(continued)

"The man felt that ELSHOFF was showing favoritime for these men who were in favor of U.H.W. I heard that the company was going to open the mines several times, but I didn't go to the mines on these days.

"With regard to the election in Dec. of 1937 I cannot state as to any acts of violence or threats made by anyone. I don't believe I went to the nine between Dec. of 1937 and Nov. of 1939 when the mine reopened. As I recall it a notice was put in the paper that the nine was to reopen. When we went back to work the Progressives had the najority, but it was an open shop so a lot of the men didn't sign up right away. As far as I was concerned I wasn't threatened or beat up. I do remember that a man by the name of was boat up by someone.

had the reputation of being tough. The nen all felt that if they didn't do as these nen wanted them to, that they might got hurt. It seemed that when the mine opened in New of 1939 they would only hire U.M.W. non. It was my impression that Bowling Green of the U.M.W. seemed to be the man who had a lot of influence with the company. I believe FALCETTI and BUMLING GREEN were good friends in smuch as it was common knowledge that they ran around a lot together at night, going on stag parties, etc.

I made up my mind that I couldn't get along with Jack FALCETTI and had been wanting to change jobs for a long time. I have read ever this entire statement of four pages, have initialed the first three pages, and hereby sign this page to show it has been read by no and it is true to the best of my memory.

make the following voluntary statement to both of whom have identified themselves as being Special Ligents of the Federal Bureau of Investigation. No threats or promises have been made to me to induce me to make any statement.

and came to this country "I was born 🕏 when a young man and have been a citizen for about years. I presently reand am employed at

will first joined a union in Illinois, in about which time I joined the U.M.T. I started working at Mine B in and worked there until the strike in 1937. I was a member of the U.N.... until about 1932 when the Progressive Union was formed. Everyone told me that if I joined the Progressive the dues would be smaller and working conditions would be better. As far as I was concerned the working conditions under the Progressive union didn't seem to be any better and it cost more in dues. Since I never talked to any company officials I cannot say anything as to how the company felt about the unions. I never held a union office and didn't go to hardly any meetings. I do not know anything about events leading up to the strike in May of 1937 and didn't know a strike was coming until the day of the actual strike.

"At about one o'clock in the afternoon on May 12, 1937, one of the drivers told me that I had enough cars for the day and for me to go home. Then I got on top I was told that the mine was shut down and for me not to come back. I went home that day and didn't even go back to get my tools. I don't have any idea as to why the mine was shut down. I never heard about any men in the Progressives being fired for being spies for the U.K. ... Some time after the strike two men came to my house to see about work or something. All I know is that they had an argument about something and left when my wife told them to leave.

"I remember signing some kind of a petition for the Progressives after the strike. I cannot remember whether the men came to my house or whether I signed the petition at the union hall.

IN PRVIET WITH

was interviewed by Special Aronts and and second is 34 years of age and does not impress one with his

knowledge of the situation existing at Mine B. He could be used as a witness, however, to testify to the facts set out in the following statement, which he signed:

"August 31, 1943 Springfield, Ill.

make the following voluntary statement to both of whom have identified themselves as Special Agents of the federal Bureau of Investigation. No threats or promises have been made to induce me to make any statement.

"I was born in and have always lived in Illinois. I presently reside at I first started miring in when I went to work for kine B and have been working at that mine ever since. I joined the U.M.V. in and joined the PMA in 1932 when the local men decided to go with PMA. I have never held a union office. As far as I am concerned, there is no difference between the two unions. Everything was going along fine until the spring of 1937 when some of the men started talking about signing up with U.M.W. I recall that some of the progressive men were expelled from our union because they were working for United. I think the men were expelled from the union before the strike, but the company wouldn't fine them and that's what the strike was about.

"As I remember it, I went to work in my regular place, that is in as a digger on the day of the strike. Te got to work after my gang had already gone into the pits. I remember that the men were loading their cars short and somebody mentioned that we should only load the cars part full. I believe some of the men were saying that if we loaded the cars short the company might not let the men work. I heard that Tony Flotch, Frank Austin, Fete Carter and some other men were going around to see the men E trying to organize for the UMN. I only attended union meetings about once every two months, and never took an interest in what the men who were supposed to be spies were actually doing.

"I remember that on the day of the strike we were told by the union to quit work at about 2:30 P. K. so we all left the mine. I remember that we all went out to the mine sometime in Sept. and our local decided to set up a picket line. I was on picket duty for about a month when I came home. I heard that Palcetti had told our grievance committee

INTERVIEW WITH continued)

that only UM" men could work as the company had a contract with UMW. I believe about 10 or 15 men started to work that day and all of these men were the men who had been acting as spies for U.M.W. Our men decided

to set up the picket line when Falcetti said only UMW men were to work. I didn't hear Falcetti make any statements though.

"I voted in the NIRB election in Dec. of 1937 and as far as I know everything was peaceful. There was no violence and no threats were made by either side as far as I know. I didn't go out to the mine again until the mine opened in 1939. I was not contacted by any one to join the U.M.W. I was given my same room and started to work it as soon as I got back to work. After I had been at the mine for about a year I was asked by Tony Flotch to join the UMF so I joined at that time. he never used any force to get me to join the union.

As far as I'm concerned, one union is as good as the other as long as I'm working.

"I have read over this statement of four pages and wish to state it is true to the best of my memory. I have initialed the first three pages and hereby sign this page.

INTERVIEW WITH

was interviewed by Special Agents

broken English, was very slow in comprehending questions put to him, seemed to have a very poor memory, and in general it is believed he would make a poor witness. executed the following signed statement:

"Springfield, Illinois August 28, 1943

make the following voluntary statement to another both o' whom have identified themselves as being Special Agents of the Fedéral Bureau of Investigation. No threats or promises have been made to me to induce me to make any statement.

I became a U.S. citizen as soon as I possibly could. I have been working in the mines ever since I came to the U.S. and joined the U.M.T., sometime around I remained a member of the U.M.W. until 1932 when I joined the Progressive union. I have never held any office intthe union and never attended many of the meetings — either Progressive or U.M.W.

Mas far as I was concerned conditions were about the same under Progressive as they were under the U.M.W. To my knowledge the officers of the Progressive were good men and I don't think they were engaged in any racket. I never attended many of the meetings and only heard rumors to the effect that some of the men in our local were spies for the U.N.W.

"I can't remember much of what happened on the day the mine was shut down in the spring of 1937. I know that many times we would go to work and when we would notice men coming back from the mine — that, is, not working — we would turn around and go home without knowing why the mine was shut down. I do not know any of the details as to why the mine shut down in 1937.

"I remember signing a petition after the mine shut down, but do not know whether I signed any other petitions. I went out to the mines and marched in the picket lines several lines, but do not remember the dates. Since I live out in the country and away from most of the men I have never discussed the conditions at the mine with the ment. I have never seen any men beaten up by any union organizers and have never seen any of the men fighting, but I have heard rumors that men were

INTERVIEW VITH

beaten up. I heard rumors that the U.M.W. promised Elshoff conditions would be better if their union was the only union, but I do not know how the company men felt towards the unions.

I went back to work at the mine in the fall of 1939 and remained a member of the Progressive union until the mine was recognized as being under the jurisdiction of the U.M.W. Since I began working at hime B. I have been in the West section most of the time. I do not know anything about any fires or damage done to the mine while it was shut down during the strike.

"My opinion is that the mine went on strike in 1937 due to the fact the company wouldn't make an agreement with progressive as to wages. I do not know anything about the action, taken by union officials in connection with the strike.

"This statement has been rose to me by Special Agent it is true to the best of my memory.

INTERVIEW WITE

The following investigation was conducted by Special Agents

at Springfield, Illinois on August 28, 1943.

It is felt that he has a fairly good knowledge of the events that took place at the mine, and it is believed that he would make a fair witness.

The following is a signed statement obtained from

Springfield, Ill., August 28, 1943

am making this free and voluntary statement to and and who are known to me to be Special Agents of the Federal bureau of Investigation, United States Department of Justice, and no promises or threats have been made me to give this statement, and it is true and correct.

States in and became a citizen in I have been working at Mine I in Springfield, Ill. from to the present time and I am a coal digger. I first joined the United Miner workers Union in at Ill. I have been working at Mine B I have never held an union offices. From when I started till 1902 the ULT there at Mine B seemed to be alright and I don't recall of any troubles then. I just don't recall now how the miners felt then in regard to relationship between UMT and the managment of Mine B. Around 1932 or so John L. Lewis stole some votes and we miners decided to form a new union and the Iro ressive Miners of America 1.c.1 #54 was formed. I joined the PMA then in 1932 because all us miners decided to join it but I did not have any active part in forming it. As I recall it Carl Alshoff got alon, alright with the FFA men and officials from 1932 until the strike started in 1937. I recall that everything went along smoothly from 1932 to 1937 and that there were no troubles or strikes at line B. I never heard Elshoff or Falcetti condemn the FMA men or officials. The FMA union looked to me to be alright and they did a lot of good for us miners as they helped us with our work and got us b nefits but now we have to do a lot of that work ourselves. conditions now at Minc B are a lot worse now than they ever were under PM. From 1932 to 1937 we miners ran the local and not a picked few. If we wanted

67C 620

INTERVIEW WITE (continued)

something we told the PMA officials and it would be brot up at a meeting and voted upon and no one forced or told we

how to vote. .

"I used to attend the FMA meetings once in awhile and they did not fine us for not attending. I personally don't think the PMA men had anything to do with those bembings but I don't know who did it. I have no knowledge of the money affairs of FMA but always felt the PMA officials were doing right with the money.

would go to the homes of the INA miners and would give them a card and ask them to join over to the United Mine workers. I recall that on several time MDY SCHRILDVIOUS sneaked into my yard and called me out and on one time he wanted me to sign a card which he showed me and when I saw it was from the United Mine workers I told him I would not sign it and that he should get out of my yard. He did not try to explain the card to me at all but he did not fool me. I also told him that he ought to quit doing that otherwise the FM will catch up with him and throw him out him and he said to me mever mind, I'll never lose my job there. Andy never talked to me in the mine about this but just in my yard. I never received any literature re UNI before Mine B closed. I don't recall of any picket lines at Mine B prior to 1937. I don't know of any parties that were given by Blshoff or UNI men.

"I don't recall anythin, about the contract running out in March, 1937 as the PMA men and officials handled that matter and I can't recall what they may have said about it as I didn't attend many meetings."

"I never knew of any troubles at B mine just before the strike came. However, just before the strike happened I remember that ANDY SCHRULEVIOUS got up on a bench in the wash room and told us that we all should go and strike and he was talking something about not getting enough wages. This was the start of the trouble. Some of us miners told him to shut his mouth as we miners did not want to strike as we were all satisfied with FMA end with the wages were were getting. As far as I know I don't recall what the PIA officials did in regard to the wage question. I was not at the meeting when they expelled the spies and the next morning at the mine I was told by other miners that some of the FMA men had been expelled. I recall that FRANK AUSTIN was one f them who was expelled and I can't remember who the others were. I heard that morning that these men all showed up for work alth they were supposed to have been fired. I remember that on that morning the XIII CONTINTED and the president of Local #54 saw Frank Austin getting read to go down into the mine and Austin had his headlamp on and he had a whip in his hand as he was driving mules. I walked over to Austin with the committe and the president and they asked Austin where he was going and Austin said that it was none of their business and he cursed at them and held his whip up as the he would hit them so the, all walked away. I actually saw this

470

INTERVIET WITH (continued)

myself and was right there. Austin went down into the mine afterwards and pulled out soul with the mules. The gissip at Hine B was that

a board member, had talked to Elshoff about firing those expelled men and that Elshoff complained to that we miners were not filling our cars with coal, and according to gossip them told Elshoff that the miners were doing pretty good and that if he would not fire those men he would call the miners out and close down the mine.

when miners never loaded short loads until that day and some of us miners were sore b cause the management left those men return to work and some of the miners, not myself, did not fill the cars full and they did that just because they were sore. I loaded full cars and when I got out of the mine I did not see any partially loaded cars at all but just saw full ones. I did not know that there was going to be a strike until I got on too when the other miners said that the limit called them out and that they were going to strike because Elshoff did not fire those men. I did not see FAICETTI talk to any miners on that day. The strike was caused just because the management of line B would not fire those men and there was no other reason to strike.

"I recall that shortly after the strike, I with other miners, sign some petition in the office of line B, and at that time our Committee, president and F.ICETTI, were there too. The FMA officials told us that we should sign the way we wanted to and afterwards I heard that TMA won. No one told me how to vote and no one b at me up and we all voted the way we wanted to.

"I never signed any petition for U.T. I also think that I signed some other petition for P.W. along the road there at the mine. I don't recall anything about U.W. forming a new local in the summer of 1937, but I do recall that at some time while the mine was closed TOM FLORGY came to my home on several times with DONDHOLTANSQUALE and WITH (EONG JACAMY and they wanted me to sign a card or paper with U.M but I told them I would not sign but that if the whole local went I would go too but not otherwise as I was well satisfied with P.M.

"I remember that the newspapers said something in fall of 1937 that Mine B would be reopened and all of us went back to the Mine B and intended to go back to work. I don't know if PMA had a meeting or not as to what action they would take and I don't recall of anything unusual happenening during summer of 1937. That morning I saw FALCETTI come out and talk to us miners but I did not hear what he said but I heard from others that FALCETTI said he wanted so many to do down into the mine but they had to first go into the office and sign up with UMI and then no PMA men went down at all and we all went home. However, I saw about 12 mcn, one of whom was JOHN SIRTOUT,

INTERVIET WITH (continued)

come out of Mine B office and PALCETTI TAS
leading them to the mine and had one of his
hands in his pockets and we all thought he

had a gun and he hollered at us to get out of the way and he let those men de into the mine himself. I actually saw this happen myself. I did not go to any meeting that day but was told to be back at Mine B the next morning and I was there and we started a sit down strike. When I got there I saw this bunch of 12 or so in the mine office and Sheriff Lou Gold was there and he told us PIR miners to let those men to home and they left the mine and got into some automobiles. There was no trouble there and we miners did not hurt those 12 men at all. Everything was orderly. As I remember it one of the FM officers told us that if the left the mine we could not return so we stayed there hopin, to go back to work. We really were not striking as we were willing to go to work as Mil. but would not sign up with UNT in order to no back to work. Pik did not bring in any strangers at all on the strike and it was just our local men who were out there. We were there for several months and we were protectin, the mine property as we did not want anyone to damage it. Fill officials did not threaten us at all and we just decided to stay there to protect our jobs. The strike was very quite and that was no fights or bloodshed.

"I was not at the Mine B when the Marshall came out, and I don't know much at all about this matter. I don't know for sure if I was out at line b when they tried to reopen it again in Dec. 1937.

WI voted FMA in the first NLRB election and it was by secret ballo Government men were there. No one told us how to vote at all and we all voted the way we want too and we were not beaten up and it was a good election. FMA officials told us that when we went down to the Armory to vote that we should not take any papers from anyone as they said that U.S. men might be along the street giving out papers. I voted FMA because I liked them and I was well satisfied. I feel that the vote reflected the true wishes of us PMA miners.

"I don't know for sure if I went out to Mine B in Jan. 1938 when they tried to open it again.

"I heard that Elshoff would not sign a contract with Fig. altho we all were Pig but I don't know the reasons.

"I remember that I went ont to line B and F.J.CETTI told us that all could not go back until all rooms were fixed and some returned but I was told I would be called in a could of weeks. I don't recall just what they asked me out there. I don't recall what was said about wages but we believed they would be the same as b fore, the same union scale. Everybody was glad to get block to work and I did not go to meetings so don't know anything about the wages.

RE: JOIN L. LEGIS, ET AL

67c 620

IMPERVIEW WITH (continued)

"I saw a lot of new men there and they scened to be company men as they were allowed to go all over the mine and these men came from

other states and they were UMT men. TOUT PLOTON talked to me several times in the mine as to why I didn't sign up with UM. and I told him I liked PMA. BILL SINTOUT, the mule driver, talked to me several times and asked when I was joing to sign up with UMF and he said I had better sign up before it is too late for me, and that he would fix me. I had no trouble with anyone having dirt thrown on my coal cars but other . iners had troubles like that. I heard that logs and sulphur were put on loads of coal by UK men and once Eishoff called us and told us that was Fig. were doing it and we told them we were not doing it. I don't believe that PEA miners were doing wrong things at all but it was being done by WMI men there in the mine. In the spring of 1940 I last paid dues to PM, and in summer of 1,40 joined up with UKT. I he. around the mine of other Fin miners getting beat up and whipped and I did not want to get a beating so I decided it wo ld be best for me to sign up with U.S. TONY LOTCH came to my home than and I signed a card for him. He did not say anything. I don't recall of signing any card for PIL during summer of 1940. I still liked PML better than UML but joined over so there would be no trouble. In 1941 I voted in the next NLRB election and I myself voted for FIL even the I was then with Unit. The election was alright but at the mine there were so many new men there who were brot in by W. I. that IMS was able to win that election. I voted the way I wanted to in that election. He one forced me how to vote either.

"The Mine B was in bad condition when it was respected. It is not all open fet and now there are only about 250 men working there. It is caved in a lot and some of the rooms will never be opened. I don't know anothing about a first here in the

"I can't read the English language but this 4 page statement has been read to me by agent in the presence of my wife and it is true and correct and I have signed it of my own free will."

tarily to and who have identified themselve to me as Special Agents of the Federal Bureau of Investigation. No promises, or threats have been made to me for this statement.

I was born in Springfield. Illinois and at present I was born in I came to the United States in Mand was naturalized in Springfield, Ill., in

"I first joined the United line "orkers in I have never been an officer of any union. I joined the union when I was working around Springfield.

"About I started to work at kine B as a miner. At that time Elshoff and Buckley were the operators of the mine. Later Elshoff took over Buckley's interest in the mine.

"From to 1932 there was not much labor trouble at the mine. Generally the relations between Elshoff and the U. M. W. were good and without trouble.

"In 1932 the miners became angry when Lewis agreed to a reduction in miner's pay from 92¢ per ton to 68¢ per ton. By a referendum vote the miners overruled Lewis and voted not to accept the reduction in pay. About 3 weeks later there was another referendum, but before the votes could be counted they were stolen. Lewis was president of the U. K. W., and the gener feeling among the miners was that he was responsible for the loss of the ballots. Nobody knows where the ballots went, but the feeling among the miners was that Lewis took the ballots away. The story was that the committee appointed by the local unions had seen someone go away with the ballots. I don't know who the persons were.

6.7°C

INTERVIEW WITH (continued)

Wafter Lewis signed the agreement for a lower wage scale, the miners had some meetings among themselves and decided to establish a new union.

I attended some of these meetings and was in sympathy with their aims. I was glad to get away from the U. K. \forall . We established the Progressive Mine Workers of America at this time.

Mafter their organization the P. M. A. secured a closed shop agreement with Elshoff, owner of Mine B. From this time until late 1936, Elshoff second to be satisfied with the P. M. A.. There was no trouble between P M A and Elshoff. There were a few men who were not satisfied with P. M. A., and they were constantly agitating for the return of the miners to U. M. W. One that I remember is Frank Austin. There was talk among the miners that Frank Austin received money from the U. M. W. to help get the men from P. M. A back to U. M. W. There also was talk that Austin was paying dues to both U. M. W. and P. M. A.

*From 1932 to 1936 I was always satisfied with the leadership in the P. M. A. There was no talk that the officers of the P. M. A. were running a racket. The members of P L A were satisfied with their officers. The members always were permitted to express themselves at the meetings.

#In the P. M. A. meetings there was no talk about the bombings which were attributed to P M A members. Most of the members did not know anything about the bombings. To the best of my knowlege, the men alleged to be responsible for the bombings are not dismissed from the P. M. A.

posed on us. This was one of the major objections by the miners to the U. M. W. - having to pay many assessments. This problem was not present in the P. M. A. which imposed no extra assessments while I was in the P. M. from 1932 to 1936. One of the reasons we broke away from the U. M. W. was the many extra assessments that were imposed by the U. M. W. The only thing that could be termed an extra assessment by the P. M. A. was an assessment to take care of some members of the P M A who were striking at another mine.

"From 1932 to late 1936 there were U. M. W. organizers present in the mine (<u>Mine B</u>) but they did not set up a picket line or distribute propaganda or literature. Frank Austin was one of these organizers. In this period I heard stories that blshoff and Falcetti were going out on parties with U. M. W. men.

670

INTERVIEW WITH (continued)

To the best of my recollection a strike occurrate that the reason for the strike was that the miners were putting short weights in the cars. This strike was settled and a few days later there was a second strike. I don't know the causes of this strike. I heard that the U. M. W. men went to work in the mine, and that the P. M. A. men refused to go to work with the U. M. W.

*At this time I heard that Elshoff wanted the U. M. W. men in his mine, I heard that Elshoff told people that he wanted the U. M. W. in his mine, and that he gave the mine mules to U. M. W. men so that they could use the miles at their homes. This practice was permitted while no work was being done at hime B - while the mine was closed down. I heard that Frank Austin was given 2 mules. I also heard that Elshoff and Falcetti had said that U L W men could use the mine mules until the mine opened up again. None of the P. M. A. men were given any mules from the mine.

home of and told several of us including me and several others whose names I don't remember, that I should join the U. M. w. at that time, and that if I didn't join the U. M. w. at that time, and that if I didn't join the U. M. I the National Labor Relations board would make me join the U. M. W. later, if I wanted a nob at hime B.

"I know that Charles Bohannon was a U. H. ". organizer because I heard that he told several of the miners that they should join the U. K. W. if they wanted to work, and also that he had beat up several of the miners because they did not want to join the U. K. W. Some of the men he beat up were known to me as

"In addition to Austin, Plotch and Bohannon, I heard that the following men also were U. M. W. organizers: John (Cotton) Ananias, John Sirtout, George Jacaway, Emory Jacaway and James Hale." None of these men we ever contacted me personally.

"Because I had been ill, I knew nothing of the wage dispute of april 1937, and nothing of the necting of P. M. A. men in May 1937. As I recall, shortly after the P M A men at Mine B were out on strike, I signed a petition for P. M. A. The man who brought the petition to me was known to me as (ph). He asked me if I was satisfied with the P. M. A., and when I told him that I was satisfied, he asked me to sign the petition. No threats were made to me for my signature. He came to my house for my signature. I don't know if any men signed the P M A petition at a P M A meeting.

INTERVIEW WITH (continued)

"Several time in the summer of 1937 some men from U H W came to me to get me to sign a petition for U. M. W. but I never did. I don't know the names of the U. M. W. men who brought these petitions.

What the time he new U. M. W. local was organized in the summer of 1937, I was not asked to join the U. M. W.

Therefore, I can give no information about of P. H. a. or U. H. W. men during this surmer.

"I don't recall that I received any notice of any drive by the owners of kine B to open up in the surner of 1937. I didn't take a great interest in labor activities but I did go to the state arsenal in December 1937 to vote in an election called by the National Labor Relations Board. I went of my own free will. No one took me to the voting place. The election was advertised in the paper. At this election I voted for the P. M. A. because I vanted to belong to that union. It was the best union as far as I am concerned, and I did not want to have anything to do with U. M. W.

"The election was run by the N. L. R. B. As far as I am concerned the election was fair and square. Nobody told me how or when to do anything at the election.

"Because I had quit my job as a miner before the strike started in May 1937, I did not receive any notice from the mine that I could return to the mine for a job. I don't know if the mine sent out notices to the miners that they could return to work.

"I recall that I voted in the election of 1941 in February. The N L R B said that I could vote because I was an honorary member of P. M. The mine company contended that my vote was not valid because I was not employed at the mine at the time of the election. I voted but my vote was thrown out. .

. *I have had this statement consisting of this and six other pages read to me, and I state that it is true to the best of my knowledge and recollection."

INTERVIET WITH

viewed on August 26, 1945, at Illinois, by Special Agents and

President of Local No. 54, Progressive Mine torkers of America, advised

Illinois, was one of the miners at Hine B who was
soliciting the miners to transfer from the PMs to the UMs, and that he had
personally solicited him to do so. He stated was an associate of
CHARLES BOHANNON, DOMINIC PASCUALE, and other alleged UMS spies who were
working in Mine B part of which were expelled from PMs for their connections
with UMs.

was a strong UHW and would not tell the truth about the situation in the Mine B.

In a written statement executed by on August 26, 1943, he admitted he never favored PKW even though he was a member and tried to persuade the miners to join UMW, and that he himself in November, 1939, joined the UMW and paid dues to them, passing out their membership cards at hime "B" to solicit membership.

Committee of Local No. 7469. He thought JOHN L. LETIS was a fine men and capable leader.

This man would not be a favorable witness.

The following signed statement was obtained from

Olin Carlo

Ill. August 26, 1943.

make the following voluntary statement to whom I know as Special agents of the Federal Bureau of Investigation. No threats or promises of any kind have been made to me.

Ill. and presently live at Ill. I am employed at Mine *B*. I am presently a member of the United Mine workers of America, and a member of the grievenance committee of United Mine workers Local #7469.

"I first joined United Mine Forkers hereinafter referred to as UKN
Ill. & went to work at the Coal Co. mine in

670

(continued)

I stayed a member of UNW until 9-6-32. At that time I joined the Progressive Mine workers of America hereinafter referred to as PMW when the whole of Mine "B" went PMW. I paid dues until May 1937 to

PM.

"About Nov. 1939, after the long shut down, I petitioned Union to become a member. The Unio accepted me & I paid dues to Unio from them on to the present time.

"I feel that John L. Lewis is a good leader for UML. I did not like the leaders of FML as they were mostly foreigners, they wanted to settle all matters their own way, & would not let me express myself at the meetings.

had to be PMw to work there when they had the contract, but I always wanted to work under UMw & I talked to the men to get them to join UMw as it was a letter union and conditions would be more satisfactory. I talked to the men this way prior to Nov. 1939, but after I was a member of UMw I passed out UMw cards at the Mine "B" to get the mines to join UMw. I did not force anyone to sign up with UMw.

"As far as I know ELSHOFF, operator of Mine "B" took no sides in the mine dispute & was entirely neutral. I have no information whatsoever concerning unfair tactics used by UMB or the operators in the mining dispute.

620

INTERVIEW WITH

was interviewed on August 25, 1943 by Special Agents and

This person apparently will make a good witness. He is of average intelligence and is definite in his remarks. He is willing to testify on behalf of the government. The following signed statement was taken from him:

Ill. August 25, 1943

statement to and and whom I know to be Special Agents of the Federal Bureau of Investigation.

"I presently reside on citizen having been born ployed as

Ill. I am an American

When I joined the United line Workers of America refered to hereinarter as the U. M. W. I joined at Springfield, Ill. and went to work in Mine "B" near Springfield. I remained a member of UMV until Sept. 1932 working at Mine "B". At this time about Sept. 6, 1932 I joined the Progressive Mine Workers of America hereinafter referred to as P. M. W. This was local #54 and I remain a member of P. M. W. until about March 14, 1941 when Elshaff signed a closed shop contract with U. M. W.

"The relations between U H N and Elshaff at Mine "B" prior to Sept. 1932 were satisfactory and they worked on a contract. There were no strikes, lockouts, or slowdowns. The only difficulty was merely settlements of individual miners difficulties.

"As to the formation of P H W local at Mine "B". I feel that all the miners wanted to join the P H W to get away from John L. Lewis because he favered the decrease in the wage scale in 1932, he claimed the ballots were stolen, and would not permit the miners to have a revolt and signed a contract with the operators association. The only part I took was to attend meetings at the formation & voted for P H W.

"Relative to relations between Elshaff & local 54, P. E. W. between Sept. 1932 and April, 1937. I would state the relations were satisfactory up to about Jan. 1937. However, from Jan. 1937 to about April, 1937 there was petty dissatisfaction as some miners wanted to join the U M W. There were no strikes, the management did not try to discredit the P. M. W. or persuade them to join U M W.

Re: JOH! L. LEGIS, ET AL

67c 620

INTERVIEW VITE

"Relative to relations between P M W officials & P M W membership I heard isolated expressions that P M U was racket-run, but I do not recall who made the statements. There was no compulsion

by P M W to keep members in line. I only attended about 1/3 of P M W mestings as they met in Springfield, Ill. I ran for flocal 54 in the Fall of 1936 but lost.

"It is my opinion the rank & file of P H W thought the P H W members who were defendants in the bombing cases were framed and were not responsible for the bombings.

"The members of P M W did not feel they were taken advantage of in a financial way as all assessments were put to a mote. For the first year the assessments were 15% plus the does and after the first year the does to P M W were a little higher than those paid to U M W.

"As to relations between local 54 & U H W from Sept. 1932 to April, 1937 there was bickering over membership and a group of about twelve P H U members which included Dominic Pasquale formed a local of U H W at Kine "B" & then told Elshaff to recognize them as they had a majority. This was before the shut down about May, 1937.

"The U M M did not set up a picket line, distribute literature, but they did have organizers in the mine as aforementioned. These men were as follows:

Joe Albancse
Andrew Schrolevious
Dominic Pasquale
Pete Carter
Frank Austin
Tony Plotch

John Ananials
John Sirtout
George Jacaway
Emory Jacaway
Charles Bohannan
James Malo

All of the bove mentioned organizers of U K W had contacted me to join U K W saying the U K W would give stricter regulations which would make better working conditions.

"Concerning the wage scale controversy in the Spring of 1937 the miners felt to my knowledge they mere"; got a report from Elshall what the temporary agreement was, & that as soon as a contract was signed there would be a retroactive clause in it. I don't recall what the agreement was. As to the wages I felt, & believe the others felt, that the P K W would give the same as U K W would offer, but as P K W was smaller they would let U K W state what their contract was & the P K W would adopt the same terms.

67c 670

"I do not recall any slow-downs or stoppages at this time, but the 12 above mentioned U L' W in Mine "B" tried to convert P.M W members into U L' W membership.

"I felt that the actions of the above named twelve miners consisted of attempting to recruit members of P k W however I do not know any threats or promises were made by these twelve men.

"I understand the operators of Mine B claimed they had no existing contract with P M W with retreactive pay. I understand that new contracts were presented to the operators by P M W officials, but the operator refused to sign. P M W officials claimed that they were "stalled-off" by operators of Mine "B". I did not attend the P M W meeting held on the night of May 11, 1937. I was told b "P M W miners that this was an emergency meeting. I was invited to this meeting & I believe the other P M W miners were invited. I knew by word of mouth & I believe the other P M W miners knew in the same manner about the attempted discharge and the actual expulsion from P M W of the 12 men named above.

"I believe all of the P M W members wanted the expulsion and discharge of these men and as a matter of fact I recall that the feeling for this movement ran high in the mine on May 12, 1937. During this time I was working below the surface "pulling coal" and I know that coal cars were coming up short, which I understood from conversation had with miners was due to the fact that the above 12 men were still being permitted to work, and not because of any wage problems.

mall day on May 12, 1937 I noticed a growing indication of a strike threat. I believe the miners struck because the above mentioned 12 men were still employed & not because of wage troubles.

"I signed the petition of May 26, 1937. In regard to signing this petition I was contacted at the headquarters of P M W at 6th & Washington Streets, Springfield, Ill. by a member of P M W who ask if I would be willing to sign it.

"I know of no U.Y." petition which was made up in the summer of 1937. I know of no other petiti n presented in the summer of 1937 which referred to the miners returning to work regardless of the union under which they would work. I have never been threatened in connection with union or mine matters.

6:30 A. M., however I noticed a line of P. I workers had been formed & I was told by and Glen Stuffelbeak not to go on Time "B" premises. I did not engage in the picket. I was not threatened by P. I. W officials or representatives.

67E 670

"I do not believe that the P N W miners well considered the Federal Injunction of 12-9-37. I knew that Kine "B" was to be reopened on 12-9-37 from notice in the newspapers. I did

not attempt to go to work on this day.

"No threats or promises were made to me and I have no reason to believe that such threats or promises were made to anyone who signed a ballot as being a P M W in the election of 12-15-37 held by N L R B.

"During the period from 1-24-38 and 11-6-39 members of both unions came to my house. The U k W miners tried to persuade me to change to U k W but no threats or promises were made.

"Then line "B" reopened on 11-6-39 I noticed that a few, possibly 10 or 12 miners, said that they had changed over from the P H W to U K W, but I can not recall their names. I was not satisfied with the wage scale when Hine "B" repend as I felt that it was about the same wage scale I had been working under. The feeling of the miners at this time was to return to work disregarding wage scale problems.

"It was generally known amongst the miners with whom I talked after mine "B" opened on 11-6-39 that there were some cases of violence. I understand from such conversation that P L W and U M W miners were hurt. From my personal observations I can not say this was correct. The miners claimed to me that this violence was due to members of U L W attempting to threaten members of P W W to drop that union and join U M W.

In the summer of 1940 I signed a card to join the U M W because I felt that large numbers of P M W miners had left local 54 and joined U M W & that it appeared U M W would be the controling union at Mine "B". I was tried of unemployment and for this reason changed over.

*In the N L R B election held 2-21-1941 at Springfield, Ill. I designated myself as a member of U H W. I was at that time paying dues to U H W.

"I have read and initialed this statement consisting of eight and one half pages and it is true and correct to the best of my knowledge."

his residence,
Springfield, Illinois, on August 26, 1943, by
Ind Hc appeared to be willing

to cooperate and to testify to the facts contained in the signed statement set forth below. It is believed that he would make a good witness.

The following is a signed statement obtained from

"Springfield, Illinois August 26, 1943

Springfield, Illinois make the following voluntary statement to whom I know to be Special Agents of the Federal Burcau of Investigation, U. S. Department of Justice. No threats or promises of any kind have been made to me and I have been advised this statement could be used in court.

"I was born!" County, Illinois

Springfield, Illinois and went to work at Kine "B" as a member of the Frogressive Kine Workers of America which will be referred to hereinafter as PMW. The United Kine Workers of America will be referred to hereinafter as UMW. The PMM is the only mine union I have wer been a member of I was a member of PMM from approximately to all of which time I vorked at Kine "B" near Springfield, Ill. I never held any office in the union at any time.

"At the time I worked at Fine B, the Operative of this mine, Mr. Elshoff, appeared to show favoritism to those miners who were in sympathy toward the UNT. At this time, I believe there were about 100 men working at Fine B who had PLW cards, but who were still sympathetic toward the UNW. In this connection, it had always been my opinion that Elshoff wanted the UNW in his mine. The PMW men did not appear to get along as well with him as some of the UNW sympathisers. I can produce no evidence that this was true, but it seemed to be the opinion of most of the other miners at this time.

"I recall that in 1935 Elshoff refused to take out PMW dues from the miner's wages. There appeared to be no reason to believe that PMW miners felt that they were being cheated by their officials. I am satisfied that dues taken from me were properly used, and that there was no kickback to

- Charach

670 670

(convinued)

officials of the PMW. I felt, and I believe it was generally felt at this mine that the miners convicted in the bombing trials were framed, and that they were no more guilty than members of the

UMI, and their sympathizers.

"I have never been threatened by anyone, and I have no knowledge that anyone else was threatened in any way while I worked at Mine B. I was satisfied while I worked under the PMF, and I certainly did not want to work as a member of the UMF. I would not want to work under John L. Lewis, for I feel that John L. Lewis personally got a large portion of each miner's dues. This is my own opinion, and I was not persuaded to believe this by any member or members of the PMF.

"I have read and fully understand the one and one-quarter pages of this statement and it contains the truth to the best of my knowledge.

67c 620

INTERVIEW WITH

The following investigation was conducted by Special Agents and at

Springfield, Illinois on August 31, 1943.

Springfield, Illinois, Agents interviewed

and he advised that many years ago he was arrested one los being drunk but never was charged with any criminal offense.

It was noted that is rather intelligent, has been active in union affairs for many years especially prior to 1932 when he was very active in UNN affairs and it is felt that if any information or background data is needed on the affairs leading up to the split in 1932 that he can furnish such information. It was noted that was definitely in favor of UNN but it is believed he gave a fair and honest statement of the events as he recalled them.

gave agents a signed statement which is as follows:

Springfield, Illinois, August 31, 1943.

an making this free and voluntary statement to and who are known to me to be Special Agents of the Federal Bureau of Investigation, United States Department of Justice. No threats or promises have been made to me to give this statement.

Illinois and
I am a citizen of United States. I have not worked since
when I quit at Mine B where I was a coal digger. Around
I first joined the National Progressives in Illinois. In
board member of United Mine Workers District No. 12 and I resigned
after I was on there for 8 nonths, Before then I had been sub-district
board member of district #5. I worked at Mine B in Springfield, Ill.,
for about or years in all.

Before 1932 relations between UNW and the management of Hine B were alright as far as I know. In 1932 I was on the Scale Committee of UNW from District No. 12 and I attended various meetings in regard to the wage agreement. I had heard that JOHN L. LEWIS went on into Ohio and signed up some 300 men but left the Illinois 73,000 men go.

If you Illinois from Illinois, and myself were on the Scale Committee in 1932 and I quit that committee that year after being on it for years, after this trouble started with LEWIS I did not want any change made but felt that UNI should clean house. Wears NOW ALKER seemed to have

(continued)

personal grudges against one another and could not get along. FaRRINGTON is now deceased. I felt that UNIX should be cleaned up and that the miners should not bring in another union. I finally joined the Progres-

sives at Mine B as all the others did. Some PM. Committee tole me that if I didn't sign over to PM. I would have to quit. That night about 7 or 8 of us signed over. We were told to sign over which I did. I was given the UMI ritual the instead of the PM, so in one way really never was with PM. I never took any active part in forming the PMM at all as I was satisfied with the old UMI. I was just about forced to join over to PMI, or else I had to quit so I signed over, but I never was beat up or anything like that.

"As far as I know PIL officials got along alright with the management of Mine B. However, I recall that neither the P.L. officials nor the company itself gave out such information as to what was going on between 1932 and 1937 when the Mine B closed down. As far as I know the FML officias got along with the management of Mine B. If the PIL officials did any crooked work in connection with the books I don't know about it as I never had access to their books. Then I first joined over to Fi. I attended a special and regular neeting but after that I never attended any more meetings because I neverapproved of the idea of the miners splitting up like they did, that is, to have PU. come in and take over. I don't know what went on with those Fill neetings as after the split between UNI and when PI, came in I never took any more interest in mine matters and just did my work and went home. While with Fil. I don't recall of then ever assessing any special assessments except the death benefits assessments. I don't believe that the PML officials did enough for the miners to get them clean and fresh air in the mine. However, this has not been remedied even since UNI came back to Mine B. I never heard any rumor about Pil. officials doing crooked work with money etc. of the Local No. 54. I never heard anything wrong then.

"Ulf, men never set up a picket line at Mine B prior to the time the mine closed that I know of nor do I know of any leterature being given out. Before the mine closed CH.RLS BOE NNON, COTTON N.NLS, a little Italian namediani, PETE C.RTER, FRANK JUSTIN, TONY PLOTCH, and several others would go around in the Mine B and would talk to the miners about going back to Uif, but they never used any rough tactics at all. They didn't have to talk to me about it because I still at heart with Uif, even the I had joined over to PM.. I don't know if the above men received any salary from Uif, for doing their organizing work but several of them did tell me that they would get back from Uif, money they spent on phone calls and for car fare.

600 b20

IMPERVIE. INH

"I never heard about any parties being given between ELSHOFF and the UNIT men. In regard to the contract running out in spring of 1937 I don't know anything about it

I dodn't know a thing about the wage question and I did not even know they were going to close down.

"I had my daughter-in-law drive me to Mine B to get my check and at that time I had heard that the men were not working but I did not know it was a strike. At Mine B I asked OSCAR FALCETTI what the trouble was all about and he said he couldn't say and I don't know just what he meant by that. Hen I went out there there was only the office force there so I didn't ask anyone else about it.

*I don't know anything about any men being expelled from PLL for doing spy work for ULL, and I never heard anything about a meeting being held when those men were expelled as I was sick before the mine closed.

"I can't recall of signing any petitions in summer of 1937 but around that time GLEN STUFFLEBELL (is now dead) and another man came to my home and asked me to sign some paper in connection with the wage scale they were working and I signed it and they said they were going to all the miners. I didn't care who made the wage scale as if there was not any scale we could not work. I was not threatened at all and signed that of my own free will.

MDuring the summer of I was living a in Springfield, Illinois, and around that time CHARL'S BOHAMON, COTTON ALLEI'S and several others came to my home in a car and mentioned they had formed a new UM. local and asked me how I felt about it and I told them I still felt that I was a UM. man and that I would sign up and I told them they should go ahead and try to get more men but that they should not use any force or rough stuff. A short time later I signed up over at the UM. hall.

"It seems to me that whenever the PM, had meetings that there was touble of some kind. I think that around Easter, in 1937 or 1938, ED/EAYBEE(phonetic) was killed in connection with some meeting. I just heard about this.

"I did not know anything about the reopening of the mine in the fall of 1937 and I was not out there when it started to open but while the sit down strike was going on I went over there once in the evening Re: JOHN L. LETTS ET AL

67C

IMMERVIE: ..ITH
(continued)

just to see what was going on. I saw a bunch of wops around there with cames in their hands and I told then that they did not need any clubs as no one would come out and bother them. They did not harm

me at all nor hurt me. Another day I went out too and on both times things seemed to be alright and quiet and the men out there were from Local 54 and I did not see any strangers. No one had asked me to help in the sit down strike and I never took any part in it at all. I had once said that I would never picket any union. I think that the miners went out voluntarily to the mine to picket it and that they were not forced to go out and be there.

"I read in the papers about the Federal injunction being gotten out but I was not out at Mine B and don't know anything else about it.

"I did not know anything about the nine being reopened in Dec. 1937.

"I did not vote at the first NIRB election and don't know anything about it at all. I think was sick then so did not vote.

went out later when they opened for good. I read that PIL won the first election and I don't know why EISHOFF would not sign a contract with PIL. I took no active interest in union affairs in 1936 or 1939 till line B reopened.

"In the fall of 1939 I received a registered letter from Mine B telling me to come back to work and I did and I was told that they would call me later on and they put my name down on alist. I saw FALCETTI and he did not ask me what union I belonged but I think he knew I was a member in good standing of ULT. A month or 6 weeks leter the paymaster stopped at my house and told me to come out and then I had to by new tools as my old ones were lost in one of the cade-ins. I could not get any tools then

take much interest in mine matters. It was an open shop when I went back, and no one told us why it was that way, and nothing was said about the wage scale. I went back with UML. The PM, and UML miners got along alright in the mine there when I went back to work. There was quite a few new UML men in the mine B from Indiana and other states but I heard that these new men were not allowed to vote in the next MIRB election as they were not there long enough. Nobody asked me to sign any membership cards in 1940. I had heard that LEE B.UMG.RIMER, UML, and

had a fight at line B but I never saw it but I think it was not over union natters but was a personal fight.

625

was a FMA man and he was supposed to have been beaten up by BAUMBERTNER, Otherwise I never saw or heard of any fights between UTS, and PMA men except one morning there was some difficulty in the wash room I recall.

"In Feb. 1941 I voted at the NIPB election at the Armory in Springfield, Illinois and I voted for UNA. It was a good and fair election. I was not told how to vote and voted for UNA because I like them better than PMA.

"I think that many of the PH men voted for UNI because they were not getting any benefits from PM and I don't think the PM officials were taking much interest in the Tago scale matters. I feel that the miners were sick of the strike and voted for UNI to get it over with.

"I don't know what conditions the mine was in in 1939. In Oct. 1940 they were still trying to open up places in line B. I don't know of any fire while the mine was closed down.

"I don't know why GL SCOT was kicked out and I did not attend any meeting when he talked about money.

There was some gossip around that IEMS and the Peabody mine were giving ELSHOFF money but that was gossip. I never heard anything around UNI offices that this was so or ture.

"I have read over this 3 page statement and it is true and correct and I have signed it of my own free will and no threats or promises have been made me.

Special Agent, FBI, St. Paul, Minn. Special agent, FBI, Milwaukee, Wis.

G

Re: JOHN L. LEWIS, ET AL

670

HIE WINETH

The following investigation was conducted by Special Agents and and at Springfield, Illinois on August 31, 1945.

At the Springfield Field Division Agents interviewed the advised he has never been arrested in his life.

It was noted that is rather intelligent and seemed to have a good knowledge as to what went on at line B. He advised he had no objections to testify in Court if he were needed and it is felt he would make a good witness if his testimony is necessary.

gave Agents the following signed statement:

*Springfield, Ill. August 31, 1943

give the following statement to make and who are known to me to be Spec. Agents of the F. B. I. No threats or promises whatever have been made to be

Ty address is

first went to work in what is now mine 8 about years ago. I have been working the last years as I quit there about months ago because

"I am a citizen of the U.S. born in first joined U.M." in Spring. in and belonged to that union up to 1932.

"Prior to 1932 I knew of no trouble between Elshoff and the U.P.W. The reason for the miners going from U.P.W. to P.R.A. as I recall it was due to Lewis having reportedly stolen the votes on the wage cut question. I went over at this time because most of the others did.

"Under the Pallah. between 1932 and 1937, the Pallah, and the mine officials got along oak, so far as I know. In this period I never heard Falscetti or Elshoff make any statement indicating they favored one union over the other, as far as I know they were neutral.

"Under the P.M.A. from 1932 to 1937, as far as I know the

670

P.M.A. officials were doing alright. I don't know of any force being used to keep the men in the . P.M.A. in line. I never did go a whole lot to Union meetings. I did attend some towards the

last.

"It is my belief and the general opinion that the P.M.A. miners convicted of the bombings were not guilty but had been framed by the U.I.V.

"I dont rember all about the money but as far as I was concerned it was all o.k. The local P.H.A. was run by the men, there was no clique that was running things that I recall.

*Between 1932 and 1937 I don't remember the U.M.W. picketing the mine or bothering the men any way. I saw no literature or leaflets distributed by U.M.W. I don't know whether the alleged U.M.W. spies were active in this period or not if they were it was down below and I was always on top.

"I never heard of Er. Elshoff giving any parties in Springfield or Chicago for U.M.V. officials or men. I have heard that he gives parties but I never did know who they were for.

whatever the wage scale was it would be retroactive to April the first. I was told this by P.M.A. officials, I don't think there was any feeling at this time that the P.M.A. wouldn't be able to get as good a contract as U.M.*. In April 1937 there was some talk around wondering whether they would get back pay but nothing serious happend. The management never talked to me about what its attitude towards dealing with P.M.A. was but as we went on to the time of the strike the men began to feel that Elshoff wasn't going to deal with P.M.A.

expelled. I heard about this neeting where the so-called spies were expelled. I heard about this neeting before it h-ppened but did not go. The next morning when I came to work I heard about thise men having been expelled and that the Co. would not fire them. The men felt the position of the Co. was wrong. I remember Joe Albanose, James Hale, Andrew Schrelevious, Domonic Pasquale, Pete Carter, Frank Austin, Tony Plotch, John Anahias, John Sirtout, Geo. & Emory Jacaway, & Chas. Bohanan as being the troublesome group at the mine some of these were the ones expelled at this time. I know the men were not satisfied over wages but I thing the real reason for the trouble wase the Cos. refusal to fire these men. I rember some of the cars being loaded short on Pay 12, 1937, I dont know why this was, whether it was on account of wages or over the firing of these men. This one

67c. 620

DATERVIEW WITH

day is the only time I knew this happen__.

afternoon of May 12, called the men out on strike. I dont know exactly what the reason was whether it was because of the spies or because of wages. I dont recall what petitions I signed during the summer of 1937 I do think I signed several such petitions, but I dont know where. Any petition I signed was for P.M.A. and was signed under no compulsion and of my own free will.

"I heard of a U.I.V. local being formed the summer of 1937, no one came to me at that time to get me to join.

"I dont recall anything unusual happening during the summer of 1937, no body bothered me.

I was at the mine the morning the sit-down strike started. I heard of this through the papers. I went out and asked if there was any work that day and he said "yes, if you belong to U.M.W." I rember that on this day only a few men went to work these were some of those so-called U.M... men or spies. After the Frogressives found shitthat no one could work unless they were U.M.W. the P.M.A. men decided that if they couldn't work no one could. I was at the mine most of the time during the sit-down there was no fights or trouble while I was there, we just stayed there to protect our jobs. I don't know of any one but local men taking part in this. Nost of the men carried canes or clubs, no guns that I know of. We were there of our own free will be could come and go as we wanted. We were not bothered by any U.M.W. men at all. I was there the night the U.S. Farshall cane out and read the injunction. The miners left peacefully, but sort of felt they should have been allowed to stay there.

"I dont know whether I went to the mine when they tried to open it Lec. 13, 1937 or not.

*I voted at the N.L.R.B. election Dec. 15, 1937, we met at the Hall and went down in a group. To body forced me to vote one way or another and as far as I know it was a good honest election. I voted for F.I.A.

"I dont remember anything imprening of unusual nature between the time of the election and the time the mine respende.

"I got a registered letter telling me the mine was to reopen and I was there the first day it opened, I don't remember any time limit to report. When I reported to go back to work I saw Falscetti JOHN L. LEVIS, ET AL

670 670

INTERVIEW WITH

who told me to come out the next day if I wanted to
go back to work. I returned to work the next day and
worked up until

I knew nothing about
the wage scale at this time but assumed it would be
the regular Ill. wage scale. At first nobody said
anything to me a out joining the U.L.T. I didn't

pay any dues to either Union at this time. Both unions sent men to my house to see me about joining. A fellow named came to ask me to stay with F.M.A. he didn't beat or threaten me at all. This was just before the 2nd N.L.R.B. election, he wanted me to stay with the Frogressives but I told him. "It didn't seem no use." Bungarner a F.M.A. man who changed over to organizing for U.M.W. came to see me about changing over to U.M.W. and I told him I might just as well. He didn't beat or threaten me. I went over to U.M.W. because it seemed as though they had the majority over there anyway. After the strike when I returned to work I saw a lot of new U.M.W. men there. A few of them are still there but most are all gone now.

"So far as I know it always seemed it didn't make any difference to the management which union was in the mine.

"I dont recall signing any cards for either U.L.V. or P.M.A. from the time I went back to work up until I joined the U.K.V. I joined the U.L.V. sometime prior to the last N.L.R.B. election I dont know just how long this was.

"I voted in the last N.L.R.B. election and voted for U.H.W. I voted for U.H.W. because I felt that the progressives wasn't getting no where. I voted of my own free will and the way I wanted nobody. threatened me if I did or did not vote either way. The election was by secret ballot. I believe it was a good honest election. I think most of the men voted for the U.F.W. because they felt the same way I did. The only ones that were beat up were boat after the election these were progressives that felt they could do like the U.F.W. men did and stay there without joining the V.F.W. They gave them a deadline to join the U.F.W. and if the didn't they ran them off. is one of the men who got beat he is still there he joined elter they beat him up. I dont know who beat these men up. I was a Co. men and no body bothered me.

one ned but I don't think it took any longer to put it in shape than it always did before. I don't rember hearing anything about a big fire out there while the mine was closed. I have heard of Jack Glascow but I wasn't at the meeting where they kicked him out for saying something about money.

670

INTELVIEW FITH

"I always felt the Progressives was the best outfit for the men. It was always felt that the U.L.". was paying for keeping the mine up while the strike was going on.

"I have read the foregoing 14 page statement and it is all true and correct according to my present recollection. I am therefore signing this statement freely and <u>iniatiling</u> each page thereof.

IMPLANIE: JITE

The following investigation was conducted by Special Agents and

at Springfield, Ill. on August 28, 1943.

At the residence of Springfield, Illinois, Agents interviewed him and he advised he has never been arrested in his life.

It was noted that he seemed to have a preference for UMT and in response to Agents' questions he only remembered those things which he felt would in no way be to his disadvantage. He appeared to be a shrewd with a convenient memory and is not believed that he would make a good witness.

The following signed statement was obtained from him:

Springfield, Ill., August 28, 1943

free and voluntar, statement to and who are known to me to be Special Agents of the Federal Bur au of Investigation, United States Department of Justice. No promises or threats have been made me and this statement is true and correct.

"I was born in an and came to the United States in and became a citizen around I am a coal digger at Mine B in Springfield, Ill., and have been there for about years. I first joi a coal miners union around at Springfield, Ill., and have never held years. I first joine. any union office. As far as I know those were no difficulties between Elshoff and UMI up to 1932 or so. Prior to 1932 Elshoff and UMI jot along as far as I know of. Around 1932 I joined FLA because all the other miners did and did not take any active part in the matter. It seems to me that PM. Not along with Elshoff alright between 1932 and the time the mine closes, and I don't recall of there being any strikes or other trouble between that time. I don't know if Elshoff or Falcetti ad any difficulties with PMA betwee. 1932 and 1937. I was not an active member of HTA but did pay my dues and attended only a very for meetings. Between 1932 and 1937 I believe that the FM. officials did a good job and I never was suspicious of them and they seemed to get for us miners what we wanted and I never suspecte them of doing anythin, wrong with our money or rights. I feel that those Fin members had a fair and honest trial. I don't think that UNG ever picket Hine B before the strike. Before the wine closed no one contacted me at how or at the mine to come back to UMI. I did not know of any UMI men working in Him. B who were giving information to UNI before the strike.

re: john L. leats, et al

たつこ

INTERVIEW WITE (continued)

"I heard thru gossip at Mine B something about parties being given by Elshoff and UM7 men or officials but I never attended such affair.

I recall that before the strike in 1937 something was said about wages but I never paid much attention to it as I still was getting by same wages.

"The cause of that 1937 strike was not over any was question but was baused because there were some PMA men who were doing underground or crooked work for UMT and that was the cause of the strike.

"As long as I can make a living and don't get into any trouble it doesn't matter which union I belong to. I did not go to any meeting the night before the strike but heard something later at Mine B about some spies being kicked out. I recall that on the day of the strike some of the men did not load their cars full of coal but that only happened that one day and they did it because they were mad about the spies not being fired.

"I recall of signing some setition for PMA during the summer of 1997 and can't recall if I signed any more or not. I signed it of my own free will and no one forced me to sign it.

"I remember that in swarer of 1937 UEN formed a new local and I was then asked to join it but I can't recall who asked me and I told them I would not sign up as I just stayed neutral.

"I did not take any particular activity in the strike as I did not want any trouble with anyone. From the time the mine closed in 1937 I was not out there at all until the mine opened for good except one time when PLL men forced me to go out there and help them micket. I happened to be down town one day and pat some Fin m n and I think one was another was phonetic) and they told me I should be out there and they told me to go out and I did that day and then they wanted to keep me there that night too but I had my wife phone that she was sick so I got back home. They wanted me to lay down on the cement floor of the wash room that night but I wouldn't. There was about 150 or 200 men there on the strike. There were no outsiders there in the strike, just from the local The I went out to the min, m self that day and no one forced me or took me out there, but they told me I had to go. I felt that if I didn't go out the might do some harm to me. I voted at the first NLAB for the Fig. because the were the majority and that is why I voted. It was a secret ballot. No one forced me to vote that may and I voted that way because I felt PMA was the better union. The second time I voted but I can't recall just how I voted and no one forc d me to vote anyway that time. The election seemed

re: john L. le. Is, et al

67C 620

INTERVIEW WITH (continued)

to be 0. K. according to my judgment and there did not appear to be anything crooked about the

When the mine opened in 1939 I heard in some way that the mine was going to reopen and I went out there and they put me to work right away. I don't recall getting any registered letter from Elshoff. I still was Pim. Thile I was working in Mine B there were some UM, men there from other states and they would talk to me about going back to UM, and there was one man in particular who was very nice to me and he explained how much better UM, was but they never threatened me or forced me to sign over. I joined over to UM, because almost everybody else was either UM, or was joining over so I joined too. I signed something then but don't know just what it was, but think it was a membership card. I might have signed some card too for Pim. but don't just remember.

While I was working at Min. as 7MA I used to send out clean cars of coal but still would get fined as they claimed I had dirt in the coal but I know I did not he e that dirt but I don't know who did it. It happened, once in a while to me and I heard that other men were having trouble also.

Withen I returned in 1939 there was bad air in the mine rooms. There were some cave-ins too there. I don't know anything about a fire being there in Hine b while the mine was vacant.

WAS long as no one causes me any trouble and they just let me work and don't bother me I am satisfied and I never took much interest in the strike at all.

"I can read the English language but I have desired that Agent read this two page statement to me which he has done and it is true and correct and I have signed the same."

Springriold, III., August 30, 1943.

Springfield, Ill., an making this free and voluntary statement to and and who are known to me to be Special Agents of the Federal Bureau of Investigation, United States Department of Justice. No threats or promises have been made me to give this statement.

"I was born and I came to the United States about and I am not an American citizon. I applied for first papers but they can't find where I came into this country. I worked at Mine B ever since C.RL FISHOFF took it over and I worked till . I was a coal digger there. Aroun' Illinois I joined the Uliv union but before I worked in Pennsylvania where you did not have to belong to a union. I have never hold any union office at any time. Prior to 1932 I felt that Uni was more for the company than for the minors. At that time I changed over to PM as the thers did but it didn't make any difference to me which union there was and I never helped them organize the PM, there. In 1932 when we belonged. to USI we miners felt that we should not take the cut that JOHN L. LEMIS wanted us to take. At first PM men got along pretty good with CARL EISHOFF and they were able to bargain and make contracts and I don't know of any troubles between them at all as everything seemed to be alright as far as I know. I never heard of anyone suspecting the PMA officials of doing wrong things. I went to most of the PIA neetings between 1932 and 1937 before the mine closed. The union was protty fair when I was there at Mine B. Nobedy everbody told me I had to stay with PMa and could not joine UM. I never had any opinion regarding those PMA non being sent to jail for the bondings as I never knew any· 620

thing about it. I never suspected any of the PM. INTERVIET VITH officials of stooling any money or of doing wrong things COUNTINUO. and I think that they were doing a good job. No. 1867 men ever bothered me before the mine closed. I never got any papers from Ukil before the mine closed and I never saw any UMI men picket the mine before the strike. I never knew of any spies being in the mine for UMI and I don't know anything about any parties being given by Elshoff or by UMI or anyono elso. I don't remember anything about the contract running cut in spring of 1937. Before the mine closed there was no fights or trouble at all and things were going along just like they always did. I heard that there was going to a meeting the night before the strike and I just heard it but I did not go and I don't know if it was a special or regular meeting. On the day of the strike I heard nothing about wages and I did not know of anyone hing expelled from the PMA. We got called out from Mine B but I don't know why. I recall something the day of the strike that some ears were being loaded short. As I remember it some PMA man told us to load thom short but I loaded my cars full. I recall that the trouble at the mine started because the Mine B men would

"I did not sign any petition right after the mine B closed, and I don't recall of signing any petition for either UMN or PMA. I heard something about UMN forming a new union. I also recall that while the mine was closed 3 men came to my house and wroted me to join over to UMN but I would not sign for them. One was a land the other was and I don't know who the third one was. I do not recall anything happening during the summer of 1939.

not fire some UMW men, and the strike was not caused because of wages.

If do not recall receiving any notice that the mine was to be opened in Sept. of 1937 and as I recall it I heard some of the others say the mine was to be opened. I was out at the mine for a few days during the sit-down strike, no one forced me to go, I just went to see what was going on, I stayed a couple of nights out at the mine to help gaurd the property. All of the men were local PMA men just out there to see nobody hurt the mine. There was no trouble or fights, everything was peaceful. I was at the mine the time that the U.S. Marshall came out and told us we would have to leave, when he teld us this cold us to pack up and leave, everybody packed up and left there were no fights nor nothing there.

"I don't know nothing about the attempt to open the mine on Doc. 13, 1937.

Nobody forced no or told me that I had to vote for PMA, I voted for them

67C 620

INTERVIEW VITH

because I liked that union and they were the union at the mino.

continued

"I don't romember anything about the attempt to open the mine in Jan. of 1938. From Jan. 1938 to Nov. 1939 I did not go to the mine but stayed around home most or the time. So far as I remember the only time I went to the mine during the strike was at the time of the sitdown strike.

When the mine opened in Nov. 1939 cane to my house and brought me a letter telling me I should come back to work in three days or I would loose my job. He only gave me the letter and teld no I had only three days to show up for work. He said nothing to me about joining any union. When I reported for work FALCETTI, teld no that my ream was not ready for me to work in yet and that he would let me know when I could some back to work, he never teld me when to come back to work, I had to go back from time to time to find out, I went back to work in Jan. 1940, I think.

"I don't believe that I joined the UMI until after the last NIRB election, in Feb. 1941. When I went back to work they gave no a reen that had bad air, this is the real reason that I quite last year because they wouldn't give me a room with good air. Nobedy ever threatened me or hurt me to make me join the UMI, but my tools were stolen. I believe this was done by one of the UMI men hired there those men had no tools of there own in many cases. This was before I joined the UMI. I have had my tools stolen on three occasions altegether, all three of these times were before the last NIRB election. It is my belief that the UMI pen felt

of the nine officials say anything to indicate that they favored one union over the other. I do not remember having signed any membership cards for either union during the summer of 1940.

I voted at the second NIRB election and again voted for the PMA. I did this because I felt this to be the best union. I think that the UMI we not the election because there were new new brought into the mine, I saw several men in the mine who didn't even have any tools. After the election was ever many of these men went away. In the Jan. following the election I joined the UMI, I felt I had to Join the UMI or be beat, no one threatened to beat me but I had heard of this happening to others and I joined to keep anything from happening to me. It is my opicion that enditions in the nine are werse under the UMI than they were under the PMA.

Then I returned to the mine there were a let of squeezes in it, it was in pretty bad shape. I don't know anything about any fire while the

\$70

INTERVIET TOTH

mine was closed

(continued)

"I don't know anything about the neeting at which GLaSCOI was kicked out.

"I know ANDREY SCHREVEVIOUS, DOMINIC PASQUALE, PETE CARTER.
FRANK AUSTIN, TONY PLOTCH, JOHN ANAILAS, JOHN SIRTOUT, GOERGE AND BICRY
LACALLY, CHARLES BOHANNON but I don't know the other two. TONY PLOTCH,
was one of the men I mentioned previously as having come to see me to
get me to join the UMY.

"I have had read to me this two page typewritten statement and to the best of my recollection it is all true. I am therefore signing it of my own free will.

670

INTERVIE JITH

was interviewed by Special Agents

and collected manner and seemed to have a good recollection as to the events which took place at the time of the strike and which he had personal knowledge of. speaks broken English, but seemed to grasp the meaning of questions quickly, and was very cooperative at the time of this interview. It is believed that would make a good witness to testify as to those facts set forth in the following signed statement which he executed at the time of this interview.

"August 29, 1943 Springfield, Illinois

to and both of whom have identified themselves as being Special agent, of the Federal Bureau of Investigation. No threats or promises have been made to induce me to make a statement.

about I have been a U. S. citizen since and presently reside at I started mining in about and joined the U. M. W. at that time. I started working for Mine B in about and joined the F K A at about that time. I have cover held any office in any union. Then I first started working at Mine B the union was getting along fine with the company and the union office s seemed to be good men. I never attended many of the union meetings so I cannot give much impormation as to what the union was doing.

"Before the time of the strike I had heard rumors that some of the Progressive men were acting as spies for the U. M. W. but I don't know what these men were doing befor the strike. I think that Tommy Dillon was president of our local at that time and as far as I was concerned our union was being run in a good manner. I recall some members of the Progressive being arrest d in 1956 for bombing and fighting and I know that most of the Progressive men felt that these men had been framed by the United, but can give no exact reason why we all felt they had been framed. Our union fees were about right and everyone seemed to be getting along fine. Up to the time of the strike I didn't see or hear of any jacket line being set up by the U. M. W.

