## **Health Hotlines: Toll-free Numbers from DIRLINE**

**Health Hotlines** is a compilation of organizations with toll-free telephone numbers. It is derived from DIRLINE, the National Library of Medicine's Directory of Information Resources Online. This database contains descriptions of more than 9,000 biomedical information resources including organizations, databases, research, resources, etc.

Some of the subject areas included in **Health Hotlines** are AIDS, cancer, maternal and child health, aging, substance abuse, disabilities, and mental health. **Health Hotlines** also lists a variety of groups disseminating information on a number of specific diseases and disorders. ## **Dear Health Hotline User:**

Do you like **Health Hotlines**? If you find this brochure useful, you may also appreciate searching this database on the NLM web site (**<http://sis.nlm.nih.gov/hotlines/>**). You can search by choosing a term from a subject list describing the major focus of the resource, or by key words you think might appear in the name or description of the organization. You can also search by city, state, or ZIP code.

You may also find **DIRLINE** (Directory of Information Resources Online) even more useful. Toll-free numbers in **Health Hotlines** are taken from this comprehensive database of more than 9,000 records, containing location and descriptive information about a wide variety of information resources in the fields of health and biomedicine.

DIRLINE is available on the NLM Web site at **<http://dirline.nlm.nih.gov>**. Remember, **Health Hotlines** contains only a small percentage of the useful information available in DIRLINE.

## **Estimado Usuario de Nuestras Líneas Directas de Salud:**

Si le gustó nuestro directorio de información sobre la salud, lo mas probable es que también encuentre conveniente realizar búsquedas en el banco de datos disponible en la NLM (Biblioteca Nacional de Medicina, por sus siglas en inglés) a través de la red de Internet localizada en (**<http://sis.nlm.nih.gov/hotlines/>**). Usted puede realizar búsquedas bibliográficas en nuestro banco de datos, ya sea mediante el uso de un término que se encuentre en la lista de tópicos y que describa el foco principal de la organizacion, o ya sea mediante el uso de una palabra clave que usted piense podría aparecer en el nombre o la descripción de la organización. Usted podría realizar su búsqueda también usando la ciudad, estado or código postal, de la fuente que le interese.

Es posible que usted encuentre a **DIRLINE** (Directorio de Recursos de Información Computarizada, por sus siglas en inglés) aun mas útil. Los números telefónicos gratuitos que aparecen en este directorio de salud son extraídos de este vasto banco de datos generalizado, que incluye alrededor de 9,000 records, los cuales incluyen la dirección e información descriptiva de una considerable lista de fuentes de información sobre salud y biomedicina.

DIRLINE está disponible en el sitio web <http://dirline.nlm.nih.gov>. Recuerde que las líneas Directas de la Salud contiene solo una mínima parte del directorio disponible en DIRLINE.
