Drugs

Cocaine

Cocaine is readily available and frequently abused in New York. Powder and crack cocaine prices are typically higher in Upstate New York than in New York City, while purity levels are generally higher in New York City than Upstate. Purity levels for powder cocaine average 75% throughout New York and crack cocaine purity levels average 58%. ²⁴ Crack cocaine is readily available all major New York cities and some suburban and semi-rural areas. ²⁵

> Heroin

South American heroin is the most prevalent form found in New York. However, Southeast and Southwest Asian heroin are also available and Mexican heroin is sporadically available. Retail heroin prices are typically higher in Upstate New York than New York City. Heroin purity levels in New York are among the highest in the nation. South American heroin ranges in purity from 85-96% in New York and 20-96% in Upstate New York. Purity levels for Asian heroin have reached 90% in New York City and 85% in Upstate New York.

Marijuana

Marijuana is the most widely available and frequently abused drug in New York. Commercial-grade marijuana prices ranged from \$200-\$2,000/pound and \$100-\$200/ounce in New York during the first quarter of FY 2002. Hydroponic-produced marijuana sold for \$1,000-\$5,000/pound and \$250-\$1,200/ounce. "Purple haze," a form of marijuana reported to be more potent than hydroponic, sold for \$300/ounce in Upstate New York.²⁷

> Methamphetamine

Methamphetamine poses a low but increasing threat to New York. Meth abuse is typically confined to limited segments of the population such as outlaw motorcycle gangs, some members of the gay community, and some residents of economically depressed rural neighborhoods. Recent reports indicate, however, that college students and rave attendees are abusing meth at an increasing rate.²⁸

Club Drugs

MDMA is widely available and abused at nightclubs, raves, techno parties, and on college campuses throughout New York. In the first quarter of FY 2002, MDMA sold for \$5-\$13/dosage unit at the wholesale level and \$25-\$38 at the retail level. GHB is also available at New York clubs. In FY 2001, a dosage unit of GHB sold for \$10. LSD is readily available at concerts, raves, and techno parties in New York. Ketamine presents a low threat to the State but is increasingly available at raves. In 2001, ketamine sold for \$20-\$50/dosage unit.²⁹

Trafficking and Seizures

- ➤ Colombia-based distributors regularly smuggle multi-hundred kilogram shipments of cocaine to New York.³⁷
- ➤ Most of the heroin available in New York is from South America. Colombia-based traffickers bring some of the purest heroin in the world to New York.³⁸
- Although methamphetamine trafficking and abuse are considered to be a less serious problem than other illicit drugs in the State, there are indicators that the problem is increasing.³⁹
- ➤ New York continues to experience high levels of importation, trafficking, and abuse of MDMA (Ecstasy). 40
- ➤ Heroin, cocaine, marijuana and MDMA are regularly smuggled into New York from Canada. 41
- New York has 9 land ports of entry along its 400-mile border with Canada. 42
- ➤ New York has two international seaports Port of New York/New Jersey and Port of Buffalo/Niagara. Drug trafficking organizations often smuggle illicit drugs into New York using maritime vessels. 43
- According to the U.S. Customs Service, between \$4 and \$8 billion generated from illicit drug sales is laundered in the New York metropolitan area each year.⁴⁴
- ➤ During full year 2003, the DEA and state and local authorities in New York reported 16 methamphetamine lab incidents to the El Paso Intelligence Center. 45
