

Won't You Join Us
Under Our Great Family Tree?

“Won't You Join Us Under Our Great Family Tree?”

**Would you be a Forest Ranger
keep our streams and woods from danger
watching over all the creatures in the land?**

**Or if science is your dream
and you want lakes crystal clean
maybe try to learn how ants move dirt and sand.**

**Perhaps you might help people camp
or teach hikers where to tramp
so they won't ruin the forest biology.**

**Our great forest is a world
with happy work for boy and girl
Won't you join us under our great family tree?**

**Think of forests as a city
where sky scraping trees stretch pretty
but they need lots of help to safely grow.**

**You'll find that Forest Rangers
work in peace and sometimes danger
but there's something all of you should know.**

**There's not just work for Ranger Roy
but also Supervisor Joy
so much that it's bustling fast and free.**

**We need botanists for plants, you see
biologists for fishes, keepers of bees
Won't you join us under our great family tree?**

**We need folks to find a helpful path
to rid us of the dangerous wrath
which damage creatures, fern, and waterways.**

**We need logging engineers
lots and lots of volunteers
to help us in many, many ways.**

**We need friends to keep a count
of different species that amount
to ways of keeping balance, yet be free.**

**Clerks and artists are in need,
computers in forests? Yes indeed!
Won't you join us under our great family tree?**

**We need someone to decide
how the creatures can abide
the people that come by and wish to roam.**

**Men and women who will care
for both humans and the deer,
people who will guide our emerald home.**

**They must have a lot of friends
work the many jobs on end
such as fire control, also health and safety.**

**Just study hard in school
learn to keep things cool
then come join us under our great family tree.**

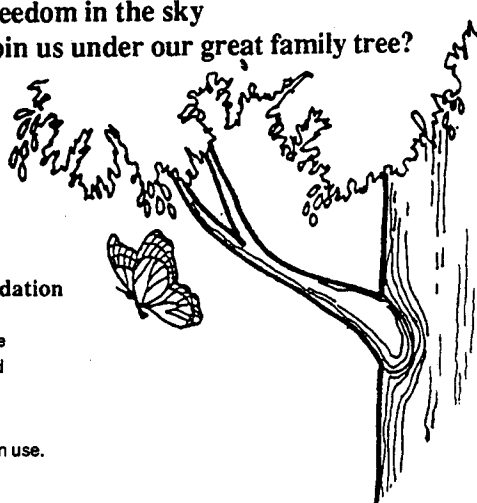

**White clouds in a deep blue sky
quiet breezes floating by
far away from the deep big city strife.**

**Creatures moving here and there
sweet birds singing in the air
Prepare yourself for a fresh new way of life.**

**We'll be waiting here for you
no matter what you choose to do
you'll find you receive much more than you give.**

**Nature's music fills the air
makes your mind and heart say “Here!”
“Here's the place I always want to live.”**

**Where the wind and birds all fly
with great freedom in the sky
Won't you join us under our great family tree?**

Would you be a Forest Ranger
keep our streams and woods from danger
watching over all the creatures in the land?

