

**HHS TABLE B**  
**AoA PROJECTS AND INITIATIVES DEDICATED TO AAPIs BASED ON FY 98 (Last year data is available)**

<b>Project/Initiative</b>	<b>Program Category*</b>	<b>Total Funding or Total AAPIs Served</b>	<b>Mechanism for Awarding Funds**</b>	<b>Formula to Determine Level of Funding***</b>	<b>Recipient (if funding is an award)****</b>	<b>Lead Entity</b>
AoA's Minority Initiatives Committee (Analyzes issues and is developing strategies for projects and activities that better serve AAPI and other minority elders, which may be undertaken by the network)	7	n/a <sup>1</sup>	n/a	n/a	n/a	Administration on Aging (AoA)
Partnerships with the Aging Network (AoA communicates its AAPI action plan to the aging network through partnerships with national organizations, its AAPI resource center at National Asian Pacific Center on Aging, and other organizations.)	7	n/a	n/a	n/a	n/a	AoA, partnerships with outside organizations
Assistant Secretary for Aging's outreach to the AAPI community (Assistant Secretary for Aging provided direct outreach to the AAPI community through visits and meetings with AAPI elders and their caregivers to discuss OAA services, cultural needs, and the proposed National Family Caregiver Support Program. The Assistant Secretary met with AAPI elders in Los Angeles, CA; San Diego, CA; Honolulu, HA; Seattle, WA; Portland, OR; Chicago, IL; Milwaukee, WI; Philadelphia, PA; and Anchorage, AL).	7	n/a	n/a	n/a	n/a	AoA
Minority Aging Focus at AoA Symposium (Workshop presented new research and explored policies and programmatic decisions that promote equality in the aging experience, especially for AAPI and minority elders at AoA's Longevity Symposia series.)	7	n/a	n/a	n/a	n/a	AoA

Project/Initiative	Program Category*	Total Funding or Total AAPIs Served	Mechanism for Awarding Funds**	Formula to Determine Level of Funding***	Recipient (if funding is an award)****	Lead Entity
Town Meetings with AAPI elders through AoA's national AAPI resource center at the National Asian Pacific Center on Aging (NAPCA). (This project sponsors NAPCA's efforts to organize a series of capacity building activities and meetings over three years (1997 – 2000) in 10 metropolitan communities with both diverse populations and significant numbers of AAPI elders.)	Research, Development, and Education	\$260,000	2	3	7	AoA
Service to Older Minority Refugees AoA works with the Office of Refugee Resettlement (ORR) of the Administration on Children and Families (ACF) to improve services to AAPI refugee elders. ORR awarded refugee and mutual assistance grants to some area agencies on aging (AAAs) and AAPI organizations to provide services to AAPI refugee elders.	1	(coordination with ACF) — up to \$ 6 million	1	4	3	ACF, AoA
Partnerships with Research Organizations (AoA had benefitted from pioneering research in the areas of AAPI and minority elders. Also, the resource center at NAPCA provides research related to AAPIs through Title IV of the Older Americans Act (OAA). AoA works with NAPCA to help the aging network meet the mandates of the OAA and to target services to AAPI and other minority elders, who are usually in greatest social and economic need.)	7	n/a	n/a	n/a	n/a	AoA
Culturally Sensitive Nutrition Services (Continued to support efforts to increase the number of nutrition service delivery providers with culinary and language skills compatible with AAPI elders. Worked to further educate the aging network in how to provide culturally sensitive AAPI nutrition services.)	1	2.2 % of nutrition services budget funded services to AAPIs — \$ 10.7 million	7	1	3	AoA

<b>Project/Initiative</b>	<b>Program Category*</b>	<b>Total Funding or Total AAPIs Served</b>	<b>Mechanism for Awarding Funds**</b>	<b>Formula to Determine Level of Funding***</b>	<b>Recipient (if funding is an award)****</b>	<b>Lead Entity</b>
Native Hawaiian Program (AoA maintains a program of aging services under the Older Americans Act (Title VI-B) to specifically meet the needs of Native Hawaiian elders. The Native Hawaiian community through self-identified leadership has developed this program from its beginnings.)	1	\$ 1,847,000 12,234 AAPIs served (in Hawaii) Under OAA, Native Hawaiians 60 years and older can receive services	2	3	1	AoA

**ACF PROJECTS AND INITIATIVES DEDICATED TO AAPIs  
BASED ON FY99 OR THE LAST YEAR FOR WHICH DATA IS AVAILABLE**

<b>Project/Initiative</b>	<b>Program Category*</b>	<b>Total Funding or Total AAPIs Served</b>	<b>Mechanism for Awarding Funds**</b>	<b>Formula to Determine Level of Funding***</b>	<b>Recipient (if funding is an award)****</b>	<b>Lead Entity</b>
Region V staff assisted newly organized AAPI grassroots groups, the Asian Health Coalition of Illinois and the Asian American Community Initiative, that were formed in response to sufficient anecdotal information that a significant portion of the AAPI population were having difficulty accessing services, especially medical. The Health Coalition was awarded a grant from the State to gather data, expand the coalition to include more AAPI groups, do outreach, and inform the AAPI community of services with language appropriate flyers and public notices.	3	NA	NA	NA	NA	Administration on Children and Families (ACF)
As part of the Midwest Hub's Minority Initiative grant, the Region V office will recruit intern(s) and offer stipend(s) to build on the efforts of the Health Coalition and other grass-roots community organization in gathering data and assessing the needs of the AAPIs.	6 - Other Aid	NA	7 - Other stipends for interns	NA	NA	ACF
Through participation on the Federal Regional Council's (FRC) Outer Pacific work group, Region IX staff coordinated with other Federal agencies on Outer Pacific issues to improve the use of funds and program administration. Information was shared with the Department of Interior (DOI) and others. A strategy for a more unified approach with these jurisdictions was developed. ACF staff co-chaired the Outer Pacific work group.	2	NA	NA	NA	NA	ACF
Region IX staff from San Francisco and Honolulu met with Hawaii's Boost for Kids liaison in Governor Cayetano's office to explore collaborative opportunities with ACF programs.	3	NA	NA	NA	NA	ACF

<b>Project/Initiatives</b>	<b>Program Category*</b>	<b>Total Funding or Total AAPIs Served</b>	<b>Mechanism for Awarding Funds**</b>	<b>Formula to Determine Level of Funding***</b>	<b>Recipient (if funding is an award)****</b>	<b>Lead Entity</b>
Region IX staff provided technical assistance (TA) to Hawaii's child welfare programs. Hawaii's programs led the nation in adoptions and have received 2 awards for their improvement of adoption and foster care services.	3	NA	NA	NA	NA	Administration on Children and Families (ACF)
Region IX staff coordinated with community based organizations in Hawaii on HHS health programs/services to obtain input on health care access for immigrants and limited English speakers in the State. Staff participated in calls with Hawaii health advocates, including AAPI organizations, when it was determined that MedQuest services are provided in English only, which resulted in poor access for AAPIs.  Region IX staff worked with HCFA on approval and implementation of the Children's Health Insurance Program (CHIP) in Hawaii and American Samoa. With approved CHIP funding, American Samoa funded pediatric dentists at LBJ Hospital.	1	NA	NA	NA	NA	ACF
Region IX funded supplemental training to enable grantees in Hawaii and the Outer Pacific to cluster and identify common Head Start training needs.	5	\$20,000	1	4	3, 4	ACF
Region IX expanded AAPI enrollment by 40 children through Head Start expansion funding of the Honolulu Community Action Program.	1	\$302,240	1	4	2	ACF
To increase research and data on AAPI populations, OCSE contracted with Acumen, LLC, a demographics organization, to research the make-up of child support enforcement's customer base. Acumen will set baseline data by establishing the customer service base for the years 1988 and 1998, and then project the composition of child support's customer base for the years 2004 and 2009.	3	NA	NA	NA	NA	ACF

