TABLE OF CONTENTS

Civilian Servicing Unit (CSU) Application

Contents   This section covers the following topics:

Description   The Civilian Servicing Unit (CSU) Application provides civilian personnel data to supervisors and managers at their desktop workstations, without having to call the civilian personnel office.

- The data comes from the main civilian personnel DCPDS database and is not more than one day old.
- Additional data (payroll and leave) comes from the Defense Finance and Accounting Service (DFAS) payroll system and is updated each pay period (every two weeks).
- CSU Application users are given access to records of the employees in their organization only.
- The data in the CSU Application is the same data that is used when creating or running reports using the Oracle Discoverer Application, which is the *ad hoc* query and reporting tool used with the modern DCPDS.
- If you are familiar with the Personnel Process Improvement (PPI) Suite, CSU Application is the modern DCPDS replacement for *Regional Application*.

Logging on to the CSU Application   Procedures for logging into the **CSU** may vary; follow your local logon instructions if they vary from the following.

Step	Action
1	Double-click the **CSU** icon from your workstation's desktop.
2	On the logon screen, type your username, then [**Tab**] (or use your mouse) to the password field and type your password. Your username and password are established by the Information Systems Division, and are different for the CSU Application than for modern DCPDS.

Step	Action
3	If indicated on your local user information, [**Tab**] (or use your mouse) to move to the Database field and type the database name provided with your logon instructions.

| Logon |
| Username: |
| Password: |
| Database: |
| Connect Cancel |

| 4 | Click on the <**Connect**> button or push the [**Enter**] key to connect. |

Changing your password

You should change your password at least every 90 days.
- Click once on the Change Password block of the main menu.
- Type in your new password, and [**Tab**] to the next field where you type in your new password again to verify. Then click <**OK**>.

REMEMBER YOUR NEW PASSWORD, and use it next time you log in to the CSU. If you forget your password, or it expires, contact the designated person at your installation's civilian personnel advisory center.
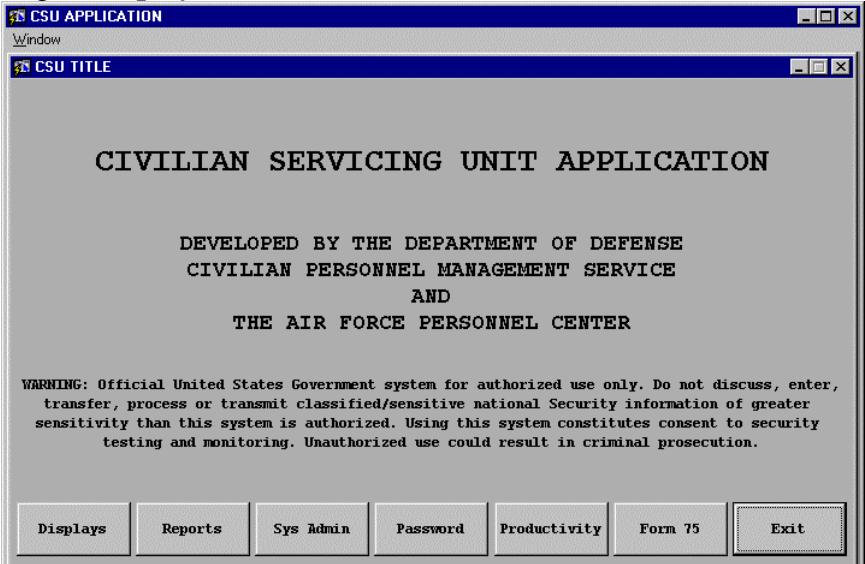

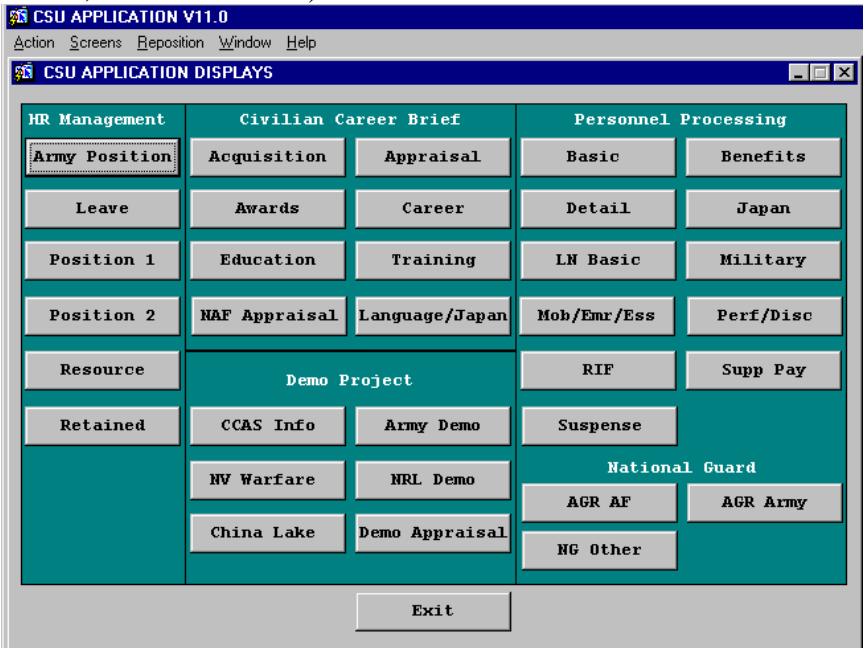

Exiting from CSU

- Click once on the <**Exit**> block of the main menu.
- This will disconnect you from the CSU server and return you to your normal Windows desktop.

