Basque Organization in Venezuela
Venezuela - Administrative

Dear Sir: 67468

Reference is made to this office's letter to the Director dated November 3, 1943, in the above entitled matter. Reference is also made to the Bureau's cables Nos. 162 and 211, dated November 16, 1943 and January 19, 1944, respectively, giving authorization for expenditures necessary for arrangements currently being made for greater utilization of the Basque Organization in Venezuela. We have the following to report in regard to those arrangements.

Included with this letter as an enclosure are two copies of an undated and unsigned memorandum entitled "Setting up the System". This memorandum was furnished to our Basque Organization contact, Confidential Informant [redacted] on January 15, 1944. With the exception of certain changes made subsequently, it is believed that the memorandum is self-explanatory in regard to organization of the Basques for nation-wide coverage. The steps outlined were taken by Informant [redacted] letters being written in the Basque language. A Basque left Caracas in the latter part of January, 1944 to make the personal contacts called for by this memorandum. Upon his return to Caracas, a full report on this phase of the work will be submitted.

RECORDED 164-23119-16

The changes referred to in the above paragraph are as follows: Contact with the Basque informant in Cor8 will be made by correspondence rather than by personal contact. The Basque representative at Aragua de Maturin has been dropped and a representative at Carenero added. This last is a port town on the Caribbean coast and is the one at which the trading boats from the Island of Margarita call. Also, the representative for the two towns of San Cristobal and Rubio is the same individual. Thus the final number of Basque informants distributed throughout Venezuela outside the capital city remains at fifteen. The only change further in this memorandum refers to the cost of the trip made by Basque representative to make personal contacts in setting up the system in Western Venezuela. As pointed out in cable number 194 from this office to the Bureau, dated January 15, 1944, the c

of this trip will be Bs 1,100 rather than Bs 500 as stated in the memorandum. X

Also included as an enclosure of this letter is a one page, undated and unsigned memorandum simply entitled "Memorandum". This refers to another phase of the use of the Basque Organization that of developing information regarding the Spanish boats which call at the Port of Puerto Cabello in Venezuela, enroute to and from Spain. Arrangements have been made to establish contact with [REDACTED]

b7D [REDACTED] he is to be instructed regarding the type of information desired by informant. The enclosed memorandum was prepared for [REDACTED] guidance in giving such instructions. An attempt will be made to establish a similar Basque confidential informant [REDACTED]

When all arrangements with the Basque Organization in Venezuela, as outlined in this letter and accompanying enclosures, have been completed, a full and detailed report will be submitted. X

The following memorandum reflects the type of information desired. While it is realized that it will not be possible to obtain details as complete as outlined below in all cases, the following will serve as a goal to work towards. The methods used to obtain this information will depend to a large extent upon the circumstances in each case and the ingenuity of the investigator. In general, however, it may be stated that the investigator will rely upon personal observation, discreet interrogation of persons aboard vessel and, where possible, examination of documents and personal effects of the subject of investigation.

1. Identity of suspected crew members and passengers; that is, those whose purpose in serving on the vessel or coming to South America is not clear and who may be acting as couriers, engaging in espionage activities or performing other services for the enemy.
 - (a) Complete physical description of subject.
 - (b) Reasons for suspecting subject.
 - (c) Known contacts or associates of subject, both aboard ship and in ports at which vessel calls.
 - (d) Destination of subject.
 - (e) Any suspicious documents or other articles in possession of subject.
2. Unusual movements of ship or unusual activities of ships' officers.
3. Activities of Spanish secret police officers aboard ship.
4. Political, economic and social conditions in Spain.
5. Evidences of German espionage and other activities in Spain.

In regard to the information desired in regard to physical descriptions, the following suggestions are offered:

Dear Sir:

Reference is made to Bureau letter dated February 17, 1944, in the above captioned matter, instructing the New York office to have Jerome Doyle of the New York SIS office contact ANTONIO IRLA, Secretary to President JOSE ANTONIO AGUIRRE of the Basque Government in exile, and to discuss with Mr. IRLA the subject matter of the Basque organization cooperating exclusively with Bureau representatives in South America.

Through the assistance of Special Agent William A. Costello, Mr. Doyle met Mr. IRLA on two occasions and entered into discussions with him relative to the above described subject matter. These meetings took place on February 24, 1944 and March 2, 1944. Both conferences consumed a great deal of time and every effort was made by Mr. Doyle to cover all possible subjects in which the Bureau might be interested.

In order to present the subject matter in the clearest manner possible, this letter will be broken down into various subject headings.

BASQUES' RELATIONS WITH OFFICE OF NAVAL INTELLIGENCE] X

Navy
release

During the week of February 20, 1944, MANUEL de la SOTA was approached by an officer of the United States Navy in New York City connected with ONI which officer requested the Basques to have all Basque sailors arriving in the United States report to him so that he could interview them relative to maritime matters throughout the world. Mr. de la SOTA advised Mr. IRALA of this request of the Navy and the matter is presently under discussion in New York City between this office and the District Intelligence Office of ONI. X

BASQUES' RELATIONS WITH THE BUREAU - AS SUGGESTED BY BASQUES X

Mr. IRALA advised Mr. Doyle that it is his belief and President AGUIRRE's desire that all contact between Basques in the United States and in the Western Hemisphere be with representatives of the Bureau only. Mr. IRALA stated he believed that if this is acceptable to the Bureau, appropriate letters should be forwarded to the Basque representatives in each Latin American country instructing these representatives that they are to deal solely with the Bureau's representative in that particular country. X

Mr. IRALA suggested that if such a plan is accepted, it is the desire of the Basque Delegation that the Bureau's Legal Attaches maintain constant contact with the Basque agents to direct them along whatever lines are desired by the Bureau and instruct them wherever necessary in the types of information desired and in the methods of obtaining the information. Mr. IRALA understands the amount of money to be paid by the Bureau to any of the Basque representatives rests within the discretion of the Bureau's various representatives. Mr. Doyle has pointed out to Mr. IRALA the inadvisability of turning over a lump sum to President AGUIRRE for distribution throughout Latin America to Basque representatives. Mr. IRALA states that the Basques will be satisfied if the relationship between the Legal Attaches and the Basques is maintained as though the funds paid the various Basques emanated from President AGUIRRE in the United States. Mr. IRALA advised that under these circumstances, the Basques will perform far more ably as they would then be working for patriotic motives and not as paid agents of the United States Government. Mr. IRALA believes, however, that in many instances, sums of money should be paid Basque representatives or otherwise they might suffer economic hardship. X

