

Three-Month Outlooks Discussion (Contiguous U.S. and Alaska).

Part 1 - Mission Connection

- a. Product/Service Description. The Climate Prediction Center (CPC) provides a technical discussion of the meteorological and climatological basis for the outlooks.
- b. Purpose/Intended Use. This discussion provides technical insight to further assist decision makers.
- c. Audience. The audience is primarily decision makers with some technical background in weather and climate sensitive activities sensitive to inter-seasonal and inter-annual climate variation (e.g. weather risk management, energy/utilities, agriculture, hydrology, etc.).
- d. Presentation Format. The discussion is presented in text sent over NWS dissemination systems and on the CPC web site.
- e. Feedback.: Go to: <http://www.cpc.ncep.noaa.gov/NWS-feedback-form.html>

Part 2 - Technical

- a. Format and Science Basis. CPC will give the meteorological and climatological basis for the outlooks. CPC may include analyses of statistical and numerical models, a coupled atmospheric/ocean numerical model, meteorological and sea-surface temperature patterns, trends and past analogs, and confidence factors.

The following is a generic format. The latest discussion is at:
