Total number of guidelines applied: **57,598**  
Total number of cases: **55,557**

))))))))))))

<sup>1</sup>Of the 55,557 cases, 3,416 were excluded due to missing guideline applied. Totals can exceed 100 percent because a single case may reference several different guidelines. For cases in which a cross reference was used, the original guideline rather than the cross-referenced guideline is shown — except cases in which the cross reference was to guidelines in Chapter Two, Parts J or X. Descriptions of variables used in this table are provided in Appendix A.