Obtaining Data on One Employee

Employee information

Follow these steps to find and display data about one employee.

Step	Action
1	From the main menu of the CSU Application (below), click on the large <**Displays**> button: **CSU APPLICATION** Window **CSU TITLE** **CIVILIAN SERVICING UNIT APPLICATION** DEVELOPED BY THE DEPARTMENT OF DEFENSE CIVILIAN PERSONNEL MANAGEMENT SERVICE AND THE AIR FORCE PERSONNEL CENTER WARNING: Official United States Government system for authorized use only. Do not discuss, enter, transfer, process or transmit classified/sensitive national Security information of greater sensitivity than this system is authorized. Using this system constitutes consent to security testing and monitoring. Unauthorized use could result in criminal prosecution. Displays Reports Sys Admin Password Productivity Form 75 Exit
2	On the "Displays" screen (shown below) click on the <**Basic**> button – or any other gray button for the specific information you are seeking. This brings up the selected data screen. At that point the screen will contain no data (until you retrieve an employee record, described below). **CSU APPLICATION V11.0** Action Screens Reposition Window Help **CSU APPLICATION DISPLAYS** HR Management	Civilian Career Brief	Personnel Processing Army Position	Acquisition	Appraisal	Basic	Benefits Leave	Awards	Career	Detail	Japan Position 1	Education	Training	LN Basic	Military Position 2	NAF Appraisal	Language/Japan	Mob/Emr/Ess	Perf/Disc Resource	Demo Project		RIF	Supp Pay Retained	CCAS Info	Army Demo	Suspense | NV Warfare	NRL Demo	National Guard |		AGR AF	AGR Army | China Lake	Demo Appraisal	NG Other Exit

How to locate a screen to view specific data

The "Displays" menu consists of buttons that lead to screens of data, grouped into five major categories :
- Human Resource Management
- Civilian Career Brief
- Personnel Processing
- Demo Project
- National Guard
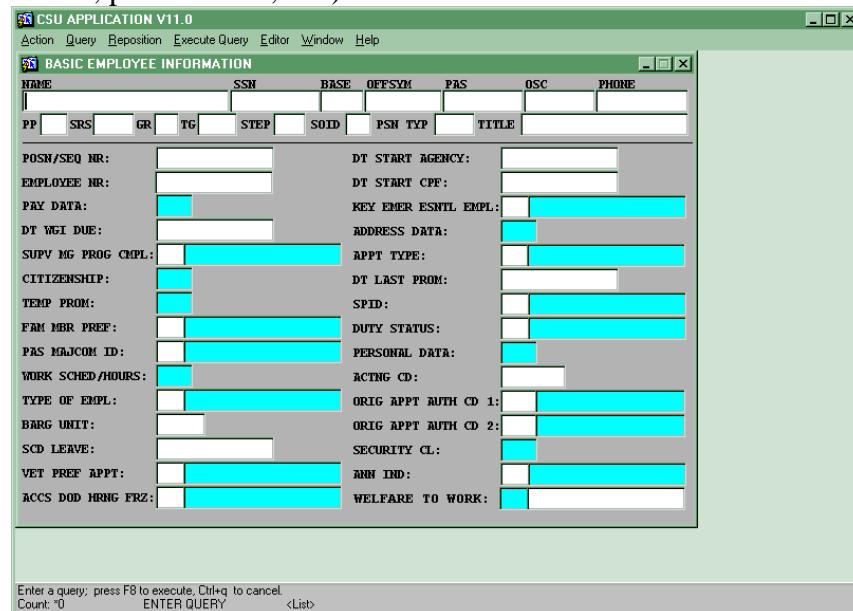

These major categories are further divided into sub-categories such as benefits, education, training, suspense, etc. You can click on any of the display screen buttons if you know which screen you want to view.
- The general contents of the screens are described in the Display Screens section.
- The appendix, *Index to CSU Application Data*, beginning on page 15, is a list of commonly used data fields in CSU Application that can be used to assist in locating specific data on the screens.

Description of data screens

Each data screen has the same header information at the top (employee name, SSAN, position title, etc.)

Blue fields indicate that there is a pop-up window associated with that field-- either a translation of the code value contained in the field, or a listing of the values applicable to that field, or a window of other data fields associated with that data field. Click on the blue field to display the pop-up window. For instance, on the Basic Data screen, clicking on the blue field labeled "Pay Data" displays a window of pay-related data (basic pay, locality pay, etc.).