Projects/Initiatives	Program Category*	Total Funding or Total AAPIs Served	Mechanism for Awarding Funds**	Formula to Determine Level of Funding***	Recipient (if funding is an award)****	Lead Entity
<p>Region IX staff provided 57 on-site training and technical assistance (T/TA) to 13 AAPI Head Start grantees or grantees serving predominately AAPIs covering the range of Head Start and Early Head Start needs, such as strategic planning, needs assessment, elements of the Performance Standards, technology assessment and planning, services to teen parents, and achieving Early Head Start implementation milestones.</p> <p>In Region IX, the Quality Improvement Center for Disabilities Services (DISQIC) provided on-site T/TA to 17 AAPI Head Start and Early Head Start grantees in Hawaii and the Outer Pacific covering the range of disabilities issues and services, e.g. needs assessment, developing linkages with the Department of Education, train the trainers on screening, referrals, evaluations, and Policy Council training on disabilities services.</p> <p>Region IX provided T/TA to new Early Head Start grantees in San Francisco, including Wu Yee (San Francisco), Family Support Services of West Hawaii, Maui Family Support Services, Honolulu Community Action Program, and Parents and Children Together (Honolulu). The training was conducted in collaboration with the Quality Improvement Centers and focused on the Performance Standards and Early Head Start service delivery.</p> <p>In Region IX, Development Associates, DA, participated in two Outer Pacific Head Start Association meetings, to plan for future training and provide T/TA on governance for Board of Directors and Policy Councils. DA also partnered with the Community College of Guam and the Association to make available 45 contact hours of college courses for Family Service Workers on the roles and responsibilities of family services professionals.</p>	3	NA	NA	NA	7 - AAPI Head Start grantees or grantees serving predominately AAPIs	Administration on Children and Families (ACF)

<b>Projects/Initiatives</b>	<b>Program Category*</b>	<b>Total Funding or Total AAPIs Served</b>	<b>Mechanism for Awarding Funds**</b>	<b>Formula to Determine Level of Funding***</b>	<b>Recipient (if funding is an award)****</b>	<b>Lead Entity</b>
Community Planning Grant ACF provided community organizations with seed money to bring together local welfare reform stakeholders in planning meetings to develop alternative methods to reduce welfare dependency, facilitate partnership building and strengthen community support for families in need. The East Bay Asian Local Development Corporation (EBALDC) in Alameda County, CA convened Peer Action Groups to address barriers to employment faced by neighborhood recipients in moving into the workforce.	3	\$20,000	1	4	1	Administration on Children and Families (ACF)
Administration for Native Americans (ANA) Training and Technical Assistance Contracts	3	\$91,443	5	4	6 Hawaiian owned firm to provide T/TA	ACF
ANA Contract for services to prepare ANA's Annual Report to Congress	1	\$24,999	7 Purchase Order	5 Purchase Order Contract with Scope of Work	6 Hawaiian owned firm	ACF
Administration for Developmental Disabilities Kansas Advocacy and Protection Services targets underserved groups, including AAPIs.  Nebraska Advocacy Services has a detailed listing of language and cultural resources, which they use to target resources to the AAPI population. Community partners for AAPI outreach have been local Asian Community Centers.	1	NA	2	3	2	ACF

**AHRQ AGENCY PROJECTS AND INITIATIVES DEDICATED TO AAPIs  
BASED ON FY99 OR THE LAST YEAR FOR WHICH DATA IS AVAILABLE**

<b>Project/Initiative</b>	<b>Program Category*</b>	<b>Total Funding or Total AAPIs Served</b>	<b>Mechanism for Awarding Funds**</b>	<b>Formula to Determine Level of Funding***</b>	<b>Recipient (if funding is an award)****</b>	<b>Lead Entity</b>
Addition of hospital discharge data from the State of Hawaii to the Hospital Cost and Utilization Project (HCUP) will permit the development of research to address health services research issues in AAPI populations.	2	About \$40,000	Addition to existing contract	4	3 Purchase of data 7 Contractor to process data	Agency for Healthcare Research and Quality (AHRQ)
Plans were made to develop an administrative database from HCUP data intended specifically to assess the hospitalization experience of minority populations. Development of the database is occurring during 2000 and initial analyses will be conducted for minority populations, including APIs. Descriptive analyses should be completed in FY 2000.	2	N/A	N/A	N/A	N/A	AHRQ
Convened a minority health services research agenda-setting workshop which included AAPI researchers and community representatives.	2	\$34,000	5	4	7 Contractor	AHRQ
The award of 4 health services research grants addressing AAPI issues: (1) Quality of Hypertension for Asian Refugees; (2) Measuring Patient Satisfaction in Low Literacy Populations; (3) A Patient Centered Quality Measure for Asian Americans; and (4) Measuring Quality of Care for Vulnerable Children.	2	Total cost-\$2,627,625 FY99 cost-\$1,434,448	1	4	5 Four different institutions	AHRQ

**CDC/ATSDR PROJECTS AND INITIATIVES DEDICATED TO  
AAPIs BASED ON FY99 OR THE LAST YEAR FOR WHICH DATA IS AVAILABLE**

<b>Project/Initiative</b>	<b>Program Category*</b>	<b>Total Funding or Total AAPIs Served</b>	<b>Mechanism for Awarding Funds**</b>	<b>Formula to Determine Level of Funding***</b>	<b>Recipient (if funding is an award)****</b>	<b>Lead Entity</b>
Breast and Cervical Cancer: Cultural competency training on breast and cervical cancer in Asian American Women for a broad base of health care providers, allied health personnel, and personnel employed by community-based organizations.	1	\$ 416,918	1	4	1, National Asian Women's Health Organization (NAWHO)	Centers for Disease Control and Prevention (CDC)
Diabetes in Pacific Basin: Establish a regional Center to foster community involvement and action to address the burden of diabetes in the Pacific Basin. CDC funded 3 year cooperative agreements with 2 national organizations representing AAPI populations to facilitate the delivery of National Diabetes Education Program (NDEP) awareness campaign messages and the development of culturally appropriate community-based diabetes control interventions.	1	\$ 448,707	5	5	1, Papa Ola Lokahi Diabetes Training Center	CDC
	3	\$525,000 \$251,420			Association of Asian Pacific Community Health Center (AAPCHO) and NAWHO	
Racial Ethnic Approaches to Community Health 2010: Developed a coalition involving the Cambodian community and health care providers of Lowell, MA. The coalition plans to develop an effective and sustainable community action plan to reduce health disparities among Cambodians in the priority areas of diabetes and cardiovascular disease.	1	\$ 294,820	3	4	3, Lowell Community Health Center	CDC
Infant Mortality: Conduct quantitative and qualitative research in collaboration with the Hawaii Department of Health (DOH) to identify risk and protective factors for infant mortality and factors contributing to the observed disparities. Developed culturally appropriate, community-based intervention strategies to reduce infant mortality disparities by county and ethnicity among AAPIs in Hawaii.	2	\$ 50,000	3	4	3	CDC

