

June 12, 2001

**WATER QUALITY TECHNICAL NOTE NO. NM 7**

**SUBJECT: WQP – “RESTRICTED USE PESTICIDES 2001. DEALER’S REFERENCE.”**

**Purpose:** To distribute information to the field.

Restricted- use pesticides are restricted due to acute human oral, dermal, and inhalation toxicity and require an applicator’s license for purchase and use. The enclosed publication, “Restricted Use Pesticides 2001. Dealer’s Reference”, provides the most current New Mexico as well as EPA restricted-use pesticides. Unlike EPA restricted-use pesticides, there will not be a box stating restricted-use pesticide at the top of the label for pesticides classified as restricted use in New Mexico. Therefore, it is important that this list be checked. The New Mexico Department of Agriculture, Bureau of Pesticide Management, updates this publication annually and you will be sent an updated copy accordingly.

File the attached publication in the Water Quality Tech Note section of your field office reference library.

# RESTRICTED USE PESTICIDES

## 2001

### DEALER'S REFERENCE

FOR SALE TO  
CERTIFIED APPLICATORS ONLY

Current as of March 5, 2001

## **New Mexico State Restricted-Use Pesticides**

The pesticides listed on the following pages are classified as **restricted-use** in the state of New Mexico by 21 NMAC 17.56. **Within the State of New Mexico these state restricted-use pesticides are to be sold only to certified applicators.** Unlike EPA restricted-use pesticides, there will **not** be a box stating restricted-use pesticide at the top of the label for pesticides classified as restricted-use in New Mexico. Therefore it is important that this list be checked. If you have any questions about whether or not a pesticide is classified restricted-use, please contact the department.

Persons wishing to purchase these pesticides must provide the dealer with a certified applicator's license. You may use the restricted-use pesticide sales form provided by NMDA, company forms, or computer databases to record pesticide sales records. Records must contain: the date of sale, name of licensed applicator, state or county applicator resides, complete applicator license number\*, the name of the pesticide, the EPA registration number\*\*, and the quantity sold. Please see the sample form as it appears on the next page. If you have a question about a license or about a pesticide, please call the department at 1-800-432-5310 (in NM only) or 505-646-2133.

These pesticides are in order alphabetically by product name. To find a product look up the product name, then check the EPA registration number and the company name on the product label against the list.

**\* The complete license number of certified private applicators consists of a five-digit number, a hyphen and the four digit expiration year.**

**\*\* When recording the EPA registration number (EPA Reg. No.), please make sure that you do NOT record the EPA Establishment number (EPA Est. No.).**

CLASSIFICATION: NM-RUP  
SLN\_USE: ESTER  
Discontinued:

PRODUCT\_NAME: 2,4-D LV6  
COMPANY\_NAME: ALBAUGH INC.  
EPA\_NO: 42750-20  
CLASSIFICATION: NM-RUP  
SLN\_USE: ESTER  
Discontinued:

PRODUCT\_NAME: 2,4-D LV6  
COMPANY\_NAME: TERRA INTERNATIONAL, INC  
EPA\_NO: 9779-256  
CLASSIFICATION: NM-RUP  
SLN\_USE: ESTER  
Discontinued: 1 01

## Federal Restricted-Use Pesticides

The pesticides listed on the following pages are classified as **restricted-use** by the United States Environmental Protection Agency (EPA). These pesticides are to be sold only to certified applicators. Each pesticide product classified federally as restricted use will have a restricted use box at the top of the label. See the example below.

<p style="text-align: center;"><b>Restricted Use Pesticide</b></p> <p style="text-align: center;">Due to Acute Human Oral, Dermal, and Inhalation Toxicity For Retail Sale to and Use Only by Certified Applicators or Person Under their Direct Supervision and Only for those Uses Covered by the Certified Applicator's Certification.</p>
---

Persons wishing to purchase these pesticides must provide the dealer with a certified applicator's license. You may use the Restricted-use pesticide sales form provided by NMDA, company forms, or computer databases to record pesticide sales records. Records must contain: the date of sale, name of licensed applicator, state or county applicator resides, complete applicator license number\*, the name of the pesticide, the EPA registration number\*\*, and the quantity sold. Please see the sample form as it appears on the next page. If you have a question about a license please call the department at 1-800-432-5310 (in NM only) or 505-646-2133.

These pesticides are in order alphabetically by product name. To find a product look up the product name, then check the EPA registration number and company name on the product label, against the list.

**\* The complete license number of certified private applicators consists of a five-digit number, a hyphen and the four digit expiration year.**

**\*\* When recording the EPA registration number (EPA Reg. No.), please make sure that you do NOT record the EPA Establishment number (EPA Est. No.).**

## EPA Restricted-Use Pesticides

EPA-RUP - ENVIRONMENTAL PROTECTION AGENCY-RESTRICTED-USE PESTICIDES  
NM-RUP - NEW MEXICO-RESTRICTED-USE PESTICIDES

## **New Mexico 24(c) Special Local Need Registrations**

24(c) special local need labels are state-issued, EPA approved labels. The 24(c) label is for additional uses of a federally registered pesticide formulated for distribution within a state to meet special local needs.

**All applicators MUST have a copy of the 24(c) label in their possession at the time of application in order to use the product according to the 24(c) label directions.** In addition, all directions from the main label must be followed in addition to any special instructions on the 24(c) label.

For information on specific 24(c) labels issued in New Mexico, please call the Bureau of Pesticide Management at 800-432-5310 (in New Mexico) or (505) 646-2133.