How to retrieve an employee's record

Follow these steps to retrieve an employee's record and populate the data fields on the screen:

Step	Action
1	Type in part of the employee's last name followed by a percent sign (%) in the employee name block at the top of the screen (this is not case sensitive – you can use Smith, smith, or SMITH).
2	Click on the <**Execute Query**> selection on the top menu. For example, to find the record for an employee named Michael R. Jones, you could type JONES% or JON% or JONES M%, then click <**Execute Query**>. • The computer will identify all employees whose name begins with the letters you typed, and display these records one at a time.
3	If the displayed record is not the one you wanted (that is, there is more than one employee whose name starts with the letters you entered), click <**Next**> on the top line menu, or use the down-arrow key on your keyboard to page through the selected records until you get the one you want. • Click on <**Previous**> on the top line menu (or use the up-arrow key) to return to a previously displayed record.

Finding an employee's record by SSAN

You can also find an employee by social security number, if known. Click on the SSAN block, then type the SSAN and click <**Execute Query**>, as above.

Displaying other screens

Follow these steps to display other screens of data once you have retrieved the employee record:

Step	Action
1	Click <**Screens**> on the top line menu.
2	Click on the category desired (human resource management, civilian career brief, or personnel processing).
3	Click on the specific screen within that category.

Retrieving a different record

Follow these steps to retrieve and view the record of a different employee:

Step	Action
1	Click <**Query**> on the top line menu.
2	Click <**Enter Query**>. This removes the current record(s).
3	Type in a last name, or part of a last name, in the employee name block, followed by the percent sign.
4	Click on <**Execute Query**>. This will display the record(s) of those employees whose name matches the letters you typed. Use the <**Next**> and <**Previous**> menu selections to page through the records if needed.

Exiting from the display screens

When you are done viewing the screen(s), click <**Action**> on the top line menu, and then click <**Exit**>.

More on Queries

Purpose   Besides pulling up records of specific employees by name, you can create "queries" using the display screens to find employees who meet certain criteria; for example, you can enter a query to find which employees in your organization are part time (this will be used in the following instructions). Once your query is executed, you will have access to the set of records of employees who meet your criteria.

How to create a query   Follow these steps to build a query that will identify a group of employees who meet certain criteria:

Step	Action
1	Navigate to the screen containing the data field(s) on which you want to base your query. If you are not sure where to find the data field you are interested in, use the appendix, *Index to CSU Application Data*, beginning on page 15. • Example: for finding part time employees, go to the "Basic" screen since this screen contains a field labeled "TYPE OF EMPL" which shows whether employees are full time, part time, etc.
2	If you currently have a record on your screen, you need to first clear the old query to get rid of the record(s) and start fresh (if you don't have a record on your screen you can skip this step). • Click on the Query menu at the top of the screen and then click on "Enter Query." This will erase the current record and allow you to enter a new query.
3	Click on the blue data field next to "TYPE OF EMPL" to bring up the table of values associated with this field.
4	Click on the value for which you want to seek. In our example, click on "Part time employee in pay status," then click <**OK**>. This will return you to the display screen and insert the selected code value (in this case, 2) into the field. Note: Different fields take different types of entries. Not all fields have tables of values associated with them. Some will require you to enter text. Date fields will require a query based on a date. For instance, to look for employees who are due a within-grade increase between 1 Apr 2000 and 30 Jun 2000, you would enter "#between 01-Apr-2000 and 30-Jun-2000" in the field labeled DT WGI DUE. Click on <Help> at the top of the screen, then select "Query Examples" to get examples of various ways to construct queries.
5	Click on <Execute Query> at the top of the screen to process the query. • It can take time to process your request, particularly if you have access to a large number of records. Be patient! The screen will indicate "Working..." in the lower left corner while your request is processing.

Step	Action
6	Once your query is completed, you will have access to the set of records that match your criteria. • If there are no records that met the criteria, there will be a message at the bottom left of the screen saying, "Query caused no records to be retrieved. Re-enter." • If there is more than one record, there will be a small arrowhead pointing down at the bottom of the screen. • Selected records are in alphabetical order. • To move from record to record, use the <Next> and <Previous> menu selections at the top of the screen. • You can also use the <Record> menu to move to the first or last record or to a specific record number. • The "Count" indicator at the bottom of the screen shows what record number you are currently displaying, and will indicate the total number of records selected if you move to the last record.
7	When you are done with the query, click on the <Action> menu at the top of the screen, and select "Exit" to return to the Display screen menu.
8	If you want to process another query, click on the <Query> menu and select "Enter Query," and follow the same procedures as above.

Reports

Purpose

The <Reports> button in CSU Application allows you to generate a variety of "canned" reports about your workforce, such as an alpha roster, awards report, or a suspense action report.