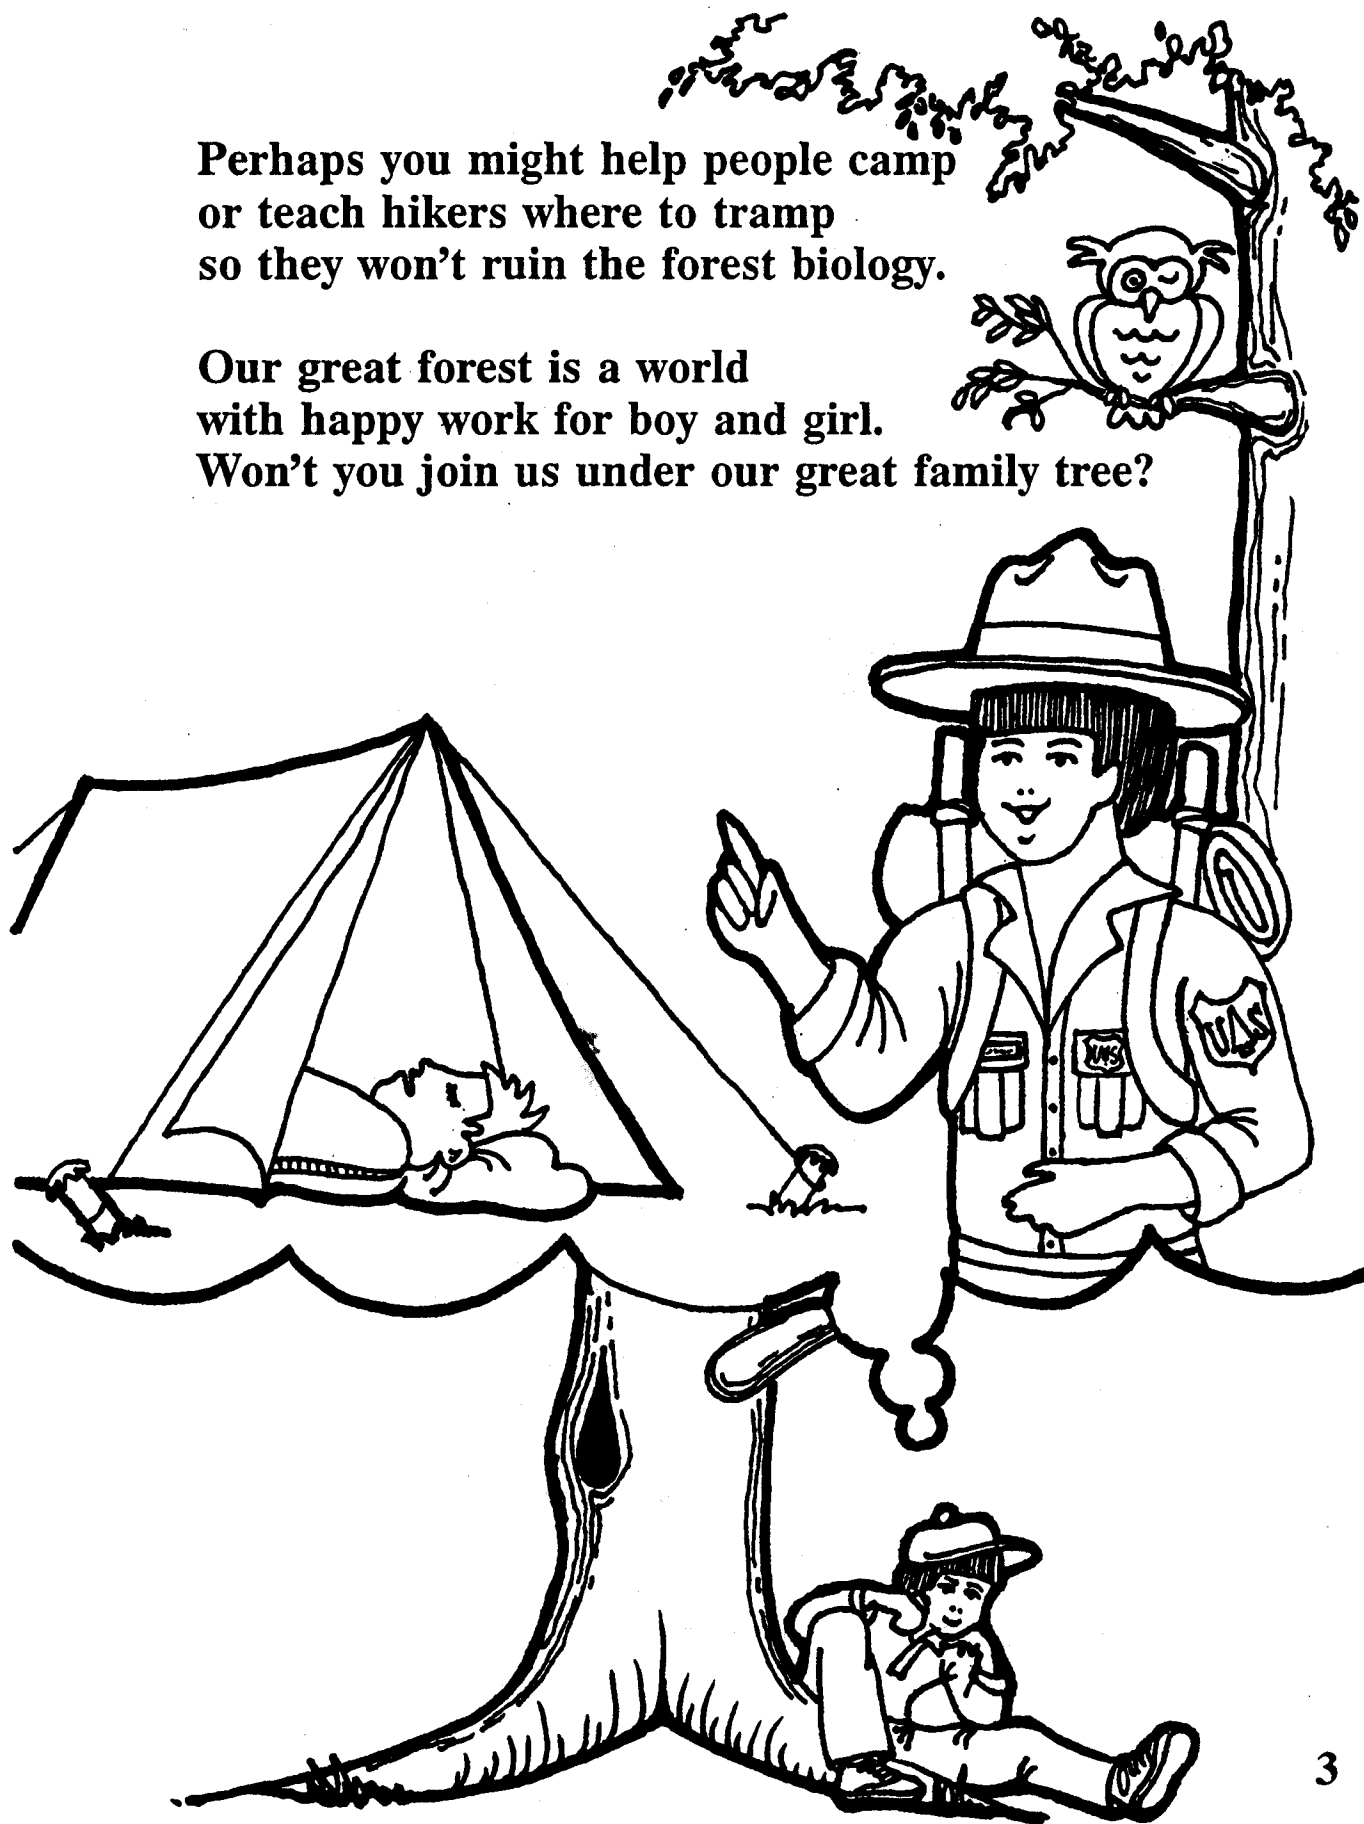

Or if science is your dream
and you want lakes crystal clean
maybe try to learn how ants move dirt and sand.

Perhaps you might help people camp
or teach hikers where to tramp
so they won't ruin the forest biology.

Our great forest is a world
with happy work for boy and girl.
Won't you join us under our great family tree?

**Think of forests as a city
where sky scraping trees stretch pretty
but they need lots of help to safely grow.**

**You'll find that Forest Rangers
work in peace and sometimes danger
but there's something all of you should know.**

**There's not just work for Ranger Roy
but also Supervisor Joy
so much that it's bustling fast and free.**

We need botanists for plants, you see,
biologists for fishes, keepers for bees.
Won't you join us under our great family tree?

We need folks to find a helpful path
to rid us of the dangerous wrath
which damage creatures, fern, and waterways.

