

NAVAL CIVIL ENGINEER CORPS OFFICERS SCHOOL
NEW THESES - ACQUIRED FOR MOREELL LIBRARY- 1987-2004

- ABS Rules versus Reliability Based Design of **bulk carriers** : a comparative analysis of **ship design** approaches / Joseph M. O'Sullivan / December 2003 / University of California Berkeley[w/CD]
- Academic interface at the new University of Florida **water reclamation** facility / John D. Puglisi / May 1992, rev. / University of Florida Water Reclamation Facility
- Accident prevention through effective **safety management** / Robert G. Fahey / Summer 1992
- Activated carbon cloth regeneration with electrical resistance heating / Brett A. Covington / 1994 / University of Illinois at Urbana-Champaign
- Adverse climatic conditions and impact on **construction scheduling and cost** / Robert J. Sachuk / Summer, 1988 / University of Florida
- Airfield maintenance** & repair: a decision-maker's guide / Eric J. Hawn / University of Washington / 2003
- Alachua County southwest **landfill gas production** as a function of time / Gerald Rollin Manley / May 1992 / University of Florida / (a non-thesis project)
- Allocation of **risk** through construction contract provisions and practice / Troy M. McClelland / July 1996 / University of Washington
- Alternate sites for a connecting passage between the Atlantic and Pacific oceans / Samuel J. Pena / August 1990 / University of Texas at Austin
- Alternative dispute resolution** for U.S. Navy construction contracts / Jerome Paul Rakel / [1990] / Georgia Institute of Technology
- Alternative dispute resolution** in the construction process: a course of study for construction managers / Douglas Gray Morton / November 1988 / Georgia Institute of Technology
- Analysis of **accidents** related to scaffolding and floor/wall openings / John Vincent Heckmann, Jr. / 1995 / University of Washington
- An analysis of availability factors used in Naval Mobile Construction Battalion **project planning** / Mark Reynolds Libonate / December 1993 / Georgia Institute of Technology
- Analysis of **chilled water free cooling** at the Perimeter Center Office Park (Atlanta, Georgia) / Kathleen O'Neill / December 1991 / Georgia Institute of Technology
- An analysis of construction activities in the Piney Grove Area and the impact of the Kinley Creek **Watershed**, Lexington County, South Carolina / John C. Alberghini and William C. Newton / June 1995 / University of South Carolina
- Analysis of **construction workload** responsibility, U. S. Naval Facilities Engineering Command / Joshua Jon Gamez / August 2003 / University of Texas at Austin (w/CD)
- Analysis of **contract modifications** on military construction (**MILCON**) projects administered by the U.S. Naval Facilities Engineering Command / Hector Armando Arellano Jr. / December 1995 / University of Texas at Austin

- Analysis of **design changes** on Navy construction projects / Michael K. Westmoreland / December 1991 / Pennsylvania State University
- Analysis of direct and indirect impact costs attributed to the **wetlands regulatory programs** of the local, state and federal government of the United States / Joseph A. Angell / December 1991 / University of Texas at Austin
- Analysis of Hollinshed **Watershed** using GIS software / Michael Hipp / Aug. '99 / U. of S. Carolina [With disk]
- Analysis of initial **concrete testing** in relation to expected performance / Vincent Racanelli / Summer 1993 / University of South Carolina
- Analysis of **knowledge-based expert systems** as tools for construction design / Arthur N. Cole / March 1991 / Georgia Institute of Technology
- Analysis of **life cycle cost** concepts and their implementation by the Naval Facilities Engineering Command / Stanley W. Wiles / July 1997 /
- Analysis of **modification** types in Navy **construction contracts** / William J. Prout / Summer 1998 / University of Florida / (with disk)
- Analysis of **outsourcing of construction management** services for the Naval Facilities Engineering Command / Edward S. McGinley, III / July 1997 / Purdue University
- An analysis of **pollution prevention** efforts for ships homeported at Norfolk Naval Base, Norfolk, Virginia / Cynthia J. Manning / July 1995 /
- An analysis of source selection procedures for **engineering support** services contracts / Kenneth D. March / December 1989 / North Carolina State U.
- Analysis of state transportation agency methods for determining contract duration / Michael P. Savage / Spring 1988 / University of Florida
- An analysis of the Department of Defense **deregulated electricity** contract / Robert E. Lin / August 1998 / University of Washington
- An analysis of the Navy's **alternative disputes resolution** program / Kreg R. Everleth / Summer 1998 / University of Florida / (with disk)
- An analysis of the **remediation systems** on the contaminant plume at the Plainville landfill / Renee L. Woodworth / May 1999 / Massachusetts Institute of Technology
- Analysis of the **Tri-service Pollution Prevention Program**, comparison of characteristics, and recommendations for improvement. / Roy W. Hann, Jr., Timothy P. Cowan / Texas A&M U. /
- Analysis of **trench drain systems** beneath foundations / Chris M. Willis / August 1989 / Georgia Institute of Technology
- Analytical analysis of the vibration characteristics of **bioaerosols** / Troy David Hamilton / University of Florida / 2000 (with disk)
- Anti-terrorism** and force protection applications in facilities / R. Augustus Lim / 2003 / University of Colorado (with CD)

- Applicability of low impact development in the **urban environment** / Cassie a. Gorman / Georgia Institute of Technology / December 2003 (w/CD)
- Applications of **bar code** technology in the construction industry / William George Grip / August 1991 / Georgia Institute of Technology
- Applications of **Geographic Information Systems** in Public Works / Kevin P. O'Connor / Summer 1995 / University of Florida
- Asbestos abatement** industry - "A Seattle/Tacoma study" / Brian M. Scott / 1988 / University of Washington
- Asbestos removal** in the construction industry / Albert J. Banks / Fall 1991 / University of Florida
- An assessment of competing facility location optimization parameters: a case study of the United States navy, Morale, Welfare and Recreation Facilities / Charles Emery Bowers / University of Texas at Austin / December 2000 [with disk]
- Assessment of short span **bridge materials** / John R. Brown / 1990 / University of Washington
- An assessment of the environmental impacts from the discharge of bilge water in the Norfolk Naval Station harbor / Charles Kirk Wilson / August 1991 / Pennsylvania State University
- An assessment of the Naval Facilities Engineering Command's investments in **research and development** / Zane Alan Myers / June 1989
- Automated **excavator** study / James D. Cruz / July 1990 / Purdue University
- Bankruptcy and business failure in the construction industry / Eric C. Milner / August 1987 / Georgia Institute of Technology
- A basic guide to overlay design using nondestructive testing equipment data / Vernon R. Turner / August 1990 / University of Washington
- Best practice influence on project changes during the construction phase / Brian Douglas Ciaravino / August 1998 / University of Texas at Austin
- Bioremediation of contaminated soils using THE WHITE ROT FUNGUS *phanerochaete chrysosporium* / Michael S. Douglas / April 1995 / Pold Dominion University
- Building for energy conservation / Robert E. Merton / Summer 1988 / University of Florida
- CD-ROM: Library of the future / Kenneth P. Butrym and Hagop A. Avedissian / 1988 / City University of New York
- CPM scheduling: the contracting officers' guide for risk minimization and claims analysis / Craig S. Prather / Summer 1998 (with disk) / University of Florida
- Calculation of contaminant concentrations while coating the interior of a bulk storage fuel tank / Gail Maureen Haberlin / May 1990 / Pennsylvania State University
- Case study of Alachua county detention facility renovation / Peter F. Moran / Summer 1994 / University of Florida
- A case study of Habitat for Humanity / Robert E. Andres / Summer 1994 / University of Florida
- A Case study of two computer methods used to simulate fires in industrial facilities / Christopher Asselta / October 1997 /
- A case study of water distribution management options for the reduction of trihalomethane formation at the U.S.

- Naval Station on the island of Santo Stefano, Italy / Barry C. Sass / May 1998 (with disk)
- Cementation processes of naturally aged Hawaiian calcareous sands / Thomas B. McLemore / December 2002 / University of Hawaii [with CD]
- Civil Engineering Distance learning refreshed course feasibility study for the development of a distance learning / Lt. Chris Gallagher / July 2001 [with disk]
- Change management best practice use in NAVFAC and other public projects / Scot Thomas Sanders / August 2000 / The University of Texas at Austin
- Claims and changes, an overview in the Seattle area / William H. Shirk / 1989 / University of Washington
- The closed-loop control of a three-phase inverter using a DSPACE DS1102 DSP board / Derek P. Frasz / December 1998 / US Naval Academy
- A comparative analysis of work-hour forecasting techniques at the crew level / James M. Pace / December 1989 / Pennsylvania State University
- Comparative study of design methods for two-way reinforced concrete slab systems / Robert H. Gibbs / December 1990 / Pennsylvania State University
- A comparison between the American Institute of Architects and the United States Navy's **construction contract** general provisions / Scott A. Hayward / Fall 1992 / University of Florida
- Comparison of **Naval Construction Force** personnel and **civilian construction workers** in the United States utilizing the **Workforce Assessment Package** / Bradley Allen Hyatt / December 2003 / The University of Texas at Austin (with CD)
- Completion **cost trend analysis** / John T. Baker / July 1990 / Purdue University
- Computer aided design of soldier pile and lagging retaining walls with tieback anchors / Kevin J. D'Amada / Fall 1991 / University of Florida
- Computer assisted estimating of **steel fabrication and erection** / Christopher D. Reiling / Summer 1987 / University of Florida
- A computer simulation of a **hyperbaric chamber** environment / Scott Robert Lister / December 1992 / Texas A & M University
- Computer simulation of the underwater detection of sperm whales using modifications of line transect theory / Anne M. Werner / August 1993 / Texas A & M University
- A concise guide to effective management of the **public works** equipment fleet / Vicente De Armas / Summer 1996 / University of Florida
- Constructability improvement: making effective use of construction **lessons learned** / Robert H. Morro / 1991 / University of Maryland
- Construction contract claims and methods of avoiding contract litigation through **dispute resolution** alternatives / Joseph C. Lavigne / Summer 1993 / University of Florida
- Construction contract** durations / Michael D. Thornton / 1988 / University of Florida
- Construction equipment emerging technologies: Fuzzy logic controllers / W. E. Bennett / November 1995

- Construction **partnering** concepts for government contracting with a special emphasis on Naval Facilities Engineering Command / Brad Hancock, LCDR, USN, CEC / July 2002 / Purdue University
- Construction management training in the Navy **Seabees** / Steven G. Challeen/ 1992 /
- The construction of professional sports arenas: funding and politics / Howie Scot Ferguson / Summer 1996 / University of Florida
- Construction planning: residential housing built with volunteer labor / Michael J. Dolan / 1992 / University of Washington
- Construction **productivity** improvement at a Construction Battalion Unit / Mary J. Helinski / 1995 / University of Maryland at College Park
- Construction tool management / Cannon L. Morse / July 1990 / Purdue University
- Construction worker motivation the means to improving worker productivity / Edward Gonzalez / Summer 1991 / University of Florida
- Construction workforce 2000 / Mark E. Van Vleck / Summer 1991 / University of Florida
- Contingency construction** planning in the U.S. Armed Services, including the extent of modular construction / Christopher H. Kiwus / August 1990 / Georgia Institute of Technology
- Contract administration of Department of Defense Environmental Restoration contracts / J. H. Edwards / September 1992 / Massachusetts Institute of Technology
- Contracting methods and management systems of remedial action contracts within the U.S. Navy's installation restoration program / Darius Banaji / September 1993 / Massachusetts Institute of Technology
- Control of dental amalgam in wastewater at the Naval Dental Clinic, Norfolk, Virginia / Ralph G. Snow / December 1993 / U of Texas at Austin
- Controlling growth around naval air stations: a transferable development rights model for Naval Air Station Cecil Field, Jacksonville, Florida / Manuel Delgado-Ruiz / 1993 / University of Florida
- Cost analysis of cost plus award fee contracts / Bruce C. Nevel / Summer 1997 / University of Florida
- Cost analysis of maintenance programs for pre-propositioned war reserve material stock (PWRMS) / Phillip G. Cyr / June 2002 / Naval Post Graduate School
- Cost engineering and control / Tarey Isbell and Thomas A. Waltz / June 2002 / University of Maryland, Department of Environmental and Civil Engineering (Project Management Masters of Science Scholarly Paper) /
- Cost models and the Corporate Information Management Initiative / David P. Faulk / March 1991 / University of Pittsburgh
- Crime prevention through environmental design (CPTED) and the role of facilities planning in force protection / Juliana S. Prevatt / December 1998 / University of Florida
- Current practices to decrease subcontractor bid shopping in the public sector / John R. Stevenson IV / Summer 1993 / University of Florida
- Curriculum study of public works management / John M. Ellwood / 17 June 1999 (Includes disk) / University of Florida

- Custom residential housing construction: a case study / Mark W. Jackson / Summer 1994 / University of Florida
- Decision maker's guide to issues effecting post-closure reutilization of municipal solid waste landfills / Robert W. Ganowski / University of Florida
- Demand, Energy, and Power Factor/ Michael J. Gough / August 1994 (Includes video with same title) / Texas A & M University
- Deployment of **Total Quality Management** in Navy Public Works Centers / Cynthia Louise Lytle Hunt / August 1994 / University of Texas in Austin
- The disposal of spilled oils and sorbent materials / Michael T. Jones / University of Florida / May 2001 (with disk) / University of Florida
- Design and construction of an experimental filament winding machine / Mark G. Lutkenhouse / May 1993 / University of Texas in Austin
- Design-build** contracting in the navy / Jay A. Murphy / University of Florida / Civil Engineering / Summer 1999 (Includes disk)
- Design-build** partnership attributes survey analysis / Raymond A. Pyle / August 1998
- Design input index as a predictor of project change behavior / Stephen S. Bell / August 1991 / University of Texas in Austin
- Design of a bottom impermeable barrier in conjunction with a contaminated site containment structure / Nick L. Peterson / May 1994 / University of Texas in Austin
- Design services contracting for the federal government / University of Florida / Spring 2000 / Paul F. Cotter / [with disk]
- Designer and constructor practices to ensure life cycle performance / Joelle L. Shelton / August 1998 / University of Washington
- Determination of the hydraulic conductivity of the Alachua County Southwest Landfill / Kimberly Louise Shank / 1993 / University of Florida
- The Determination of Wave Group Parameters from the Resolution of Incident and Reflected Waves / Gregory E. Selfridge / Mar 1995 / Oregon State University
- Developing a handbook for construction **equipment management** and implementation / Russell V. Seignious / Summer 1999 / University of Florida
- Developing an objective function and cost equations for ex situ treatment technologies / Machelie Ann Vieux / July 1999 / University of Illinois at Urbana-Champaign
- Development and testing of rapid repair methods for war damaged **runways** / Paul A. Soares / 1990 / U Florida
- Development of a design method for glass windows subject to blast loadings / Daniel T. Magro / August 1993 / Texas A & M University
- Development of a Human and Organizational Factors (HOF) Annex for underwater welding / Shawn Cullen / December 1997 /

- Development of design parameters for H-Piles in sand using static analysis / Ronald Ungaro / May 1988 /
Texas A & M University
- Development of predictive equations based on **pavement** condition index data / C. V. O. Floro / March 1992 /
University of Washington
- Disaster preparedness** planning and facility contingency operations for public works / David J. Major / Fall 1993 /
University of Florida
- The disposal of spilled oils and sorbent materials / Michael T. Jones / May 2001 / University of Florida (w/disk)
- Diver operated tools and applications for underwater construction / Robert R. Saltsman / Summer 1987 /
University of Florida
- Dust control on low-volume roads: A review of techniques and chemicals used / Gregory D. Lunsford /
August 1998 / University of Washington
- Dynamic water wave pressures on a recurved model seawall / Gregory Ross Rismiller / August 1989 /
Texas A & M University
- The effect of contract remuneration on construction project performance factors / John Joseph Nesius / August 1998
/ University of Texas at Austin
- Effect of rail switching on intermodal transfer capacity / Scott Killinger / August 1990 / University of Washington
- The effect of team building practices on safety performance / Marshall Troutman Sykes / August 1998 /
University of Texas at Austin{2 copy}
- Effects of precipitate size and surface normal orientation on micro-indentation and compressive fatigue of NiTi
shape memory alloys / Kevin K. Juntunen / 2001 / University of Colorado (with disk)
- Effective **cost control** for contractors / Gary W. Gunther / Fall 1989 / University of Florida
- The effectiveness of **partnering** and source selection in job order contracting / Francis S. Mulcahy / 2000 /
University of Washington
- Effects of colloids, flocculation, particle size, and organic matter on the adsorption of hexachlorobenzene to
sediments / Robert Tye / June 1995 / University of CA
- Effects of non-linear partitioning behavior on NAPL characterization via partitioning tracer tests /
Elizabeth A. Fitzpatrick / 1996 / University of Florida
- The **Eichleay formula** in Naval Facilities Engineering Command (NAVFACENGCOM) contracting /
Shawn J. Bergan / July 1994 /
- Elastic second-order computer analysis of beam-columns and frames / Hermogenes R. Munoz / August 1991 /
University of Texas at Austin
- Electromagnetic launchers for use in aircraft launch at sea / Aaron Michael Still / May 1998 (with disk) /
University of Texas at Austin
- "EMERITUS" an Engineer-Manager's Evaluation, Review Improvement Tool / M.P. Doyle / 1990 /
Pennsylvania State University
- An Economic Analysis of Construction Management Contracting in the public school / Loren Woodrow Smith /
August 1977 / Oregon State University++

- Emerging trends of the owner-contractor relationship for capital facility projects: from the contractor perspective / Cameron Jae Geertsema / August 2003 / University of Texas at Austin (with CD)
- An empirical analysis of the effectiveness of design-build construction contracts based upon projects executed by the Naval Facilities Engineering Command / John W. Mouritsen / August 1993 / Purdue University
- An Empirical analysis of United States Navy Design/Build Contracts / Michael Bernard Roth / August 1995 / University of Texas at Austin
- Employing an effectiveness model for calculating cooling tower performance / John D. Rice / December 1991 / Georgia Institute of Technology
- Energy efficient practices, products and programs for buildings / John T. Barton / Fall 1998 / University of Florida
- Environmental and economic impact of **underground storage tanks** in the United States and Territories / Cleve R. Helvey / December 1992 / Georgia Institute of Technology
- Environmental contamination at small arms ranges / Antonio Michael Edmonds / December 1993 / Pennsylvania State University
- Environmental issues associated with the Department of Defense Base Realignment and Closure (BRAC) Program / Craig Stephen Hamer / August 1993 / University of Maryland
- Environmental management systems / Kristina M. Nielsen / August 1998 / {No University}
- Environmental Regulations: Impact on the United States petroleum exploration and production industry / James Leslie Hardin / December 1993 / University of Texas at Austin
- Equilibrium beach profile measurement and sediment analysis: Mustang Island, Texas / Erick B. Knezek / December 1997 / Master of Engineering
- Estimating indirect costs of injuries to construction workers / James R. Van de Voorde / 1991 / U of Washington
- Ethics in project management / Greg Vinci / May 1999 / Pennsylvania State University
- Evaluating a hazardous waste site: examining the potential for migration of contaminants / Kimberly K. Stricklan / November 1991 / University of Washington
- Evaluating the perception of design errors in the construction industry / George Neil Suther / Summer 1998 (with disk) / U of Florida
- Evaluation and repair of concrete slabs / Robert W. Siegfried / Summer 1992 / University of Florida
- Evaluation of a new laboratory acoustic doppler velocimeter / Gary Neil Underwood / December 1994 / Master of engineering
- Evaluation of charred porous polymers as a method of storm water pollution prevention for shipyards / Gordon E. Clark, Jr. / August 1998 / Pennsylvania State University
- An evaluation of computerized scheduling in construction contract specifications / Brian K. Harris / Summer 1989 / U of Florida
- Evaluation of project selection techniques for pavement network maintenance and repair / Thomas L. Wood / July 1994 / U of Maryland

