

**BUREAU OF TRANSPORTATION STATISTICS**  
**TranStats Database Library, As of March 2004**

**TranStats**  
**The Intermodal Transportation Database**

Database Name	Description	Agency Provider	Data Coverage	First Year	Last Year	Frequency
Air Carrier Employees	Number of employees for each of the major, national, and regional domestic air carriers.	Bureau of Transportation Statistics	Data cover all U.S. certificated air carriers.	1970	2000	Annual
Air Carrier Financial Reports (Form 41 Financial Data)	Form 41 Financial Schedule consists of financial information on large U.S. certified air carriers--includes balance sheet, income statement, cash flow, aircraft inventory, aircraft operating expenses and operating expenses.	Bureau of Transportation Statistics	Large certified carriers hold Certificates of Public Convenience and Necessity issued by the U.S. Department of Transportation authorizing the performance of air transportation with annual operating revenues of \$20 million or more.	1990	2003	Quarterly
Air Carrier Statistics (Form 41 Traffic)	Monthly data reported by certificated U.S. and foreign air carriers on passengers, freight and mail transported. Also includes aircraft type, service class, available capacity and seats, and aircraft hours ramp-to-ramp and airborne.	Bureau of Transportation Statistics	The Large Air Carrier Statistics database, also known as the T-100 data bank, contains domestic and international airline market and segment data. Large certificated U.S. air carriers report monthly air carrier traffic information using Form T-100. Foreign carriers having at least one point of service in the United States or one of its territories report monthly air carrier traffic information using Form T-100(f). The data is collected by the Office of Airline Information, Bureau of Transportation Statistics. The four tables in this database respectively provide domestic market, domestic segment, international market, and international segment data. The two international data tables combine the information reported in T-100 and T-100(f). This database is frequently used by the aviation industry, the press, and the legislature to produce reports and analyses on air traffic patterns, carrier market shares, as well as passenger, freight, and mail cargo flow within the	1990	2003	Monthly
Air Carrier Summary Data (Form 41 and 298C Summary Data)	Summary data of the non-stop segment and on-flight market data reported by air carriers on Form 41 and Form 298C	Bureau of Transportation Statistics	This database covers all U.S. carriers and foreign carriers with at least one point of service in the United States or one of its territories.	1974	2003	Quarterly or monthly
Airline On-Time Performance Data	Monthly data reported by US certified air carriers that account for at least one percent of domestic scheduled passenger revenues--includes scheduled and actual arrival and departure times for flights.	Bureau of Transportation Statistics	US certified air carriers that account for at least one percent of domestic scheduled passenger revenues.	1987	2004	Monthly
Airline Origin and Destination Survey (DB1B)	Origin and Destination Survey (DB1B), is a 10% sample of airline tickets from reporting carriers. Data includes passenger, freight, and mail transported.	Bureau of Transportation Statistics	The survey covers a 10% sample of airline tickets from reporting carriers.	1993	2003	Quarterly
American Travel Survey (ATS) 1995	National data on the nature and characteristics of long-distance personal travel, from a household survey conducted by BTS about every five years.	Bureau of Transportation Statistics	The 1995 ATS covered all 50 States and the District of Columbia.	1995	1995	Every five years.

