Proper Signature Blocks
for
Electronic Filing of Documents

Remember, your login and password to the ECF Live Data Base is your signature. But for your signature to be complete and the document you are filing to be "electronically filed", your signature block on ALL documents must comply with the examples below:

/s/ John Q. Debtor
  John Q. Debtor

/s/Jack C. Attorney
    Jack C. Attorney, Esq.

If you are scanning documents that have a handwritten signature already affixed then it is not necessary to also include the /s/ as above.