- Evaluation of **sediment trap** efficiency in an estuarine environment / Daniel Mark Stoddard / 2001 / Civil and Coastal Engineering / University of Florida*(with disk)
- An evaluation of the effectiveness of a **best management practices** (BMP) plan implemented at an outdoor rifle range / Robert Lyle Gersh / August 1997 / Old Dominion University
- Examination of street lighting practice in Gainesville / Christian Decker / Summer 1989 / U of Florida
- An Examination of the effectiveness of partnering in Navy construction contracts / Scott Lowe / July 1994 / U of Washington
- An Examination of the requirements for fill materials included in guide specifications / Karsten Matthew Koch / August 1999 / The University of Texas at Austin. (with disk)
- Excellence in Public Works Centers in the United States Navy / Mark E. Kistner / December 1987 / Purdue University
- Expert systems, a primer for the construction manager / Henry V. Dobson / Summer 1990 (2 c.) / U of Florida
- An exploratory study in the construction industry on the efforts being taken to minimize contact with overhead power lines / Scott Hinton / Summer 1993 / U of Washington
- Evaluation of a New Laboratory Acoustic Doppler Velocimeter / Gary Neil Underwood / December 1994 /
- External causes of small construction firm failures / T. J. Foust / 1989 / Georgia Institute of Technology
- Facility Response Plan / Irene Addison and Kelly McCarthy / October 1993 / Texas A & M U
- Factors affecting creep gold on silicon bi-layers MEMS cantilevered beams / Neil E. West / 2003 / University of Colorado.(w/ disk)
- Fate and transport of trichloroethane and trichloroethylene contaminated groundwater, Building 719, Dover Air Force Base, Delaware / Kenneth J. Melchiorre / August 1996 / Pennsylvania State U
- Fate and transportation of landfill contaminants, Naval Amphibious Base Little Creek, Virginia / James M. Conroy / December, 1993 / The University of Texas at Austin.
- Feasibility for application of soil bioengineering techniques to natural wastewater treatment systems / Anthony James Cox / December 1992 / The University of Texas at Austin.
- Feasibility of a blast wave attenuation structure / Dale Richard Hartmann / 1998 / U of Washington
- Feasibility of a jet-stirred reactor for evaluating replacements for halon fire retardants / Jon Cybulski / Dec 1994 / U of Washington
- Feasibility study for the development of a distance learning civil engineering professional engineer examination refresher course / Christopher J. Gallagher / North Carolina State University / June 2001 (with disk) / North Carolina State University
- Federal agencies and design/build contracting / James R. Berger / July 1991 / University of Florida
- Federal construction contract award by mean bid / G. E. Taylor / 1992 / The University of Texas at Austin.
- Federal government liability for safety during the construction process / Thomas F. Dreyer / August 1984 /
- Field measurements of local pier scour in a tidal inlet / Wayne O. Walker / 1995 / U of Florida

- A financial decision support system for U.S. Navy public works departments / S. Keith Hamilton / December 1989 (3 c.) / U of Missouri
- Financial management for construction contractors / Chris J. Lacaria / Summer / 1994 / U of Florida
- A forensic analysis of construction litigation, U. S. Naval Facilities Engineering Command / Jeffrey Joseph Kilian / May 2003 / The University of Texas at Austin
- Formic acid: development of an analytical method and use as a process indicator in anaerobic systems / Sharon L. Perkins / March 1992 / Georgia Institute of Technology
- Full field strain measurement in welds / Franklin Thompson Duvall / 1998 / U of SC
- General construction contractor bidding strategy variations based on market conditions / Ronald S. Barr / March 1990 / Georgia Institute of Technology
- Goleta sewer outfall stability tests / Scott D. Bailey / Oct. 19, 1992 / Oregon State U
- Governmental role in coastal hazard mitigation / Joseph W. W. Vasquez / August 2000 / California State University, Northridge
- A guide for the prospective navy contractor / Cameron Alan Manning / Summer 1991 / U of Florida
- A guide to resolving disputes over defective specifications / S. M. Wirsching / 1992 / Pennsylvania State U
- A guide to soil reports and differing site conditions for construction professionals / R. Martin Pondelick / December 1990 / Pennsylvania State U
- Hazardous waste minimization in the semiconductor industry / David G. Gilles / April 22 1992 / U of Texas, Austin
- Hazardous waste reduction Naval Air Station Oceana / E.A. Clarkson / June 1991 {No University}
- Health care facilities construction and maintenance: A study of construction and maintenance activities, needs, and procurement policies of the health care industry in the United States / Eric Lee / 1997 / U of Washington
- Heat transfer performance of a roof-spray cooling system employing the transfer function method / Joseph A Clements / 1993 / U of Florida
- Heavy metals and the petroleum industry / Katherine D. Ware / May 1993 / U of Texas, Austin
- Historic preservation and cultural resource management at Norfolk Naval Shipyard, Portsmouth, Virginia / LT La Tanya E. Simms / 1999 / University of Florida / MA in Urban and Regional Planning
- Historic preservation, history, and the African American discussion and framework for change / J. C. Washington / March 6 1992 / Georgia Insitute of Tech.
- Hot-in-place recycling of asphalt pavements / Michael Lawrence Dowdy / August 1987 / Texas A & M U
- Human and organizational factors in the U.S. Naval Construction Force: a qualitative analysis of the U. S. Naval Mobile Construction Battalion Peacetime Deployment construction program / Roland J. de Guzman / Fall 2002 / University of California, Berkeley (2 c.) (w/ CD)
- Human factors in diving / Michael A. Blumenberg / December 1996 / U of CA

- Hurricane preparedness of Navy family housing / Thomas F. George / Summer 1996 / University of Florida
- Hydraulic modeling and economic optimization of hollow fiber membranes / E. S. Odderstol / August 2, 1991 / University of Illinois
- Hydrogeological evaluation of South Water Cay, Belize / Damian A. Colden / August 1990 / U of RI
- Identifying problems encountered when contracting with the Naval Facilities Engineering Command / Donald E. Whitehurst / Autumn 1991 / U of Washington
- The impact of accounting methods on cost reduction rates in defense aerospace weapons system programs / Peter B. Melin / December 1988 / Seattle U
- Impact of change orders on mechanical construction labor efficiency / Paul Joseph Vandenberg / 1996 / U of Wisconsin-Madison
- Impact of incentives on project performance / Jayson Doliber Mitchell / August 1998
- Impacts of freshwater impoundment in the West Lock of Pearl Harbor / Richard P. Sauerwein, Jr. / May 1993 / U of Hawaii
- Implementation of ground source heat pumps in DON facilities – a feasibility study / John W. Carson / University of Florida / Summer 2000 / [with CD]
- Implementation of total quality leadership in U.S. Naval Construction Battalion Units / Antonio Crusellas / December 1995 / U of Texas, Austin
- Improving future construction project quality through analysis of completed contract documentation / Kenneth .C. Stagg / Summer 1992 / U of Washington
- In-house vs. contracted work forces: A comparison of NPWC Pensacola and NPWC Jacksonville / Donald B. Campbell Jr. / Summer 1996 / U of Florida
- In-line treatment of metal contaminated storm water by charred microporous polymers / John Anthony Kliem / August 1998 / Pennsylvania State U
- Inactivation of pathogenic microorganisms in infectious medical waste: a literature review of current on-site treatment technologies / Anthony DiDomenico / 1992 / U of Washington
- Incentive measures for navy working capital fund civilian employees at Naval Air Warfare Center, Aircraft Division, Patuxent River, Maryland / Clifton G. Ross / December 1998 (with disk) / Kansas State U
- Incentive pay programs in the construction industry / R.P. Hovell / 1990 / Georgia Institute of Tech.
- Increased construction productivity through enhanced personnel initiatives / John P. Oliver / Summer 1990 / U of Florida
- An information framework for facility operators / James P. Beckett / August 1991 / Pennsylvania state U
- Infrastructure systems and the cost of ownership / Randall G. Ortgiesen / August 1991 / Purdue U
- Initial identification and investigation of parameters for choosing the most appropriate rapidly assembled or deployable structure / Stephen John Donley / August 2001 / The University of Texas at Austin (with disk)