Aviation Support Tables	Provides comprehensive information about U.S. and foreign air carriers, carrier entities, worldwide airport locations, and other geographic data. These data also include information on various aircraft types and models, and their operating characteristics.	Bureau of Transportation Statistics	Data include U.S. Carriers and foreign carriers with at least one point of service in the United States or one of its territories.			On-going
Border Crossing Data	Port level monthly data on vehicles, passengers or pedestrians that entered the United States along the US-Mexican border.	Bureau of Transportation Statistics	Inbound passenger and vehicle data for the U.S.-Mexico and U.S.-Canada borders.	1997	1999	Monthly
BTS Omnibus Survey	Monthly survey conducted by BTS to collect information from U.S. households on issues related to safety, mobility, the environment, economic growth, and national security.	Bureau of Transportation Statistics	The survey collects information from households in the United States.	2000	2002	Monthly
Census Transportation Planning Package (CTPP) 1990	The 1990 Census Transportation Planning Package (CTPP) is a collection of summary tables that have been generated from both the 1990 census short and long forms. The tables contain information about population and household characteristics, worker characteristics and characteristics of Journey-to-Work (JTW). The CTPP is organized into a series of parts contained with two elements namely Urban and State. The parts define whether the tables are summarizing information by place of residence, place of work or journey to work.	FHWA, BTS, Census	CTPP provides state and local data for the 50 States and the District of Columbia.	1990	1990	Decennial
Census Transportation Planning Package (CTPP) 2000	The Census Transportation Planning Package (CTPP) is a collection of summary tables that have been generated from the census long form data collected in year 2000. These summary tables contain three sets of tabulations for Part I - PLACE OF RESIDENCE, Part II - PLACE OF WORK, and Part III - flows between HOME AND WORK.	FHWA, BTS, Census	CTPP provides state and local data for the 50 States and the District of Columbia.	2000	2000	Decennial
Commodity Flow Survey (CFS)	Data on shipments by domestic establishments in manufacturing, wholesale, mining, and selected other industries. The CFS is conducted every five years as part of the Economic Census by the U.S. Census Bureau in partnership with BTS.	Bureau of Transportation Statistics	CFS covers the movement of goods in the United States. The surveys of 1993 and 1997 covered business establishments in mining, manufacturing, wholesale trade, selected retail industries and selected auxiliary establishments (e.g., warehouses) of in-scope multiunit companies. CFS coverage excludes establishments classified as farms, forestry, fisheries, governments, construction, transportation, foreign establishments, services, and most establishments in retail. CFS data includes exports but not imports.	1993	1997	Every 5 years
Motor Carrier Financial & Operating Information	For-hire trucking companies financial and operating statistics.	Bureau of Transportation Statistics	For-hire contract and common motor carriers of property and household goods which have gross annual operating revenue of \$3 million or more are required to file 8-page annual reports (Form M), while carriers with revenues of \$10 million or more must also file four 2-page quarterly reports (Form QFR) each year. The data you see on the TranStats is 1999 Form M data for 2,172 for-hire trucking companies. This database includes individual for-hire trucking companies' financial and operating statistics from annual reports those companies must file with BTS.	1999	2002	Annual

Small Air Carrier Statistics (Form 298C Traffic Data)	Data on small carrier flights performed in scheduled or non-scheduled and charter service.	Bureau of Transportation Statistics	Data includes small certificated air carriers and commuter air carriers.	1969	2002	Quarterly
Transborder Surface Freight Data	North American merchandise trade data by commodity type, by surface mode of transportation (rail, truck, pipeline, mail and other), and with geographic detail for U.S. exports to and imports from Canada and Mexico	Bureau of Transportation Statistics	The Transborder Surface Freight Dataset provides North American merchandise trade data for U.S. exports to and imports from Canada and Mexico.	1993	2001	Monthly
Transportation Satellite Accounts (TSA)	Measures national transportation output--includes both in-house and for-hire transportation services.	Bureau of Transportation Statistics	TSA measures national transportation output.	1992	1996	
Annual Energy Review	Summarizes energy use data for the United States including the production and consumption of petroleum, electricity, natural gas, coal, nuclear power, and renewable energy. Also contains financial information and environmental indicators.	Energy Information Administration	The Annual Energy Review summarizes energy use data for the entire United States.	1949	2000	Annual
U.S. Retail Gasoline Prices	Provides weekly gasoline prices per gallon by grade, by region, and by formulation.	Energy Information Administration	The retail gasoline prices collected from a sample of retail gasoline outlets are used to calculate weighted average price estimates at the city, state, regional and national levels.		2003	Weekly
U.S. Greenhouse Gas Emissions and Sinks	Greenhouse gas emissions by type and source, including transportation-related sources.	Environmental Protection Agency	Data in the Inventory are national.	1990	1999	Annual
National Toxics Inventory (NTI)	Complete national inventory of stationary and mobile sources that emit hazardous air pollutants--includes emission estimates.	Environmental Protection Agency	NTI covers all 50 States, the District of Columbia, Puerto Rico, and the Virgin Islands.	1993	1999	Every three years
National Emission Trends (NET)	Emissions of criteria air pollutants from point, area, and mobile sources--includes carbon monoxide (CO), nitrogen oxides (NOx), volatile organic compounds (VOC), sulfur dioxide (SO2), and particulate matter (PM-10).	Environmental Protection Agency	The NET includes emission estimates for all 50 States, the District of Columbia, Puerto Rico, and the Virgin Islands.	1996	1999	Every three years.