I rember that I had heard all of these men were supposed to be working for

620

INTERVIEW WITH (continued)

United. I recall that our contract expired in the spring of 1937 and I heard that the company had told our union that

when a contract was signed it would be with the idea of being retroactive to April 1, 1937. I do not know anything about the activities of the 12 men mentioned during that period. I had heard that about 3 or 4 days before the strike some of the 12 men had refused to go to work and as I understand it they practically fired themselves by acting that way. I do not know anything about any union meeting the nite before the strike and I do not know exactly when the men were fired from the union.

Won the norming of the strike I went to the nine as usual and went to work in the section and most of the nen seemed to be in the pits. It the time of the strike I didn't hear any argument or discussion of wages. I do recall that about 3 or 4 days before the strike Peter Carter was talking to a group of men and asked them why they were going to work. He said he wanted to know what wages he would be getting if he went to work. I think that a lot of the nen started loading the cars short on the day of the strike and it was my idea the men were loading the cars short to get even with the company for not firing the nen. I worked the whole day until about 2:45 P. M. when we got word that our work was "all done." We didn't know anything about a strike until we got on top and somebody said a strike was on. We all went home and stayed home for several days at least. I remember signing a petition while I was at the union hall and nobody used any force to have me sign any petitions. I may have signed another petition but I can't recall the details.

"In the summer of 1937, Dominick Pasquale & Joe Albanese came to my house and later met me in the street at which time they insisted that I sign a petition for the United. I remember that they had about a dozen names on the petition. I remember that the last name on the petition was — I also saw the names of Plotch & Austin. They told me to join up with United and they would get me a better job, that is that I could get a better location down below. They didn't threaten me at all, even when I told them I wouldn't sign their petition.

"In September of 1937 I went out to the mine as I heard the mine was to open. I do not remember how we were all notified, but do recall we were all set to work. I remember that we didn't start to work because Elshoff wouldn't agree to recognize Progressive as having the sole bargaing rights. I believe that a few of the United men started to work so our men set up a picket line outside the mine. I stayed out on the picket line most of the time, but we all went home when we were served with an injunction.

"I remember that a few days after the injunction was served, an attempt was made to start the mine again at which time about 12 or 14 United non started to work, but they didn't work long. I was not at the mine on that day. In December of 1937 there was an N L R B election and everything

006389

RE: JOHN L. LEVIS, ET AL

67c 67D

INTERVIEW WITH (continued)

second to be on the square at that election I didn't go to the mine much after the election in December of 1937. I remember

that Tony Plotch came to my house in the summer time and asked me why I didn't join the United. He said I would get a better "entry" at the plant. He wanted me to sign a membership card, but I told him I didn't want to so he left.

"I went back to Mine B in 1939 when the mine re opened. When I first tried to start work I was told they weren't ready for me, but I started work about 2 or three weeks after the rest had started. When I went out to the mine Oscar Falcetti told me my section had caved in and that I had no section to work in. I started working in a different section when I went back and didn't get back to my old section, for almost a year. I didn't hear any remarks about any fires.

When we went back to the Mine we worked under an "open shop" rule, but in my opinion the nem at first thought the Progressives would win out. I think Elshoff & the company showed favortism toward United, but it is pretty hard for me to give any definite information about that. It was the rumor that in order to get a job at the mine it was necessary for a new man to go to the united officials. It was the rumor that if a man saw Edmundson, Bohannon or any other united official that a man could get a jou. A lot of our men felt that there was some connection between United and the company, but none of us could prove anything.

"I have read the above statement consisting of seven pages and declare it to be true and correct. I have initialed the first six pages and have signed this, the seventh and last page."

JOHN L. LEVIS, ET AL

was interviewed by Special Agents appears to have a clear recollection of matters at Mine B and tells his story well. It is believed that he would make a satisfactory witness to testify to those matters set out in the following statement which he signeds

> "August 30, 1948 Springfield, Illinois

make the following voluntary statement to both of whom have identified themselves as being Special Agents of the Federal Bureau of Investigation. No threats or promises have been made to induce me to make a statement.

I was born in Illinois

I first started working in the mines when I was about years old and joined the U.M.W. in I have never held an office in and presently live at eny union. I started working for Kine B in and at that time I was a member of the FMA union.

has far as I was concerned, conditions at the plant were good up until the time of the strike. I used to attend most of the union meetings and we were told our contract was to expire in March and that ELSHOFF was going to renew our contract. I was told by the union that between April 1, 1937 and May 12, 1937, ELSHOFF had refused to meet with our men and agree to a new contract. Prior to the time of the strike there were no picket lines at the mine that I know of.

"I did not attend a union meeting the night before the strike and so I do not know of any action they took that night. has resalist of 12 names to me and I knew all of these men at the mine. I had heard these men were supposed to be spies for the U.M.W. and know that they were expelled from the union for not being good PMA union men. I think that it was at a regular meeting about a week tefore the strike that the 12 men mentioned were ordered expelled from the union for 99 years. I recall that one of our officers got up before the meeting & read off some charges to the effect that these men had been carrying on activities for the U.M.J. Some of the spies were at the meeting and didn't make any effort to deny the charges.

I went to work on the morning of the strike and took up my regular job as a digger in Then I got to the mine I saw about 400 men standing around and I was told that the FMA men did not want the men who had been expelled from the union to go to work with them, I had heard that these men had gone to FALCETTI and he gave them their "live check" to go to work that merning. It was my impression that none of the men wanted to work with these

6270

INTERVIEW WITH

"I recall that some of the men started sending up short loads, but I loaded all of my cars just as they were supposed to be. I believe that most of the men were sore at the company for letting the spies go to work. I also

think some of the men were sore at the company for not giving us a new contract and meeting with our officials. I think the men went on strike that day due to the spies working and also because we couldn't agree as to wages.

"I quit work at the regular time and when I got on top I was told the mine was on strike. I remember that I signed a PMA petition at the union hall. Nobody forced me to sign the petition and I signed because I wanted to go back to work.

"After the strike and in the summer of 1937, JOE ALBANESE & DOM-INIC PAS UALE came to my house and asked me to join the U.K.A. They told me that if I didn't join United I would never work at Mine B again. DOMINIC did most of the talking and said he knew I wouldn't work if I didn't sign up. I told him I was going to think it over. In that summer there were no other attempts to get me to join the UMT.

In September of 1937 I recall that there was a notice in the paper that the mine was to open, so all the men went out to the mine. Then we got out to the mine FALCETTI said the mine would only open up if U.H.W. men worked the mine. He said he wanted 50 men to go into the mine and clean up so the rest of the men could go to work. TOM DILLON, president of our local said he would furnish 50 men, but FALCETTI said, "I'm just working here the same as you fellows. I'm just under orders. I've got orders to hire only United men. FALCETTI then said for the rest of us to stand by and let those go to work that wented to. About ten or 12 men went into the mine and all of these men were the spies who had been working for United. I recall this : was about 6:30 a.m. & our men then left the mine and went to union headquarters where we held a meeting. We decided to go to work the next day and throw up a picket line so the united men couldn't go to work. About 400 of us went out to the mine the next day and the men who had worked the day before went into FALCETTI's office and didn't try to go to work. The sheriff and some of his deputies were there to see that nobody was hurt. Our men then started on a sit down strike at the mine and kept a picket line at the mine until the picket line was broken up by the injunction in Dec. of 1937. I was on picket duty off and on most of that time.

United men went to the mine and started to work. There was only about 10 or 12 men and they were the same ones who had been expelled from the union. I do not know of any notice that was given to anyone to report for work at that time & I think it was just an idea of the united men heard about these men working so our union lawyer, DOLL, had an injunction issued stopping those men from working.

670

"I recall there was an NLRB election in December of 1937, and to the best of my knowledge everything went along good. I do not know of anyone being threatened or any strong arm tactics used by either side.

In November of 1939 I received notice to report for work and so I started working again as a member of P.N.A. After, I started working in 1939 I was contacted many times by TLOTCH, AUSTIN and others and they would say, 'You'd better get right and join the U.N.W. because that's the way it's going.' It was my impression that the company was only hiring united men from 1939 on until the election in Feb. of 1941. It is my information that was one of the men hired about that time. I believe lives on a job at that time he first had to see the United man & get an OK from him and then go tell FALCETTI he was a United man. I believe also was hired in that manner.

I was working with JIMI HALE's boy and I think he had me changed to another section because we couldn't get along.

"I have read over this entire statement of seven pages, have initial ed the first six, and hereby sign this page. This statement is true to the be of my memory."

INTERVILM JITH was inter ied by Special Agents and This witness is about average in speech and intelligence. It is felt that he would be a favorable witness to testify to those matters set forth in the following statement which he executed:

"Springfield, Illinois aug. 29, 1943

and both of whom have identified themselves to me to be Special Agents of the Federal Bureau of Investigation. No threats or promises have been made to me to induce me to make this statement.

and presently reside

at

I started mining at the mine in

Springfield in about and joined the U.M.W. union in that year.

I have never held any office in the year I went to work at line B in and joined the P.M.A. union at that time. When I first started working for line B the working conditions were all right and things seemed to be going along OK.

"At the time of the strike in 1937 I was working as a digger in the South West part of the mine. I knew that there was a union meeting just a day or two before the strike, but I never paid muchattention to union activities. As far as I know all the men were getting along all right with the company. Our union officers seemed to be doing their job well and the company seemed to like our union.

"I heard talk after the strike that some of the P.M.A. men were working for the U.M.A. I also heard that the strike was over these men.

"I do not know anything about any dispute between the company and the men over wages as I never paid much attention to what the union was doing. I do not know whether the rest of our union was doing anything about wages at that time.

"On the day of the strike in 1937 I went to work as usual and remember that some of our union officers were having a talk with Falcetti in his office about some men who were supposed to be discharged. Some of these men were indy, Joe Albanese, John Sirtout, and maybe some others that I can't remember. Our officers cane out

6207C

INTERVIEW WITH

and told us to go back to work. He had all been talking about these men who were supposed to be spies for about two weeks before the strike.

"I know that in the morning on the day of the strike some of the men were loading cars short, but I don't know anything else about it. I think the men were loading the cars short to impress it on the company to discharge the men the union wanted fired. I worked all that day as usual and didn't know there was a strike until I came to the top after our work was done & somebody said we were on strike.

"I didn't go out to the mines the next day and about two weeks after the strike I signed a PMA petition to go back to work. I don't know whether some one came to my house or whether I signed the petition at the union hall. I do not know anything about any new U.M.W. local being formed in the summer of 1937 and was not approached to join it. As far as I was concerned I wanted to go back to work in the summer of 1937 but only under the Progressive. I attended some meetings in the summer of 1937 and I think that most of the men favored PMA.

"In the fall of 1937 I went out to the mine quite a bit to do picket duty and was out there when we were served with an injunction to break up. Our union leaders asked us to go out to the mines to picket so as to protect our jobs. There were no threats on violence on the part of anyone.

When the injunction was served all of the men felt the company had switched over to the U.M.W. and that Elshoff was against the Progressive. It was my idea that the company wouldn't sign a contract and recognize the progressive union so we felt the company was favoring the U.M.A.

"I heard that some of the men tried to go back to work in Dec. of 1937 but I didn't go to the mine at that time. In Dec. of 1937 the NLRB supervised an election at the armory and we all met at our hall and then marched to the armory in groups of about 15 or 20. There was no violence of any kind that I know of.

"I know that I went back to work at line B sometime after the mine opened up in November of 1939. When I went back to the mines they were operating on an open shop basis. As a rule I was one of the last to start work every day so I didn't see any fighting or any violence. I had heard that there were fights, but I didn't see any. When the company started hiring new men at this time it seemed as though the only new men hired were U.H.W. men. It was my impression that the contract of the U.M.w. was friendly with Oscar Falcetti and it seemed as the when he took a new man into Falcetti to get a job, that

Re; JOHN L. LEVIS, ET AL.

INTERVIEW WITH

man always got a job & it always seemed to turn out that he was a member of the U.M.W. I know that Bohannon was also a good friend of Falcotti.

"In my opinion all of our men felt that the new men being hired were all UM" men and that the PMM was gradually being out numbered. We could see that some of our older men were leaving and their places were being taken by UMM men. It is my opinion that a lot of money was spent by United to beat the progressives out of Pine B - I feel that the progressive union was sold out by some one.

"I have read the above statement and declare it to be true and correct to the best of my memory.

Decial Agents, F.B.I., U.S. Dep't. of Justice.

67c 670

INTERVIEW WITH

the following investigation was conducted by Special Agents

at Springfield, Illinois on August 27, 1943.

At Springfield, Illinois, Agents interfiewed in the presence of his wife, and he advised he has no criminal record.

It was noted that he was above average in intelligence among miners and that he had a fair knowledge of the affairs that occurred and he appeared to be very cooperative and truthful in his statements.

It is believed he would make a good withess.

He furnished the following three page typewritten signed statement to Agents:

Springfield, III., August 27, 1943.

this free and voluntary statement to the rederal Bureau of Investigation U. S. De.t. of Justice, and no promises or threats have been made me.

of the United States. I first joined a miners union in when I was years old. I have been unemployed since Hay 12, 1937. I have never held any union office. I worked at Hine B in Springfield, Ill. from about to 1937. Around 1932 there was a split in the United time Workers because of a cut in wages and I recall that there were 2 elections held under UNW and that the ballots were stolen and as a result of this Progressive Miners of america local was formed. I don't know at that time whether or not Mr. Carl Elshoff favored one union over the other. In 1932 I was in favor of PNW because I felt they were more honest and square and I felt that John L. Lewis was unfair to the men and that it was about time some new man should take over.

"From 1932 until May, 1937 I know of no trouble or difficulties that the management of the Mine B had with PM, and they all scened to get along alright, as far as I can remember. Betwee 1932 and when the strike began the PM officials and PM miners all get along fine and never had any difficulties and the miners never suspected that PM officials were crooked. In regard to the PM there appeared to be no leader or big shot running the show but all the miners and the officials worked together and operated the

INTERVIEW WITH (continued)

local very nicely and there never was any trouble over this matter. I favored the FML local as they were doing a lot of good

for all of us.

Between 1932 and 1937 there were about 14 men working in the line B who were FIL miners but everyone seemed to know that they were receiving money from ULT because these men were talking to the FIL miners about going over to ULT and these 14 men all seemed to have a lot of extra money and some also jot mer cars and other things. These 14 men never talked to me about swin ing back to ULT. I heard that ULT had sent out literature and pamphlets but I never saw or received any.

"In regard to the PMA members being convicted for the bombings it was the opinion of all us miners that the United Mine workers were behind that and that the PMA men convicted had nothing to do with it at all.

"I recall that andrew Schrelevious, Dominic Pasquale, Pete Carter, Frank Austin, Tony Plotch, John (Cotton) anamias, John Sirtout, Geo. and Emory Jacaway, Charles Bohannon and James Halo, were at Mine B and these are some of the 14 men I referred to above.

#I never heard or know of any parties or social affairs between B Mine officials and UMI.

Was the result of Mine B not firing Pete Carter and Frank Austin after them had been expelled from PMA and there might have been a few more who were expelled too. I did not attend the meeting when the men were expelled and I don't recall if it was a regular or special meeting. In regard to when the strike started at Mine B it was not known to us miners that there would be a strike. However, on that morning we all went to work but we did not like the idea that the management of Mine B would not fire these men who were expelled. But we worked and that evening went home and did not know that a strike would be. I learned about the men being expelled thru gossip at the mine and I learned about it the next morning.

The miners did not feel that we could get more or better benefits by changing over to UAI from PIL. There never were any coal cars being loaded short until the day of the strike when we miners saw Carter and Austin go down into the mine after the management should have fired them. This did not set well with the miners and they did not take an interest in their work because they felt that the Mine B management was favoring UMI. F.ICETTI never said anything to me as to how he felt about the MI. and UMI. If the management would have fired these expelled men there would not have been any trouble at Mine B at all.