**We need logging engineers
lots and lots of volunteers
to help us in many, many ways.**

**We need friends to keep a count
of different species that amount
to ways of keeping balance, yet be free.**

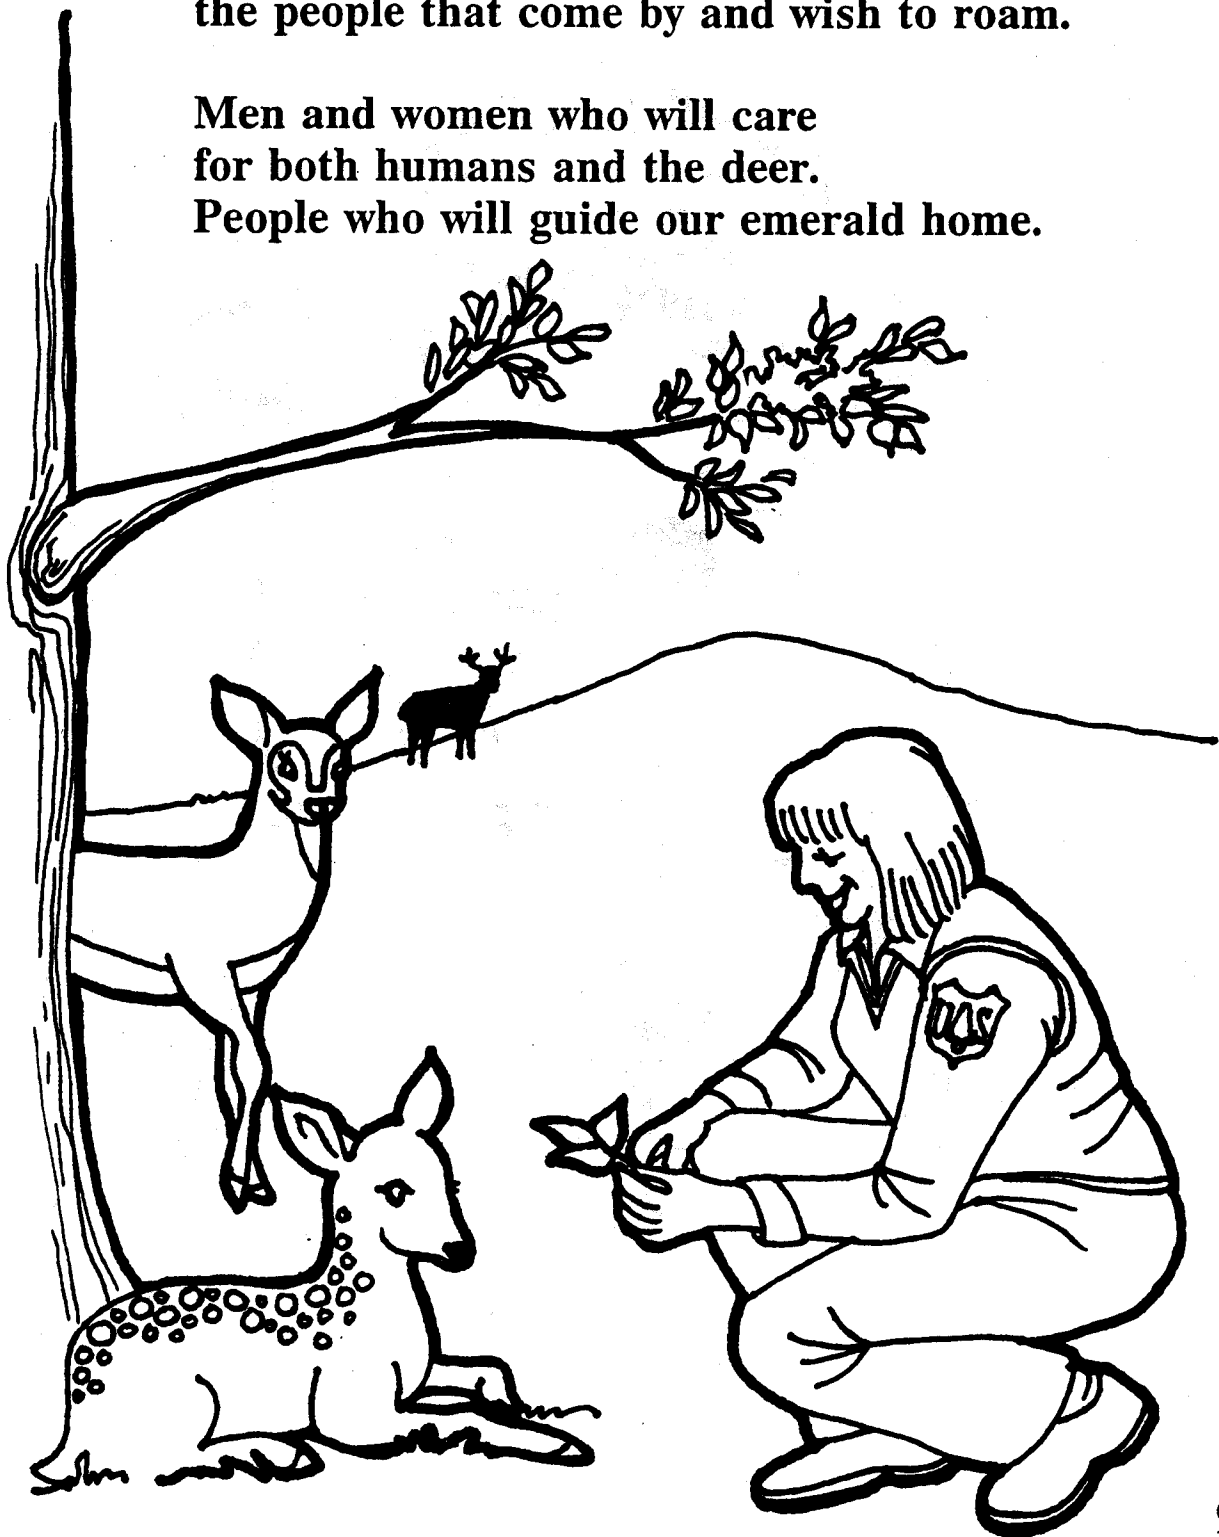

Clerks and artists are in need.
Computers in forests? Yes indeed!
Won't you join us under our great family tree?

**We need someone to decide
how the creatures can abide
the people that come by and wish to roam.**

**Men and women who will care
for both humans and the deer.
People who will guide our emerald home.**

They must have a lot of friends
work the many jobs on end
such as fire control, also health and safety.