Project/Initiative	Program Category*	Total Funding or Total AAPIs Served	Mechanism for Awarding Funds**	Formula to Determine Level of Funding***	Recipient (if funding is an award)****	Lead Entity
Diabetes Consultation to Pacific Basin Jurisdictions through the Pacific Islands Health Officers Association (PIHOA): The Division of Diabetes Translation has enhanced efforts to consult with the Pacific jurisdictions regarding the appropriateness of the National Diabetes Control Program model. Activities include convening a meeting with representatives from each of the jurisdictions to discuss their unique ideas and problems in diabetes.	3	\$57,000	3	5	4	Centers for Disease Control and Prevention (CDC)
Pregnancy Reduction Assessment Monitoring System (PRAMS): Conduct quantitative and qualitative research in collaboration with the Hawaii Department of Health to establish a PRAMS that would identify risk and protective factors for infant mortality.	2	\$ 90,071	3	4	3	CDC
National Asian American Project "Promoting Prevention for Healthy Communities": Improved the health status of Asian Americans by promoting and improving childhood, adolescent, and adult immunization coverage levels. Implemented education and awareness projects for underserved Asian American communities that will increase access to immunization programs. Provided information about these life-saving vaccines to Asian American communities.	1	NA	4		1	CDC
Comprehensive Sexual Transmitted Disease (STD) Prevention System and Prevention of STD-related Fertility Projects: Provided funding to programs that design, implement, and evaluate interdisciplinary plans for that assist health departments in preventing the transmission of STDs that result in pelvic inflammatory disease (PID), infertility, and ectopic pregnancy.	1	\$ 391, 597, Served 5,000-8,000 people	4	NA	4	CDC

Project/Initiative	Program Category*	Total Funding or Total AAPIs Served	Mechanism for Awarding Funds**	Formula to Determine Level of Funding***	Recipient (if funding is an award)****	Lead Entity
HIV/STD/TB surveillance, prevention, and treatment activities targeting AAPIs in the Pacific Island jurisdictions and the continental United States: Assisted in the establishment of STD screening and management programs for chlamydia, gonorrhea and syphilis. Protocol and guidelines were developed for island(s) wide screening and management of STD and prenatal testing.	1	NA	4	NA	4	Centers for Disease Control and Prevention (CDC)
Comprehensive HIV Prevention Program: Provided funding and support to health departments in the six Pacific Island jurisdiction to prevent the transmission of HIV by reducing behaviors or practices that place persons at risk for HIV infection. Promoted increased access to early medical interventions that reduce morbidity and mortality in HIV-affected persons.	1	\$ 593,062, served Guam, Marshall Islands, Palau, American Samoa, FSM	4	NA	4	CDC
Institute of Medicine (IOM) study on the Pacific Basin: Coordinated activities with Health Resource Service Administration (HRSA)-funded IOM study on the Pacific Basin. Provided training; obtained technology/equipment, employed experts in areas identified for which a need is determined	5	\$ 117,202, served Common Wealth of the Northern Mariana Islands	4	NA	4	CDC
Support for AAPI Community-Based Organization in Guam: Supported community-based organizations with HIV prevention programs targeting men who have sex with men (MSM) in AAPI communities.	1	\$ 75,000, served Guam	4	NA	4	CDC
Research on Asian American and Pacific Islander Health: The Center for Environmental Health conducted analyses of the major health and mental health and human services problems facing AAPI communities.	2	\$ 120,000	4	NA	3	CDC
Study of Breast Cancer Among Asian American Women: Analyzed 500 plasma samples for organochlorine pesticides or their metabolites and polychlorinated biphenyls. These analyses are part of a population-based, case-control study of breast cancer among Chinese women.	2	NA	NA	NA	NA	CDC

<b>Project/Initiative</b>	<b>Program Category*</b>	<b>Total Funding or Total AAPIs Served</b>	<b>Mechanism for Awarding Funds**</b>	<b>Formula to Determine Level of Funding***</b>	<b>Recipient (if funding is an award)****</b>	<b>Lead Entity</b>
State and Community-Based Childhood Lead Poisoning Prevention Program: Ongoing surveillance of children's blood lead levels.	1	\$ 10,750; AAPIs accounted for 29% of the study's recipients	4	NA	3	Centers for Disease Control and Prevention (CDC)
Lead Exposure Among Children in Yap, FSM: This study will investigate the source and extent of lead poisoning among children in Yap.	2	Collaboration with Dept of Interior	7	N/A	N/A	CDC
Assessment of Vitamin A Deficiency for Intervention in Micronesia: Survey to determine the prevalence of vitamin A deficiency among children and reproductive-aged women in Yap and Kosrae, Federated States of Micronesia (FSM).	2	Collaboration with UNICEF	7	NA	NA	CDC
Child Health Survey in Kosrae, FSM: This survey will collect data on the diet and health of children in Kosrae.	2	NA	7	NA	NA	CDC
Community Partners for Health Farming Surveillance: Funded eight states to conduct surveillance and follow-up on health and injury-related sentinel events in agriculture among farm workers, including AAPI populations.	2	N/A	4	N/A	N/A	CDC
Apparel Industry Intervention Effectiveness Study: Evaluated repetitive motion injuries in the apparel industry. The majority of the workers are females from minority populations, including AAPIs.	2	\$ 426,268	7	N/A	N/A	CDC
Parkinsonism, Pesticides and Markers of Neurotoxic Effect: This study established better indicators of neurotoxic damage in humans. The data used in this study are from the Honolulu Heart Program registry that includes occupational and environmental data on Japanese Americans.	2	\$ 238,168	7	N/A	N/A	CDC

<b>Project/Initiative</b>	<b>Program Category*</b>	<b>Total Funding or Total AAPIs Served</b>	<b>Mechanism for Awarding Funds**</b>	<b>Formula to Determine Level of Funding***</b>	<b>Recipient (if funding is an award)****</b>	<b>Lead Entity</b>
Deep South Center for Agricultural Disease and Injury Research and Education: Conducted research, education, and prevention programs addressing the unique safety and health problems of migrants and low-income farmers, including AAPIs, in the Southern United States.	2	\$ 350,000; AAPIs accounted for 10% of the study's recipients	4	N/A	N/A	Centers for Disease Control and Prevention (CDC)
Perchloroethylene (PCE): Biomarkers for Human Exposure Characterization: Developed and applied methods for biomarkers of PCE exposure to evaluate risk of cervical cancer, bladder cancer, and kidney disease in workers exposed to PCE.	2	\$ 106,009; AAPIs accounted for 33% of study's recipients	3	N/A	N/A	CDC
Linking Epidemiologic Research with Disease Prevention: Monitored elevated risks of occupational disease linked to Perchloroethylene (PCE) and other dry-cleaning solvents. Communicated and disseminated information to dry cleaners about their exposures, potential risks, and the availability of screening tests.	2	\$ 36,475	7	N/A	N/A	CDC
Impact of Hepatitis B Immunization in AAPIs: In collaboration with Hawaii and Georgia Health Departments, this project evaluated the prevalence of hepatitis B virus and hepatitis B vaccine coverage in AAPI children. AAPI households were interviewed on immunization coverage and tested for hepatitis B virus infection.	2	\$ 250,000	3	4	3	CDC
Technical Consultation to the Pacific Islands Health Officers' Association: Provided laboratory services and technical support for hepatitis B and C virus control programs.	3	NA	7	5	1	CDC
Hepatitis Education Video: Developed educational videos in Mandarin and Vietnamese to promote hepatitis A, B, and C prevention.	1	NA	1	4	2	CDC
Pacific Islands Research on Hepatitis B Control Program: The Department of Interior and Office of Insular Affairs collaborated with U.S.-affiliated Pacific Islands to research hepatitis B control and the implementation of control programs.	2	NA	7 - Memorandum of Understanding	N/A	4	CDC

