HUMAN SUBJECTS RESEARCH DATABASE

The U. S. Department of Energy (DOE) provides information to the public on current research involving human subjects through the DOE Protecting Human Subjects Program. This program provides the public and DOE with educational updates and information.

Under Federal Policy for Protection of Human Subjects (10 CFR Part 745) and DOE Orders 443.1 and 481.1A, the DOE Office of Science maintains information on all research projects that involve human subjects and that are funded by DOE, conducted in DOE facilities, or performed by DOE personnel.

The DOE Environmental Measurements Laboratory (EML) maintains the Human Subjects Research Database (HSRD) on the Internet for the Office of Biological and Environmental Research (OBER) within the Office of Science.

Services provided by EML:

- ▲ Database Maintenance
- ▲ Federal Internet Server Access
- ▲ Software Development
- ▲ Quality Assurance/Quality Control
- ▲ Project Assistance

The HSRD, a "user friendly" searchable electronic database, makes this information readily available to the public and interested parties. The databases may be accessed through the following World Wide Web addresses:

- ▲ The EML home page;
<http://www.eml.doe.gov>
- ▲ The Protecting Human Subjects home page;
<http://www.sc.doe.gov/production/ober/humsubj/index.html>