National Air Quality Data - AIRS Database	Contains information on air quality in cities and towns throughout the United States. Pollutants measured include ozone, particulate matter, carbon monoxide, nitrogen dioxide, sulfur dioxide, and lead.	Environmental Protection Agency	The AIRS database contains measurements of "criteria air pollutant" concentrations in the 50 States, plus the District of Columbia, Puerto Rico, and the Virgin Islands.	1996	2001	Annual
Aviation Safety Reporting System (ASRS)	ASRS is a collection of 27 data sets vital to aviation safety. The National Aeronautics and Space Administration maintains ASRS for the Federal Aviation Administration. Sample PDF files are available online.	Federal Aviation Administration	Varies for each data set.			
Commercial Space Licensing and Launches	Quarterly launch data is provided for commercial and noncommercial launches by country, payload, spacecraft, and success/failure of launch.	Federal Aviation Administration	Launch data are provided for international commercial and noncommercial launches.	1996	2001	Quarterly
Vehicle Registration Data	Annual data on number of motor vehicles registered in each state by vehicle type.	Federal Highway Administration	Federal Highway Administration collects information on the number of registered vehicles by type of vehicle and by state.	1995	2001	Annual
Licensed Drivers	Annual data on licensed drivers by age and sex for each state.	Federal Highway Administration	Data cover all 50 States and the District of Columbia.	1990	2001	Annual

Vehicle Miles Traveled (VMT)	Vehicle Miles Traveled data is reported as part of the Highway Statistics series and Traffic Volume Trends produced by the Federal Highway Administration (FHWA). Annual VMT estimates are based on travel reported by the various States to the Federal Highway Administration's Highway Performance Monitoring System (HPMS). The Traffic Volume Trends program makes monthly estimates of the change in the Nation's highway travel using data from continuous counters operated by the States.	Federal Highway Administration	Data covers all 50 States and the District of Columbia.	1980	2001	Annual or Monthly
Nationwide Personal Transportation Survey (NPTS)	The NPTS is a household travel survey conducted every five years that provides data on the amount and nature of personal travel in the U.S.	Federal Highway Administration	The survey sample is selected from the 50 States, and the District of Columbia.	1990	1995	Varies
National Ferry Database	The National Ferry Database is a comprehensive inventory of existing ferry operations in the United States and its possessions developed by the U.S. Department of Transportation, Federal Highway Administration (FHWA).	Federal Highway Administration	The data covers ferry operators across the United States.	2000	2000	Varies
Highway Safety Information System (HSIS)	Provides accident, roadway inventory, and traffic volume data for a select group of states: California, Illinois, Maine, Michigan, Minnesota, North Carolina, Utah and Washington.	Federal Highway Administration	The participating states are California, Illinois, Maine, Michigan, Minnesota, North Carolina, Utah, and Washington.	1991	1999	Annual
Highway Performance Monitoring System (HPMS) - Core Data	Data on the extent, condition, performance, use, and operating characteristics of the nation's highways.	Federal Highway Administration	The HPMS data covers all 50 States, the District of Columbia, American Samoa, Virgin Islands, Puerto Rico, Guam, and Northern Marianas. The HPMS draws sample from all functional classes of rural and urban highways.	1993	2001	Annual
Motor Carrier Management Information System (MCMIS) - Crash File	Provides annual data on crashes involving a motor carrier.	Federal Motor Carrier Safety Administration	MCMIS Crash File contains data from all states and the District of Columbia.	1993	2002	Annual
Motor Carrier Management Information System (MCMIS) - Census File	Information on the operating and safety record of commercial motor carriers and hazardous material (HM) shippers subject to the Federal Motor Carrier Safety Regulations and the Hazardous Materials Regulations.	Federal Motor Carrier Safety Administration	MCMIS Census File covers all motor carrier (truck and bus) companies operating in U.S.			Periodically