- Discoverer (a separate application) is a query and reporting tool used to create and/or run *ad hoc* or specialized reports from the modern DCPDS database. Contact your Help Desk for more information about this application.
    - If you use Discoverer, all of the reports on the CSU Reports Menu are now available using the Discoverer tool.
    - If you use another component unique retrieval system, the reports can also be made available through that system.

How to run a report

Follow these steps to run a report in CSU Application:

Step	Action
1	Click the <**Reports**> button on the CSU Application main menu.

Step	Action
2	Click on the report you want to run to highlight it; use the scroll bar at the right side of the screen to see the entire list (listed alphabetically by report name).
3	Click on <**Process**> to generate the report. It may take a few moments for the request to compile; be patient! The report will display on your screen in "preview" mode.
4	Once the report appears in the previewer, you can view it on screen using the <**Next**> and <**Previous**> buttons and the scroll bars to move around the report.
5	To print the report, click the <**Print**> button on the upper right of the screen to display the Print menu, complete any parameters desired, then click <**OK**> on the Print menu.
6	When you're done with the report, click the <**Close**> button at the top right of the screen to exit the previewer.
7	Click <**Exit**> on the "Reports" screen to return to the CSU Application main menu.

Sorting a report

Follow these steps to sort a report by a particular item, for example, alphabetically or by organization:

Step	Action
1	From the Reports menu, click on the report you want to run.
2	Click the <**Sort**> button at the bottom of the screen.
3	For each sort field, type in a number in the "Seq" block next to the desired sort field (starting with 1 for the first sort). Then type an "X" in either the "Asc" or "Des" block depending if you want the sort to be ascending (low to high, A to Z) or descending (high to low, Z to A).
4	Click <**OK**>, then process the report as above.

Selecting certain records

Follow these steps to restrict your report to only certain records (e.g., just one organizational segment):

Step	Action
1	From the Reports menu, click on the report you want to run.
2	Click the <**Items**> button at the bottom of the screen.
3	Enter a value in the "Specific Items" block next to the field you want to use to restrict the report. • For example, enter GS in the PP (pay plan) block to limit your report to GS employees only. You can also enter a range (from-to) of values; for example, you could enter 09 in the "From" block and 12 in the "To" block of the "Grade" field to restrict your report to employees in grades 09 through 12.
4	Click <**OK**>, then process the report as above.

The Display Screens

Purpose   The contents of the 35 + display screens are summarized below, grouped into the five major categories just as they appear on the "Displays" menu screen.

Also see the *Index to CSU Application Data,* page 15, which contains a list of commonly used personnel data items showing which screen contains that piece of information.

Human Resource Management   The Human Resource Management category contains the following screens:

Screen	Description
Army Position	Position data unique to Army employees, such as AMS code, TDA paragraph and line number, cost center, and APC code.
Leave	The employee's current leave balances for annual and sick leave, use or lose leave, and other leave information. This data is current as of the last pay period and comes from DFAS payroll records. Activities not on the automated DFAS payroll interface will not have this data.
Position 1	Position control and manning data, including supervisory level, position sensitivity, bargaining unit, duty station, and other position-related data. Use the scroll bar at the right of the screen to see more of the screen.
Position 2	Career program data, obligation information, and environmental differential pay data.
Resource	Payroll data for the employee, arranged by pay period. Click on the blue "Other Pay" field to get a breakdown of various types of pay received by the employee, and click on the blue "Benefits" field for a particular pay period to see the employer's payments for TSP, life insurance (FEGLI), health insurance (FEHB), and retirement (CSRS or FERS). This data comes from DFAS payroll records and is updated once a pay period. Activities not on the automated DFAS payroll interface will not have this data.
Retained	Data related to employees on retained grade.

Civilian Career Brief / Demo Project   The Civilian Career Brief / Demo Project category contains the following screens:

Screen	Description
Acquisition	Acquisition data for employees in acquisition workforce positions (procurement, contracting, etc.).
Appraisal	Current and last three performance ratings and next rating due date.

Screen	Description
Awards	Information on the awards received, showing type of award, amount, and date.
Career	Career program information pertaining to the employee's current position and previous career program registrations in past positions.
Education	Degrees, educational programs, schools attended, and major fields of study. Use the left-right scroll bar under the "Educ Lvl" section to display additional information pertaining to each educational endeavor. Also contains foreign language skills and occupational certifications.
Training	Information on the training courses completed by the employee. The basic screen contains the course title, ending date, and hours; additional information about the course is available by clicking on one of the blocks pertaining to the course, then clicking the <**History**> button at the bottom of the screen.
NAF Appraisal	Appraisal information on Non-Appropriated personnel
Language /Japan	Language test information for Japan AF and Navy personnel

Demo Project   The Demo Project category contains the following screens:

Screen	Description
CCAS Info	Salary and appraisal information for demo project employees using CCAS.
Army Demo	Pay increase data for employees in Army demo projects.
NV Warfare	Data for employees in Navy Warfare demo projects.
NRL Demo	Data for employees in Navy Research Lab demo projects.
China Lake	Data for employees in the Navy China Lake demo project.
Demo Appraisal	Performance appraisal information for employees in various demonstration projects.