- Innovative government contracting / Jeanine Avant / Summer 1999 / University of Florida
- Inspection methods for underwater cables / Robin Young Noyes / Dec 1994 / U of CA, Berkeley /
- Insurance requirements and costs in the construction industry / J. Kyle Hansen / 1990 / U of Washington
- Integrated architectural design and construction system / John W. Zink / September 1988 / Georgia Institute of Tech.
- An integrated facility for municipal solid waste disposal, electrical generation, and desalination / Gregory Hanby / August 1995 / U of Washington
- Interaction equation values for wood truss compression chords considering the effects of partial composite action / Patrick J. Gibbons / December 1991 / U of Texas, Austin
- An investigation into computer simulation of the dynamic response of a gas turbine engine / Todd B. Henricks / July 1997 / Pennsylvania State U
- An investigation into current construction engineering and management programs and curricula and their applicability to the U.S. Armed Forces / Brad Beisswanger / August 1988 / Georgia Institute of Tech.
- An investigation into fraud and unethical conduct in the construction industry / Jim Gentry / December 1990 / University of Maryland
- Investigation of computer vision methods for the building construction process / Donald J. Wallace / 1988 / Pennsylvania State University
- Investigation of fall protection for residential roof construction and repair in Hawaii / Holly M. Johnson / August 1997 / U of Hawaii
- An investigation of innovative construction contracting methods used by the General Services Administration / Joel L. Baldwin / 2001 / University of Washington (with disk)
- Investigation of legal criteria governing notice requirements and oral change order disputes / Dennis E. Wright / 1989 / Pennsylvania State University
- An investigation of the legal criteria governing differing site conditions disputes on construction contracts / James E. Teahan / December 1989 / Pennsylvania State U
- Investigation of the public owner's liability and responsibility in construction contract injury prevention / Dirk E. Berry / May 1990 / Pennsylvania State U
- Issues surrounding the design/build delivery system for construction contracts / Peter S. Lynch / July 1995 / Pennsylvania State U
- Kealakaha Stream Bridge Replacement Project seismic instrumentation plan / Todd W. Stephens / 1989 / Clemson University
- Laboratory evaluation of geotextile performance in silt fence applications using a subsoil glacial origin / Cory Crebbin / 1988 / U of Washington
- Laboratory modeling of hydraulic dredges and design of dredge carriage for laboratory facility / Gordon J. Glover / December 2002 / Texas A&M University / [with CD]
- Landfill gas characterization and leachate removal at the Alachua County Southwest Landfill, Alachua County, Florida, through utilization of a mechanical gas collection system / Kurt R. Gies / 1994 / U of Florida

- A leachate recycle management and pollutant loading strategy at codisposal landfill sites / Stephen F. Tyahla / July 1989 / Georgia Institute of Tech.
- LCDR Lopez Master Report / LCDR Lopez / University of Florida / Summer 2000 / [with disk]
- Legal aspects of safety in construction / Lisa B. Freeland / 1992 / University of Florida
- Legal aspects of the design build method of construction delivery / Mark A. Terrill / August 1998 / University of Texas at Austin
- Legal considerations of the design/build contracting method / Douglas F. Fee / Civil Engineering / University of Florida / 1996
- Lessons learned in the use of design/information technology in the non-residential construction industry / John Darnell Spencer / August 1999 / University of Texas at Austin
- Liabilities and responsibilities of the construction manager for implementation and management of the safety program / Richard D. Roth / December 1987 / Pennsylvania State University
- Liability of design professionals for the preparation of cost estimates / John J. Adametz / August 1997 / Pennsylvania State University
- Liability of design professionals for the review/approval of contractor submittals / Richard C. Taylor / August 1996 / Pennsylvania State University
- The Life cycle analysis of U. S. Naval waterfront structures / Charles b. Kubic / May 1999 / Lehigh University
- Logic flow diagrams for planning of building projects / Jeffrey Clinton Furman / August 1999 / U. of Texas, Austin.
- A Literature review of methods to determine road user costs in construction zones / Richard S. Schnabel / Fall 1997 / University of Florida
- Measuring directional stiffnesses in pavement base material / Ronald Granville Terrell, B.S. Civil Engineering, P.E./ August 2002 / University of Texas at Austin / (with disk)
- Metal building construction using the MIC-240 ABM K-Span machine / Kevin L. Roye / Fall 1996 / U of Florida
- Metal building systems / Kevin E. Mikula / Summer 1988 / University of Florida
- Microcomputers in public works / Merritt W. Pedrick / Fall 1989 / University of Florida
- Minimizing and analyzing construction delay and its impacts: case studies and knowledge-based systems / Steven G. Bertolaccini / May 1989 / Georgia Institute of Tech.
- Mobile Treatment Modules for the Rhode Island Environmental Training Center / David Herriott / December 1994 / University of Rhode Island
- Modeling cryptosporidium ssp.oocyst inactivation in bubble-diffuser ozone contactors / Robert Tomiak / July 1998 (with disk) / University of Illinois
- Modeling of the seepage flux of ground water from coastal landfills / Damian A. Colden / 1990 / {missing}
- Motivation factors of construction personnel in a United States Naval Construction Battalion Unit / Rodney Michael Moore / August 1995 / University of Texas at Austin
- Motivational and productivity factors that influence the Naval Construction Force / Timothy W. Burns /

August 1, 1990 / University of Washington

Municipal solid waste: a look at maximizing the disposal effort / Dale H. Tysor / Summer 2001 / University of Florida (with disk)

Municipal waste incinerator Public Works Center, Yokosuka, Japan : evaluation and recommendations / Wade B. Wilhelm / April 1993 / University of Illinois at Urban Champaigne