Railroad Accident/Incident Reporting System	Data on train accidents, highway-rail accidents, and other rail-system casualties reported by the railroads.	Federal Railroad Administration	Data cover all U.S. railroads.	1990	2003	Monthly
Federal Transit Administration Grant Assistance Programs	Summary data on funding levels for each transit program by state and urban area.	Federal Transit Administration	The Grant Assistance Programs Statistical Summaries provide funding levels for each transit program by state and urban area.	1998	2001	Annual

National Transit Database (NTD)	Annual data on performance, operations, safety, finances, and accessibility of over 500 transit operators in over 400 urbanized areas in United States.	Federal Transit Administration	The NTD provides information on over 600 transit agencies. The following are typical NTD reporters and requirements: <ul style="list-style-type: none"> <li>Transit agencies that are recipients or beneficiaries of Urbanized Area Formula Program funds and that administer and manage transit activities are responsible for submitting or coordinating the submission of NTD reports regardless of whether they directly operate or purchase their transit services. These recipients or beneficiaries can be public entities directly operating services or contracting for all or part of the total transit service provided. The transit agency must report all of the service they provide or purchase.</li> <li>Operators of purchased transportation services that may be public transit agencies or private carriers that provide public mass transportation services under contract to recipients or beneficiaries of Urbanized Area Formula Program funds must report data. The data</li> </ul>	1996	2000	Annual
Safety Management Information System (SAMIS)	Compilations of transit accidents, casualty, and crime statistics reported under the National Transit Database Reporting System of the Federal Transit Administration (FTA).	Federal Transit Administration	SAMIS includes data from all FTA-funded transit systems.	1991	1999	Annual
Canadian Travel to the U.S.	Monthly and annual Canadian arrivals of one or more nights to the U.S. Annual data include province of origin, U.S. states visited, purpose of trip, activities, visitor nights, lodging, spending, and demographics.	International Trade Administration	This file includes monthly and annual Canadian arrivals of one or more nights to the U.S.	1999	1999	Annual
International Visitor Arrivals Program (I-94)	Official U.S. monthly and final overseas visitor arrivals to the U.S.	International Trade Administration	Data set includes overseas visitor arrivals to the U.S.	1996	2001	Monthly
U.S. International Air Traveler Statistics (I-92)	Estimates of point-to-point air traffic totals between the U.S. and other countries. Data are available for plane type, origin and destination, and air carrier.	International Trade Administration	This data set covers international travel to and from the U.S (excluding Canada).	1983	2000	Annual
U.S. Foreign Waterborne Transportation Statistics	Data includes vessel type and weight, commodities, customs districts and ports, and origins and destinations.	Maritime Administration	The U.S. Foreign Waterborne Transportation Statistics database contains statistics on the physical movement of waterborne foreign trade shipments into and out of the U.S. Foreign trade Zones, the Virgin Islands, and the U.S. Customs territory (including the 50 states, the District of Columbia, and Puerto Rico).	1999	2001	Monthly
Waterborne Commerce of the U.S.	Annual data on the tonnage of U.S. commerce shipped aboard U.S.-flag and foreign vessels. Data are available by type of waterway--Great Lakes, inland waterways, and coastal waters.	Maritime Administration	Data cover all U.S. waterborne commerce, including the Great Lakes, inland waterways, and coastal waters.	1980	2000	Annual

Foreign Traffic Vessel Entrances and Clearances	Data on vessel entries and departures at major U.S. ports. Data includes each vessel's flag of registry, tonnage, and draft in feet.	Maritime Administration	Data reflect the physical movement of waterborne foreign trade shipments into and out of the U.S. Foreign trade zones, the Virgin Islands, and the U.S. Customs territory (including the 50 States, the District of Columbia and Puerto Rico).	1999	1999	Annual
