Notes:

<sup>1</sup> Court cases are published (and cited) in *many* different reporters. These are just a few of the more commonly cited ones which appear in the *Principles of Federal Appropriations Law*. Each court case has a name derived from the parties to the case (*i.e.*, *Plaintiff v. Defendant*). Court cases are filed alphabetically by that name in the table entitled "Court Cases." Usually, the case is filed under the Plaintiff's name; but if the Plaintiff is the United States, the case is filed under the defendant's name, instead. (This makes the table easier to use, and provides an exception sufficient to "prove the rule.")