Municipal wastewater privatization: An alternative with solutions for infrastructure development, environmental compliance, and improved efficiency / Roger F. Wakeman / August 1998 / Old Dominion University

NAVFAC safety performance and the use of best practices to reduce lost workhours and accidents / James Treacy Stone, May 1998 / University of Texas at Austin

Naval Facilities Engineering Command (NAVFAC) field office readiness / James J. Boudo / University of Florida / Civil Engineering / Summer 1999 / University of Florida

The Naval Reserve Center Facility Management System / Michael E. Durant / May 1993 / U of Texas at Austin

Navy construction contract regulations vs. The Board of Contract Appeals / Thomas David McMurray / December 1987 / University of South Carolina

The **Navy Public Works** Center San Diego craftsmen productivity analysis / Scott Jacob Waidelich / May 1997 / University of Texas at Austin

Negotiating engineering and construction contracts / William E. Dunning / Fall 1992 / University of Florida

Neural networks and non-destructive test/evaluation methods / J. D. Draper / 1992 / University of Maryland

New initiatives in public/private **contracting** under the **build-operate-transfer model** / Michael W. Armes / Summer 1996 / University of Florida

Non-Gaussian properties of waves in finite water depth / David J. Robillard / 1996 / University of Florida

Non-Newtonian temperature and pressure effects of a powder lubricant **slurry** in a rotating hydrostatic step bearing / Wm. E. Finn / 1993 / University of Florida

Nonpoint pollution discharge permit testing and control strategies at Naval Air Station Whidbey Island / Kevin G. Vogelsang / 1991 / University of Washington

Northwest construction contractors' **substance abuse** policies and practices / Darryl K. Creasy / Autumn 1995 / University of Florida

Northwest general aviation **airfield pavement** performance equations / Stephen L. Alm / August 1996 / University of Florida

Numerical analysis of the photo-dissociation/radical oxidation of formaldehyde by ultraviolet light in a Photolytic reactor / Robert O. Fetter / December 1993 / Pennsylvania State University

Numerical simulation of evaporating capillary jets / Jason D. Zeda / Mechanical Engineering / August 1999 (Includes disks) / University of Hawaii

Observations of the formation and maintenance of beach cusps on Del Monte Beach in Monterey, California / Gregory Chad Miller / Civil and Coastal Engineering / 2001 / University of Florida (with CD) /

- Oil and hydrocarbon spill bioremediation product and application technologies// Mark Richard Deibert / May 1993 / Texas A & M University
- On-site construction productivity improvement through Total Quality Management / David B. Cortinas / December 1991 / University of Texas
- On-site incineration of contaminated soil: a study into U.S. Navy applications / Thomas C. Reeves / August 1991 / University of Illinois at Urbana-Campaigne
- Operational analysis of a plunger-type wavemaker and design of a diffraction experiment on a detached Breakwater / Steven Thomas Zimmerman / December 1995 / Texas A & M University
- Optimization of suspended solids removal from coal-ash laden wastewaters / Gary Schafran / 14 June 1991 / Old Dominion University
- Overview and analysis of the U.S. Navy **elevated causeway** system / H. L. Groff / July 1992 / University of Texas at Austin
- An overview of a base operating support contract for facilities operations and maintenance in a Public Works Department under the Naval Facilities Engineering Command / Carmelo Melendez / Spring 1996 / University of Florida
- An overview of **direct push technology** / John Weger / August 12, 1994 / [no University]
- Overview of horizontal directional drilling for utility construction / Alexander w. Barlas / Civil Engineering / University of Florida / 1999
- Owner/contractor **partnerships** in construction / Steven R. Dupes / 1989 / University of Florida
- The owner's level of effort in **Design-Build contracts** / Damon Scott Fetters / August 2000 / The University of Texas at Austin
- Oxides of nitrogen: Their formation and control in stationary sources / Sonja P. Pedrozo / April 24, 1994 / [no University]
- Parametric estimating: an equation for estimating buildings / Robert J. McGarrity / September 1988 / Georgia Institute of Technology
- Partnered project performance in the U.S. Naval Facilities Engineering Command/ Kelly Joseph Schmader / August 1994 / University of Texas at Austin
- Partnering / Mark Cunningham Ashley / June 1991 / Georgia Institute of Technology
- Partnering at the Naval Facilities Engineering Command / Ben D. Pina / July 2, 1993 / Purdue University
- Partnering in the public sector** / William Malcolm Sheedy / 1997 / {missing }
- Perceptions and influence of project labor agreements on merit shop contractors / Ian C. Lange / December 1997 / University of Washington
- Performance bonds under the Federal Acquisition Streamlining Act (1994)/ Gary A. Tave / June 1997 / University of Maryland College Park
- Performance of a scalable wastewater treatment package unit and potential military applications / Daniel a. McNair / August 1999 / University of Hawaii
- Performance of **energy management control systems** (EMCS) in selected Texas LoanSTAR buildings /

Michelle M. Schmode / August 1995 /

The performance of low-rise open span heavy steel structures in extreme winds / Joe R. Charlton / Jun 1997 / Texas Tech. University

Phosphorus removal mechanisms at the Yellow River Sweetwater Creek Water Reclamation Facility, Gwinnett County, Georgia / Jeffrey T. Borowy / Spring 1994 / University System of Georgia

Physical modeling of a floating breakwater with a membrane / Michael W. Hermanson / 2003 / University of Florida (with CD)

Planning and implementation of non-potable water reuse projects at U. S. Naval installations / Joshua Benjamin Malkin / August 2003 / University of Maryland, College Park / w/CD

Planning and management of aircraft pavement construction / Timothy Smith / Summer 1993 / U of Florida

Pointing the way to the future of project management: how the past and present point towards Project Management 's future / Robert J. Ballister / June 10, 2003 / [University of Maryland?]

Portfolio analysis of delivery and finance methods in U. S. Navy family housing / Marko Medved / September 2000 / Massachusetts Institute of Technology (with disk)

The post cold war Civil Engineer Corps: what has changed and why / Tony L. Ammons, Jr. / December 1997 / Virginia Military Institute

Pre-project planning of capital facilities at NASA / LCDR Benjamin John Barrow / December 1999 / MS /Engineering / University of Texas at Austin

Privatization in the U.S. Navy / Stuart E. Perritt / Summer 1990

Problems associated with lead paint removal in the construction industry / William H. Bensinger / Summer 1993 / U of Florida

Procedures, responsibilities, and guidelines for the effective closing of military installations / LT Douglas McCutchen / Fall 1998 / University of Florida , MS Engineering.

Procedures to predict vertical differential soil movement for expansive soils / Donald David Naiser, Jr. / December 1997 / Texas A & M University

The process of residential real estate development / Thomas M. Boucher / Summer 1993 / U of Florida

Professional construction management for the United States Naval Construction Force / James Joseph Cummings / Summer 1994 / U of Florida

Project cost increases due to risk and need for work premiums: an empirical study of bidding in the construction industry / Daniel P. King / May 1990 / Massachusetts Institute of Tech.