670

INTERVIE ..IT. (continued)

"Shortly after the mine closed I recall that I signed a PMA petition which was gotten up by PMA. As I recall it I

signed this petition on the highway near Mine B but most signed up for PM... all of us signed this petition of our own free will and no force or pressure was used by anyone to make us sign and we signed the petition because we wanted PMA to be our local there.

There is signed any petition for the UNT at any time but my wife, told me then that TONY FLOTCH and another man who might have been CHARLES BOHLINGON, came to our house at a Springfield, Ill. and inquired for me and I believe that their purpose then was to see me about joining over to UNT. MY wife says that Plotch pointed some blue steel weapons at her while he sat in his car at that time.

"I recall that a short time later I signed some other petition in the Mine B coal office, and I don't recall who circulated this petition but I know I was for PML at all times.

recall that in summer of 1937 H. NEY ILLLIS, who lived on Second St., was the FML engineer at Mine B looking after the equipment even the the mine was closed. Williams was it favor of FML always and he ence told my wife and I that ULL men had once drawn guns at him at the mine and were not going to let him work unless he was on the ULL side. He told us that he finally had to quit. WILLIAMS died this last winter in Springfield, Ill. If I recall right Williams told us that one of the men was DOMINIC PASQUILE and the other was an Italian.

null don't recall of anything unusual that happened during summer of 1937 regarding this strike.

Mine By that it was goin, to open. However, HARVEY ILLLUS and who also worked at the mine, can't to us home and told me that he heard the ELSHOFF was going to reopen the mine the following morning with UH, nen and williams said that inasmuch as PM, was in control that all PM, men should be at Mine B the following morning. The following morning I rode out to Mine B with the following morning. The following morning I rode out to Mine B with the following morning. The following morning I rode out to Mine B with the following morning. The following morning all of us PM, men were there and FACETTI told us that he wanted 25 UM; men to go down into the mine to clean it up and some of those 14 men I mentioned before including FRANK AUSTIN, went down into the mine. The picketing started then the next morning after FM, had a meeting in town. The next morning no one went down and we PM fellows started to guard the property and those 12 or 13 men who went down the day before did not go down again.

672

INTERVIET WITH (continued)

"I spent quite a bit of my time at the time during this picketing and we were guarding the property as we were afraid that

UM: might come in and damage the mine property. The strike there was very orderly and it was just to protect the property. No outsiders were brot in by PM: at all as just the local PM: miners were out there. However the sheriff and his men were out there too.

"We were doing this picket work just to protect the property and our property and no one forced us to picket the place at all.

"I don't know anything about a strike in Dec. 1937. In December, 1937 I heard about NLRB goin, to hold an election at the armory in Springfield and altho I did not have to go and vote I nevertheless wanted to vote as I still felt that Pin was the best and several miners came out I voted for PM.. I have shown to agents

I went down and voted of my own free will and no one even asked me to go down and vote. As a result of this election I heard that PML won by 404 to 25. This election was by secret ballot and it was perfectly legal and nothing crooked about it and I know that the other PML men voted for PML because they believed that was the best union. About two months after the mine opened in Sept. 1939 I first received my registered letter from Mr. Elshoff offering me back my job.

then and I voted again for PM. The election was held alright but the reason UMI. Won was because I had heard thru gossip that many UMI. men were going ardound to the homes of PML and was telling them to vote for UMI and they also were given liquor and other things. I believe that the same 14 men were the ones going around. In regard to this second NLRB election the PML men had to go down to vote by certain streets.

"I have never joined the UMi.

"This 3 page statement has been read to me and my wife by Agent and it is true and correct and I have signed it of my own free will."

JTHESSES:

Special Agent, FBI, St. Paul, Minn. Special Agent, FBI, Milwaukee, Wis.

b7c b70

INTERVIEW ITH who resides in his wan home on Illinois, was interviewed at the Springfield Field Office on the norming of August 30, 1943, by and and and a lillinois. He is considered by interview-

ing agents as a good potential witness due to his above average intelligence for a minor, good appearance, and good ability to express himself. He is inclined to be verbose and state his conclusions as facts. He gave information as set forth in the following signed statement:

> "Springfield, Ill_ Lugust 30, 1943...

"My name is I make the following statement to and who have identified themselves to me to be Special gents of the federal Bureau of Investigation. No provises, threats, or consideration of any kind has been made to me to make this statement. I am willing, if necessary, to go to court and repeat any part of this statement.

"I first joined the United line Corkers in I did not go back on the Union Rolls until which I again returned to line B. I joined the Progressive! line rkors of America in 1932 when the mine went over from the Ult. At that time I went over, but did not particularly want to change unions. I changed because I wanted to follow the majority. I was not satisfied with the Pim of a at that time. The check offs were too high. I also thought that there was no sense in having two uni as. I always felt that way, and told whoover asked me about it exactly what I felt about this matter. A couple of years before the strike in 1937 this situation improved as far as the check offs were concerned, but I still manted to have only one Union. In my opinion quite a few of the mon at the mine folt the same as I did. Before the strike there were several men who had signed up with the United Mine Morkers. None of them ever talked to me, but I understand that at the time of the strike there was a majority of nen signed up with the Ulli. I do not know because I did not see the records, or tolked to the men.

"In 1932 when the PMT was formed, Elshoff seemed to favor the PMT. His favoritism seemed to follow for several years and then I noticed that he changed over to favoring the UMW. I do not recall any specific acts that occurred to favor the UMW men. There were not many of them in the mine, and he could not do too much, but it seemed as if he was favoring then again.

670

"I was not at the Union meeting the night before the election. I had seen men in groups through the mine in the days before the strike talking and arguing. They seemed to be upset over the wage scale and the contract the

the FLW had, as not giving the men as much as the UNW contract. That is
the reason that I think that many of the men had signed up with the UNW
before the strike. I did not know that there was going to be a strike.
I thought that the strike was called by the PNW officials in order to
keep the rest of the men from signing up with the UNW. I do not know
that this was the reason, because I never talked to any one about it, but
that was my opinion at the time of the strike. I did not sign any petitions
after the strike. I knew that there was a UNW local formed, but nobody
ever asked me to join this local. I was at the mine part of the time
during the picket line. I did not get there the day that it started.

"I voted at the election at the Armory in December 1937. As far as I know it was a fair election. Nobody tried to influence my vote. I voted exactly as I wanted to vote. I understand that in some of those elections men have been threatened, but I do not know that that happened at this election because I never saw anyone threatened, and did not hear anything about such a threat.

I went back to work a few days after the mine reopened in 1939. I think that there was only one time that they attempted to open the mine during all the time that it was down. That was in August, I believe, in 1937. When I went back in the mine there had been quite a few falls. Shift Number 5 was pretty badly filled up, and it took them a long time to get it back into operation. There had been no fires, and no other big cave ins at the mine, while it was closed, that I observed.

has been a Special man checking air in the day time. A man did that at night after midnight. I knew at the mine after the mine reopened. I do not know what he was supposed to be doing, but I know that I saw him with equipment that an air check man would be using. I do not know what activities were undertaken at the mine in organizing the United Nine Workers. I mm a shot fire man, and do not go down in the mine until about 1:15 PM, and do not come up until after all the man are gone. Because I was out there at different times I do not know much about what was happening at the mine, and since I did not go to Union meetings I do not know much about what was happening at the mine, and since I did not go to Union meetings I do not know much about what happened there among the men. As far as I know there was no violence at the mine. I heard that some of the men were beaten, but I did not see any. The beatings and violence that I heard about occured after the strike. I did not hear of any violence being undertaken at line B by members of the Progressive Mine workers of America, or the United Line Workers.

67C

(continued)

"I was never approached by anyone in connection with Joining either union because everyone knew my opinion.

"I have read the above statement on this page and two other pages. It is true and accurate.

Ro: JOHN L. LETIS, ET AL.

INTERVIE

On August 30, 1943,
Street, Springfield, Illinois, was interviewed by Special
Agents and at which

time he advised that he had never been arrested in his life. It was noted that he was very ignorant and would make a very poor witness. His con, read the statement to him and he signed it by an "X". then signed his name also to the statement, which is as follows:

Springfield, Ill., August 30, 1943.

This free and voluntary statement to and and who are known to me to be Special Agents of the Federal Bureau of Investigation, U.S. Department of Justice. No threats or promises have been made me.

and came to the United States about and became a citizen about years ago. I have not worked for about about about years ago or more I joined the United Mine workers at No. 2 mine in Springfield, Ill. and I never held any union office.

I worked at Mine B in Springfield, Ill. about years in all. Before PMA came in at Mine B UMN got along alright with the management. I changed over to PMA because all the others did and it did not make any difference to me as I had to work to live and it didn't matter to me which union I belonged to. No one forced me to join PMA then in 1932. I always would join whatever union most of the men belonged to. I don't know Elshoff at all as I never saw him altho I worked for him and I don't know of any trouble he may have had with anyone and I don't know anything at all about him or how he ran his mine.

me to be same as UM. or other unions as it didn't matter to me which union was in. At the mine in 1937 we were told there was no work and we all went home. I don't know why there was no work and I don't know why there was a strike. No work so everybody went home. I never signed no paper for anybody when the mine closed in 1937. Nobody ever came to my home or saw me at the mine about joining over to UM. from PMA. No one bothered me or threatened me to join over. I never was at Mine B when they had picketing or were having the sit down strike. I never went back to Mine B at all till they opened for good. I don't know about any UM. spies at the Mine B. Nobody ever bossed me there. I never voted at any National Labor Relations Board in the Armory in Springfield, Ill. I would go to PMA meetings once in a while but not all the times, as I never understood what was going on because I don't

670

INTERVIES TITH

understand English very well and I would go so they would not fine me.

(continued)

Work. Nobody wrote me nor told to go back. I went to work right away as my room was alright and there was no falls there. I don't know what kind of wage scale they had when we returned to work. I was a coal digger there. After mine B opened up I paid no dues to anyone and then later some joined UMW so I joined with them but no one forced me to join nor told me to join.

Then I went back the mine locked the same to me as it was before and I don't know if there were any cave-ins there or not. I don't know much of what was going there as I just wanted to make a living. I never went to school and don't understand things well at all so don't know what it was all about.

*I can not read the English language so I have had my son read this I page statement to me and it is true and right and as I can't write my name I have placed a cross for my name.

was interviewed at his residence, on the morning of August 28, 1943, by Special Agents and

was born in He is a naturalized American citizen. He has been in the mines most of his life. He is presently employed at Panther Creek Kine #5. is not considered to be a good potential witness due to an extremely difficult accent, a rather dulled mentality, and an obnoxious appearance. He could only recall events which excited him.

The following is a signed statement obtained from

"Springfield, Ill. August 28, 1943.

My name is _I make the following statement to , who have identified themselves and to me to be Special Agents of the Federal Bureau of Investigation. No promises threats, or consideration of any kind has been made to me to get me to make this statement. I am willing, if necessary to go to court to repeat this statement.

"I have been mining since In 932 I joined the Progressive Mine Workers of America. I was glad to be able to join the Progressives then: I was not working at Mine B then, and did not go to Mine B until I was a member of the Progressives all the time and liked that union. I am still a member of the Progressives. I do not want to join the United Mine Workers. I have never wanted to join the United Mine Workers since I have belonged to the Progressives.

"Before the strike at Mine B in 1937 things went along pretty well. Everybody liked the Progressive Mine Workers, and the officers of local #54. The only people I knew of who were complaining about the Union were 12 men who the union kicked out. We had a strike because the mine managers would not fire these men who had been kicked out of the Union. I went out and stayed at the mine for two or three months until the Marshall came with an injuction and we left. I voted in the election which was held a few days after the injunction. It was a fair election. No one told me how to vote. I voted just as I pleased. There was no trouble at all.

When we went back to the mine after the strike, there were a few falls. They lost box #5. They still have not fixed that part, as far as I know. The men who were supposed to be working in Box 5 who were Progressives were given bad jobs in other part of the mine, but the men who were United Line Workers got good jobs in the other parts of the mine. There were a lot of men hired at the mine who were supposed to be timberman, JOHN L. LEWIS, ET AL.

INTERVIEW WITH

(continued)

or something else, but they did not work, and just went around the mine talking to people. Another was was named

Another was

supposed to go around the mine checking the air. The company never had a man to do that before the strike.

"After the strike I was asked many times to join the United Mine I did not want to join and told the men that I would not. Joe asked me to join the United Mine Workers. Albanese and also asked me to join the United Mine anc argued with me about it in my room, norkers many times. and one day he hit me in the jaw and told me that he would kill me if I did not quit saying things about him. Someone told me that I would have to join the United Mine workers if I was going to stay and work at that mine. I told them that I did not want to join the United Mine workers, and if they did not want me at kine B I would quit. I could have kept my job at kine B if I had joined the United Mine workers. promised me good room if I would come back and join the United Mine workers. I quit at Mine B because I did not want to join the United Mine Workers, and wanted to stay as a Progressive.

"I was never dissatisfied with the Progressive Mine Workers. of the men in the PMN of A treated me mean or threatened me. I always voted in all the elections exactly as I manted to vote.

"I have read the above statement on this page and two other pages. It is all true and accurate and I am willing to go to court if necessary and repeat any part of this statement.

Ill., August 51, 1945.

to and whom I know to be Special Agents of the Federal Bureau of Investigation, no force, threats or promises have been made in obtaining this statement and I know that what I may say may be used in a court of law.

"I was born in emmigrated to the U. S. in I am a citizen of the U. S. which citizenship was derived through my rather

"I have never held an office in any union.

"In 1932 I was a member of a local UMT. The local UMT for some unknown reason changed to PMA so I became a member of PMA.

"Frior to the change from UMT local to PMA, Elshoff of Mine "B" seemed to have been on good relations with UNW.

"Between Sept. 1932 and May 12, 1937 there were no strikes at Mine "B" and the mine was not closed down.

"No one attempted to change me from UNT to PMA between Sept. 1932 and May 12, 1937. The management seemed to have been on good relations with PMA and the management had a good attitude toward settling grievances.

"I considered PMA a good Union and I was satisfied with PMA, no unusual special assessments were placed against me by PMA. I took no interest in union activities. I took no interest in the bombing cases and can furnish no information concerning them.

575

IPTERVIEW WITH

I do not remember a UMT picket line at Mine "B" between Sept. 1932 and May 12, 1937 nor did I see any literature being distributed at the mine.

"No one attempted to convert me from PMA to UMN prior to May 12;

"I never saw any officials of UMN associating with the Management of Mine $^{\rm HB}{}^{\rm H}$.

"I never heard about a wage scale controversy in the Spring of 1937.

"I did not attend a meeting of PMA on the night of May 11, 1937.

I do not rember if I received notice of such a meeting or not.

"On about May 12, 1937 I went to work as usual, someone told me the mine was on strike so I returned home. I do not know why the strike was called as no one told me.

"I do not recall signing any petitions in the summer of 1937.

"I know nothing of the formation of a UMN local in the Summer of 1937.

"Sometime in Sept. 1937 FMA advised me that Mine "B" was to open.
On going to the mine I was told by someone I could not work, but no reason was given. I acted as a voluntary PMA picket from time to time from Sept.
1937 to sometime in Pov. 1937 when an injunction was obtained to prevent the picketing. All the pkcets were miners at Mine "B".

"I do not know the attitude of the miners of Mine "B" concerning the injunction.

"Sometime in December 1937 I voted in the NIRB election for PMA.
So far as I know the election was fair and no violence took place during the election.

"I think I obtained a position at Mine "A" in the last part of 1937 and dropped all interest in Mine "B". I cannot furnish any information subsequent to the last part of 1937 concerning Mine "B". During the time I was employed at Mine "A" it was not owned by Elshoff.

"I am at the present a member of FMA and consider it a good union.

INTERVIEW WITH

The following investigation was conducted by Special Agents and and at

Illinois on August 29, 1948.

After making various inquiries agents located
at his residence,

Illinois, and

he advised he has never been arrested in his lile.

It is felt that would make a fair witness if called.

