## COVER

Medical logistics support team members and personnel from Vladivostok City Hospital No. 2, the largest trauma center on Russia's Pacific coast, sort through medical equipment donated by the U.S. Army. The equipment shipped included portable x-ray, laboratory, operating room, dental, and optical equipment, hospital beds, and supplies. Although some of the equipment had been in storage at the U.S. Army, Japan's Sagami General Storage Facility for a number of years, most of it was in excellent condition. The story begins on page 24.

This medium is approved for the official dissemination of material designed to keep individuals within the Army knowledgeable of current and emerging developments within their areas of expertise for the purpose of enhancing their professional development.

By Order of the Secretary of the Army:

DENNIS J. REIMER  
General, United States Army  
Chief of Staff