Mr. IRALA states that the only real administrative difficulties he could envision at this point might arise in Mexico, Chile, Colombia and Argentina. In the first three named countries, Mr. IRALA believed that it would assist the Bureau if a member of the Basque delegation went to each of these countries; picked out the best Basque representative there; gave him complete instructions as to dealing with the Bureau's representatives in order to insure efficient operation of the Basque information service in the three countries already mentioned. He states that in those three countries, the contradiction of orders from President AGUIRRE relative to what American intelligence agency the Basques should deal with have caused some confusion in the Basque ranks.

Insofar as Argentina is concerned, Mr. IRALA pointed out that since 1939, Basques have been working in favor of the Allies. [REDACTED] Thereafter, [REDACTED] began paying certain sums of money each month for the maintenance of an undercover office for the Basques.

of the Basque citizen. Mr. IRALA outlined methods whereby the Basques could infiltrate into the various Communist organizations throughout Latin America. He stated that the Basques considered Mexico as the head of the Communist movement in Latin America; that Colombia will follow Mexico in importance in the near future and that Cuba, Argentina and Chile are good territory for Communist activities. Mr. IRALA is of the opinion that this particular work would be handled with increasing enthusiasm by the Basques in Latin America.

The results of the work of the various Basque agents are of no interest to the Basque delegation in New York City other than the desire that they work efficiently and obtain good results. ~~However, Mr. IRALA has asked that from time to time, the delegation be advised generally concerning the activities with the Communists in Latin America.~~ He states this is due to the fact that the efforts of the Communists to take over the Iberian Peninsula are opposed by the Basques who are the Communists most hated enemies in Spain.

Mr. IRALA stated that the special emphasis placed by the Basques relative to Communism does not preclude the Basque representatives in Latin America from assisting the Bureau's representatives on any other type of subversive activity wherever possible. He stated by way of illustration that in most of the Latin American countries where there are Spanish ministers, there are Basques who can obtain information from the offices of these Spanish ministers.

Mr. IRALA turned over to Jerome Doyle a list of the Basque representatives in the various Latin American countries. This list is being held in the New York SIS office pending the decision of the Bureau with respect to working with the Basques in Latin America. If the Bureau decides to enter into close cooperation with the Basques, Mr. IRALA will furnish Mr. Doyle with background information relative to each of these representatives.

The substance of conversations between Mr. Doyle and Mr. IRALA was outlined telephonically by Mr. Doyle to Supervisor [redacted] at the Seat of Government.

Supplementing the letter dated March 4, 1944 entitled RASQUE ORGANIZATION; LATIN AMERICAN MATTERS, Mr. Jerome Doyle discussed with ANTONIO IRALA, Secretary of the Basque Delegation, in detail the possibilities of the Basque Organization in Argentina cooperating with the Bureau. These conversations took place on February 24, March 2, and March 4, 1944.

As was set out in the letter of reference, the Basques have been working on intelligence matters in Argentina since 1939. For the past year, the Basque information service in Argentina has been under the direction of a Basque named DR. LASARTE. Mr. IRALA pointed out that the information obtained by LASARTE's organization [redacted] for [redacted] was solely information concerning Spanish ships and members of these ships' crews.

Mr. IRALA pointed out that no use was being made of the Basques in Argentina to obtain political, social, economic, or even general subversive activity information. He stated that with a moderate amount of direction the Bureau, working with DR. LASARTE, could very quickly build up a Basque information organization covering Uruguay, all parts of Argentina and Chile, which in addition, would furnish the Bureau with political information emanating from Bolivia. Mr. IRALA stated that followers of the Basque Republic are found in political, religious and military circles in Buenos Aires.

Mr. IRALA is firmly convinced that if the Bureau's representatives in Buenos Aires proceed to develop the Basques for political, economic and the other types of information, that within a reasonable period of time, DR. The foregoing has been made a matter of a separate letter to the Bureau inasmuch as it is the most difficult problem existing in any general agreement the Bureau might reach with the Basque Delegation. MEMORANDUM FOR MR. LADD

RE: Basque Organization
Latin American Matters

8/18/88

BACKGROUND

You will recall that Antonio Irala, Secretary to the President of the Basque Government in exile, informed an Agent of the New York Office that the Basques were strongly desirous of working solely with the Bureau in the Western Hemisphere. Special Agent Jerome Doyle was instructed to interview Irala in order to explore the possibility of the full utilization of the Basque representatives in Latin America as informants for the Bureau.

DETAILS

Doyle interviewed Irala at length and obtained the information which is set out below:

Irala explained that when President Aguirre of the Basques came to the United States he was accompanied by Manuel de Irujo.

These instructions created a great deal of confusion among the Basque circles in Latin America, because the Basques do not understand the American intelligence set-up, according to Irala. Irala claimed that little effort had been made by the New York Office of the Basques to clear up the situation because it was considered that it would be indiscreet.

Irala stated that the present situation as known to him in Latin America is as follows:

[REDACTED]

(c)

Panama: No contacts with American authorities.

Other countries: No Basque information service organized as yet.

~~CONFIDENTIAL~~

Irala stated that immediate steps can be taken in all the countries with the possible exception of Argentina, to maintain contacts exclusively with the Bureau's Legal Attache. He stated further that it is the desire of President Aguirre to confine the contacts of the Basques in the Western Hemisphere to the Bureau.

(C)

Irala pointed out that they would of course desire that the Bureau forward a few administrative messages for the Basques [redacted]

[redacted] He stated that it would be satisfactory for the Bureau's representative to make arrangements locally with the Basque organizations for finances. [redacted]

Irala claimed that the Basques should be told that the money is coming from President Aguirre, inasmuch as the Basques are extremely patriotic and proud, and will work better if they do not feel that they are paid agents of the United States Government, but are working for the Basque Nationalist Government. He stated that if such a plan is acceptable to the Bureau, letters would be forwarded to each of the Basques in each of the countries mentioned, instructing them they they are to deal solely with the Bureau's representative in that particular country.

