

**Fiscal Year 2001-2004 Funding for
Columbia and Snake River and Coastal Salmon Recovery
Continuing Multi-Agency Commitment to Important Programs That Yield Results**

The Bush Administration has worked on a bi-partisan basis to increase the resources available to recover salmon at the federal level, as well as providing important dollars to support states, tribes and local governments salmon recovery efforts. As a result, federal dollars available in 2003 for salmon recovery have increased 14% percent since 2001. The President's FY 2004 request represents a 30% percent increase since 2001 in the total federal dollars available for salmon programs.

**Fiscal Year 2001-2004 Funding for
Columbia and Snake River and Coastal Salmon Recovery¹**

Agency/Programs	2001	2002	2003	2004
U.S. Army Corps of Engineers (Including Federal Columbia River Biological Opinion (BiOp), Columbia River Fish Mitigation, Columbia and Snake River dam fish passage improvements, and new Lower Columbia River Estuary programs.)	\$102.7	\$108.75	\$113.5	\$125.1
Department of Interior (Including Bureau of Land Management salmon conservation, Bureau of Reclamation Fed. Columbia River BiOp, Leavenworth Fish Hatchery, U.S. Fish & Wildlife Service hatcheries and other BiOp implementation, Bureau of Indian Affairs, and U.S. Geological Service salmon programs.)	43.9	70.7	78.3	76.9
Department of Commerce (Including National Marine Fisheries Service's Columbia River facilities and hatcheries and Endangered Species Act recovery planning.)	25.5	24.6	26.2	39.7
Department of Agriculture (Including U.S. Forest Service and National Resources Conservation Service salmon conservation/restoration programs.)	78.2	84.4	44.8	76.8
Environmental Protection Agency (Including support for tribal salmon programs, Clean Water Act and other water quality/restoration programs.)	18.2	18.3	18.2	18.3
Pacific Coastal Salmon Recovery Fund (Dept. of Commerce) (For Washington, Oregon, California and Alaska salmon restoration, protection and enhancement programs.)	90.0	110.0	90.0	90.0
Department of Energy (Bonneville Power Administration Direct Fish Costs)	184.0	253.3	246.8	280.5
TOTAL FUNDING (Discretionary and Mandatory) ²	\$542.5	\$670.05	\$617.8	\$707.3

¹ Dollars are in the millions. FY 2001, FY 2002, and FY 2003 are enacted levels; FY 2004 is the President's request.

² Funding for NOAA and State Department Pacific Salmon Treaty obligations are not included in the total, since these obligations were completed in 2003.

Hundreds of Tribal, State, and Locally-Driven Salmon Restoration Projects Funded

In fiscal years 2002, 2003, and 2004, the Administration has included budget requests that fully fund the Pacific Coastal Salmon Recovery Fund (PCSRF), supporting 393 salmon habitat restoration, planning, and enhancement projects in the state of Washington alone. The Administration also provided funds to support 132 projects in Alaska, 467 in California and 570 in Oregon. The Administration has also provided funds through the PCSRF for projects sponsored by 29 Pacific Coastal Tribes in Washington, Oregon and California, and the Columbia River Tribes and their respective tribal commissions in Washington, Oregon and Idaho for 286 projects.
