Map 2 Actions by ESU

Upper-Columbia ESUs
- additional Columbia flows
- mid-Columbia HCPs
- selective lower river fisheries
- immediate habitat improvements
- improved passage and spill in lower river
- McNary transportation improvements
- conservation hatcheries

Blocked Areas/Resident fish
- Artificial Production Review
- conservation hatcheries
- NPPC Program elements
- decreased load following
- minimum flows
- off-site habitat measures

Upper Snake ESUs
- additional Snake flows
- improved passage and spill in Snake and Columbia
- immediate habitat improvements on non-federal lands
- protect Federal lands
- selective fisheries and weak stock management
- resolution and reduction of delayed mortality
- IPC relicensing;
- Snake River transportation improvements
- conservation hatcheries

Mid-Columbia ESUs
- additional Canadian and Snake flows
- improved passage and spill
- immediate habitat improvements
- selective lower river fisheries
- non-fed project relicensing
- hatchery reforms

Lower Columbia and Willamette ESUs
- additional flows
- water quality improvements
- non-fed project relicensing and project improvements
- immediate habitat improvements
- estuary productivity enhancement
- selective fisheries
- reduced load following
- hatchery reforms