In connection with putting this scheme into effect, Irala stated that the only real administrative difficulties he could foresee might arise in Mexico, Chile, Colombia, and Argentina. He stated that it would be wise in view of previous conflicting instructions by President Aguirre, and in view of the confusion as to the United States Government intelligence agencies in the minds of the Basques in Latin America, that if a member of the Basque delegation proceeded to Mexico, Chile, and Colombia and gave complete instructions to the Basque delegates in these countries, it would insure efficient operation of the Basque information service there. He suggested that a representative from the Basque service in Venezuela, where Bureau and Basque collaboration has been unusually successful, would be the best person to proceed to these countries.

[REDACTED]

Irala pointed out that it would be necessary for the Legal Attaches to advise the Basques as to information desired and to generally supervise their operations. At the present time the Basques are intensely interested in combating Communism, and steps have already been taken to infiltrate the various Communist organizations throughout Latin America. The Basques are making a particular study of Mexico, inasmuch as they consider Mexico as the headquarters for the Communist movement in Latin America. He stated that although emphasis was being placed on Communism by the Basques, this does not exclude their men from doing any type of work desired by the Legal Attaches.

Irala also stated that the Basque delegates in New York would not desire reports on the work of the Basque agents, but would appreciate being advised occasionally in a general way as to the efficiency of the organization and as to the results obtained. He did state, however, that the Basque delegates in New York would like to be advised generally as to the activities in general of the Communists in Latin America, inasmuch as the Communists are endeavoring to take over the Iberian Peninsula, and are the most hated enemies of the Basques in Spain.

Our experience with the Basques in Latin America has indicated that they are extremely valuable informants, and they have been of assistance to the Legal Attaches in a number of countries. In Venezuela where the Basque service has been exclusively handled by the Legal Attache, they have been the most valuable informants we have.

b-1
DIA

In view of their interest in combating Communism and their efforts already begun to infiltrate Communist organizations, they could be of extreme value in the future, inasmuch as Communism is presently one of the principal problems in Latin America, and will become increasingly serious.

RECOMMENDATIONS

1. It is recommended that we instruct Doyle to secure the necessary letters from President Aguirre of the Basque headquarters, instructing their representatives in each country to collaborate with the Legal Attache.

b-1
DIA

It is suggested that we agree to forward a limited number of administrative letters for the Basque delegates through the Legal Attaches. It should be noted that the [REDACTED] are doing this at the present time, [REDACTED]

With reference to the Basque headquarters' interest in Communism, we of course cannot furnish reports to them, but there would appear to be no objection to their own men forwarding to their headquarters certain reports with the administrative letters, which the Bureau will handle [REDACTED]

2. It is suggested that the Legal Attaches be instructed to take immediate and full advantage of contact with the Basques, and endeavor to set up an

~~CONFIDENTIAL~~

~~CONFIDENTIAL~~

organization similar to that which has been successfully utilized by the Legal Attache in Venezuela. Financial arrangements should be made by the Legal Attache locally, with Bureau approval, of course, and in accordance with the value of the services rendered on the same basis that we pay other informants. Of course there does not appear to be any objection to complying with the request of the Basques in New York and telling the local Basques that the arrangements for the money are made by President Aguirre in New York.

3. In view of the importance of Mexico, Colombia, and Chile in Latin American affairs, and the necessity for the best coverage possible, particularly with reference to Communists, it is suggested that we have a Basque delegate proceed from Venezuela to these three countries to convey verbal instructions to the Basques, and to place the Legal Attache in touch with them. As noted above, the Legal Attache has very successfully utilized the Basques in Venezuela and in the three countries named there appears to be some confusion because of

With respect to Buenos Aires, it is suggested that the Basques in New York instruct Lasarte to collaborate with the Legal Attache, not to the exclusion of the [REDACTED] but in connection with matters other than those presently being obtained for the [REDACTED]. Also, the Legal Attache should endeavor to perfect an arrangement with the local Basque representative whereby we will receive the ship reports presently being given the [REDACTED]. Any financial arrangements in connection with this should also be handled as in other countries, by arrangements with the local Basques, on the basis of services performed. It is possible that if we work with the Basques in connection with matters other than the ship-reporting service, that we may be able to gradually take over the work presently being performed for [REDACTED] which is in accord with Irala's suggestion.

Reference is made to your letter of March 4, 1944, reflecting results of a conference between Special Agent Jerome Doyle and Antonio Irala, Secretary to the President of the Basque Government in exile. With reference to the data furnished by Irala concerning the Basque representatives acting as informants for the Bureau in Latin America, the following is submitted for the guidance of Special Agent Doyle in connection with further conferences for the purpose of making definite arrangements with the Basque representatives in New York.

SIDE FOR
CLASSIFICATION

It is desired that the necessary letters be secured from President Aguirre, directed to the Basque representatives in Latin America, concerning their future collaboration with the Bureau's Legal Attaches. These letters will be forwarded by the Bureau to the Legal Attaches with appropriate instructions for contacting the local Basque representatives.

but the Bureau will of course expect exclusive use of their services in Latin America where arrangements are made locally by the Legal Attaches.

With regard to the suggestion of Irala that a competent Basque representative from Venezuela proceed to Mexico, Colombia, and Chile in order to acquaint the Basque representatives in those countries as to means of proper collaboration with the legal Attaches, this will be satisfactory to the Bureau, and you should secure further details with respect to completion of this arrangement.

I have noted the comments of the Basques with respect to collaboration with the [redacted] in Buenos Aires, and their suggestions as to future work for the legal Attache. The Bureau desires that arrangements be made for the legal Attache to utilize the local Basque representatives in Buenos Aires for work on political, economic, and other types of information which are not being presently furnished to the [redacted]. It will of course be satisfactory with the Bureau for the Basques to gradually withdraw from their arrangement with the [redacted] but this should be left up to their discretion. It is suggested that copies of the ship reports presently being furnished to the [redacted] should also be furnished to the legal Attache for his information. This arrangement should definitely be worked out in Buenos Aires on a confidential basis between the [redacted] representatives there.