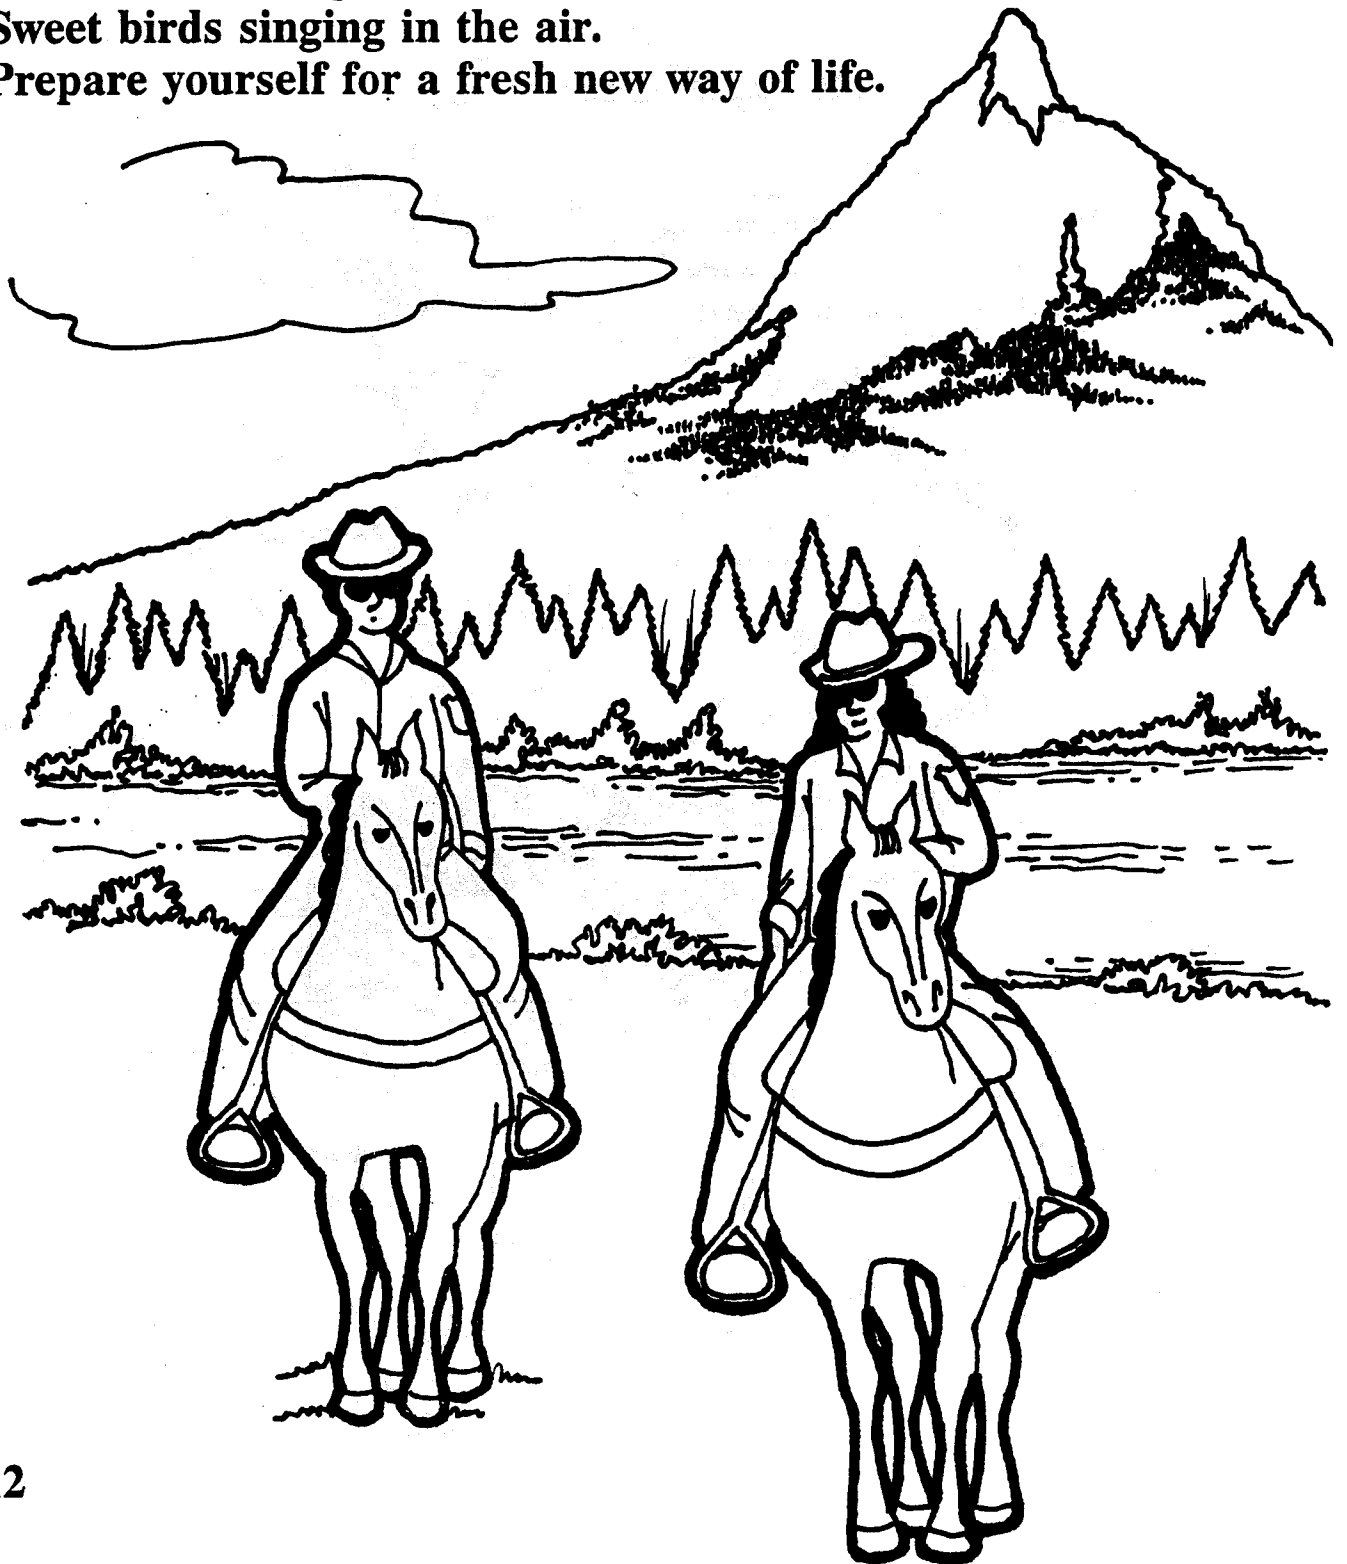

Just study hard in school
learn to keep things cool
then come join us under our great family tree.