**HCFA PROJECTS AND INITIATIVES DEDICATED TO AAPIs  
BASED ON FY99 OR THE LAST YEAR FOR WHICH DATA IS AVAILABLE**

<b>Project/Initiative</b>	<b>Program Category*</b>	<b>Total Funding or Total AAPIs Served</b>	<b>Mechanism for Awarding Funds**</b>	<b>Formula to Determine Level of Funding***</b>	<b>Recipient (if funding is an award)****</b>	<b>Lead Entity\</b>
Hepatitis B Education and Prevention Boston Initiative (HBI). Contracted by HCFA to conduct a Hepatitis B outreach campaign, which targeted the AAPI population in Greater Boston, especially among youths 15-24 years of age, Medicare, and Medicaid beneficiaries. HBI developed, translated, and distributed culturally competent Hepatitis B outreach and educational materials to the target population and its providers. HBI also provided free Hepatitis B screenings and vaccinations for all individuals with minimal access barriers.	1	Contract funds of \$14,983; Over 250 AAPIs served	6	4	1	Health Care Financing Administration (HCFA)
Lowell Community Health Center (LCHC). Contracted by HCFA to increase Hepatitis B prevention and awareness among Cambodian teens and to educate the Cambodian community about Hepatitis B viral (HBV) transmission and risks associated with infection. LCHC implemented immunization clinics for Lowell High School students and developed linguistically and culturally appropriate educational materials. The outreach efforts have been made to Asian centers, Asian youth programs, and Khmer businesses including Khmer Cable TV in Massachusetts.	1	Contract amount is \$14,583 Over 660 AAPIs served	6	4	1	HCFA
South Cove Community Health Center (SCCHC). Contracted by HCFA to conduct a Hepatitis B outreach campaign to Chinese and Vietnamese Medicare and Medicaid beneficiaries in Boston and Quincy, Massachusetts. SCCHC developed culturally appropriate education materials to eliminate health disparities and increase AAPIs' participation in preventive health activities for HBV infection.	1	Contract amount is \$23,000	6	4	1	HCFA

Project/Initiative	Program Category*	Total Funding or Total AAPIs Served	Mechanism for Awarding Funds**	Formula to Determine Level of Funding***	Recipient (if funding is an award)****	Lead Entity
Vietnamese-American Civic Association (VACA). Contracted by HCFA to increase awareness about Hepatitis B and promote safe behaviors that will reduce transmission of the disease in the Greater Boston Vietnamese community. VACA provided workshops in which the role of Hepatitis B immunization and prevention was addressed. VACA conducted a health fair that included Hepatitis B immunizations, cancer screenings, and HIV/AIDS awareness.	1	Contract amount is \$15,483	6	4	1	Health Care Financing Administration (HCFA)
HORIZONS Project for Asian Americans and Pacific Islanders (HAAPI). In FY 1999, HCFA entered a two-year contract with Magna Systems, Inc. to develop and implement communication and education strategies that are based on the diverse characteristics and needs of the AAPI populations.	2	Contract amount is \$1,600,000	6	4	6	HCFA
Grassroots Rights and Protections Outreach Project for Vulnerable Populations. Created by HCFA to seek ways to encourage and strengthen the full participation and inclusion of the Asian populations who are Medicare beneficiaries in the States of Washington, Alaska, and Idaho.	2	NA	6	4	NA	HCFA
Chinese Mammography Awareness Campaign. Contracted with The Media Network, Inc. to script, test, produce, and place mammography awareness radio spots for 2 weeks in October 1999. The ads were translated in Mandarin and Cantonese dialects and were heard in 6 cities: Boston, Chicago, Los Angeles, New York, San Francisco, and Seattle.	1	\$24,995 Reached an audience of approximately 1,606,500	6	4		HCFA
A Chinese Web Page became a part of HCFA's Medicare web site at <a href="http://www.medicare.gov">www.medicare.gov</a> . It offers linguistically appropriate Medicare information to Chinese beneficiaries.	1	\$91,000 Available to everyone who has access to the Internet.	6	4	NA	HCFA

Project/Initiative	Program Category*	Total Funding or Total AAPIs Served	Mechanism for Awarding Funds**	Formula to Determine Level of Funding***	Recipient (if funding is an award)****	Lead Entity
Report on Recommendations for Measures of Cultural Competence for the Quality Improvement System for Managed Care. Initiated under a contract with Abt Associated Inc. in 1998 and continued in 1999, project is developing recommendations for measures of the cultural competence of managed care organizations (MCOs) that provide care to Medicare or Medicaid beneficiaries under HCFA or State Medicaid agency contracts.	2	\$100,000	6	4	NA	Health Care Financing Administration (HCFA)
AAPI National DataBase. Developed by HCFA's Seattle Regional Office. This new database format will include data on AAPI organizations using the 2000 version of the National Directory of Asian Pacific American Organizations as a base reference. It will become a useful tool to help provide community links among AAPIs nationwide.	1	NA	Salary	NA	NA	HCFA
Conducted Focus Groups. HCFA contracted with Asian Health Services to provide information to HCFA, State Medicaid, and SCHIP agencies on how best to provide health care information to AAPI communities, determine their level of involvement and satisfaction with public health care programs, and to identify barriers to their participation.	2	\$35,000.00	6	4	1	HCFA

**HRSA PROJECTS AND INITIATIVES DEDICATED TO AAPIs  
BASED ON FY99 OR THE LAST YEAR FOR WHICH DATA IS AVAILABLE**

<b>Project/Initiative</b>	<b>Program Category*</b>	<b>Total Funding or Total AAPIs Served</b>	<b>Mechanism for Awarding Funds**</b>	<b>Formula to Determine Level of Funding***</b>	<b>Recipient (if funding is an award)****</b>	<b>Lead Entity</b>
<p>The HIV/AIDS Bureau awarded new Title III Planning Grants to support communities and health care service entities in their planning efforts to develop a high quality and broad scope of primary health care services for people in their service areas who are living with HIV or at risk of infection.</p> <p>[The two FY 1999 AAPI planning grantees will be eligible to compete for a Title III Early Intervention Services (EIS) grant during the FY 2000 process. The Title III EIS grants provide, on an outpatient basis, high quality early intervention services/primary care to individuals with HIV infection.]</p>	7	Two Title III Planning Grants, \$50,000 each.	1	3, however, there is no specific funding for AAPIs - the funding is awarded through a competitive grant application process (see funding mechanism).	1 - The Asian and Pacific Islander Coalition, Waikiki Health Center	Health Resources and Services Administration (HRSA)
<p>Title V Block Grant</p> <p>Title V authorizes appropriations to States to improve the health of all mothers and children, including children with special health care needs (CSHN).</p>	1	\$576,227,297 (America Samoa: \$547,417; Federated States of Micronesia: \$547,417; Guam: \$800,957; Marshall Islands: \$242,014; Northern Mariana Islands: \$489,794; Palau: \$155, 582; and Hawaii \$2,235,951)	7, Block Grant	3, Funding for States, Territories where population is over 70% AAPI	State	HRSA
<p>Project Healthy Asian Teens - Continuation of a 5 year project in Boston that focuses on decreasing barriers that Chinese, Cambodian, and Vietnamese immigrant and refugee youth face in accessing primary health care services; promoting awareness of the need for primary health care and healthy lifestyles; and increasing access to primary health care services through screenings and follow-up.</p>	Enabling Services and Population-Based Services	\$50,000	1	3	2	HRSA