Personnel Processing   The Personnel Processing category contains the following screens:

Screen	Description
Basic	Commonly used data about the employee, such as PD number, pay data, address, type of appointment, veteran's preference, and security clearance.
Benefits	Health and life insurance, thrift savings (TSP), and retirement information. Use the <**Projected**> button at the bottom of the screen to view data on pending changes to benefits (e.g., if the employee is changing TSP elections).
Detail	Information pertaining to employees who are detailed to a position other than their permanent position.
Japan	Information on Japanese local national employees (indirect hires).
LN Basic	Information on local national employees (overseas areas).
Military	Military service, reserve status, veterans status, veterans preference.
Mob/Emr/Ess	Mobilization requirements and emergency essential information (relating to overseas positions or positions that would be transferred overseas during a crisis situation or which requires the incumbent to deploy or perform temporary duty assignments overseas during a crisis in support of a military operation).
Perf/Disc	Disciplinary actions taken, and performance improvement plans resulting from disciplinary actions.
RIF	Information pertaining to an employee's tenure and retention standing, such as veteran's preference, service computation date, competitive level, tenure, subgroup, and performance ratings. Use the scroll bar by the performance ratings area to view older performance ratings.
Supp Pay	Supplemental pay data when applicable. Also contains information on Italy, Belgium, and Korea pay.
Suspense	Due dates for a variety of personnel actions, such as within-grade increases, appointment expiration (temporary employees), leave without pay, retained grade, temporary promotion, details, probationary periods, and benefit election suspenses. Use the scroll bar at the right of the screen to view more data.

National Guard   The National Guard category contains the following screens:

Screen	Description
AGR AF	Information pertaining to Air Force AGR personnel.
AGR Army	Information pertaining to Army AGR personnel.
NG Other	Miscellaneous National Guard information.

Index to CSU Application Data

Purpose   The following index contains a description of many of the commonly used data fields in CSU Application.
- The "category" column indicates in which group of screens the data can be found in (HRM-Human Resource Mgmt; Car Brf-Experience Brief / Demo Projects; and Pers Proc-Personnel Processing).
- The "screen" column indicates the actual screen containing the data.
- This is not an exhaustive list.
- Some entries appear on more than one screen.

Appendix A   CSU Screen Definitions

CSU Logon Screen

Field/Button	Description
Username	Sign-in user name
Password	Password associated with the user
Database	Combination of server name and database name Ex: tbird_csu03
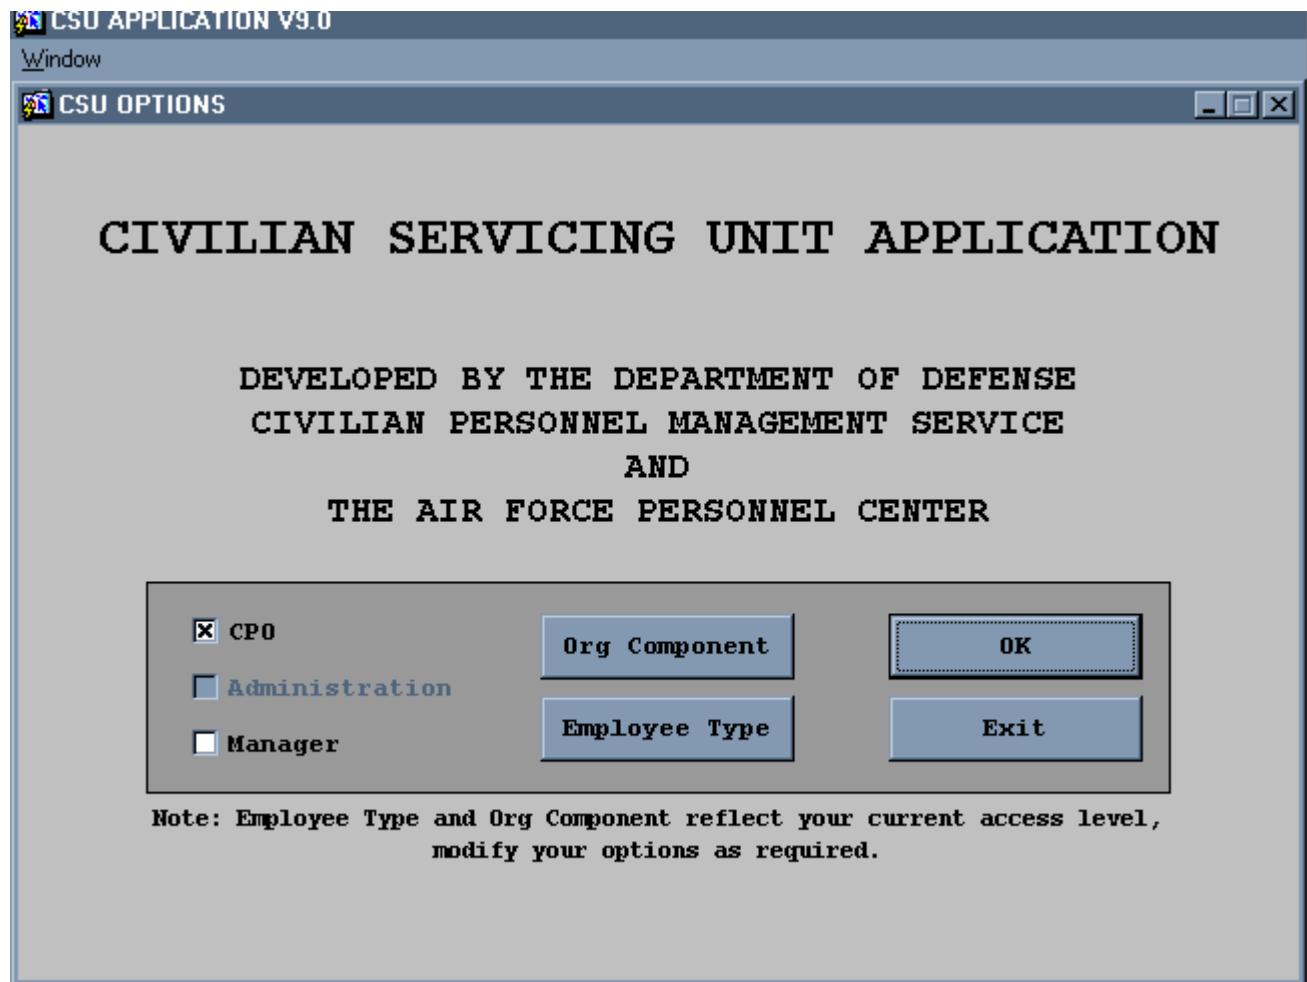

