Subject: Telemarketers
To Whom It May Concern:

I would like to voice my concern about the above-mentioned and that they should be outlawed completely.

But since that is not going to happen then make them pay a big hefty price for them to have a list and this should also include the candidates for all public offices from the United States President down to the local city government and all non profit organizations. This includes the Republican, Democrat, Red Cross, Etc.

If this cannot be done then I strongly suggest that another rule be made that ALL TELEMARKETERS (and I mean all) be mandated (required) to have their name and telephone number to show up on Caller ID on all telephones (including cellphones) everywhere in the United States. Also this includes telemarketers **not** to leave a message on your answering service because this take time off your cellphone when checking for **important** messages.

I don't appreciate getting 4 to 5 calls a day on average (I have keep track several different times) and this includes Saturdays and Sundays year around. It is very annoying to get disturbed while eating my Sunday dinner from a politicians or from a credit outfit that says that they have all of my credit card balances and want me to combine them when I don't even have any outstanding balances. This even happens late on Sunday evenings and holidays.

I could go on with more war stories but I believe you got my point.

Thank you for your time and consideration

I may be contacted at the below information if you would like to verify anything