Fatality Analysis Reporting System (FARS)	Census of fatal traffic crashes within the 50 States and the District of Columbia - includes detailed accident, vehicle, and person level information.	National Highway Traffic Safety Administration	FARS contains data on all fatal traffic crashes within the 50 States and the District of Columbia.	1991	2001	Annual
Motor Vehicle Defects Investigation Database	Database of safety defect investigations of vehicles, tires and equipment since 1972, by single year, make or model.	National Highway Traffic Safety Administration	Data covers defects in motor vehicles sold in U.S.	1972	2001	Daily
General Estimate System (GES)	NASS is composed of two systems - the Crashworthiness Data System (CDS) and the General Estimates System (GES). Both systems are based on cases selected from a sample of police crash reports and help in understanding the causes of accidents and injuries.	National Highway Traffic Safety Administration	The data covers 400 police agencies within 60 geographic sites across the United States.	1999	2001	Annual
Crash Outcome Data Evaluation System (CODES)	Provides medical and financial outcome information related to motor vehicle crashes. Data include information on injuries, property damage, and medical expenses.	National Highway Traffic Safety Administration	NHTSA has provided funds to Alaska, Arizona, Connecticut, Delaware, Georgia, Hawaii, Iowa, Kentucky, Main, Maryland, Massachusetts, Minnesota, Missouri, Nebraska, Nevada, New Hampshire, New Mexico, New York, North Dakota, Oklahoma, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Utah, and Wisconsin to link statewide crash and injury data.			
Motor Vehicle Defects Recall Campaigns Database	Database of motor vehicle safety defect recalls resulting from identified component failures that present a risk to highway safety, and from non-compliance with Federal Motor Vehicle Safety Standards.	National Highway Traffic Safety Administration	The Motor Vehicle Defects Recall Campaigns database covers U.S. motor vehicle and motor vehicle-related product recalls.	1967	2001	Continuous
Motor Vehicle Defects Non-Compliance Database	Motor vehicle compliance testing results from 1994 to present--includes Pass/Fail of U.S. safety standards by vehicle, year, make, model and safety feature	National Highway Traffic Safety Administration	Database covers all vehicles sold in the U.S.	1994	2001	Continuous
Motor Vehicle Consumer Database	Database of consumer complaints related to highway vehicles, tires, and equipment.	National Highway Traffic Safety Administration	Database includes U.S. consumer complaints.	1959	2001	Daily
Aviation Accident Database and Synopses	Searchable archive of unsafe civil aviation incidents within the United States, its territories and possessions, and in international waters--includes aircraft type, operations, environmental conditions, contributing factors, and consequences.	National Transportation Safety Board	Aviation Accident Database and Synopses covers the United States, its territories and possessions, and international waters.	1982	2002	Daily
Aviation Accident Statistics	Summary of annual accident, injury, and fatality statistics. Data are available for scheduled and nonscheduled operations of commercial air carriers, commuters planes, air taxis and general aviation planes.	National Transportation Safety Board	Aviation Accident Statistics covers U.S. domestic flights. Some information is available on U.S. carrier accidents abroad.	1982	2001	Annual
Pipeline Safety Statistics	Data on incidents related to natural gas transmission, natural gas distribution, and liquid pipeline operations--includes number of injuries, fatalities, property damage, and cause of incidents, etc.	Research and Special Programs Administration	The data covers the entire length of natural gas, and hazardous liquid transmission and distribution pipelines in the U.S.	1984	2000	Annual

Hazardous Material Incident Reporting System (HMIRS)	HMIRS contains data on spills, releases, or other incidents involving hazardous materials during the course of transportation. All modes of transportation are included except pipeline and bulk marine transportation.	Research and Special Programs Administration	HMIRS covers all reportable hazardous materials incidents in the United States.	1995	2002	Annual
