Unrestricted processors. NMFS will issue an unrestricted AFA inshore processor permit to a shoreside processor or stationary floating processor if the Regional Administrator determines that the processor facility processed annually more than 2,000 mt round-weight of pollock harvested in the inshore component of the directed BSAI pollock fishery during each of 1996 and 1997.

Restricted processors. NMFS will issue a restricted AFA inshore processor permit to a shoreside processor or stationary floating processor if the Regional Administrator determines that the facility processed pollock harvested in the inshore component of the directed BSAI pollock fishery during 1996 or 1997, but did not process annually more than 2,000 mt roundweight of BSAI pollock during each of 1996 and 1997.