2nd CSU Logon Screen (CSUUSER Only)

Field/Button	Description
Social Security Number	No dashes
Date of Birth	Date of birth for the associated Social Security Number
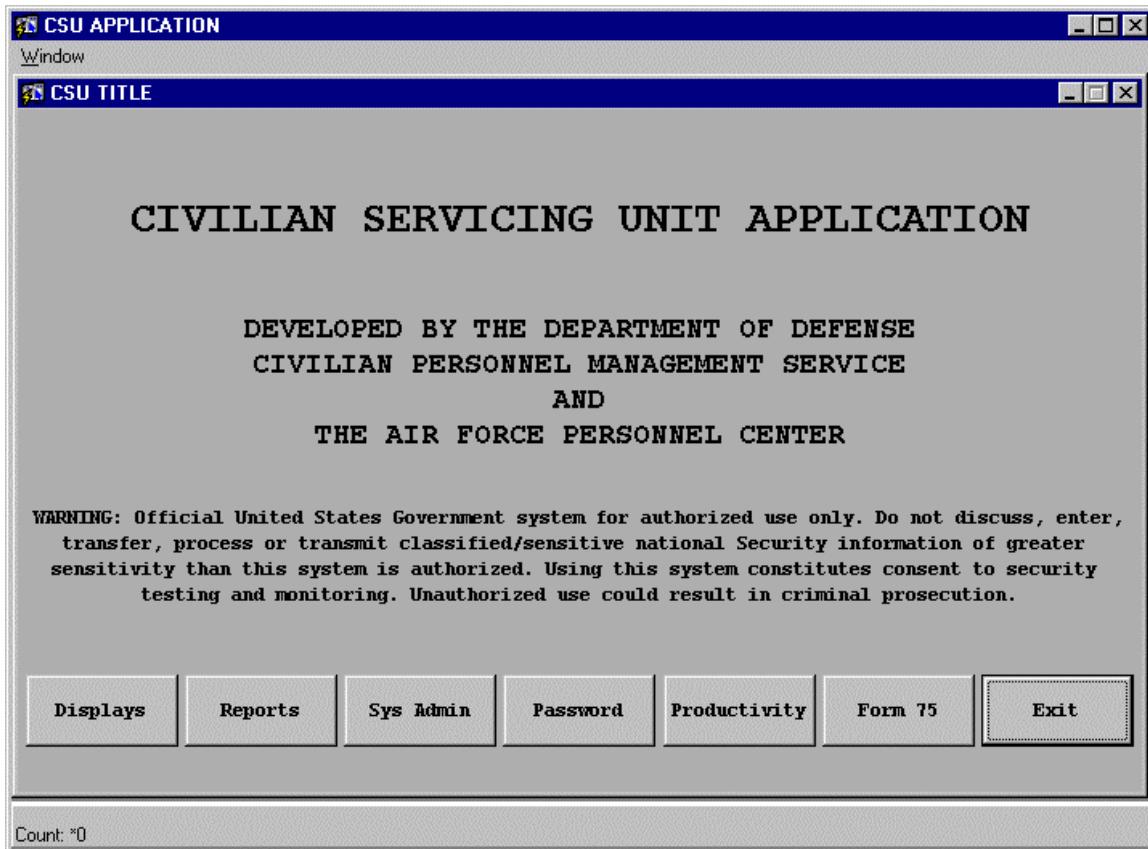

CSU Options Screen.