<b>Project/Initiative</b>	<b>Program Category*</b>	<b>Total Funding or Total AAPIs Served</b>	<b>Mechanism for Awarding Funds**</b>	<b>Formula to Determine Level of Funding***</b>	<b>Recipient (if funding is an award)****</b>	<b>Lead Entity</b>
The NYH-CMC/CHC Program to Promote Access and Utilization of Genetics and Maternal Health Services in the Asian Community: This 3-year project enhances access and use of bilingual, culturally competent, genetic and MCH services for Asian Americans (including Chinese, Asian Indian, and Korean Americans) in New York City.	1	\$226,850		3	5	Health Resources and Services Administration (HRSA)
Children's Hospital Oakland Medical Care for Thalassemia Patients: The goals of this project include (1) improving coordination and communication between subspecialists caring for thalassemia patients; (2) providing optimal iron chelation for transfusion-dependent patients; (3) increasing availability of prenatal diagnosis, newborn screening and follow-up; (4) improving screening, counseling, and information to allow informed decision making concerning bone marrow transplantation for thalassemia patients; and (5) providing outreach and education to communities, particularly AAPIs.	1, 2	\$312,120	1	3	2	HRSA
The New York Hospital- Cornell Medical Center Cooley's Anemia Project for Comprehensive Care: The goals of this project are to: provide a comprehensive medical and psychosocial program; to offer a cost-effective treatment to patients and their families with Cooley's anemia/thalassemia; to improve general awareness and understanding; and to provide voluntary screening, genetic counseling, and prenatal diagnosis for thalassemia. The population served is of various ethnic origins, including 25% Asian-American/Pacific Islander.	1, 2	\$281,264		3	5	HRSA
HRSA/MCHB New York Field Office (FO): Provided TA to the New York City Department of Health on their Pregnancy Reduction Assessment Monitoring System (PRAMS) project. The FO will serve on their Advisory Committee. NYC is planning to translate the survey into two to three additional languages (Chinese, Haitian, Russian) other than English and Spanish. New York will continue to provide TA to the coalition for Asian-American Children and Families in New York City. Assisted in their mailing for Annual Meeting on State of Asian-American Children and Families in NYC.	3, 5	N/A	N/A	N/A	N/A	HRSA

<b>Project/Initiative</b>	<b>Program Category*</b>	<b>Total Funding or Total AAPIs Served</b>	<b>Mechanism for Awarding Funds**</b>	<b>Formula to Determine Level of Funding***</b>	<b>Recipient (if funding is an award)****</b>	<b>Lead Entity</b>
Palau Interagency Coordinating Project: The goal of the project is to produce culturally relevant and sustainable advances in infrastructure development related to building systems of caring for all children and their families.	3	\$83,000		3	4	Health Resources and Services Administration (HRSA)
Guam State System Development Initiative: This initiative prevents child abuse and neglect of newborns and children in the targeted population through early identification and intervention.	1	\$100,000	1	3	4	HRSA
Emergency Medical Services for Children: Extends emergency medical services and trauma systems in the Northern Mariana Islands that link prehospital, hospital, and rehabilitation services to prevent death and long-term disability. This project will determine the most culturally appropriate methods to improve access to health care for pediatric target groups, develop mechanisms to reduce language barriers, and educate adults on the pediatric services available, how to more quickly access the system, and how they may be more involved.	1, 5	Activity did not occur in FY 99; however, program was funded (\$100,000) for FY 2000.	1	3	1, 5	HRSA
Evaluation of Hawaii's Healthy Start Program: This project addresses how: (1) closely a program implementation mirrors program design; (2) successful the program is in achieving intended benefits for children and families; (3) fidelity of implementation influences program achievement of intended benefits; and (4) achieved benefits compare to direct and indirect program costs. The sample includes Native Hawaiian, Filipino, Samoan, Chinese, and Japanese.	2	\$125,000		3	3	HRSA
CISS Project to Enhance Services to Pregnant Women, Infants, and Children by Improvement on Health Information Systems - Marshall Islands: The goal of this project is to computerize the health information system to increase access and thereby enhance "one-stop" shopping of existing integrated services to the population, especially pregnant women, infants, and children—including those with special needs—and their families.	3, 4	\$50,000	1	3	4	HRSA

<b>Project/Initiative</b>	<b>Program Category*</b>	<b>Total Funding or Total AAPIs Served</b>	<b>Mechanism for Awarding Funds**</b>	<b>Formula to Determine Level of Funding***</b>	<b>Recipient (if funding is an award)****</b>	<b>Lead Entity</b>
Enhanced Community Health Options (ECHO) Ko'olauloa Healthy Tomorrow: The Ko'olauloa Healthy Tomorrow project seeks to address system problems that currently exist and to improve access to child health services for families residing in the area.	1, 2, 5	\$50,000	1	3	3	Health Resources and Services Administration (HRSA)
MCH Training Program in Hawaii: This program provides graduate-level instruction and continuing education opportunities in MCH leadership; provides TA to MCH service providers; develops and disseminates new knowledge, especially in areas of significance to the region's multicultural environment; and advocates for policies and programs that benefit women and children.	5	\$402,107		3	5	HRSA
Commonwealth of the Northern Mariana Islands MCH Services Federal Set-Aside Program : This project seeks to improve, upgrade, and expand three major local MCH initiatives: (1) surveillance and data gathering with the Commonwealth Health Center computer information system; (2) community-based educational programs for mothers and children; and (3) expanded outreach services. These initiatives will enhance the current MCH Block Grant activities in the jurisdiction. This project will serve as a model tracking system.	3, 4	\$100,000	1	3	4	HRSA
Federated States of Micronesia (FSM) State Systems Development Initiative Project: In the 4 States of the FSM, this project will develop a comprehensive, community-based, primary care focused, prevention-oriented, and integrated system of interagency services for children and their families, as well as the administrative infrastructure and staff training needed	3, 4	\$100,000	1	3	4	HRSA

<b>Project/Initiative</b>	<b>Program Category*</b>	<b>Total Funding or Total AAPIs Served</b>	<b>Mechanism for Awarding Funds**</b>	<b>Formula to Determine Level of Funding***</b>	<b>Recipient (if funding is an award)****</b>	<b>Lead Entity</b>
State Systems Development Initiative, American Samoa: The main goal of this project is to create a computerized, networked, interagency data tracking system to screen, identify and provide appropriate, comprehensive, family-centered services for infants, toddlers, and children through age 21 with special health and learning needs.	3, 4	\$100,000	1	3	4	Health Resources and Services Administration (HRSA)
MCHB provided funding to the Pacific Southwest Regional Genetics Network to jointly convene with the Pacific Northwest Regional Genetics Network a conference directed toward Asian/Pacific Islanders to raise awareness about relevant genetic issues and include them in genetics education, activities, and research opportunities.	5	\$112,800		3	2	HRSA
Palau Child Care Center and Child Care Skills Training Facility: The Ministry of Health will use HSDCC funding to: (1) organize and staff a fully functioning child care center, (2) develop an on-island Child Care Skills Training Center for people who provide child-centered services and anyone wishing to develop these skills for employment in the private sector, (3) develop skills curriculum and training modules, and (4) identify on-island trainers to be used.	1, 5	\$50,000	1	3	4	HRSA
Pacific Basin Maternal and Child Health Resource Center: The mission is to enhance the well-being of families in the U.S.-related islands of the Pacific Basin by helping health care professionals gain access to the knowledge and resources necessary to overcome or reduce the health problems faced by each of the jurisdictions.	5	\$150,000		3	2	HRSA
MCHB convened a conference on hemoglobin E-beta thalassemia, an increasingly prevalent condition in Southeast Asian immigrants, who have a high prevalence of hemoglobin E and beta thalassemia genes, to inform physicians and public health officials about this condition and relevant issues.	5	\$40,800	Other	3	Government (Federal)	HRSA