Ill., August 29, 1945.

free and voluntary statement to and and who are known to me to be Special Agents of the Federal Bureau of Investigation, U. S. Department of Justice. No force or promises have been made me to give this statement.

and came to U. S. when about and became a citizen thru my father many years ago. I worked at line B in Springfield, Ill., for about years and quit there about in Jan. and am now working at the

*I first joined the UN union in Ill. when I was about years old and I never have held any union office. When I started at Mine B I had to join WIN again and it was around in and as far as I know Elshoff and UN got along together. I never attended their meetings so don't know much about it. In 1932 I wanted to go to the Progressives because I knew we would get better treatment and I still say they are better than UMV. I was helping on a farm when that trouble came so didn't know much about those matters. There never was any trouble between PMA and Carl Elshoff between 1932 and the time the strike started that I know of. We PMA miners felt that the PMA officials were doing pretty good for us miners. I only attended a few meetings between 1932 and the time the mine closed down, and was not active in the PiA affairs. As far as I know everything was alright at the line B prior to 1937. I don't know nothing about the PM men being convicted for the bombings. I think PMA officials were running the union money affairs alright and I was well satisfied. I never heard of any rickets or anything else wrong between UAT and PIA prior to the time the mine closed. I don't know of any parties being given by Elshoff or U.S. I don't recall what we were told about the wage contract except we were supposed to get 10% more for 13 days but never got it. I don't know anything about the wage contracts. I attended only about two meetings in the years. As far as I know all of us miners.

67c 67D

INTERVIEW WITH

except a few were satisfied with the Progressives.

I don't recall of any complaint being made on pay days over our wages. Before the strike I was contacted in the mins several times that I should swing over to

UMW and that I would get more wages and conditions would be better. Their names were both but I can't recall their last names at all. They never threatened me at all. I never heard why Mine B would not sign a contract with PMA I don't know anything about the meeting that was held the night before the strike but I believe it was a special meeting and told me about it but I did not go to it! I did not know that there was going to a strike there at Mine and I left my tools and things all there. I was told that the strike was had because the Mine B men would not fire some expelled men and the strike was not over any wage question. I den't know anything about the cars being loaded short.

"At the mine 3 or 4 times I signed something but I just don't know what it was but I know it was in favor of PMA that I signed for and I did not sign up them for UMT. I haver was contacted to join any UMN local in 1937, and I don't know anything about it. I recall that I went out to Mine B once or twice when they tried to reopen but I don't recall what happened or how I learned about it. I stayed at Mine B a few nights when they had a sit down atrike. I was not forced to but did not bring in any outside miners at all and just the local was there and the Sheriff and his men. I was helping on farms then too so was not very active at all in thes matters and I never paid much attention to what was going on. I voted twide for NLRB elections and I voted EMA both times. I signed over to UMT because I had to in order to hold my job and I still liked PMA and voted for them both times. As far as I know the elections themselves were glright and they were by secret ballot as I recall. I did not go back to Mine B when they tried to open it again after the MLRH election the first time. I don't know why Elshoff would not sign the PM althomost of us were PMA: During fall of 1939 I received a latter from Mine B and they told me to come back to work. I went out and went to work right way. I don't recall what they asked me when I came back. I do know that they did try to hire more UMS men than PMA men. We got the union scale for wages I know but I don't know if they said anything about that to mea > ROWLGREEN (phonetic) and several others contacted me in the mine and they told me that if I didn't swing over to UMW I would not have a job. I never was beaten up not threatened. I was not bothered by the UNW men but I did hear that other PLW men were bothered a lot. Ludge" (phonetic) was another who would talk to us about goving over to the. ANDY 5CHRELEVIOUS, Pasquale, Tony Plotch, Sirtout and Charles Bohannon, who is Bowlgreen, were around and tried to get us to join over to UMW, after the mine opened in fall of 1939. There were a lot of new men

JOHN L. LEVIS, ET AL

670

(continued)

in the mine but I never knew them and they were all UNE. After the UNE, won their second election many of these men disappeared and left for other places.

everyone could see around there that the management liked UEF better. I remember something about signing some cards but I signed up for PLA. I signed over to UEF quite some time after I started back to work. We all signed over and it was after the NIRB election was held and when UEF won. I voted for PEA at that time and I was not told for whom I should vote. I think the elections were alright.

when I returned to work in fall of 1939 the whole mine could not start except box 3 and 4 and I think some of the other had cavesins. I know of several men who waited several months to get back because of the cavesins. I don't knowing anything about a fire there in B mine in 1939.

*I still was with UNE till first part of 1943 and then signed back over to FKA as I wanted to get closer to home.

Agent read the English language very well so I have had read this 2 page statement to me and it is correct as I gave it and I have signed it of my own free will and no force has been used on me.

telephone was interviewed by Special
Agents and at which time he stated he was born
and had been a U. S. citizen since He
advised that he could neither read nor write the English language.

ould not make a good witness for the reason he ices not have a good memory, could only understand questions put to him by Agents after his daughter went into long explanations in his native tongue, and for the further reason he apparently has no information of value to instant case.

furnished the following statement which he has signed with his mark, "X".

*August 26, 1943 Springfield, Illinois

and both of whom have identified themselves as being special Agents of the Federal Bureau of Investigation. No threats or promises have been made to me by these men and I desire to state the following facts:

and worked at that trade until about 1937, when I stopped working due when I first started mining in the U. M. W. was the only union at the mines. In 1932, when the P. K. A. was chosen by the men as their union, I joined the P. N. A. Before that time the dues in the U. M. W. had been very high, but the dues in the P. M. A. were much lower. Between 1932 and 1937, when the P. M. A. was the only union, things seemed to be much better at first. The dues were lower and the union saw to it that the track was laid faster and the men were more satisfied.

"During the time I was in the union, I didn't go to many of the meetings and so cannot state much with regard to union activities. I do remember being at a union meeting shortly before the strike in May of 1337 and remember some talk about a strike, but my memory is very poor. I remember signing a petition for the P. H. A as I wanted the P. M. A. to be the only union in the mine, but I cannot remember the date I signed this petition or what the petition was about.

*I joined the P. M. A. in about 1932 and have belonged to that union ever since that time. I am still a member of the union, but do not have to pay any dues since I'm not working. I have never received any threats to join any other union. I do not know anything about any members of the P M A

67c 620

Host of the conversation was made possible by his nices, noting as interpreter. His noncry is poor and he has a habit of answering any question in the affirmative. He is hard of hearing and his value as a witness is doubtful. The following statement was secured from him and signed by mark after being read and translated to him by his nices.

*Springfield, Illinois August 26, 1943

statement to and who have identified themselves as Special Agents in the Federal Bureau of Investigation.

No threats or premises have been made to me and I make this statement for the purpose of setting forth what I know concerning difficulties at Mine B.

I wont to work at lline B in about and at that time was a member of PNA. Prior to that I had worked at Panther Crock mine. I attended union meetings ence in a while, but not all the time.

On the day of the strike, in thy 1937 I remember that some men, who were UN men, wanted to go in the mine and the FM men didn't want them to. These men were Pasquale, Austin, Behannan and others that I can't remember. The strike was not about wages. PM was a good union and everything was all right when they were there.

*As I remember, I did not go into the mine on the day of the strike.

Thout two wooks after the strike I signed a petition for PM. This petition was to show the company that we wanted to go back to work under PM. I signed this petition at PM hall. I signed it because I wanted PM at the nine and not because anyone told me I had to sign it.

"I do not understand English very well and do not know what all of the trouble was about following the strike. During the strike I worked on WPA for a while. When the mine opened up I went back to

since. At the present time I am a number of the U. M. W. In 1932 I joined the P. M. A. and was a member of that group in 1937 when our men decided to strike because we heard that some of our men were working for the U. M. W. group and not our union. Some of these men were Dominick rasquale, Frank Austin, Pete Carter, Jin Hale, Charlie Bohannon. We didn't want to work with these men because we knew they were trouble makers and we told the company we wouldn't work if those men were allowed to work. I do remember that the men were talking about the back wages which they thought they had coming to them under a new agreement which the company was supposed to have signed with the union. It is my balief that the men went on strike in May of 1937 due to the fact they objected to certain men. The strike was not over money to the best of my recollection.

"I have never held an office in the union and ave not taken part in any union activities. Sometime in 1337, and before the strike in Hay, I was approached many times by Andy Schrelevious, and andy tried to get me to join the U. M. . Finally I got mad at him and chased him out of the mine with my pick. After that I wasn't bothered by Andy.

"I remember that one day in May of 1937 when we came to the surface from the pits, we were told by the eager that the plant or mine was on strik-

signed the P.M.A. petition in May 1937 but stated it had been done without coercion of any kind, but doing it because it appeared to be the wishes of the majority. It is felt that would be a favorable government witness to testify to those matters set forth in the following statement which he executed:

"Springfield, Illinois August 26, 1943.

make the following signed voluntary statement to and both of whom I know to be Special Agents in the Federal Bureau of Investigation. No threats or promises have been made to me to induce me to make this statement.

Just outside of Springfield, Illinois. At that time I joined the UMW, incomuch as that union represented the employees at Mine B and I had to join the union in order that I might work there. I never held any office in that or any other union.

"In 1932 I joined PMA because that union represented the employees at Mine B. No threats were ever made to me to join this union but I had to join it because you couldn't work at the mine if you didn't belong to the union. I never took any interest in the unions at all because I didn't intend to stay in the mines but intended to go into business for myself. I probably attended only a couple of meetings a year, just enough so that I wouldn't get fined for not attending.

"I never took part in the discussions the men had for I would get to the mine early and was usually the last one out. I paid no attention to either the affairs of the mine nor of the union.

"I also wish to say that I was never stopped or approached by anyone at the mine or at any other place in an attempt to get me to join any union.

The dues were smaller and working conditions were improved. Track was laid faster. After a while, however, conditions changed to where it was about the same as when UMN was there.

JOHN L. LEVIS, ET AL

INTERVIEW WITH

"I know nothing of any relations between hir.
Elshoff and Phy. Nothing was ever said to me
to indicate how the mine officials felt toward
Phy. I do not recall any picket lines at

Mino B nor did I over observe any organizers for UN there.

"I I do not recall any PMA mooting on the night of May 11, 1937. I went to work on the norming of May 12, 1937 as usual but I heard no discussions about wages or anything else. Sometime that morning one of the drivers came and told us that there was a strike, so I left. I later sent another follow for my check and I have never worked there since.

"I have read the above and declare it to be true and correct.

The following investigation was conducted by Special Agents and and Springfield, Illinois, on August 26, 1943.

it was ascertained that is not able to talk or understand the English language through it was ascertained that the english language.

presently is not employed at Minc F

"It was noted that both persons appeared to be very cooperative and it is felt that will make a fair vitness provided he has an interpreter to assist him.

In regard to the statement mentioned hereinafter it might be stated that the same was signed by

The statement, which was taken at the home of is as follows:

Springfield, Ill., August 26, 1943

who are known to me to be Special Agents of the Federal Fureau of Investigation, United States Department of Justice. No threats or promises have been made me and this statement is true and correct. This statement is made by me through as I don't speak english very well.

"I was born in cld and I was naturalized in the cld and I was naturalized in the cld are steed at any time.

I have never been arrested at any time.

I first joined a coal union in and I don't recall the name but it was not the United Mine Morkers. I have never held any office in any union. I have worked for Mine B for about years. I was working at Mine B prior to 1932 and I was there when they had the big trouble in 1932. I was a member of United Mine Workers then in 1932 as everyone had to be in order to work in the mines. Back in 1932 I don't know what the relationship between United Mine Workers and Mr. Elshoff was. Pack around 1932 when that split came the United Mine Torkers local broke away and formed the new Progressive Miners Local and

Re: JOFT L. LETIS, ET AL

670

this new local signed a new contract with Mr. Elshoff, operator of Mine B. I switched over because the whole town switched over to Progressive Miners. Between 1932

and 1937 it was the general feeling around Mine B that Mr. Elshoff and the management of Mine B wanted the miners to go back to United Miners Workers. Nobody approached me prior to 1937 to switch back to UMM except that it was general talk around the mine. I used to hear around Mine B that some of the men were approached to go back to UMM but I don't know who they are anymore. I liked the Progressive Mine Workers better than the UMM because we got better treatment and consideration whenever we wanted something dome. The PMM never threatened any of us nor did they ever use any violence to keep us from going back to the UMM. I was an active union member of the PMM and attended their meetings regularly. The PMM would not fine us for not attending a meeting if we had a good excuse while the United Mine Workers would fine you if you didn't attend.

The miners felt that the PMT members who were arrested for the bombings were not the guilty ones as they feld that the United Mine Torkers did the bombing and placed the blame on the FMT men. The PMT officials always made a report as to where the money went to that they got and the miners always thought it was a true report and were never suspicious that anything was wrong. If some one died a special assessment would be made and the money given to the family of the dead man. I never felt or thought that the officials of PMT were getting any kick-back of money. Between 1932 and 1937 the UMT never picketed Mine P. I don't know of any miners who were interested in getting the PMT to go back over to UMT but there were a few who did favor the UMT but I don't recall who they were.

"I recall Andrew Schrelevious, Dominic Fasquale, Pete Carter, Frank Austin, Tony Plotch, John (Citton) include, John Sirtout, the Jacardys, as being around the mine B and they tried to get the miners to change back to UMT from Plan.

"I don't know of any meetings or parties between the management of Mine B and UMT officials. It was the understanding of the miners during the spring of 1937 that Elshoff would not sign a contract with the Progressives but would sign one with the United Mine Workers. Just before the mine closed in apring of 1937 the miners knew they were working without a contract but we all were getting the same pay as we did before and there was no general feeling that we should swing over to the United Mine Workers.

"I don't recall of any temperary slow downs or stoppages during the spring of 1937 just before the mine closed down. Just before the mine closed in 1937 the above mentioned men continued to talk to different miners about changing over to the United Mine Torkers from the PMT. None of them personally talked to me but I heard that they talked to other miners. I don't recall anything about the attitude of the management of

(

006423

Re: JOHN L. LEWIS, ET AL

500 620

Mine B on the wage question at Mine B during 1937. In regard to the meeting held just before the mine closed I think it was a special meeting and not a regular meeting and I do recall the something about some

members being expelled.

"The miners at Nine B did not like the idea at all that the management refused to fire the 5 expelled men as the Progressives were the local there and not the UMM. The miners learned the story of the 5 by general talk around the mines. I don't recall of any coal cars being loaded short on the morning of the strike in May, 1937. The miners were all interested in getting that contract signed in May, 1937 and when the management refused to fire those 5 men that brot the blow off.

"During May, 1937 I signed a PMN petetion at the moeting hall of PMN and the PMN officials said they wanted the petition to show the management of Mine B that they had a majority. I went to the hall and signed the petition because I was with the Progressives and no one forced me to sign it.

"During the summer of 1937 I heard something about a UMN petition but I nover signed it and never saw it but a fellow named (phonetic) asked me to sign it but I didn't. I don't know of any force or threats being used by anyone in regard to the UMN petition being signed.

"I don't recall anything about an unknown potition in 1937 but I do recall that I also signed some petition at the mine for PMV in addition to the one I signed at the hall. The petitions I signed were all authorized ones.

"I heard that in summer of 1937 the UKS formed a local but I never was approached to join it and I never heard of anyone being beat up to join it.

"During 1937 the PMT continued to hold their meetings and they agreed not to return to work until they had a contract and the PMT members who were for the UMT did not come to the meetings.

"During the fall of 1937 I heard from other miners that line B was going to reopen and PMT held a meeting and all decided to return to work and when we got to the mine the management only allowed the UMT men to go down into the mine. We all then stayed there night and day and sat around and played cards etc. and watched the property at night so one could damage it and it kept on for about 50 or 60 days.

*No outsiders were at the mine at the strike, just the local men and their families would come out and visit them. At the PMT meeting we all agreed to picket and no one forced us to picket but we did so in order to

protect our jobs. I was not at the mine when the injunction was read to the miners but they all left peaceably, and the picketing was over with.

"After the injunction was issued I heard the mine was to reopen but I did not show up there at all, as I thought there might be trouble.