Saint Lawrence Seaway Tonnage Information	Annual tonnage data for the Lower Saint Lawrence River and the Welland Canal (which connects Lakes Erie and Ontario) are available by type of cargo -- iron ore, coal, grain, and other cargo.	Saint Lawrence Seaway Development Corporation	Data cover the Lower Saint Lawrence River and the Welland Canal.	1997	2001	Annual
Saint Lawrence Seaway Lock Operations Statistics	Data are available for the number of hours of lock inoperability by cause and by type of lock malfunction.	Saint Lawrence Seaway Development Corporation	The SLSDC annual reports cover the St. Lawrence Seaway between the Port of Montreal and Lake Erie.	1994	2000	Annual
Highway Congestion (Urban Mobility Study)	Provides annual estimates of driver-hours of delay, wasted fuel, congestion cost, and other mobility indicators for selected urban areas.	Texas Transportation Institute	The 68 urban areas included in the study were chosen based on which state DOTs were able to provide necessary information.	1982	2000	Annual
Lock Performance Monitoring System	Monthly statistics for key locks on the inland waterways and year-to-date summary statistics for all locks owned or operated by the U.S. Army Corps of Engineers--includes number of vessels, tonnage, commodity transported by lock, district and river.	U.S. Army Corp of Engineers	This data set covers all key U.S. Army Corps of Engineers' locks on U.S. inland waterways.	1989	1999	Annual
Transportation Annual Survey	National estimates of revenue and vehicle fleet inventories for commercial motor freight transportation and public warehousing service industries.	U.S. Census Bureau	The survey covers companies that provide commercial motor freight transportation and public warehousing services in the U.S.	1982	2000	Annual
Vehicle Inventory and Use Survey (VIUS)	Tracks the physical and operational characteristics of the nation's trucks. The survey covers private and commercial trucks registered or licensed in the United States as of July 1 of the survey year.	U.S. Census Bureau	Private and commercial trucks registered (or licensed) in the United States as of July 1 of the survey year. The survey excludes vehicles owned by Federal, state, or local governments; ambulances; buses; motor homes; farm tractors; unpowered trailer units; and trucks reported to have been sold, junked, or wrecked prior to July 1 of the year preceding the survey.	1963	1997	Every five years
Annual Survey of Manufacturers	Collects data on the cost of materials, value added by manufacturers, value of shipments, employment, wages, and payroll by industry.	U.S. Census Bureau	The Annual Survey of Manufacturers provides employment and production worker totals and gross wages and payroll data by industry for major U.S. manufacturing industries.	1992	1999	Annual
American Housing Survey	The American Housing Survey collects data on the Nations housing. Data are available for type of housing, household income, housing quality, housing costs, commuting characteristics, etc.	U.S. Census Bureau	Survey collects national and local data for 47 selected MSAs.	1975	1999	
Census Population Estimates	Census State Population Estimates by Single Year of Age and Sex.	U.S. Census Bureau	The Census Population Estimates cover all 50 states and the District of Columbia.	1980	2000	Annual
Recreational Boating Accident Report Database (BARD)	Data on reported recreational boating accidents-- includes information on injuries, fatalities, property damage, causes of accidents, etc.	United States Coast Guard	BARD contains data from the 50 states, the District of Columbia, Puerto Rico, Guam, the Virgin Islands, American Samoa, and the Commonwealth of the Northern Mariana Islands.	1995	2001	Annual
Marine Casualty And Pollution Database	The Marine Casualty and Pollution Database provides details about marine casualty and pollution incidents investigated by the U.S. Coast Guard Marine Safety Officer.	United States Coast Guard	Database covers investigations conducted at U.S. Coast Guard Marine Safety Offices throughout the United States.		2001	

Search and Rescue Management Information System (SARMIS)	Summary data is provided for the number of incidents, rescues, lives saved, injuries, and fatalities as recorded by the U.S. Coast Guard.	United States Coast Guard	Data set covers U.S. incidents.	1964	2000	Annual