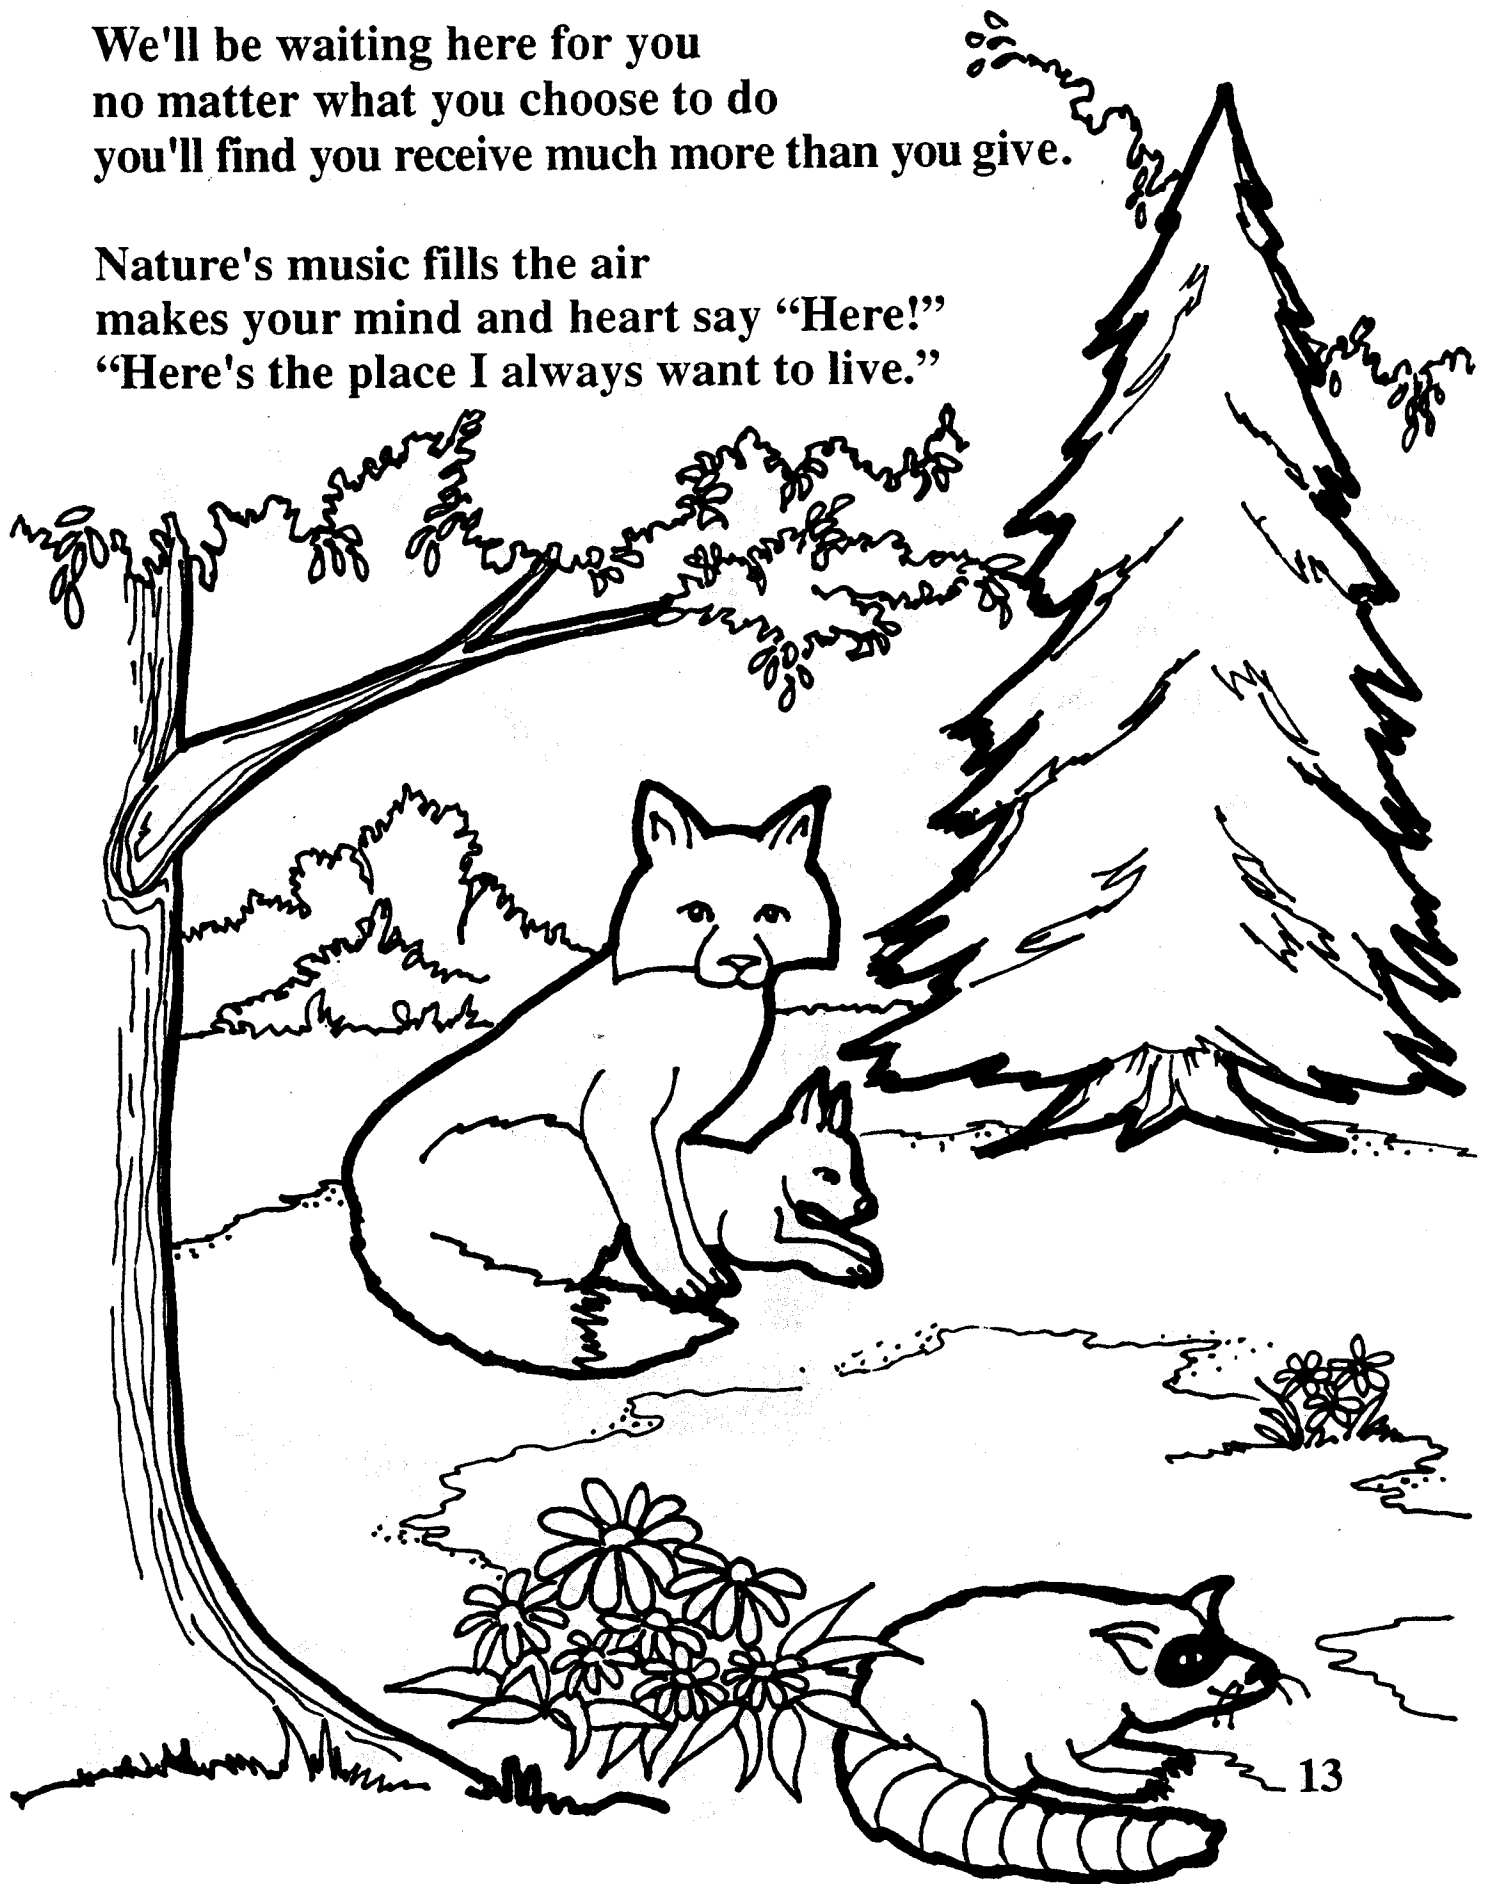

**White clouds in a deep blue sky,
quiet breezes floating by,
far away from the deep big city strife.**

**Creatures moving here and there.
Sweet birds singing in the air.
Prepare yourself for a fresh new way of life.**

We'll be waiting here for you
no matter what you choose to do
you'll find you receive much more than you give.

Nature's music fills the air
makes your mind and heart say "Here!"
"Here's the place I always want to live."

Where the wind and birds all fly
with great freedom in the sky.
Won't you join us under our great family tree?