<b>Project/Initiative</b>	<b>Program Category*</b>	<b>Total Funding or Total AAPIs Served</b>	<b>Mechanism for Awarding Funds**</b>	<b>Formula to Determine Level of Funding***</b>	<b>Recipient (if funding is an award)****</b>	<b>Lead Entity</b>
BPHC Compendium of Model AAPI ProgramsA competition identified 15 community based programs that were successful in outreaching to and providing services to AAPI populations. The compendium will be disseminated to all grantees and other interested parties. The BPHC will provide TA to 8 communities that are interested in replicating a model.	3	\$77,500	4	2	1	Health Resources and Services Administration (HRSA)
BPHC ongoing TA to health centers to provide health services to underserved AAPI persons. TA areas include culturally competent service delivery, health education, health center board training, outreach to linguistically isolated areas, and community development.	3	\$60,000	4	2	1	HRSA
BPHC analysis of socio-cultural determinants affecting AAPI access and utilization of health services. A survey was conducted and a summary was formulated. This information will guide the Bureau in targeting technical assistance among health centers.	2	\$10,000 and internal staff resources	4	4	1, 7- staff	HRSA
BPHC Continuing Clinical Education for Pacific Island Primary Care Providers. BPHC, in conjunction with BHPr, conducted a needs assessment of the areas in which primary care providers in the Pacific require skill enhancement or training. Information will be used to design continuing education workshops.	2	\$130,000	4	2	5	HRSA
Two BHPC monographs on substance abuse prevention and primary health care for AAPIs were developed jointly with the Substance Abuse and Mental Health Services Administration (SAMHSA) and the HHS Office of Minority Health.	2	\$30,000	7 Interagency agreement	4	7- Internal Staff resources	HRSA
Special Programs: At the request of the American Samoan government, the Division of Facilities and Loans/Office of Engineering Services provided technical assistance (architectural and engineering) in the planning, design, and supervision of construction of a Federally Qualified Health Center.	3	Pro bono technical assistance	N/A	N/A	Territorial Department of Public Health	HRSA

<b>Project/Initiative</b>	<b>Program Category*</b>	<b>Total Funding or Total AAPIs Served</b>	<b>Mechanism for Awarding Funds**</b>	<b>Formula to Determine Level of Funding***</b>	<b>Recipient (if funding is an award)****</b>	<b>Lead Entity</b>
Special Programs: As part of the Administration's National Organ and Tissue Donation Initiative, the California Transplant Donor Network is developing, implementing, and evaluating a public education strategy to improve organ donation rates among AAPIs.	2	\$475, 696	1	Budget proposal submitted by grant applicant and as approved by peer review panel	2	Health Resources and Services Administration (HRSA)
Pacific Islands Health Officers Association (PIHOA). Several PHS agencies provide support for the administrative structure of PIHOA, funding each of the six Pacific Basin jurisdictions that comprise this health policy body.	3	\$100,000	Interagency agreement with DOI OIA TA grant with PIHOA	7 Discretionary funds availability	4	HRSA
Telehealth Technology Pilot Deployments (American Samoa and Palau). Two types of telehealth technologies have been piloted: (1) interactive videoconferencing technologies (in American Samoa) and (2) store-and-forward computer-based technologies (in Palau). The technologies are deployed at the dispensary level to evaluate their utility in primary care, health and human service, continuing education and community health education. The dispensary systems are linked to each jurisdiction's health department and hospital.	4	\$84,331 (American Samoa); \$18,192 (Palau)	Supplement to grant (Palau) Single source grant (American Samoa)	7 Discretionary funds availability	4	HRSA
Pacific Basin Telehealth Consortium (University of Guam). A regional telehealth consortium that facilitates local jurisdictional and regional telehealth planning and technology deployment and enhances access to distance education opportunities. The consortium will include experts in telemedicine and health professions distance education from each jurisdiction. University of Guam provides staff support to the consortium.	3	\$47,527	Purchase Order	7 Discretionary funds availability	5	HRSA
Telehealth site visits and training of Pacific Basin health professionals. OAT has supplemented one grantee (the University of California at Davis) to provide tailored training for individuals from the jurisdictions whose responsibilities include telemedicine projects in their jurisdictions.	5	\$40,000	Supplement to competitive grant	7 Discretionary funds availability	5	HRSA

**NIH PROJECTS AND INITIATIVES DEDICATED TO AAPIs  
BASED ON FY99 OR THE LAST YEAR FOR WHICH DATA IS AVAILABLE**

<b>Project/Initiative</b>	<b>Program Category*</b>	<b>Total Funding or Total AAPIs Served</b>	<b>Mechanism for Awarding Funds**</b>	<b>Formula to Determine Level of Funding***</b>	<b>Recipient (if funding is an award)****</b>	<b>Lead Entity</b>
Cancer Control in North American Chinese Women: The project focuses on cervical cancer screening and dietary behavior, targeting less acculturated ethnic Chinese women in Seattle, Washington and Vancouver, British Columbia.	1	\$533,274	1	4	5	National Institutes of Health (NIH)
Breast and Cervical Cancer Screening Among Filipino Women: The project is aimed at increasing breast and cervical cancer screening among low-income Filipino women residing in Los Angeles County.	1	\$252,674	1	4	5	NIH
Hawaii Family Registry of Colon Cancer: The project aims to establish a Family Registry and bio-repository for high-risk families in Hawaii.	2	\$536,359	3	4	5	NIH
Inherited Breast Cancer in Chinese Women: A study to describe the frequency and type of mutations and polymorphisms in two autosomal dominant, highly penetrant breast cancer genes.	1	\$355,494	1	4	5	NIH
Cancer Concerns for Asian Americans and Pacific Islanders: A cancer education initiative. The project addresses the avoidable cancer morbidity and mortality among Asian American and Pacific Islanders.	1	\$43,370	1	4	6	NIH
Long-Term Care Utilization in Japanese Americans: The purpose of this study is to follow a cohort of 1,330 Japanese Americans to assess factors relating to their decisions to enter a nursing home should they become disabled.	2	\$262,280	1	4	5	NIH

Project/Initiative	Program Category*	Total Funding or Total AAPIs Served	Mechanism for Awarding Funds**	Formula to Determine Level of Funding***	Recipient (if funding is an award)****	Lead Entity
Epidemiology of Dementia: Existing studies suggest that, while the overall prevalence rates of dementia in Japan and the U.S. are similar, the relative prevalence of Alzheimer’s disease (AD) to vascular dementia (VaD) is much greater in the U.S. Results from a prevalence survey of a total population of Japanese-Americans aged 65 and over living in King County, WA show that prevalence rates more closely resemble those of Caucasian populations than native Japanese.	2	\$1,031,779	1	4	5	NIH
Age Related Neurodegenerative Disease in Micronesia: This project is a continuation of investigations on the occurrence of the spectrum of neurodegenerative diseases that are highly prevalent on Guam. It has yet to be determined whether neurodegenerative diseases occur in this population as a consequence of a single exposure or are explained by a multi-factorial model, such as genetic predisposition with environmental modifiers.	2	\$1,904,157	1	4	5	NIH
Models of the Occurrence and Timing of Naturalization: Researchers are creating “immigration-to-naturalization event histories” for legal immigrant cohorts entering the U.S. from 1979-1991 since it appears that certain recent immigrant groups (for example Asians) are more likely to naturalize and to do so more quickly than other groups. Researchers will assess the relative effects of demographic, origin, duration, settlement contexts, social capital, and historical variables on the occurrence of naturalization.	2	\$137,800	1	1	5	NIH
International Collaborative Oral Health Research Planning Grants: Six planing grants provide support for planning research protocols in areas of biomedical, epidemiological and behavioral studies in priority international research areas as identified in the NIDCR Strategic Plan. Three international grants have collaborations with investigators in Hong Kong, Singapore, Taiwan, and Japan, developing multi-national research in the areas of oral cancer, oral cleft and temporomandibular disorders.	2	Funding for the three international grants total \$377,903	1	N/A	N/A	NIH