RE: BASQUE ORGANIZATION
LATIN AMERICAN MATTERS

Dear Sir:

Reference is made to Bureau letter dated April 12, 1944 addressed to New York City for the attention of Jerome Doyle in the above captioned matter. Further reference is made to letter of the New York office to the Bureau dated March 4, 1944 concerning the same subject. Further reference is made to telephone calls between Supervisor [redacted] at the Seat of Government and Mr. Jerome Doyle of the New York SIS office on April 4, 1944.

This is to advise the Bureau that subsequent to March 4, 1944 up to April 17, 1944, Mr. Jerome Doyle has conferred with ANTONIO IRALA, Secretary to the President of the Basque Republic, concerning the details of bringing about close cooperation between the Bureau's Legal Attaches in Latin America and the various representatives of the Basque Delegations in the Latin countries. It should be noted that Mr. IRALA has been most desirous of cooperation and amenable to suggestions.

On April 12, 1944, several letters were obtained from Mr. IRALA signed by President AGUIRRE of the Basque Delegation, directed to Basque representatives in Latin America. At this time, the letters are addressed to the following Basque representatives:

Mr. IRALA turned over to Mr. Doyle translations of these letters which are written in Spanish. Copies of the translation of the letter to Dr. LASARTE and of the letter to the other Basque representatives, which is identical in all three instances, were likewise obtained and are enclosed herewith. The letters signed by President AGUIRRE are likewise enclosed.

From a perusal of the contents, the Bureau will note that each Basque representative is being instructed to deal exclusively with the bearer of the letter who will be a Bureau Legal Attache or one of his assistants. This is true in the instances of the letters addressed to the Basque representatives in Chile, Peru and the Dominican Republic. Because of the peculiar local situation existing in Argentina, President AGUIRRE to continue his [redacted] but to turn over all maritime information obtained from various Basque sailors to the Office of the Legal Attache. This concession was obtained from the Basques by Mr. Doyle on the promise that the information would not be disseminated to various American intelligence agencies by the Bureau representatives in Argentina or in Washington.

b-1
per
DIA

It will be noted, of course, that President AGUIRRE is instructing Dr. LASARTE to set up an organization giving complete coverage of the economic, political, social and religious circles in Argentina. It will be further noted that Dr. LASARTE is being instructed to perfect an information service of Basques for the use of Bureau representatives in Bolivia, Uruguay and Paraguay. He is likewise being instructed to proceed to Santiago, Chile to assist in the perfecting of the Basque information service in that country. Mr. IRALA understands that the Bureau's representatives in Chile and the Basques have collaborated in the past but he believes that with the assistance of Dr. LASARTE, a better and more efficient Basque organization can be realized there.

It is believed that the Bureau should give the Legal Attache's office in Buenos Aires the complete background relative to the instructions to Dr. LASARTE, not only effecting Argentina but also the neighboring countries of Argentina. Consequently, when Dr. LASARTE or a representative of his is about to visit one of these countries, the name of the Bureau's representative in that country can be furnished the Basque representative. It is likewise believed the Bureau should notify the Bureau's representatives in Bolivia, Uruguay, Paraguay and Chile that they might expect such a visit from Dr. LASARTE or one of his assistants.

The effecting of better liaison between the Bureau's representatives in Santo Domingo, Chile and Peru is hoped to be brought about by the delivery of the attached letters to the Basque representatives in these three countries.

Insofar as Venezuela, Cuba, Colombia and Mexico are concerned, Mr. Doyle discussed the situation of these four countries with Mr. IRALA. Inasmuch as the Bureau had agreed with Mr. IRALA's suggestion that a Basque representative from Venezuela proceed to Mexico, Colombia and Chile, it was felt by Mr. Doyle speedier results can be obtained, with no additional expense to the Bureau, by having the Basque representative from Venezuela stop in Cuba and Colombia en route from New York to Caracas and in those two countries perfect the arranging of closer liaison between the Bureau and the Basques. It appears that the Venezuelan Basque representative has been called to New York City by President AGUIRRE for a conference and is due to arrive in New York City on or about April 20, 1944. Irrespective of the results of this conference which concerns Basque matters, he will be sent back to confer with the Basque representatives in Cuba, Colombia and his own assistants in Venezuela, outlining to them the new arrangements whereby the Basques will deal exclusively with Bureau representatives in those three countries. Mr. Doyle will meet this Basque representative with Mr. IRALA so that there will be a clear understanding of what the arrangements are.

From conversations with Mr. IRALA, it became quite apparent to Mr. Doyle that the Basques in the Republic of Mexico offer great possibilities to the Bureau's work in that country. However, at this time, there exists little organization in the Basque Delegation. Mr. IRALA feels that if he goes to Mexico, working in conjunction with the Bureau's representatives, he could in a very brief time of ten days to two weeks, set up an organization for the Bureau's use. He suggested that the Bureau might give consideration to assigning one Agent in Mexico to work with the Basques constantly and if such a plan is feasible, Mr. IRALA will so instruct the Basques in Mexico and will introduce the Agent so designated to them. The Bureau might consider the assignment of an undercover Agent in Mexico City to such a project. Mr. IRALA believes that he could leave for Mexico on this mission on or about April 30, 1944. Mr. Doyle will notify the Bureau as to the exact date when it crystallizes.

b1 [REDACTED] will continue accepting payments for various Latin American representatives until final arrangements are perfected between these various Basque representatives and the Bureau's representatives in each country.

President AGUIRRE and Mr. IRALA understood completely that the final arrangements in Latin America must be worked out between the various Legal

Attaches and the Basque representatives. President AGUIRRE and Mr. IRALA have been advised by Mr. Doyle that the Basque representatives will be made to understand that any money paid to the Basques by the Legal Attaches emanates from President AGUIRRE. It is suggested to the Bureau that in its letter outlining the proposed close liaison between the Basques and the Bureau representatives that for the guidance of the Legal Attaches, they be advised as to the amount of money remitted by President AGUIRRE monthly to these various representatives. Mr. IRALA stated that on many occasions, the Basques do not spend the money sent them and as a consequence, return it to President AGUIRRE in New York City.

