

Comparison of 1997 NAICS-based ISI codes with 2002 NAICS-based ISI codes

The following table shows how the international surveys industry (ISI) codes based on the 1997 North American Industry Classification System (NAICS) (referred to hereafter as the 1997 ISI codes) correspond to the new ISI codes that are based on the 2002 North American Industry Classification System (NAICS) (referred to hereafter as the 2002 ISI codes). Only industries and activities that have new codes for 2002 are shown. The table has four columns:

The first column shows the 1997 ISI code

The second column shows the industry name for the 1997 ISI code, or in cases where the 1997 ISI code does not have a one- to-one correspondence to a single 2002 ISI code, lists activities covered by the 1997 ISI code.

The third column shows the 2002 ISI code that corresponds to the 1997 ISI code or component activity

The fourth column gives the industry name for the 2002 ISI code

Consult BEA's Guide to Industry and Foreign Trade Classifications for International Surveys, 2002 for a comprehensive list of activities included in each 2002 ISI industry. The Guide is available on the Internet at <http://www.bea.doc.gov/bea/surveys/be799.pdf>