<b>Project/Initiative</b>	<b>Program Category*</b>	<b>Total Funding or Total AAPIs Served</b>	<b>Mechanism for Awarding Funds**</b>	<b>Formula to Determine Level of Funding***</b>	<b>Recipient (if funding is an award)****</b>	<b>Lead Entity</b>
Epidemiology of Childhood Diabetes in Migrants and China: Data is being collected to address: (1) whether there is an association, either geographically or temporally, between reported infections and type 1 diabetes, and; (2) whether there is evidence for factors which precipitate type 1 diabetes in China.	2	\$177,006	Non-competitive	Other method - Tied to targeted recruitment goal.	5	NIH
Diabetes in Pacific – Environment/Genetic Determinants: The investigators are evaluating intervention activities aimed at reducing the incidence of type 2 diabetes in Mauritius, Nauru, and Western Samoa.	2	\$429,717	Non-competitive	Other method - Tied to targeted recruitment goal	5	NIH
Metabolic Epidemiology of NIDDM: The specific aim of this research is to ascertain the metabolic sequelae of an important milestone of aging in women, the menopause transition, and its relationship to type 2 diabetes. This is a longitudinal metabolic epidemiologic study of second-generation Japanese-American women and third-generation Japanese-American men and women.	2	\$515,683	Non-competitive	Other method - Tied to targeted recruitment goal	5	NIH
The goal of this program was to develop a model of research, outreach, education and communication in order to increase access to environmental justice in the Laotian community in Richmond, CA.	2	\$148,499	1	2	1	NIH
This is designed to empower Asian Americans/Pacific Islanders to improve their environmental and occupational health and to promote pollution prevention in Santa Clara County, CA.	2	\$233,572	1	2	5	NIH
Asian/American Mental Health Research Center: The primary objective of this center is to conduct and facilitate development of problem-oriented research on Asian American Mental Health	2	\$592,794	1	4	5	NIH

Project/Initiative	Program Category*	Total Funding or Total AAPIs Served	Mechanism for Awarding Funds**	Formula to Determine Level of Funding***	Recipient (if funding is an award)****	Lead Entity
<p>Research Center on the Psychobiology of Ethnicity: The mission of this Asian/American research center is to bridge the gap between biological and sociocultural research efforts and to contribute towards the establishment of a more fully integrated bio-psycho-socio-cultural approach to psychiatric research and practice.</p>	2	\$789,333	1	4	5	NIH
<p>Digitization of Foreign Language Consumer Health Information Pilot Project targeting the needs of Asian and Pacific Islander populations. The project will concentrate on consumer health information materials in languages other than Spanish or English. Identified languages include Vietnamese, Korean, Cantonese, Cambodian, Mandarin, Tagalog and Japanese. The intent of the project is to make hard-to-locate foreign language consumer health information freely available on the Web, ultimately with a link from MEDLINE plus.</p>	2	\$20,000	Subcontracts	NA	5	NIH
<p>Asian Americans and Pacific Islanders Aspire for Healthy Hearts (ASPIRE) The objective of this project is to establish a network of community-based organizations to serve as strategic partners to inform and educate the AAPI community on the impact of heart disease in an effort to prevent the development of risk factors and to detect and treat risk factors. Ethnic specific heart health messages for AAPIs will be developed and disseminated through ethnic media and community channels.</p>	2	\$150,000	5	4	1	NIH

Pacific Islands Collaborating Initiative for Substance Abuse and Mental Health Systems Development: This initiative supported a project that addresses training for Pacific Basic Medical Officers to develop a cadre of well-trained, cultural competency mental health and substance abuse counselors	5	At least 6 Pacific Basin Medical Officers	1	2	Pacific Institute for Counselor Education and Development	Substance Abuse and Mental Health Services Administration (SAMHSA)
Pacific Islands Collaborating Initiative for Substance Abuse and Mental Health Systems Development: This initiative fostered the development of a collaborative network, the Pacific Substance Abuse and Mental Health Collaborating Council Regional Forum, that includes various government agencies and nongovernmental organizations to improve the quality and availability of prevention, treatment, and rehabilitative mental health and substance abuse services.	5	\$40,000	Cooperative Agreement	2	Pacific Basin Government Agencies & NGOs	SAMHSA
The Pacific Islander Epidemiological and Psychosocial Training and Research Program supports the effective use and allocation of resources to inform policy and facilitates local capacity building for research and training.	2	\$85,000 State of Hawaii	Cooperative Agreement	2	7, Collaboration w/ SAMHSA & Univ. of Hawaii	SAMHSA
The Pacific Island Health Officers Association identifies service needs for substance treatment delivery system in all six jurisdictions	2	All 6 US Associated P. I. jurisdictions	5	2	Pacific Island Health Officers	SAMHSA
Targeted Technical Assistance on Data Collection to the Pacific Basin provides technical assistance to representatives from the Pacific Basin jurisdictions on improving capacity to collect mental health statistics.	3	\$35,000	5	2	Representatives from Pacific Basin in DC area	SAMHSA

<b>Project/Initiative</b>	<b>Program Category*</b>	<b>Total Funding or Total AAPIs Served</b>	<b>Mechanism for Awarding Funds**</b>	<b>Formula to Determine Level of Funding***</b>	<b>Recipient (if funding is an award)****</b>	<b>Lead Entity</b>
The Epidemiologic Surveillance Project aims to build the capacity for epidemiologic data collection pertaining to alcohol and other drug abuse problems and related physical and mental health conditions in all six US jurisdictions.	2	All 6 US Associated P I jurisdictions	5	2	5, Johns Hopkins Univ. School of Hygiene and Public Health	Substance Abuse and Mental Health Services Administration (SAMHSA)
In collaboration with the Association of Asian Pacific Community Health Organizations (AAPCHO), a meeting was convened with representatives of emerging rural AAPI communities (e.g. Wisconsin, Iowa, Nebraska, Utah, Minnesota) to discuss mental health and substance abuse needs of isolated AAPI communities. AAPCHO will support three mini grants to document model mental health/substance abuse programs.	2	NA	NA	NA	1	SAMHSA
SAMHSA sponsored a survey of AAPI ethnic-specific agencies to assess their capacity to meet AAPI community needs and provide culturally competent mental health and substance abuse services.	2	NA	NA	NA	NA	SAMHSA
SAMHSA sponsored a small scale needs assessment of community-based organizations that are providing services primarily to AAPI clients residing in the US. This survey will identify the types of services available to AAPIs and the capacity of AAPI community organizations to address the mental health and substance abuse needs to AAPI consumers.	2	NA	NA	NA	1	SAMHSA
Regional Technical Assistance (TA) Workshops provide support to prospective applicants, including government entities, CBOs, hospitals, schools, in preparing GFAs. Twelve of the TCE, TCE/HIV and HIV Outreach grantees identified AAPIs as a target population to be served with SAMHSA/CSAT funds.	3	Not Available	1	2	TCE, TCE/HIV, HIV Outreach grantees	SAMHSA