"In regard to the election in Dec. 1937 all the members met at PME headquarters and went in groups of 25 or so over to the armory and voted just as when one votes for the President. We force was used and it was a regular good election, and all of us voted of our own free will. Afterwards we all told our PME officials just how we voted so they could check to see if the figures were correct. The results of that election were the feelings of the miners.

"After the election in 1937 I did not go back to the mine in 1936 when it was re-opened. The members of PMW all wondered how Elshoff could keep the mine closed. Then Mine B reopened in 1939 I received a registered letter from the Mina telling me to come back to work and and I did return and at that time I still belonged to PMT. I was told that the wage scale would be the same as it was in the State of Illinois. We went back as an open shop. After we get the registered letters PAT had a meeting and it was decided best that all return to work otherwise they would lose their jobs After we returned to work UMT mon came around and talked to us and it was noted that UNIV men were treated better than the PNN men as they were given better rooms to work in and were treated better. The management of the Kine B did not come out openly and favor the UMF, but it was noted that UNE organizers were given a free hand and could do anything they desired. I was contacted muny times at Nine B to sign over to UNIV and about 3 times different UMV men came to my home and finally I had to sign over to UMV as I did not want to see any trouble start and I had to work in order to make a living and I did not want to lose my job. I cant' recall the names of those who came to my home. I don't remember signing a card for PMT but I may have. I signed over to UNT because the others were doing so and it was more safe that way. I had heard different stories of PMW men getting beat up because they would not sign over and I didn't want to get beat up. These men who contacted me never threatened me at all.

"In regard to MIRE election in 1941 it was run off like the other one but there was a lot of new faces as new men were being employed at Mine B from other places. The PMN men did not like this second election as they had held their first one and wen and did not like the idea of having another one and by that time many PMN had quit and taken other jobs

Re: JOHN L. LEWIS, ET AL

and therefore the ULW men won the election and the former PhW men who had switched over to ULW voted ULW as they did not want any trouble.

"If I had my choice I would go back to the PMM. I have been at line B until fall of 1942 when I was hurt and new plan to go back in week or so.

"I have furnished this information thru and inasmuch as I can't read English has read the same for me and he says it contains what I have said and I have signed my name on this 3 page statement.

was interviewed at his hone at Springfield, Illinois by Special Agents

and on August 31, 1943.

advised that he had no criminal record and was never arrested.

cannot understand the inglish language ery well and had some trouble in understanding the questions. However, he was very co
operative and appeared to be honest. It is felt that he would make a good witness if his testimony were necessary, although he would be hard to question except through an interpreter

In the presence of gave Agents a two page signed typewritten statement which he signed and initialed, and which is as follows:

Springfield, Ill., august 31, 1943.

"I, Springfield. Ill., and making this free and voluntary statement to and who are know to me to be Special Agents of the Federal Bureau of Investigation, United States Department of Justice. No threats or promises have been made me to give this statement.

"I have been at line A for over two years now. I was born and came to U.S. in and in became a citizen at Springfield, Ill. In Penn. in joined UM/ union and have never held any union office. Around line and when they had the trouble 1932 I worked at th. there I went over to PMA and then went to work at Mine B some time later. Pik was the union at Mine B when I went there. PMk officials and management of line B got along as far as I know and conditions were alright for us miners then. I don't know of any trouble at Hine B before it closed down in 1937. I never heard the management of line B say they wanted UM instead of PML. East of us PM, non got along fine with the PM, officials except for a small gang in there who liked UNA. PMA officials did not beat us up to keep us in the union. I attended PM, meetings quiet regularly prior to 1937 when mine closed. I felt that PMA men convicted in the bombings were not guilty and that Ulfi men did it but placed blame on the PM nen. The PM officials were alright as far as I was concerned and they were all right. Bafore time B closed in 1937 no one asked me to join over to Uffinor did I see any literat re or papers. I heard talk at Mine B about some men trying to get others back over to UM but I never saw it.

Re: JOHN L. LEWIS, ET AL.

(Continued)

I don't know anything about any parties being given by management of !ine B and the WII. The PRE officials at meetings told us about the contract running out and

told us to keep on working and as I recall it? had some agreement with Elshoff about it. About 6 or 7 men wanted to go over to Uni from the Planen and I recall that some of the ones who wanted to go over to ULW was Joe Albanese, Andrew Schrolevious, Dominic Pasqualc, Pete Carter, Frank Austin, Tony Plotch, Cotton Annias, several of the Sirtouts, the Jacaways, Charles Bohannon and Jir Hale and everybody said they were getting paid by Uill then. Quite some time later Schrelevious told me that he had been getting paid by UN to help them out and he said he was looking out for hirself. I recall that he bought a nice new car at that time. Nobody like him now. Before the mine closed I don't recall of anyone hollering about their pay on pay days. Things were alright at the mine to my recollection just before the mine closed. The above men were trying to split up the PIL before the mine closed. Unile at one of the meetings of PIA just before the mine closed Pasquale talked about going over to UM. and I talked back to him and he told me to come out in front and he would shoot me. I never heard anything from the management about the wage question. There was no big trouble over wages before the strike came. The night before the strike came I attended a necting which was a regular meeting and they expelled some 5 or so men as being spies for ULL. We all felt they had been spies. They were some of the ones whose names are mentioned above. Some one made a motion after a committee made their report and the men voted on it and ordered them kicked out. I think the company refused to put about \$200.00 in fines on them. These 5 men did not say anything and they were at the meeting.

"The company would not fire these men and that was why the strike started. The rerning of the strike the Per officials told us not to load full cars and that was once when Pil did wrong and I told then then too they were wrong and they did that because the company would not fire those 5 men.

"I think I signed a Pin petition a short time after the mine closed and I signed it and no one forced me too. They wanted their own union so that was why they got up the petition. I signed it out at the mine on the riad. I never signed a Olf, petition that sugger and no one asked me to do its I can't recall if I signed another Pin petition or not, that sugger. I did not sign up with Unf. and just heard they formed a new local. Pething unusual happened during sugger of 1937. I recall that about the time of the sit down strike the Woman's auxiliary of Pin picketed the home of Elshoff.

INTERVIEW .ITH "In fall of 1937 I went out to line B and think went to work with the rest of the PL. men but I can't (Continued) semember just right. We heard the company was going to

give the contract to UM, so we PM, started a sit down strike. Louis Gold, the Sheriff, was out there. I remember that I just went down for I day and I loaded the coal I had already shot and got my clothes and tools and then the strike started. PM did not bring in any outsiders and no UM, men came around either. I was at the strike all the time. I was not there when the Marshall came and when I got there he had been there already. There was no trouble there then. The miners did not like it.

"Every time they start mine I go back but when they got contract with UM. I took my tools and left. I work in line A now but we are under UM. but if there was an election today most of them would vote for PM again.

"I think I was out at the Line in Dec. 1937 but am not sure. I think the notice was in the paper.

"I voted at the first MIRB election and we won and I voted for PM.. It was by secret ballet and it was a honest and good election and no force was used on me or anyone else. Then I heard the nine was going to be opened as UM. I did not go out at all.

"I don't know why lshoff did not sign a contract then. I think Elshoff did not want Pik, back as he could not boss them while with UMI, right today even, it is nothing but a company union as he can do what he wants to

Then line B opened I worked one day and loaded my coal and got my tools and left. It was this time when I went down and not before. It was when the mire opened for good. I have never been back to line B since. I got a registered letter then to go back to work. Falcetti did not say anything to me. Int end of day I told Falcetti I was leaving and he said I don't blame you.

"Right after them I went to work at line ... I did not vote at the next NLRB election. I heard that the mine brot in a lot of new Uni men and they voted for Uni then and that is how they won the second election.

Then I started to work in line .. it was PM, but then later on when blackff bot it and I was told that I would hate to become UM, or quit the mine. Some John L. Lewis duys, game in and told me that at the mine. I signed over to UM; but still even/today I like PM, better because they do more for the labor man. UM, there is nothing but a company union.

INTERVIEW WITH

The following investigation was conducted by Special Agents and and at Springfield, Illinois, on August 26, 1943.

Agents interviewed at his home, Street, Springfield, Illinois, in the presence of his wife and daughter and he advised he has no criminal record. He appeared to be very cooperative and seemed to be well versed with union activities. He also appeared to be honest and unbiased and is believed to be an individual who would make a very good witness.

The following signed statement was obtained from

"I, Springfield, Ill., phone am making this free and voluntary statement to who are known to me to Special Agents of the rederal Burcau of Investigation, United States Department of Justice. No threats or promises have been made me and this statement is true and correct.

"I was born in and bocame a citizen through my father when I was about I years of age. In I joined the United Mine Workers Union at Pittsburgh, Kansas and was a member till 1932 when I joined the Progressive Mine Workers of America. Between and 1932, off and on, I was a member of the Pit Committee. I have been with Mine B for about years and worked there in 1932. In 1932 I joined the Progressive because I was not getting any benefits from the UMW, and my sister nover got any death benefits for the death of her husband. In 1932 I went with PMA when they had their vote but I had nothing to do with its election. Between 1932 and 1937 I have no knowledge as to whether or Elshoff favored one union over another.

There was no trouble at Mine B from 1932 to 1937. During this time everyone was satisfasied with PAA and no one tried to cause them any trouble. Between 1932 and 1937 I know of no attempts of anyone to try to swing the men back to UMW from PAA. I and others thought that the PMA leaders were honest and that it was not being run by wrong men. The PMA was run then by the members and not by a few picked men. Between 1932 and 1937 I was active in the PMA union and did attend some of their meetings. I still don't think that all of those PMA men were guilty of those bombings and this was the general feeling among the members. PMA officials always made an honest report of dues, assessments etc. and we always know where all the money went to. I never suspected any PMA officials as being crooks or making pay-offs to outsiders.

INTERVIE: JITH

"During the period 1932 to 1937 when the Mine B closed UNN persons did picket the mine on different occasions. On several times UNN men did bring out literature but they were kicked out from the mine. Even the PMA had

control over the mine UMV men were allowed to come into the mine and they talked to PMA men and tried to have them join the UMV. These mon were imported as they were strangers.

"I know JOE ALEANESE, Andrew Schrelevious, Dominic Pasquale, Pete Carter, Frank Austin, Tony Plotch, John (Cotton) Ananias, John Sirtout (he is now in U.S. Army), Geo. Jacaway, Emory Jacaway, Charles Bohannon and James Hale as being men who worked at Mine B and although they were members of Fig. the rumor and gossip around the mine was that all of them were being paid by U.W., and were telling U.M. what was going on among the PMA men. They never contacted me regarding my changing over as they knew that I did not like them or U.W.. I don't know of any relations between management of Mine E and U.W..

men should continue to work on altho the contract had expired and and that if there would be any increase it would be paid back and that we would continue to get the same wage were were getting.

"We felt that there would be no advantage in going over to UMW from PM: because of pay or wage adjustments. Altho we were working without a contract in April, 1937, all miners were satisfied with their wages and no one complained about them and there were no slow downs or stoppages there at that time either.

"Before the Mine B shut down in spring of 1937 the above mentioned men would go around and talk with the PMA miners and tell them to join the UMA and also teld them that if they were discharged from Mine B they could not get work at any mines. At various times some of them would ask me when I was going to join the UMA and I teld them to stay away from me as I was old enough to make up my mind but I did see them talk to other miners.

"The management of B line never told us how they stood on the wage question and our PM1 officials would tell us that they hoped to get everything settled soon.

"I recall that in May, 1937 PMA held a regular meeting and I attended the meeting which was attended by a large group and at this meeting they expeled five of the above mentioned persons. FMA officials told us that those men were trouble makers and that was why they were being expeled and a standing vote was taken and they were expeled. We were told that these five men were trying to keep men from going to work in the mine. Some of the expeled men were at the meeting but they had nothing to say.

Ro: JOHN L. LEWIS, ET AL

670

INTERVIEW WITH

"On the day of the strike we all thought that we would get an increase and it was on a pay day but when we got paid we were told we would get the same old rate. We were told this by our PMA officials. Also a majority of the men

knew about the 5 members being expeled and inasmuch as Mine B was a closed shop the management should have fired them. I and other miners felt that inasmuch as these five were expeled they should be fired. We heard that the management would not fire them but they were afraid to come out and stayed in the office of the management all day and late that afternoon the Sheriff came out and assisted them in leaving the mine property. On this same time and day I saw some coal cars in the mine that were partly loaded and the men who were loading these cars teld me that the drivers would come along and take the cars away before they were fulled loaded. Some of the drivers then were in favor of the United and were against the PMA. My car was loaded the same as usual the. There was not any talk at all that day about going out on strike and when I came up out of the mine I figured I would be back the next day and I left all my tools in the mine.

"The strike was called because the management would not fire those 5 expeled men and everyone thought the strike would last only a few days or so and it was not caused over any wages. I and others were satisfied with our old wages even the we did not get any increase.

"Shortly after the mine closed in May, 1937 I signed a petition for the PMA, which was given by the PMA officials and I signed this at the meeting hall and as I recall it the FMA official was going to take that petition to Washington, D. C. I and no other miner was threatened by anyone to sign this petition and we all signed it of our own free and wanted PMA to be our local there and not the UMW. During the summer of 1937 I heard that UMW had a petition out but I was not personally contacted as I had said before to them to stay away from me but I heard they went around to homes of miners with the petition.

"I don't recall about another petition in summer of 1937. I recall that in summer of 1937 UND formed a new local but I never was asked to join it at all. However, some time prior to the opening of the mine in 1939 Tony Plotch came to my home and asked me why I didn't join the UMD. He did not threaten me at all but just told me I ought to join.

"During summer of 1937, after the mine closed I never heard anything about any fights or of anyone being threatened to do something.

"During fall of 1937 I received a notice from Mine B that the mine was going to reopen and it also appeared in the paper. I went out but never went down into the mine. The follows mentioned before I saw at Mine B and they went down into the mines to work so no PMA went down to work and

Re: JOHN L. LEWIS, ET AL

boc 620

INTERVIET WITH

and the PMA did not hold any moeting as to what action should be taken. About the day after at about 1 o'clock in the night the sit down strike started. Some PMA committeeman phoned me to get to the mine at once as about

150 UMW were coming in to take over our jobs and I went down to Mine B. I heard that the 150 men were met by deputy sheriffs at Big Lake and never were allowed to get into town. PMA did not bring in any outsiders at all to help with the strike and it was all done just by local PMA members. We all had this sit down strike to protect our own jobs and we all did it of our own free will as we all lived here in Springfield, Ill. and did not want outsiders to come in and take our jobs away. It was a very quiet strike and the sheriff was out there and I was there most of the time and we walked around for 2 hours to watch the property. We guarded the Mine B property as we did not want anything to happen to the mine as we wanted our jobs and also we did not want PMA blamed for anything. Several men were caught coming onto the property and they were turned over to the sheriff. The U. S. Marshall came out after about two months and read something to us and told us to leave peacebly and we told him we would and that we were just protecting the property.

"I did not know anything about the mine supposed to be opening again in few days. Our men were told by the Marshall that no one would work at the place and that when it reopened we would be notified.

"During Dec. 1937 the National Labor Relation Board held an election in the armory in Springfield, Ill. and it was held by secret ballot and was held under supervision of NLRB. We met at the meeting hall and went over to the armory in groups and voted. PMA officials did not force us how to vote and we also voted the way we wanted to and it was a regular election. I and others all felt that the election was not crooked at all and that it was a regular election.

"In Jan. 1938 I never received any notice that Mine B would reopen and some clerks from Mine B dropped in at the house and tried to feel me out in regard to returning there without a contract.

"Altho PMM was the bargaining agent from Jan. 1938 until Sept.
1939 I have no knowledge or information as to why Er. Elshoff refused to deal
with PMA. I feel that he must have had a strong reason for refusing to
deal with PMA. It was the gossip that UMD were paying Mr. Elshoff and that
was how he was able to keep the mine closed.

"About a month or so after the mine reopened in 1939 there was some dispute as to whother PMA or UNF was to get the check off money and Ir. Elshoff turned it back to the miners instead of giving it to the unions.