Allows eligible users to obtain more accurate results by limiting their record access to meet a specific condition.
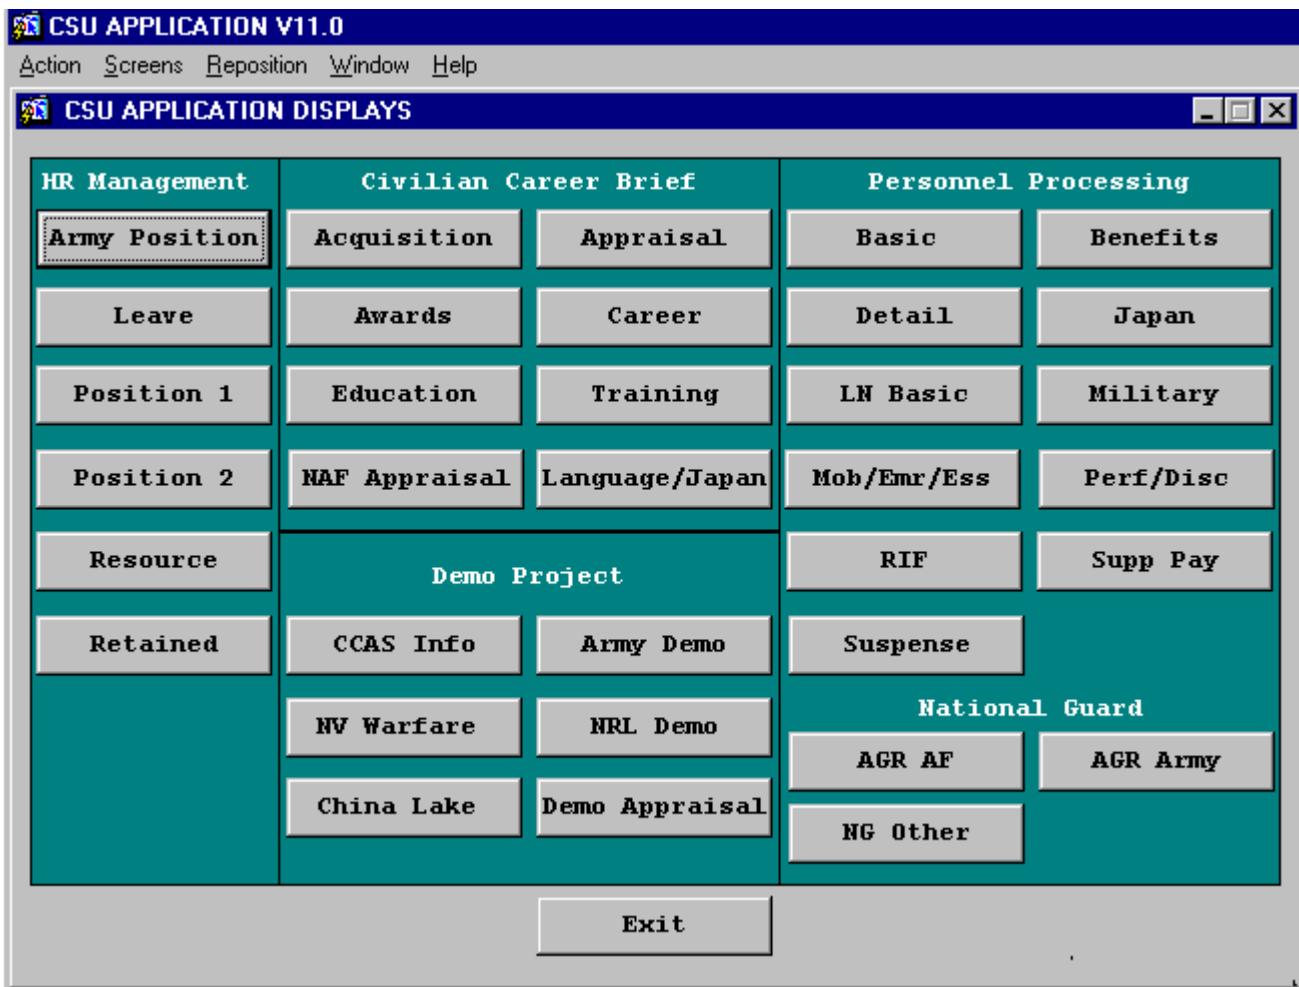

Field/Button	Description
CPO	Personnelist in all functional areas.
Administration	Administrative personnel who need to access civilian personnel information to perform their jobs.
Manager	Managers and supervisors who need access to information about their employees.
Org Component	A combination of CPO ID, command code, UIC, and org code Example: EWP1W1KCAABF, where: • EW is the SOID • P1 is the command code • W1KCAA is the UIC • BF is the org structure code
Employee Type	Employee position type. Example: Appr