<b>Project/Initiative</b>	<b>Program Category*</b>	<b>Total Funding or Total AAPIs Served</b>	<b>Mechanism for Awarding Funds**</b>	<b>Formula to Determine Level of Funding***</b>	<b>Recipient (if funding is an award)****</b>	<b>Lead Entity</b>
The NIDA/CSAT Epidemiological Work Group will develop a continuing education plan to help health providers in the region become more knowledgeable and skillful in managing substance abuse problems, and in working collaboratively with substance abuse mental health specialists in local communities.	2	\$35,000	5	2	Pacific Region's Public Health Officials and Health Care Professionals	SAMHSA
SAMHSA's National Advisory Boards and Councils increases the representation of AAPI employees on advisory boards, strategic planning committees, and task forces	2, 1 - Recruiting, Outreach	6 AAPI Advisory/Council Board Members	1	2	AAPI community	SAMHSA
SAMHSA Asian American and Pacific Islander Mental Health Summit enhanced HHS capacity to serve AAPI by increasing public, private sector and community involvement.	2, 1 - Recruiting, Outreach	Approximately 75		2	AAPI Community	SAMHSA
Community-Initiated Prevention Grant - This project is an individual and family mentoring prevention program that targets Hawaiian, Samoan, and Philippina female adolescents, ages 12-15. Its goals are to reduce risk factors, enhance protective factors and strengthen family relationships.	2	\$358,370	1	4	2	SAMHSA
Methamphetamine Treatment Project (MTP): Outpatient Drug and Alcohol Services for Asians (ADDUCE) - ADDUCE provides culturally sensitive outpatient substance abuse treatment to AAPI adults. The MTP will develop, implement, and evaluate the adaptation and implementation of the Matrix Model in community-based drug treatment programs.	2	\$420,040	1	4	3	Substance Abuse and Mental Health Services Administration (SAMHSA)
Children and Family Network - This project targets AAPI families with children under the age of 22 who are at-risk for experiencing serious emotional disorders.	2	\$60,000	1	4	1	SAMHSA

<b>Project/Initiative</b>	<b>Program Category*</b>	<b>Total Funding or Total AAPIs Served</b>	<b>Mechanism for Awarding Funds**</b>	<b>Formula to Determine Level of Funding***</b>	<b>Recipient (if funding is an award)****</b>	<b>Lead Entity</b>
Targeted Capacity Expansion Grant - A collaboration between the Salvation Army, a community-based organization and, other substance abuse providers, will serve substance-abusing women who are pregnant and/or have young children, particularly Native Hawaiians. The collaboration aims to increase the number of Native American women in recovery and reduce the incidence of infectious diseases, including HIV/AIDS.	2	\$352,825	1	4	2	SAMHSA
Criminal Justice Diversion Grant - This project evaluates and compares several elements of diversion on Oahu and neighboring Islands, e.g., Kauai, Maui and Hawaii. The comparison involves subjects with the serious mental illness and substance abuse diverted from the criminal justice system on one Island with that of another.	2	\$429,232	1	4	3	SAMHSA
Study on Aging, Mental Health, Substance abuse and Primary Care - This multi-year, multisite project evaluates integrated versus referral models for providing mental health and substanceabuse treatment to elderly persons in primary care settings. One study site, the Chinatown Action for Progress assess the effectiveness of these models for a predominantly Chinese American sample.	2	\$349,250	1	4	1	SAMHSA

**ASPE PROJECTS AND INITIATIVES DEDICATED TO AAPIs  
BASED ON FY99 OR THE LAST YEAR FOR WHICH DATA IS AVAILABLE**

Data Council Report on Improving Racial and Ethnic Data. The HHS Data Council's Working Group and Racial and Ethnic Data and the Data Working Group of the HHS Initiative to Eliminate Racial and Ethnic Disparities in Health, worked on a long-term plan and recommendations for improving the collection and use of racial and ethnic data across the Department. A report will be completed during FY 2000, and a detailed implementation plan will be developed as a follow-on document.	2	NA (Intramural)	NA	NA	NA	Assistant Secretary for Planning and Evaluation (ASPE) and other HHS Data Council Members
Assessment of Major Federal Data Bases: This assessment includes an inventory of 16 data sets, examining how race/ethnicity data are collected, interview and publication policies and sample sizes to assess the capability of major federal data bases maintained by HHS and other federal agencies to provide data on major AAPI and Hispanic subgroups.	2	\$149,000 (Only part of these funds were used to analyze AAPI data)	6	4	NA	ASPE
Data Council Directory of Data Resources. The Council's Working Group on Racial and Ethnic Data, with the support of the Office of Minority Health, updated an inventory of all major data collection systems sponsored by HHS. The Directory describes what race/ethnicity categories, including AAPIs and AAPI subgroups, data are collected by, limitations of use for analysis and how the data can be accessed. The report can be found at <a href="http://aspe.os.dhhs.gov/datacncl/datadir/index.htm">http://aspe.os.dhhs.gov/datacncl/datadir/index.htm</a>	2	NA (Intramural)	NA	NA	NA	ASPE, other HHS Data Council Members

<b>Project/Initiative</b>	<b>Program Category*</b>	<b>Total Funding or Total AAPIs Served</b>	<b>Mechanism for Awarding Funds**</b>	<b>Formula to Determine Level of Funding***</b>	<b>Recipient (if funding is an award)****</b>	<b>Lead Entity</b>
Health Data Needs of the Pacific Insular Areas_ ASPE provided primary staff support to the National Committee on Vital and Health Statistics in the development of a report on the Health Data Needs of the Pacific Insular Areas, Puerto Rico, and the U.S. Virgin Islands. The report focuses on recommendations in four areas: a health data infrastructure, local data processes similar to the approach used for Healthy People 2010, an expanded or more flexible approach allowing for increased federal funds to be used for the development and maintenance of a health data infrastructure, and a voice at the HHS policy table.	2	Undetermined (Intramural)	NA	NA	NA	Assistant Secretary for Planning and Evaluation (ASPE)
Early Childhood Longitudinal Birth Cohort Study (ECLS-B). ASPE is a co-funder supporting a Chinese oversample in the ECLS-B, a Department of Education survey of infants from birth through age five. A larger Chinese sample will help researchers detect differences in health, development, and parenting behaviors that have the potential of increasing our understanding of protective factors that could contribute to generally better health outcomes, and better understanding of the antecedents for school readiness. This study is also providing some opportunities to test linguistically and culturally appropriate survey protocols and test instruments.		NA (This is only a small part of a much larger study.)	5	4	5	Department of Education (DOE) has the lead. Within HHS, the National Institutes of Health has the lead.
Immigrants and their Communities. With other federal partners, ASPE funded a multi-year study of how immigrants and their communities are affected by welfare and immigration reform. The study which is being conducted by the Urban Institute will profile immigrant health, employment, economic hardship and participation in government programs. In depth in-person surveys with immigrant families, elderly persons and community organizations are being conducted in Los Angeles and New York.	2	NA (Only part of these funds were used to study AAPI immigrants)	3	4	5	ASPE
Urban Change. ASPE along with other partners, is funding the Manpower Demonstration Research Corporation's project on Urban Change. Included as part of this multi-disciplinary study of welfare reform is an ethnographic study of a Cambodian neighborhood in Los Angeles.	2	Undetermined (This is a small part of a much larger study.)	6	4	5	ASPE
