# National Taxpayers Union Alert

**NTU urges all Members to sign on to Rep. Cox's letter to President Bush pledging to sustain any veto which is based on the bill spending at an excessive level.**

Members of Congress are well aware of the tremendous spending growth in recent years. Voters from across the political spectrum have been increasingly vocal in expressing their concern over both the rapid growth in government and the nation's deficit (now in excess of \$500 billion). Stopping unnecessary spending should be of utmost importance to all Members of Congress. NTU and its 350,000 members urge Congress to help President Bush control spending.

If you have any questions, please contact Paul Gessing at (703) 683-5700.