Main CSU Application Screen

Field/Button	Description
Displays	View available CSU Displays
Reports	View available CSU Reports
Sys Admin	View System Administrator applications
Password	Change your user password
Productivity	View RPA open status report
Form 75	View SF Form 75 report
Exit	Exit to Options Screen

CSU Applications Displays

Field/Button	Description
Army Position	View position data unique to Army employees.
Leave	The employee's leave information.
Position 1	Position control and manning data.
Position 2	Career program data, obligation information, and environmental differential pay data.
Resource	Payroll data for the employee, arranged by pay period.
Retained	Employees retained grade data.
Acquisition	Acquisition data for employees in acquisition workforce positions
Awards	Information on the awards received.
Education	Information on degrees, programs, schools attended, fields of study, foreign language skills, and occupational certifications
CCAS Info	Salary and appraisal information for demo project employees using CCAS.
NV Warfare	Data for employees in Navy Warfare demo projects.
China Lake	Data for employees in the Navy China Lake demo project.
Appraisal	Current and last three performance ratings as well as next rating due date.
Career	Career program information.
Training	Information on completed training courses.
NAF Appraisal	Appraisal information on NAF personnel.
Language /Japan	Language test information for Japan AF and Navy personnel
Army Demo	Pay increase data for employees in Army demo projects.

Field/Button	Description
NRL Demo	Data for employees in Navy Research Lab demo projects.
Demo Appraisal	Performance appraisal information for employees in various demonstration projects.
Basic	Commonly used employee data.
Detail	Contains information on employees detailed out of their permanent position.
Japan	Information on Japanese local national employees (indirect hires).
Military	Military service, reserve status, veterans status, veterans preference.
Perf/Disc	Disciplinary actions taken and performance improvement plans.
Suspense	Due dates for a variety of personnel actions.
Benefits	Health and life insurance, thrift savings (TSP), and retirement information.
LN Basic	Information on local national employees.
Mob/Emr/Ess	Mobilization requirements and emergency essential information.
RIF	Information pertaining to an employee's tenure and retention standing.
Mob/Emr/Ess	Mobilization requirements and emergency essential information.
AGR AF	Information pertaining to Air Force AGR employees.
AGR Army	Information pertaining to Army AGR employees
NG Other	Information pertaining to National Guard TECH employees.

Refresh Report

The first page of the Refresh report will show the number of records before the refresh was run and the number of records that were inserted into the database at the completion of the refresh process. In addition, a count is given on the number of rows that could not be inserted due to an error. This will help in identifying problems with refresh. Further detail is given below on each error.

Field/Button	Description
Count from per_positions	Number of positions moved from HR to CSU
Count from civilian_position	Number of positions loaded in the CSU database
Distinct count from refresh log	Number of positions which were not loaded due to exceptional errors

File   Edit   Window   Help

Report run on: 18-SEP-01 12:51:08   **CSU REFRESH LOG REPORT: CSUSQT**   2   of   70   CSU

DETAIL

Log Type	SSAN	Person Id	Position Id	Full Name	Log Time
Db Error	DB Message				
	Appl Message				

E		22425	52363		15-SEP-01 03:30:02
1	User-Defined Exception				
	Duplicate Employee found with the same SSAN				

E			53081		15-SEP-01 03:34:05
-1400	ORA-01400: mandatory (NOT NULL) column is missing or NULL during insert				
	Error on INSERT - CIVILIAN_POSITION				

E			53081		15-SEP-01 03:34:05
1	User-Defined Exception				
	Mandatory Column like POSITION_ID/POSITION_TYPE/CCPO_ID may be null				

E		16041	53853		15-SEP-01 03:38:38
1	User-Defined Exception				
	Duplicate Employee found with the same SSAN				

E		12606	55005		15-SEP-01 03:49:31
1	User-Defined Exception				
	Duplicate Employee found with the same SSAN				

E		13762	55006		15-SEP-01 03:49:31
1	User-Defined Exception				
	Duplicate Employee found with the same SSAN				

E		12604	55007		15-SEP-01 03:49:32
1	User-Defined Exception				

Every error, warning, and information notice is displayed in the remaining pages of the Refresh Report. Errors are designated with an 'E', warnings with a 'W', and information notices with an 'I'. The corresponding SSAN, Person Id, and Position Id are then given for every instance of error, warning, or information notice during the refresh process.

Field/Button	Description
Log Type	Type of message in refresh_log 'E' Error, 'W' Warning, 'I' Information
SSAN	Social Security Account Number
Person Id	Person ID
Position Id	Position ID
Full Name	Full_Name
Log Time	Time that event was written to refresh_log
Db Error	Database Error number
DB Message	Database Message (descriptive)
Appl Message	Application Message (descriptive)
