SUMMARY OF ACTION ITEMS FROM JANUARY 2001 QUARTERLY MEETING

Wednesday – January 17

Introduction – No specific action items

ILTSF Closure – INEEL will submit letter for notice of intent to close unit

WCF Post-Closure – DEQ will contact Susan Evans to set up a meeting to further discuss this topic and the INEEL submittal

BNFL/AMWTF – BNFL will submit position papers to the DEQ regarding: 1) the conveyor staging area for TSA Pad 2, and 2) a box opening facility and the associated sorting/sizing activities prior to processing in the AMWTF

VCO Topics – No specific action items

Domestic sewage exclusion for BBWI-controlled septic systems – DEQ agreed that the domestic sewage exclusion was a valid exclusion and could be used at INEEL with the caution that we are able to prove only sanitary wastes entered the system

Breakout Session - TRA Catch Tank Closure Plan (VCO 5.8) – DEQ will provide formal comments

EBR-II Permitting – No specific action items

SCMS/SPF Permit, Part A Update, Consent Order Closure, Inspection POCs – DEQ anticipates completing permit handoff meeting the week of February 26, ANL will be submitting Part A update mid-February, Consent Order item for shipment of P&G tanks off-site is completed

Reuse of material collected in carboys from drip trays at NWCF – INEEL will evaluate acid recycle system and provide a response to DEQ

DEQ Contact Points for Unannounced Inspections – Item was deleted from agenda

Treatment in SAAs – DEQ will respond to position paper previously submitted by INEEL

Organics Partitioning Comprehensive Final Report – INEEL will prepare a presentation for DEQ for mid-February regarding the content of this report

Tank Farm Closure Submittal – Meeting scheduled for Boise on January 26

Thursday January 18

INTEC Sampling project – No specific action items

Volume 14 Status – On schedule for July 1 submittal

LET&D and NWCF ETS Facility Assessment Review Status – DEQ will transmit comments upon completion of review

Volume 3 Update – DEQ wants to see an update of the document, confirmed that July 1993 is last revision

RWMC Permit – INEEL will submit modification packages at end of February, INEEL will document justification for not requiring IRT on backshift in the operating record

WROC Permit – INEEL will prepare clarifying language regarding the performance of sort/segregate activities and/or sizing in the sizing room for inclusion in the modification package scheduled for submittal end of February, (DEQ approval not required prior to performing these activities), INEEL will submit a position paper describing how unanticipated free liquids are managed in the sizing room and include in February modification package

WERF Closure – INEEL will be submitting revised closure plan by end of January

ILTSF Closure – INEEL will be submitting a Class 1 modification package for changing the closure date

NWCF Closure – INEEL submitting request for extension for response to DEQ comments, meeting scheduled for January 26th in Boise to further discuss
