

West Nile Virus Surveillance Guide

We hope that the information in this guide assist you in conducting your installation's mosquito surveillance in support of the Department of Defense (DoD) West Nile virus (WNV) and other mosquito-borne diseases surveillance programs. It is expected that more information will be added to this guide as time progresses and that some of the material in the guide will be modified. If you have any question or comment regarding this guide, please contact MAJ Robert Richards at Robert.Richards@apg.amedd.army.mil, phone: (410) 436-5418, (DSN) 584-5418.

Table of Contents

• Work Plan for CY 2004	TAB A
• WNV Response Plan including Public Health Action Levels and Supporting Documents	TAB B
• Guidelines for the Use of the CDC Gravid Traps	TAB C
• Guidelines for the Use of CDC Light Traps	TAB D
• Guidelines for the Use of New Jersey Light Traps	TAB E
• An Overview of Selected Commercially Available Mosquito Surveillance Traps	TAB F
• Guidelines for Pooling Mosquito Samples for WNV Testing	TAB G
• Guidelines for Packaging and Shipping Mosquitoes for West Nile Virus Analysis	TAB H
• Guidelines for Sorting and Packing of Light Trapped Mosquitoes for Identification	TAB I
• Guidelines for Surveillance of Container Breeding Mosquito Species Using Ovitrap	TAB J
• Guidelines for Larval Mosquito Surveillance	TAB K
• Guidelines for Dead Bird and other Small Mammal Submission	TAB L
• Guidelines for Geo-referencing Surveillance Information	TAB M
• Guidelines for Entering, Validating and Reporting the Surveillance Data into the CHPPM Central Database	TAB N
• Guidelines for Mosquito Management	TAB O
• TB MED 561, Occupational and Environmental Health Pest	TAB P
• Data Collection Forms	TAB Q
• Supply List for Mosquito Surveillance	TAB R
• Mosquito Species Life Data (distribution, taxonomic keys, etc)	TAB S
• Selected Points of Contacts (installations, public health, and other local agencies)	TAB T
• WNV Web Sites Links	TAB U
• Fact Sheets on WNV-related subjects	TAB V
