Total number of guidelines applied:	49,815
Total number of cases:	47,827

Table 17 (cont.)

))))))))))

¹Of the 50,754 cases, 2,927 were excluded due to missing guideline applied. Totals can exceed 100 percent because a single case may reference several different guidelines. For cases in which a cross reference was used, the original guideline rather than the cross-referenced guideline is shown — except cases in which the cross reference was to guidelines in Chapter Two, Parts J or X. Descriptions of variables used in this table are provided in Appendix A.
