## Part III — U.S. EXPORTS TO AND U.S. IMPORTS FROM MINORITY-OWNED FOREIGN AFFILIATI Goods only valued f.a.s. at port of exportation; do not include services See Instruction Rooklet Part V

#### **IMPORTANT NOTES**

This section requires the reporting of U.S. exports of goods to and U.S. imports of goods from the foreign affiliate in FY 2002. Report data on a "shipped" basis, i.e., on the basis of when and to (or by) whom the goods were shipped. This is the same basis as official U.S. Trade statistics to which these data will be compared. Do **not** record a U.S. import or export if the goods did not physically enter or leave (i.e., were not physically shipped to or from) the United States, even if they were charged to the foreign affiliate by, or charged by the foreign affiliate to, a U.S. person.

Foreign affiliates normally keep their accounting records on a "charged" basis, i.e., on the basis of when and to (or by) whom the goods were charged. The "charged" basis may be used if there is no material difference between it and the "shipped" basis. If there is a material difference, the "shipped" basis must be used or adjustments made to the data on a "charged" basis to approximate a "shipped" basis, as discussed in the **Instruction Booklet**, Part V. Data in this section cover all goods that physically left or entered the U.S. customs area in FY 2002, including capital goods but excluding the value of ships, planes, railroad rolling stock, and trucks that were temporarily outside the United States transporting people or goods. Consigned goods must be included in the trade figures when shipped or received, even though not normally recorded as sales or purchases, or entered into intercompany accounts when initially consigned. The data should include goods only; they should **exclude** services.

Exclude from exports and imports the value of goods that are in-transit. In-transit goods are goods that are not processed or consumed by residents in the intermediate country(ies) through which they transit; the in-transit goods enter that country(ies) only because that country(ies) is along the shipping lines between the exporting and importing countries. In-transit imports are goods enroute from one foreign country to another via the United States (such as from Canada to Mexico via the United States), and in-transit exports are goods en route from one part of the United States to another part via a foreign country (such as from Alaska to Washington State via Canada).

# ANNUAL SURVEY OF U.S. DIRECT INVESTMENT ABROAD — 2002 FORM BE-11C ADDITIONAL INSTRUCTIONS BY LINE ITEM

### Part I — IDENTIFICATION OF MINORITY-OWNED FOREIGN AFFILIATE

- 3. Country of location If the affiliate is engaged in petroleum shipping, other water transportation, or oil and gas drilling, and has operations spanning more than one country, use country of incorporation for country of location. For example, classify in country of incorporation an oil drilling rig that moves from country to country during the year.
- 6. Ownership interest held by U.S. Reporter named in item 1.

**Voting interest** is the U.S. Reporter's direct ownership in just the voting equity of the affiliate. Examples of voting equity include voting stock and a general partner's interest in a partnership. Thus, a U.S. Reporter could have a 100 percent direct voting interest in an affiliate but own less than 100 percent of the affiliate's total equity.

### Part II — FINANCIAL AND OPERATING DATA OF FOREIGN AFFILIATE

13. Sales or gross operating revenues, excluding sales taxes — Report gross operating revenues or gross sales minus returns, allowances, and discounts. Exclude sales or consumption taxes levied directly on the consumer. Exclude net value-added and excise taxes levied on manufacturers, wholesalers, and retailers. Affiliates classified in ISI codes 5223, 5224, 5231, 5238, 5252 and 5331 report interest income on this line. Insurance companies with ISI codes 5243 and 5249 should include gross investment income on this line. (Dealers in financial instruments and finance, insurance, and real estate companies see Special Instructions below.)

Holding companies (ISI code 5512) must show total income. To be considered a holding company, a company's equity in net income of affiliates that it holds must constitute a majority of its total income. In addition, normally at least 50 percent of total assets must consist of investments in affiliates. ISI code 5512 (holding company) is an invalid classification if more than 50 percent of income generated, or expected to be generated, by an affiliate is from non-holding company activities.

