

Please Support the National Aphasia Association (NAA)

Aphasia is an acquired communication disorder that impairs a person's ability to process language, but does not affect intelligence. In addition to the impairment or inability to speak or understand speech, most people with aphasia experience difficulty reading and writing.

There are more than 1 million people with aphasia in the United States who are in need of understanding. Support, from individuals such as yourself, is indispensable to the National Aphasia Association in its work to promote public awareness about aphasia. By your support, you will help thousands of families better cope with this devastating disorder. Many of these families face severe economic hardship because of aphasia, so the NAA provides its information at no cost.

Please be advised that by requesting literature to be mailed to you and/or making a donation to the NAA, your mailing information is automatically added to our mailing list. If you do not want your name added to our mailing list or wish to be deleted from existing database, please advise by calling (800) 922-4622 or email naa@aphasia.org. We do not sell our mailing list to any other organization.

All donations to NAA are fully tax deductible.
