

PUBLIC NOTICE

The United States Bankruptcy Court for the Eastern District of Texas will be acquiring a Courtroom Sound system to be installed in the 8th & 9th floors of the Plaza Tower, 110. N. College Street, Tyler, TX 75702. The Courthouse is tentatively scheduled for occupancy on or about June 15, 2004.

Generally, the system will consist of:

- Up to ten microphone inputs; eight microphones actually required
- Input from a separate Courtroom Technology System
- Input from a separate Video Conference System (Polycom FX or VS 4000)
- Outputs to a Lanier 4 channel recorder, Model LCR 5
- Output broadcast to the courtroom
- Output broadcast to two offices in the same floor
- Output to separate broadcast speaker on Judge's bench
- Output to separate Court Technology System
- Output to a separate Video Conference System (Polycom FX or VS 4000)
- Telephonic bridge for conferencing
- Each input must have separate volume control for input into Lanier recording system
- Each input must have separate volume control for broadcast

Vendor shall:

- Supply all microphones, connectors, cabling/wiring, amplifiers, speakers, mounts, controls and any other hardware and software for a fully functional, turnkey installation.
- Coordinate all installation activities with construction general contractor & other subcontractors as needed.
- Coordinate system design with Courtroom Technology System provider.
- Include the following their bid:
 - Detailed list with descriptions, specifications & prices of proposed hardware, software & major components
 - Warranty information on all components and system as installed
 - Estimated project schedule from award date
 - References

This open market procurement vendor selection will be based on a lowest price, technically acceptable, responsible contractor basis. Potential vendors must submit bids by April 26, 2004 to:
