enter PERIOD, DEPARTMENT, ACTIVITY and an ASTERISK (*) in the LOA field; results, a pick list of LOAs available for the ACTIVITY entered.

(9) Enter PERIOD, DEPARTMENT, ACTIVITY and LOA; results, a count of TOTAL MANAGED NSNs; a count of FULL DESCRIPTIVE, PARTIAL DESCRIPTIVE and REFERENCE Type NSNs; and Type II Percentages for the LOA entered.

d. **AVAILABLE FUNCTION KEYS:** See [Appendix C](#).

a. **SCREEN EXPLANATION:** This screen provides a listing of the screens available through the Type II Transfer OAC Main Menu.

b. **FIELD ENTRY REQUIREMENTS:** There are no valid field entry requirements used with this screen. Press Tab to desired selection and press Enter.

WRITE UP CURRENTLY NOT AVAILABLE

a. **SCREEN EXPLANATION:** This screen provides a listing of the screens available through the Type II Transfer SAC Main Menu.

b. **FIELD ENTRY REQUIREMENTS:** There are no valid field entry requirements used with this screen. Press Tab to desired selection and press Enter.

APPENDIX C
AVAILABLE FUNCTIONS KEYS

FUNCTION KEYS	DEFINITIONS
F1	Help
F2	Clear
F3	Previous Menu
F4	Main Menu
F5	Cancel
F6	Process (When using a pick list, this begins the user search criteria suggested.)
F7	Page Up
F8	Page Down
F9	Total on certain detail screens (Total specified is a Department Total at various data element levels.)
F10	System or Grand Total (Total specified is a System or Grand Total depending on the statistic.)
F11	Previous Item (When a pick list is active)
F12	Next Item (When a pick list is active)

APPENDIX D
DESCRIPTION OF MANAGEMENT STATISTICS ON LINE

LOLA - Statistics Available On-Line

Logistics On-Line Access (LOLA) - These statistics provide counts of types of on-line inquiries against DLSC's database. Totals are provided for each activity and department.

TRANSACTIONS - 5 Statistics Available On-Line

Document Identifier Code (DIC) Input/Output - This statistics provides a basic tool to identify major transaction return conditions for corrective action. Only one input DIC, one output DIC, and one return code (if applicable) is counted.

Document Identifier Code Submitting Activity Code/Originating Activity Code (DIC SAC/OAC) - These statistics provide counts of transactions received, processed, approved and returned by input code, and by submitting/originating activities.

Priority Indicator Code (PIC) - The PIC statistic provides summaries of the usage of PICs for all input transactions received by DLSC.

Provisioning Screening - This statistic provides volume and relationship data to various management levels for all items being recommended or considered for procurement. "Screening" uses NSNs or references numbers as the major inquiry mode.

Transaction Timing - This statistic is a tool that provides management data on transaction performance and average hours in the system. Also reflected are the total number of transactions processed by DIC, the time required for processing, transactions that fail to process on time, and average processing time.

LOGISTICS - 20 Statistics Available On-Line (Two to be implemented at a later date.)

Abbreviated Master Reply Code (MRC) - This statistic will provide a count of NSNs associated with a specific MRC related to an INC within a FIIG.

Acquisition Advice Code (AAC) - This statistic provides a total managed item count broken down into AAC groups, reflecting the leading manager at each level and whether stocked or non-stocked.

Acquisition Method/Acquisition Method Suffix Code (AMC/AMSC) - This statistic counts total parts introduced, transferred, deleted, and total parts in the system. Only DOD PICA items are counted by the appropriate commodity. (Not currently on-line)

Commercial and Government Entity Code (CAGE) - This statistic is used to monitor various types of activity against a CAGE code such as: NSN, Reference Numbers, etc.

Counts are provided by CAGE Code against the number of NSNs, Reference Numbers, INC, and FSC

Demilitarization (DEMIL) - This statistic provides counts of NSNs with specific DEMIL/NIIN status code relationships.

Document Availability Code (DAC) - This statistic is a tool for monitoring the number of NSNs with limited rights DACs. Counts reflect type of item identification, total NSN population and reference numbers assigned by a Service/Agency (S/A).

Federal Catalog System Goals (FCS) - This statistic provides counts and percentages of NSNs with regard to descriptive item identification, Approved Item Names (AIN), and reference numbers.

Federal Catalog System Quality Status - This statistic is a tool for measuring S/A performance in three primary areas of item identification: Type of Item Identification, Approved Item Names, and Reference Numbers.

Federal Item Identification Guide (FIIG) Count - This statistic provides a count of INCs within a specific FIIG and total counts of NSNs against a FIIG.

Federal Supply Class/Item Name Code (FSC/INC) - This statistic provides a count of NSNs associated with an INC within an FSC.

Freight - Freight Classification Code (FCC) statistics data is summarized to provide counts of NSNs against an FCC and the number of NSNs against a designated Item Name Code (INC) associated with an FCC.

Item Commonality - This statistic reflects common management of NSNs throughout all S/A's by all levels of management and all classes.

Item Name - This statistics provides counts of NSNs by INC, NSNs with AINs, NSNs with NAINs and the percent of NAINs. These counts are also broken out by new and reinstated NSNs.

Item Standardization Code (ISC) - This statistic provides ISC data on all U. S. Government NSNs. It provides counts relating to System, Federal Supply Group (FSG), Federal Supply Class (FSC), NSNs with managers, and NSNs without managers.

Interchangeability and Substitutability (I) - This statistic provides detailed and summary information on I families, I NSNs in families, and average NSNs per family.

Management Changes - This statistic reflects select information on managed item additions and reductions for U. S. Government activities.

Management Responsibility - This statistics shows the nature and location of item management responsibility for all U. S NSNs. Types of information are: Beginning Inventory, Additions, Deletions, Ending Inventory, Amount of Net Change, and Percentage of Net Change to the Beginning Inventory.

Major Organizational Entity Rules (MOE Rules) - This statistic provides counts of NSNs by MOE rule and counts of collaborators and receivers by S/As.

NSN Population - This statistic provides population counts on NSNs within FSC, within Federal Item Identification Guide (FIIG), within INC by Type of Item Identification, and whether managed or non- managed.

Reparability Codes - This statistic provides information on reparability code usage by S/A. Counts of NSNs by reparability code by level of authority will be portrayed.

Type II Management Status - This statistic provides counts of NSNs by types of item identification. Department, Activity and LOA counts are summarized by all classes, assigned classes, non-assigned classes and by individual class.

Type of Item Identification Transfers (Type II Transfers) - This statistic will display the performance against established goals on the method of item identification for new items. The number of transfers between types of item identifications is counted by both originating and submitting activities.