**14. Net income (loss)** — Net income for the year, after provision for foreign income taxes, but before provision for common and preferred dividends. Include income from equity investments and realized and unrealized gains (losses) (net of income tax effects) included in the determination of net income.

**16. Employee compensation** — Consists of wages and salaries of employees and employer expenditures for all employee benefit plans.

Wages and salaries — Consists of gross earnings of all employees before deduction of employees' payroll withholding taxes, social insurance contributions, group insurance premiums, union dues, etc. Include time and piece rate payments, cost of living adjustments, overtime pay and shift differentials, bonuses, profit sharing amounts, and commissions. Exclude commissions paid to independent personnel who are not employees.

Include direct payments by employers for vacations, sick leave, severance (redundancy) pay, etc. Exclude payments made by, or on behalf of, benefit funds rather than by the employer. (Include employer contributions to benefit funds in "employee benefit plans" as discussed below.)

Include in-kind payments, valued at their costs, that are clearly and primarily of benefit to the employees as consumers. Do not include expenditures that benefit employers as well as employees, such as expenditures for plant facilities, employee training programs, and reimbursement of business expenses.

Employee benefit plans — Consists of employer expenditures for all employee benefit plans, including those mandated by government statute, resulting from collective bargaining contracts and those that are voluntary. Include Social Security and other retirement plans, life and disability insurance, guaranteed sick pay programs, workers' compensation insurance, medical insurance, family allowances, unemployment insurance, severance pay funds, etc. Also, include deferred post employment and post retirement expenses per FAS 106. For plans financed jointly by the employer and the employee, include only the contributions of the employer.

### SPECIAL INSTRUCTIONS FOR DEALERS IN FINANCIAL INSTRUMENTS, FINANCE COMPANIES, INSURANCE COMPANIES AND REAL ESTATE COMPANIES

- A. Certain realized and unrealized gains (losses) for dealers in financial instruments and finance, insurance, and real estate companies.
  - 1. Dealers in financial instruments (including securities, currencies, derivatives, and other financial instruments) and finance and insurance companies Include in the calculation of net income (item 14) (1) impairment losses, (2) realized gains or losses on trading or dealing, and (3) unrealized gains or losses due to changes in the valuation of financial instruments that flow through the income statement. Report income attributable to fees and commissions in item 13.

Also, do not include in sales or net income unrealized gains or losses due to changes in the valuation of financial instruments that are taken directly to retained earnings.

### 2. Real estate companies

Gains or losses from the sale, disposition, or revaluation of land, other property, plant and equipment, or other assets:

### Realized gains and losses

Include gains or losses from the sale of real estate in the ordinary course of trade or business in item 13.

### Impairment of long-lived assets

Exclude from item 13, but include in the calculation of net income (item 14), impairment losses, as defined by FAS 121, recognized during the period.

### Unrealized gains

Do not include in the calculation of net income (item 14) gains recognized due to the revaluation of real estate assets. Rather these unrealized gains should be included in retained earnings.

- B. Special instructions for insurance companies
  - 1. When there is a difference between the financial and operating data reported to stockholders and the data reported in the annual statement to an insurance department, prepare the BE-11 on the same basis as the annual report to the stockholders. Valuation should be according to normal commercial accounting procedures, not as rates promulgated by national insurance departments, i.e., include assets not acceptable for inclusion in the annual statement to an insurance department. Include: 1. non-trusteed or free account assets and 2. nonadmitted assets, such as furniture and equipment, agents' debit balances, and all receivables deemed to be collectible. Include mandatory securities valuation reserves that are appropriations of retained earnings in the owners' equity section of the balance sheet, not in the liability section.
  - 3. Instructions for reporting specific items
    - Sales or gross operating revenues, excluding sales taxes (item 13) — Include items such as earned premiums, annuity considerations, gross investment income, and items of a similar nature.