Presently the money paid by President AGUIRRE to the Basques is as follows: Santo Domingo - \$75 per month; Chile - \$400 per month; Peru - \$100 per month; Cuba - \$250 per month; Venezuela - \$400 per month; Colombia - \$150 per month; Mexico - \$750 per month; Argentina (Uruguay) - \$2000; Paraguay, Bolivia - \$0; Chile - \$400 per month.

Mr. Doyle has advised the Basques that a minimum of administrative mail concerning Basque matters will be transmitted to and from Latin America by the Bureau. In addition, reports on Communism will be transmitted to President AGUIRRE through the Bureau provided a copy of such reports are made available to the Bureau.

The bearer of this letter, Mr. _____, is the authorized representative of the American organization responsible for the investigation of any enemy penetration in the Western Hemisphere affecting the security of the United States.

After numerous interviews with the heads of the organization in New York as well as in Washington, we have been informed that the organization represented by Mr. _____ is solely responsible for the above-mentioned task in the Western Hemisphere. You know that up until the present the Army as well as the Navy and other American organizations have been working in the mentioned fields of investigation and our organizations maintained useful contacts with them. Today, according to our information by an agreement of the American authorities themselves, the work has been entrusted to the organization which the bearer represents. Therefore by practical agreements with their heads, the Basque organization which up to date has been collaborating with and serving the different American organizations, will work exclusively with the organization which Mr. _____ represents from now on.

This representative, following the instructions he has received, will place the information received there in the hands of the other American organizations interested in it, but our work should be carried out with Mr. _____ exclusively. If this change should seem strange to the other American representatives, you may inform them that you are obeying orders which I have sent you in accord with the American Authorities, and as a last resort, Mr. _____ will undertake to give them an adequate explanation.

This new period of our collaboration with the cause of the United States is of great importance. I want you to intensify all your efforts so that our work may be the most efficient and outstanding possible. In doing this we not only aid America and the Allied Cause but also our Country to a great extent.

Take note of the following specific instructions:

1. The Basque organization will collaborate exclusively with the organization which Mr. _____ represents, offering all its services, means and personnel that have been organized up to the present. Also any assistance desired among the social or political contacts of the Basques.
2. The Basque organization will study by itself all that it considers convenient for the Allied Cause and of America with regard to the interests which Mr. _____ represents, presenting all kinds of suggestions or projects which might have anything to do with it, as well as everything past experience has taught. You should not omit the defects or deficiencies observed, nor the failures which you might have had, their reasons and manner of correction.
3. You will give Mr. _____ all the information you receive and the measures which must be undertaken in order to increase and improve it.
4. You will constantly ask Mr. _____ for plans, ideas, projects, etc., so that the Basque organization may fulfill all the needs, informative as well as factual.

Mr. _____ will ask for more work as time goes on deducing from what you have been doing the amount of assistance which you and your collaborators can give him. They indicate that he will begin by requesting information on the activities of the Communist Party in that country, a topic which even though it may seem strange to you, is of major importance and in the development of which I expect you to put your greatest effort, much ability and maximum efficiency. The rest of the information solicited might be of general character, on political, economic problems, and on specific persons of that country or residing there and anything else that may have to do with the Allied

The collaboration with Mr. [redacted] should begin immediately. If before receiving this letter you have had occasion to come in contact with Mr. [redacted], this letter will serve to tighten even more the established relationship, with the exclusiveness mentioned above.

The economic aid which you have been receiving from the Basque Government will continue in the future but subject to the following rules:

1. Once you agree with the bearer on the plan of work to be carried out and Mr. [redacted] proposes the missions or tasks which interest him, you should indicate the amount of money needed for the normal development of the work entrusted to you.
2. You should be guided by a just standard, avoiding both niggardliness and abuse. You should ask for that which is necessary to obtain the best results, paying adequately those persons whose assistance and efficiency is shown, covering the necessary expenses so that the work will not be interrupted because of lack of funds. You will be able to settle this question with Mr. [redacted] if it arises, and if it is necessary, all that will be needed to cover the work to be carried out using the Basque organization of other types that exist in that country.
3. Mr. [redacted] will discuss these matters with you with regard to the importance of the work that is developed or can be developed. Mr. [redacted] will inform his chief of the decisions made with you on this matter. I have agreed with the heads of the organization that the amount stipulated by you and Mr. [redacted] will be delivered to you there, in order to prevent the inconvenience of the remittance by us. Mr. [redacted] will communicate to Washington the amounts paid and here I shall arrange with his chiefs for the payment of the sums which will be paid to you.

It is my desire that these undertakings be carried out not only with that necessary discretion that has been observed up till now, but also with great emulation, enthusiasm and discipline. The greatest sincerity and frankness should govern all our acts. The defects and deficiencies of our organization will rapidly be pointed out and brought to my attention through Mr. [redacted]'s chiefs as is their duty and as I also desire. I hope that I won't have occasion to hear of any. You, in turn, should inform me through the bearer of any that you notice in this work of collaboration, and thus we will gain in efficiency.

If you have some information which you consider of special interest to me, and which you do not consider should be put in the ordinary mail, you may give it to Mr. [redacted] requesting that it be sent to me through this service, and I shall receive it in New York.

Always remember that in serving the cause of liberty which America represents we are serving the cause of our Country.

BACKGROUND

Reference is made to my memorandum of March 14, 1944, reflecting the results of an interview by Special Agent Jerome Doyle with Antonio Irala, Secretary to the President of the Basque Government in exile in New York City. Irala outlined the Basque Organization presently in Latin America and indicated a desire to work there exclusively with the Bureau. Irala offered to make the necessary arrangements, and you will recall that Doyle was instructed to have these arrangements made in order that the Legal Attaches could utilize the Basque Intelligence Service in Latin America as a confidential source.

DETAILS

By letter of April 18, 1944, Doyle reported a further interview with Antonio Irala. There were secured from Irala letters signed by President Aguirre of the Basque Delegation, directed to the Basque representatives in Buenos Aires, Argentina; Santiago, Chile; Lima, Peru; and Ciudad Trujillo, Dominican Republic. The principal Basque representative in Venezuela is presently in New York, and it is proposed that he return via Cuba and Colombia in order to properly instruct the Basques there with reference to cooperation with the Legal Attache. Mr. Irala further proposed that a representative from New York proceed to Mexico in order to effect closer liaison between the Bureau and the Basques in Mexico City. The work of the Basques for the Legal Attache in Venezuela is already outstandingly successful, and no further action is necessary in that country.

in Uruguay, Paraguay, and Bolivia. He is being instructed by the Basques to make the necessary arrangements for informants for the Legal Attaches in these countries.

The letters which are being directed to the Basque representatives by their headquarters set out that the Bureau is solely responsible for intelligence matters affecting the security of the United States in the Western Hemisphere. The Basque delegates are instructed to cooperate exclusively with the Legal Attache, and in the event other American representatives raise any question they are to be informed that the Basques are obeying orders received from their headquarters in New York, which are in accord with an agreement with "American authorities." Basque headquarters points out to these local Basque leaders that the "economic aid" which they have been receiving from the Basque Government in exile in the past will continue, but that they will work out the details of financing their intelligence work with the Legal Attache. The Basque headquarters points out that it has been agreed that the amount stipulated by the Legal Attache will be delivered to the Basques locally in order to avoid the inconvenience of a remittance by the Basque headquarters in New York.

ACTION

There are attached letters to the various Legal Attaches which will be forwarded if you approve. There are being attached to these letters for their information a memorandum regarding the Basque Organization in New York and a memorandum reflecting the successful utilization of the Basques in Venezuela by the Legal Attache.

ENCLOSURE

I. The organization is in operation in: Mexico, Santo Domingo, Cuba, Panama, Venezuela, Colombia, Peru, Chile, Argentina, Uruguay.

Mexico: There are many friends not only in the capital but also in the most important points of the coasts and frontiers with the United States. Up to date, an ample list of suspicious persons has been obtained among German, Italian, and Spanish subjects and some Mexicans connected with them. We have not succeeded in penetrating the enemy organization because no important matter has presented itself. The work concerning the Communist organization has been successful because we succeeded in entering it, a matter which has begun to yield fruit. Because of the lack of means in solving the problem of contacts across the extensive Mexican territory it has been impossible for us to use the means we have in different parts of the nation. There are many Basque refugees as well as established residents well acquainted with the social, economic and political life of the country.

[REDACTED]

The Legal Attaché asked for a man to be in close contact with him. The man was supplied. We do not believe that the latter has done any work of importance other than the completion of minor undertakings requested of him.

Santo Domingo: Our representative is an active youth with admittance and influence in the governmental and social circles of the country. He does not have many collaborators but does have some who could help him carry out any mission which might be given him taking into consideration the conditions of the island.

[REDACTED] and we believe also with the Legal Attaché. It has been impossible for us to study the situation there on our trips and therefore we do not know in detail the activities which have been developed. In Santo Domingo there are few established Basque residents and few refugees.

Cuba: All relations have been with the Legal Attaché. Our men have limited themselves to fulfilling specific missions given them. There are established Basque residents with great influence in the economic, social and political fields. There are few Basque refugees. There are good possibilities of working among the popular masses through certain organizations such as "Centro de Independientes", Centro Gallego, Centro Catalán, Círculo Republicano Español. In the same way we can reach the religious circles throughout the country. The organization has not been fully developed because of the lack of means and direction. It would be necessary to strengthen the organization. Men whom we could have utilized entered the orbit of the activities of Mr. Hemingway and his friends some time ago. We did not believe it convenient to interfere in the services which some Basques were already carrying out in favor of America above all considering the special characteristics of the country and the way in which the American authorities directed the information services. We adopted this position after our first visit to the island in March 1943 and we acted consulting all matters with the Legal Attaché, [REDACTED] who at the time knew in detail our purpose and the measures undertaken.

Argentina: From the beginning of the European War Basques were working in favor of the Allies.

c) Because of the influence of Germans and their friends in the Argentine governmental spheres, to cover the above mentioned activities by taking ample measures for security which have permitted the work to continue up to date without the slightest mishap.

b-1 per DIA

[REDACTED] 7C

Aside from the natural difficulties of the work in Argentina and the extent of the same, Dr. Lasarte has been inconvenienced up till now by the fact that we cannot send him regularly the economic assistance that we promised because of the circumstances in which the political life of the country develops since we were to send him the money through the regular channels. Recently we have been able to make up the delay in payments. With all this he has been able to extend the organization to the whole Argentinian territory, covering the capital and important points of the country, especially on the Chilean border.

The position of the Basques in Argentina continues to be satisfactory. Good relations and influence have been maintained in official circles and even with President Ramirez; also with the police. The cover provided by the society of "Basque-Argentinian Economic Studies" organized by Dr. Lasarte has given the desired results. Besides there are the Editorial Vasca "ekin", the newspaper Euzko Deya, and numerous Basque clubs not only in the capital but also in the most important sections of the country which can permit undertakings through them and can gain access to spheres of social and economic influence or to popular sectors where Communism may act.

II. In San Salvador and Nicaragua we have Religious elements of complete trustworthiness and influence as well as some civilians, which would permit the rapid organization of information services if desired. The same in Bolivia. This has not been undertaken as yet because our trips have not permitted us to visit these countries.

III. About the work carried out to date we would like to make the following observations:

A. We have tried at all times to use the Basque refugees almost exclusively since they, because they are accustomed to fighting for our country and because they have a greater spirit of sacrifice, seemed better suited to this type of undertaking. In general we have not made use of established Basques until we have studied them carefully in order to prevent the difficulties which could arise from the habits formed by economic preoccupations and easy ways of life, even when their ideological integrity was well known to us.

D. In economic matters, the emphatic order of President Aguirre was sent to all sections to the effect that our men should not receive any economic remuneration whatsoever from the American authorities in the respective countries. This responds to our desire to rouse the greatest spirit of sacrifice in the service of the United States and to prevent any duplicity in payments, inequality in recompenses, and any occasion for abuse by any of our men even when we are certain that such a thing would not occur because of the integrity of the persons who intervene in this type of undertakings. The direct receipt of money has been tolerated only in Argentina, Uruguay, and Venezuela.