Trucks Involved in Fatal Accidents (TIFA)	National survey of fatal accidents involving medium and heavy trucks done annually since 1980--includes fatal truck accidents by type of truck, truck configuration, freight, and state, etc.	University of Michigan Transportation Research Institute	Records of medium and heavy trucks involved in fatal accidents are extracted from the FARS file, and police reports for each accident are acquired. The staff at Center for National Truck Statistics then contacts some knowledgeable person - usually a driver, owner, or safety director - to verify that the vehicle is a truck and to conduct a detailed survey of each truck's physical configuration at the time of the accident. Trucks with a gross vehicle weight rating of 10,000 pounds or less, primarily pickups, are excluded as nonsample, as are emergency vehicles and other non-	1993	1999	Annual
Automobile Driving Costs	Includes annual driving costs for five vehicles: a compact car, a mid-sized car, a large car, a light truck, and a mini-van.	American Automobile Association	Driving costs estimates are for the U.S.	1992	2002	Annual
Automobile Driving Cost vs. Public Transit Cost	Estimates of annual driving cost for U.S. drivers according to vehicle size/type and miles driven per year and some examples of transit costs.	American Public Transportation Association	Estimates are for the U.S.	1990	2001	Varies
Transit Operators and Vehicles	Data on public transit employees and vehicle fleets--includes employee compensation, employee occupation, transit vehicle fleet size, vehicle fuel, and vehicle accessibility.	American Public Transportation Association	Data covers U.S. public transportation agencies.	1984	1999	Annual
Gross Domestic Product (GDP) by Industry	Provides GDP estimates by industry, including many transportation industries such as air, rail, transit, pipeline, trucking and warehousing, and water transportation.	Bureau of Economic Analysis	Data cover U.S. GDP by industry.	1947	2000	Annual
Local Area Personal Income	Personal income by county and metropolitan statistical area (MSA)--includes full-time vs. part-time figures in transportation-related industries.	Bureau of Economic Analysis	The Local Area Personal Income data contains total personal income by county and metropolitan statistical area (MSA) for the U.S.	1969	1999	Annual
Annual State Personal Income	Income and employment data by transportation industries at the state level--includes breakdown of taxable and non-taxable income, as well as part-time vs. full-time figures and multi-year series.	Bureau of Economic Analysis	The Annual State Personal Income data provide income and employment data by transportation industries at the state level.	1929	2000	Annual
Gross State Product (GSP)	Value added in production by the labor and property located in a state.	Bureau of Economic Analysis	GSP estimate are available for all 50 States, the District of Columbia, BEA-defined regions, and the United States.	1977	2000	Annual
Motor Vehicle Output	Includes domestic consumer expenditures, private fixed investment, government fixed investment, and export data for automobiles and light trucks.	Bureau of Economic Analysis	Motor vehicle output covers domestic motor vehicle output.	1967	2001	Quarterly
Quarterly State Personal Income	Provides information on total state personal income, including wage, salary, dividend, and proprietors' income. Income is available by industry, including for transportation and public utilities.	Bureau of Economic Analysis	Data are available for the U.S., all 50 states and the District of Columbia.	1947	2001	Quarterly
National Employment, Hours, and Earnings	Data include hourly and weekly wage figures for transportation industries and transportation-related industries.	Bureau of Labor Statistics	Data are national. Survey covers payroll employment for nonfarm businesses.	1964	2001	Monthly

Occupational Employment and Wage Estimates	Estimates of employment and wages for over 700 occupations at the national, state, metropolitan level.	Bureau of Labor Statistics	The OES survey covers all full-time and part-time wage and salary workers in nonfarm industries. Surveys collect data for the payroll period including the 12th day of October, November, or December, depending upon the industry surveyed. The survey does not cover the self-employed, owners and partners in unincorporated firms, household workers, or unpaid family workers. The OES program surveys establishments in Agricultural Services, Mining; Construction; Manufacturing; Transportation, Communication, Electric, Gas, and Sanitary Services; Wholesale Trade; Retail Trade; Finance, Insurance, and Real Estate; Services; and Government. In 1996, the OES program began surveying all covered industries every year. Prior to 1996, the OES program surveyed industries on a three-year cycle; a given industry was	1998	2001	Annual