Public-private ventures in bachelor quarters: a solution to the loss of military construction projects / Trevor L. Neve, Jordan W. Cassell, and Robert L. Crosslin / June 1990 (4 vols.)

Public sector application of real estate analysis and finance techniques: A feasibility study for military family housing / Robert W. McDowell III / November 1994 / Texas A & M University

Public Works Department metrics for Keflavik, Iceland / Charles Witta / August 1997 / U of Texas at Austin

- Push-pull test for IN SITU determination of microbial metabolic activities: denitrification and methanogenesis / Paul James Odenthal / September 1995 / Oregon State University
- Qualifications based selection policy implications for Naval facilities / Gregory Alfred Garcia / December 1996 / University of Texas at Austin
- A quality control program analysis for modular housing / Matthew S. Gass / December 1989 / Pennsylvania State University
- A Quality management evaluation of the graduate education process for ocean engineers in the Civil Engineer Corps / William Anthony Oster / December 1993 / Texas A & M University
- Radio frequency data communication applications in the construction industry / Michael N. Rieger / July 1989 / Purdue University
- Radon detection and remediation in Navy family housing / Robert N. Morrison / Summer 1994 / U of Florida
- The rebirth of the international hotel : project management and politics in the city of San Francisco / Oya Cakir Dane and Roland J. Guzman / December 2002 /
- The redevelopment of the Charlestown Navy Yard : a model for the military base closure process / Scott Philip Calisti / 1992 / University of Florida
- A reference guide on stormwater related topics for Naval public works officers / Nicholas Merry / Texas A & M University (with disk) / June 2000
- Reimbursing contractors for changes in the work / Gary R. Leach / December 1993 / University of Washington
- Reinforced concrete wall form design program / Leo D. McKinley / 1992 / University of Washington
- Remediation of lead contaminated soil at Greenbury Point Annapolis, MD / Kathryn A. Stewart / April 1997 / University of Maryland
- Remediation technologies for environmental projects in the United States military: Part II / Joseph Aloysius Campbell / May 1998 / University of Texas at Austin
- Removal of cadmium and chromium from a pretreated wastewater with reverse osmosis / Karen Marie Zapp / May 1992 / Purdue University
- Removal of copper and iron contamination from chromic acid electroplating baths using electro dialysis with caustic catholyte / J. T. Sommer / 1991 / Georgia Institute of Technology
- Repairs to concrete port and harbor structures / Max D. Rodgers and James M. Schofield / November 1991 /
- Resilient performance of controlled density fill in utility trench excavations / Darin V. Lasater / 1990 / University of Washington
- Resource Planning and Resource Allocation in the Construction Industry / Charles E. Memdoza / Summer 1995 / University of Florida
- The Re-Utilization of concrete waste materials / Kenneth R. Kruciak / Sum 1994 / University of Texas at Austin
- A retirement planning model using monte carlo simulation / Peter E. Hanlon / Dec 2000 / Villanova University
- A review of vapor extraction technology for contaminated soil remediation / Allan M. Stratman / May 1993 / University of Texas at Austin

- Risk allocation in construction contracting / Bruce C. Babchuck / Fall 1992 / University of Florida
- Risk analysis and management of diving operations: assessing human factors / Timothy C. Liberatore / November 1998 / University of California
- A Risk and pay factor analysis of Washington State's Dept. of Transportation 1994 standard specification / Homer Clay Phillips / July 1995 / University of Washington
- Risk-Based Corrective Action (RBCA) at petroleum contaminated sites: The Rationale for RBCA and natural attenuation / Hope Katcharian / August 4, 1997 / University of Maryland
- Risk in construction subcontracting / Deborah E. Roe / August 1997 / Texas A & M University
- The role of viscous fingering in the separation mechanics of thin interfacial liquid layers / Christopher H. Rehkop / March 2000 / Naval Postgraduate School /
- Safety and stability in concrete barrel shell roof structures / David Frederick Kelley / October 1991 / Faculty of Princeton University
- Safety practices of large construction firms / William G. Eich / 1996 / University of Washington
- Sanitary considerations for contingency operations / Allen P. Davis / June 1997 / U of Maryland at College Park
- Satisfaction with arbitration: a survey of participants / Robert Eugene Schenk / August 1988 / Georgia Institute of Technology
- Statistical Evaluation of Airport Pavement Condition Survey Data / Kim Weisenburger / 1988 / U of Washington
- Seismic effects on the design of geosynthetic-reinforced earth retaining structures / Jeffrey J. Carter / July 1998 (with disk) / Old Dominion University
- Selecting planning and scheduling specifications for construction projects / Leaf Aquilla Ballast / University of Texas at Austin / May 2000
- Sequential nitrification/denitrification in subsurface flow constructed wetlands: a literature review / Frank W. Titus / December 1992 / University of Texas at Austin
- Shipboard oil-water separators used for the treatment and disposal of ship's bilge-water / Karyn M. Rinaldi / December 1995 / University of Hawaii
- Signal-to-noise ratio and bit shift estimates of FSK telemetry signals / John M. Senyard / September 1987 / Naval post graduate school
- Slope reinforcement design using geotextiles and geogrids / Darrell M. Setser / 1990 / University of Washington
- Socioeconomic impact of infill drilling recovery from carbonate reservoirs in the Permian Basin, West Texas / Bryan Keith Jagoe / May 1994 / Texas A & M University
- Soil improvement through vibro-compaction and vibro-replacement / Christopher J. Griffith / June 1991 / University of Maryland
- Solid waste recycling / John M. Potter / July 1990 / Texas A & M University
- Special growth of hurricane generated seas / William Scott Finlayson / 1997 /