3. In Venezuela an agreement with the Legal Attaché was authorized in the same manner because it was considered imperative for the progress of the work which is carried out there after having seen the disinterest and abnegation with which our people have worked and because our remittance covered little more than the salary of one man.

IV. In our desire to reach the most perfect collaboration and efficiency in the work whose expansion we study, we would like to make the following observations:

I have suggested an initial project of "Communism"
(10)

A. It would be useful to discuss a plan of work in each of the countries, knowing beforehand the general lines of the most important problems, for perhaps we could facilitate some formula to improve our contribution, strengthening our organization with appropriate members. It is necessary to point out that our men in each of the countries cannot offer solutions to specific problems which might arise because they do not know the state of our organization and its practical possibilities outside of the country in which they act.

B. Within the lines that are decided upon, President Aguirre will send the proper instructions to each country by means of the Legal Attaché in order that the latter may transmit them to our representative. With the mentioned instructions the Legal Attaché will be able to organize the work planning the specific matters to be undertaken in order to direct the work of our men and to prevent the difficulties which we pointed out in Number III, Section C. Nevertheless, we are afraid that the new orders if delivered only in writing would not be sufficient to prevent confusion in some places, especially in Mexico, Colombia and Chile. In order to prevent this difficulty we think that perhaps it would be wise to have some well selected man of ours personally explain the situation in detail and at the same time solve the deficiencies of management on our side in Mexico and Chile. At the same time it could serve as an opportunity for the Heads of the Legal Attachés to give him the exact instructions which must be carefully transmitted and explained to our men in order that they may interpret them properly.

Ornela has suggested the Pasque from Venezuela as he has worked with Bureau very successfully for over a year
(10)

~~CONFIDENTIAL~~

note → C. Special attention should be given to the situation of Argentina. Once the basis for future action is established, an extensive organization could be set up which would work closely and well coordinated among Chile, Argentina, Uruguay and perhaps Bolivia under the direction on our part of Dr. Lasarte who in collaboration with the respective Legal Attachés could carry out an excellent job because of his qualities.

D. With reference to Communism it would be wise to settle, keeping in mind the manner in which the Communists act, whether the work of our organization would cover all or part of the following aspects: investigation in each country of the Communist agents, their affiliates and sympathizers, whether foreign or native; activities of agents; means or aids of which they take advantage; manner in which the Communists make use of social, political and economic sectors in each country for their own interests; topics which they use for their work of agitation in the social and political fields.

We consider Mexico as the head of the Communist movement in Latin America; Cuba, Argentina and Chile as good territory for action and base for operations. We believe that Colombia will follow Mexico in importance in the near future.

In studying the Communist activities we are under the impression that our organization would be especially efficient in all of Latin America and come to be an instrument of importance. A well-conceived plan using our agents, specially trained, could give us an intimate knowledge of the Communist system and our agents would work this field with increasing enthusiasm. Later on if Communism were to continue in a direction contrary to the democratic interests, once the information network is established, perhaps we could begin an active movement against it in the ideological sphere using our centers of influence throughout Latin America following directions which must be planned.

E. In economic matters our organization up till the present is maintained by remittances which President Aguirre carries out. The sums of money sent monthly are as follows: Mexico, \$750; Peru, \$100; Cuba, \$250; Santo Domingo, \$75; Panama, \$100; Venezuela, \$400; Chile, \$400; Colombia, \$150; and Argentina \$2000 which includes Uruguay. None of our agents should be considered as a professional though they have been occupied in these activities for a long time. A personal sacrifice is involved when they devote themselves to the services of information for they must abandon their customary way of life totally or partially according to the circumstances. In order to improve the efficiency of the work we point out the convenience of paying our organization in order that our people may dedicate themselves exclusively to informative undertakings. The plans decided upon for each specific place would serve as a guide for the amounts to be paid. As a matter of fact, we would like to state that what is now sent to Argentina is not enough to develop an organization throughout the whole country. The same may be said about Cuba to improve the work that is being done, and about Chile and Mexico to cover the entire territories, if it is of interest.

F. Of our part we are not specially interested in knowing in detail the information services which our agents carry out, especially in those related to espionage activities of the enemy; more than that, we would prefer not to know them for our own tranquility. But in order that our collaboration might be as efficient as possible we would like to be informed of the progress of the work with favorable or unfavorable comments; in the latter case so that we may study the causes and attempt to find satisfactory solutions. Only in the case of the activities about Communism are we interested in knowing the results of the work of the organization because with this knowledge we could interpret the facts and give suggestions which might be of interest. Besides Latin American Communism pursues the bolshevization of the Iberian Peninsula with special interest and makes the Basque Country the main target of its activity. This information would be of great value to President Aguirre as President of the Basque Country.

~~CONFIDENTIAL~~

RE: BASQUE INTELLIGENCE ORGANIZATION

Dear Sir:

DECLASSIFIED BY SP-8
ON 5-18-88
267-468

Pursuant to the telephonic request of Supervisor [REDACTED] on July 8, 1944, Jerome Doyle of the New York SIS office discussed with ANTONIO IRALA, Secretary of the Basque Delegation, the possibility of the Basques furnishing courier service in and out of Argentina in the event of a break of relations between that country and the United States of America. Mr. IRALA stated that he felt there were many Basques presently in Chile who could very easily be used as couriers between Chile and Argentina. He advised that many of the Basques in Chile had Chilean citizenship which entitled them to freedom of movement between Chile and Argentina with little or no immigration requirements needed. He stated that [REDACTED] could be used in courier work. In addition, there were many Basques in Chile [REDACTED] and [REDACTED] for trips between the two countries.

will not be used on

[REDACTED] He added that this individual has worked very successfully with the Bureau representative in Venezuela over a period of time and that he might be used either as an intelligence operator in Argentina or as a liaison man between the Bureau representative in Chile and the Basques and any other undercover operators the Bureau might have in Argentina. This individual's name is [REDACTED] and in addition to being a loyal Basque, [REDACTED]

For the Bureau's information, this subject matter was discussed with Mr. IRALA in addition to other matters and he was given no indication that any such break of relations between Argentina and the United States was immediately imminent. It was merely discussed with him as sort of a hypothetical situation which might exist in the future [REDACTED] which plans should be made in advance of the event.