State and Area Employment, Hours, and Earnings	Provides detailed industry data on employment, hours, and earnings of workers on nonfarm payrolls for all 50 States, the District of Columbia, Puerto Rico, the Virgin Islands, and over 270 metropolitan areas.	Bureau of Labor Statistics	Employment data include persons on establishment payrolls who receive pay for any part of the pay period, which includes the 12th day of the month, except for Federal Government employment, which represents the number of persons who occupied positions on the last day of the month. Persons are counted at their place of work rather than at their place of residence; those appearing on more than one payroll are counted on each payroll. The payroll for workers covered by the CES survey is reported before deductions of any kind, e.g., for old-age and unemployment insurance, withholding tax, union dues or retirement plans. Included in the payroll reports is pay for overtime, vacations, holidays and sick leave paid directly by the firm. Bonuses, commissions, and other non-wage cash payments are excluded unless they are earned and paid regularly--at least once a month. Employee benefits paid by the employer, tips, and payments in kind also are		2001	Monthly
Census of Fatal Occupational Injuries (CFOI)	Tracks fatal work injuries by industry, occupation, cause of injury, and worker demographic characteristics.	Bureau of Labor Statistics	CFOI has been implemented in all 50 States and the District of Columbia. State and national data are available.	1992	2000	Annual
Consumer Expenditure Survey (CEX)	Collects information on household expenditures for transportation and other major consumer expenditures by various household characteristics--includes expenditure levels by income, age, race, and occupation, etc.	Bureau of Labor Statistics	The CEX targeted the total urban and rural noninstitutionalized population of the United States in 1980, 1984 and thereafter. Between 1981 and 1983, it covered only the urban noninstitutionalized population.	1984	1999	Annual

Consumer Price Index (CPI)	Tracks monthly changes in the prices paid by urban consumers for a representative basket of goods and services including transportation services and transportation-related commodities.	Bureau of Labor Statistics	Price indexes are available for the U.S., the four Census regions, size of city, cross-classifications of regions and size-classes, and for 26 local areas.	1984	2001	Monthly
Compensation Cost Trends	Measures changes in compensation costs, which include wages, salaries, and employer costs for employee benefits.	Bureau of Labor Statistics	Data cover U.S. domestic employment.	1980	2001	Quarterly
Unemployed Persons by Occupation, Sex & Industry	Unemployment data by industry and occupation is available subdivided by age, gender, race and Hispanic origin, marital status, educational attainment, duration of unemployment, and reason for unemployment.	Bureau of Labor Statistics	Data are national.	1938	2000	Annual
Employment by Industry & Occupation	Provides estimates of employment and wages for specific non-farm occupations.	Bureau of Labor Statistics	Data are national. OES collects data for the payroll period including the 12th day of October, November, or December, depending upon the industry surveyed. The survey covers full-time and part-time wage and salary workers in nonfarm industries. The survey does not cover self-employed people, owners and partners in unincorporated firms, household workers, or unpaid family	1988	2000	Annual
Industry Productivity Data	Data on labor productivity indexes (output per employee, per hour in relation to 1987 productivity figures) for railroads, trucking, and air transportation.	Bureau of Labor Statistics	The labor productivity indexes cover U.S. industries.	1947	2001	Annual
National Compensation Survey (NCS)	Provides detailed data on local, regional, and national occupational earnings.	Bureau of Labor Statistics	Data cover local, regional, and national occupational earnings.	1980	2001	Varies
