NOTES: Table limited to those who earned a doctorate in an S\&E field from a U.S. institution. Figures are rounded to nearest 10 . Details may not add to total because of rounding and because respondents could select more than one reason. Total includes "other race/ethnicity" not shown separately. For disability status, those who reported any difficulty (from moderate to unable to do) in any category of seeing (with glasses/contact lenses), hearing (with hearing aid), walking, or lifting are classified as "with disability."