- Spectral growth of hurricane generated seas / William Scott Finlayson / University of Florida / 1997 / U of Florida
- Standardizing construction between industry and government / Nicholas C. Cimorelli / December 1987 / Naval postgraduate school
- Standards and **benchmark** tests for evaluating large scale manipulators with construction applications / Mark Edward Wiersma / December 1995
- State-of-the-art soil improvement techniques / Keith Douglas Berndt / 1989 / University of Florida
- Statistical evaluation of **airport pavement** condition survey data for Washington, Oregon, and Idaho / Kim Weisenburger / 1988
- Status of construction in the European Union. / Isabelle E. Detter / Summer (A) 2003 / University of Florida (w/CD)
- Steam remediation of contaminated soil: a simulation study / William R. Schoen / Dec 1994 / U of Texas at Austin
- Strategic bidding for contracts by officer in charge of construction, Naval Facilities Engineering Command Contracts Jacksonville area, Jacksonville, Florida / Mark K. Cho / Summer 1993 / University of Florida
- Stress Distribution in Welded Flange-Bolted Web Connections / Garth B. Berninghaus / March 1995 / University of Washington
- Structural assessment of pile supported piers / Richard Jay Keiter / February 1999 / Massachusetts Institute of Tech.
- A study of construction contract delay: causes and impacts / Christian N. Dawkins / August 1987 / Georgia Institute of Technology.
- A study of construction contract modification: causes and impacts / Donald H. Gatchalian / August 1990 / Georgia Institute of Technology.
- A study of design-build construction and its place in public contracts / Mark Howard Hovatter / Summer 1993 / University of Florida
- A study of leachate generated from construction and demolition landfills / Beth A. Melendez / August 1996 / University of Florida
- A study of nuclear power plant construction in the United States / Robert P. Walden / Summer 1991 / U of Florida
- A study of the agency construction management method of project delivery as a viable alternative when building new schools / Ronald A. Weinert / August 1989 / College of Graduate and Professional studies
- A study of the domestic **base closure** process: from the 1980's to the present / Charles E. Cassidy / Fall 1992 / University of Florida
- A study on the effects of foremen on **safety** in construction / Robert P. Hymel / Summer 1993 / U of Washington
- A study of the processes, methods and techniques used in negotiated or "best value" procurements for construction services / Leonard C. Schilling / University of Florida / Summer 2000 (with disk) / University of Florida
- A study of the U.S. Navy's family housing program and privatization: methods, proposed broadened authorities, and risk analysis / David John Sasek / August 1995 / Massachusetts Institute of Technology
- Submitted in Partial Satisfaction of the requirements for the degree of Master of Engineering / Max D. Rodgers / 18 Nov 2001 / University of California

- Superpave : overview and implementation by the United States Navy / Christopher M. Knudsen / University of Florida / 1999
- Surety bonds and sureties in the construction industry / Mark F. Openshaw / Summer 1992 / University of Florida
- A survey and engineering design of atmospheric diving suits / Michael Albert Thornton / December 2000 / Texas A & M University
- Survey of productivity in the construction industry: measurement and causes / Peter Morris Arn / December 1987 / Georgia Institute of Tech.
- Survey of wash racks at Naval Base Norfolk / Frederick F. Burgess III / July 1996 / Naval postgraduate school {3 c.}
- Sustainable acquisition process improvement for Naval Facilities Engineering Command: a thesis in architectural engineering / Erin H. Sanders / August 2003 / Pennsylvania State University
- A synthesis on the evolution of the studded tire / Michael J. Angerinos / August 1998 / University of Washington
- Technical merits and leadership in facility management / Jerry J. Shoemaker / Summer 1997 / University of Florida
- Telecommuting/ Thomas W. Cunningham / Summer 1995 / University of Florida
- Three-phase dynamic displacement measurements of relative permeability in porous media using three immiscible liquids / Lee W. Thomas / 1991 / Pennsylvania State University
- Tilt-up construction / Richard E. Crompton / Spring 1992 / University of Florida
- Timber vs. composite/plastic pile fender systems in Pearl Harbor maintenance cost comparison / Joseph Alling / December 1996 / University of Hawaii
- Time in construction contracts: a comparison of selected general conditions provisions for construction contracts as used by various public and private agencies / Bryce C. Coleman / August 1990 / University of Washington
- Time-cost relationships in construction / Robert D. Baker / Summer 1991 / University of Florida
- Total quality leadership: creating a quality culture / John D'Angelo, Jr. / July 1995 / U of Maryland at College Park
- Total quality management and applications to the construction industry / Jeffrey M. Salter / Summer 1993 / University of Florida
- Total quality management in construction / Charles C. Miller / Summer 1993 / University of Florida
- Trenchless excavation construction in Federal contracting / Scott K. Higgins / August 1994 / Purdue University
- A trucking primer for the Public Works community / Robert R. Pete / 1989 / University of Washington
- A tutorial expert system for federal government notice requirement disputes / Robert J. Bullock / May 1989 / Pennsylvania State University
- Trapping Efficiency / Lt. Daniel M. Stoddard / Dec. 2001/ University of Florida (with disk)
- United States **Naval Mobile Construction Battalion** Material **Resources Planning**: a critical investigation / Robert M. Carr / December 1987 / Pennsylvania State University

- U.S. Navy infrastructure: planning, budgeting and acquisition at Naval Submarine Base New London / Brian K. Moore / September 1997 / Massachusetts Institute of Technology
- Use of aquatic plants in wastewater treatment: a literature review / Bruce A. Hastie / December 1992 / University of Texas at Austin
- Use of injection grouting/grouted metal ties to improve seismic retrofitting of unreinforced masonry (URM) buildings / Gordon B. Fox / August 1995 / University of Texas at Austin
- Use of insulating concrete forms in residential housing construction / Dan C. Lewis / Fall 2000 / University of Florida[with CD]
- Use of life cycle costing in the development of standards / James M. Underwood / December 1988 / Naval Postgraduate School
- Use of pin-jointed members in rapidly constructed temporary bridges / Thomas E. Hornyak / August 1999 / Old Dominion University
- The use of Seabees to perform maintenance and repair on naval facilities in the Continental United States / Walter M. LeNoir, III / 1996 / University of Florida
- Using electronic spreadsheets to solve engineering problems with an introduction to expert system techniques / Robert D. Gilmore / Fall 1988 / University of Florida
- Utah Department of Transportation I-15 case study (Design-build contracting strategy) / Donna Kimball / June 1999 / Texas A & M University
- Utilization of a PC for finite element modeling / Robin A. Collins / August 1989 / Georgia Institute of Technology.
- Utilization of advanced journeyman training in the U. S. Naval Construction Force / Steven John McGrey / August 1997 / University of Texas at Austin
- Utilization of coal fly ash / Susanne C. Openshaw / Summer 1992
- Validation of an automated torsional and warping stress analysis program / Stephen Mark Assinari / August 1992
- Value engineering in government and private sector construction / William J. Simpkins / University of Florida / Summer 2000 [With disk]
- Water quality baseline study and non-point source pollution analysis on Waikele Stream, West Loch Estuary, Oahu, Hawaii / Eduardo P. Manglallan / December 1994 / University of Hawaii
- Water quality management of bilge wastes at Pearl Harbor, Hawaii / Scott Bernoras / December 1992 / U of Hawaii
- Water reclamation using an enhanced scalable wastewater treatment package unit / Lance J. Edling / University of Hawaii / Civil Engineering / August 1999 (Includes disk)
- Waterproofing underground concrete structures / Tim Biggins / Summer 1990 / University of Florida
- Weld strength and crack growth ductility from the Lazy-L Test / Chad Matthew Brooks / May 1995 / Massachusetts Institute of Technology
- Whole building commissioning / Mark W. Lopez / University of Florida / Summer 2000 / University of Florida

Work-related injury frequency rates in the Navy Seabees / James R. Van de Voorde / 1991 / University of Washington