The foregoing information was telephonically outlined to Supervisor [REDACTED] on July 10, 1944 and is being confirmed through the medium of this letter.

RE: THE BASQUE ORGANIZATION -
MEXICO

Basque Intelligence Service

Dear Sir:

Reference is made to letter of the Civil Attache at Mexico City dated June 1, 1944 in the above captioned matter in which the Civil Attache advised the Bureau as to the results of several conferences between representatives of the Civil Attache's office in Mexico, D.F. and Mr. ANTONIO IRALA, Secretary to the President of the Basque Delegation in New York City. This is to advise that on June 8, 14 and 20, 1944, Mr. Jerome Doyle of the New York SIS office had further conferences with Mr. IRALA following Mr. IRALA's return from Mexico City.

Mr. IRALA outlined to Mr. Doyle substantially the conversations he had had in his three meetings in Mexico City with Bureau representatives. He stated that the request of the Bureau's representative that the Basques furnish five investigators who would be paid from 250 to 300 pesos a month was almost impossible to be met by the Basques in Mexico, D.F. He pointed out that the Civil Attache desired the exclusive use of these investigators which would perforce prevent them from carrying on any other business activity to augment their income. Mr. IRALA pointed out that any Basques in Mexico who he would recommend as an investigator would have to have the proper mental acumen and moral stability. He pointed out that all of the Basques who would fit these qualifications are presently employed in private enterprise making incomes of from 500 to 1000 pesos a month. He added that President AGUIRRE of the Basque Delegation did not feel that these Basques should be ordered out of their present business to work for half or less than half of their monthly salary in view of the fact that they had families to support and other fixed obligations.

RECORDED & INDEXED
GENERAL RECORDING 67-23119-32

Mr. IRALA, upon the second occasion he conferred with Mr. Doyle, advised that he had gone into the Mexican matter in great detail with President AGUIRRE and that it was their combined conclusion that the question of payment to Basques was of minor importance and that it was the desire of the Basque Delegation that the Basques in Mexico City work with the Bureau's representatives. Mr. IRALA stated that the Basque Delegation was ready to pay the difference between the amount paid by the Civil Attache to the Basques and

the previous monthly stipend of \$750 American or 3000 pesos Mexican. He added that it was President AGUIRRE's desire that the Basque representative, [redacted] be contacted and that the attached letter from President AGUIRRE to [redacted] be delivered to him. It will be noted from the contents of this letter that no mention is made of the amount of money that the Civil Attache should pay [redacted] inasmuch as President AGUIRRE feels that the Basques in Mexico should work for the Bureau representative without pay if necessary.

The most important request of the Basques in New York City with respect to payment of money by the Civil Attache is that if the Civil Attache does pay any sums to Basque representatives in Mexico City, that the amount so paid be made known to the Basques in New York City so that the full \$750 a month will not be sent by the Basques in New York to the Basques in Mexico City.

Mr. IRALA stated that he felt once liaison was perfected between the Civil Attache's office and [redacted] that gradually thereafter the Civil Attache's office could begin to find more and more uses for the Basques. He stated that from his study of the Basques in Mexico, he felt that immediately the following types of information could be provided by the Basques to the Civil Attache:

b7D
[Large redacted block]

b7c
b7D
Mr. IRALA stated that if the Civil Attache has specific work in mind for the prospective five investigators, that he give this work to [redacted] and it is quite possible the work can be accomplished without having five formal investigators on a payroll. He stated further that for the Civil Attache to make full use of the potentialities of the Basques, that other specific problems and questions be presented to them with the request that they obtain results.

Mr. IRALA stated that he feels that if the Civil Attache's office will show patience at the outset with the Basques, that within a short period of time, substantial results should be obtained. He requested that any

shortcomings on the part of the Basques be called to the attention of the Basque Delegation in New York City through appropriate channels and that the necessary directions to correct these shortcomings will be made by the President of the Basque Delegation. X

Mr. Doyle, on June 8 and 15, 1944, outlined the results of these conferences with Mr. IRLA to Supervisor [redacted] at the Seat of Government. The foregoing facts are being furnished the Bureau so that appropriate and immediate action might be taken by the Civil Attache's office in Mexico City. For the purpose of expediting this matter, an extra copy of this letter is being furnished the Bureau so that it might be forwarded to that office by the Bureau with appropriate Bureau instructions. Re: Basque Organization
Venezuela Administrative

Dear Sir:

Basque Intelligence Service

Reference is made to letter of this office to the Bureau dated May 13, 1944 concerning subject matter in which it is stated that conferences were being held with representatives of the Basque Organization for the purpose of preparation and submission of a detailed plan for the more effective use of the Basque Intelligence Service in Venezuela.

These conferences were initiated because it was believed by this office that the anticipated use of and benefit from the Basque Intelligence System has not been satisfactory. Informant [redacted] has, since the initiation of these conferences, stated that he, as well as [redacted] has been disappointed in the results produced by their groups and felt the need of a reorganization. The deficiency in the work of the Basques will be pointed out herein after in connection with the discussion of the proposals submitted by the Basque Delegation, and the reactions of this office to the aforementioned plan will be set forth.

b2
b7D

The Basque Organization, through Informant [redacted] submitted a plan for the use of the Basque Intelligence Service by the Bureau representatives, a free translation of which is attached hereto. This plan and the analysis thereof will be discussed in the order of the various sections thereof.

A. DELEGATION OF THE BASQUE GOVERNMENT IN VENEZUELA

This section sets forth the general organizational set up and alleges that the Chief of the Venezuelan

[redacted] has received the sum of \$400.00 monthly from the Basque Government in Exile with its offices in New York. (The source of this sum of \$400.00 is set forth in the Bureau letter to the Legal Attaché, Havana, Cuba, dated May 3, 1944 and entitled "Basque Organization). This part of the plan indicates the desire that the Bureau continue the payment of this sum to the Chief of the Venezuelan Delegation.

b2
b7D

Informant [redacted] explained that the benefit received by the Legal Attaché's Office at Caracas from the payment of this sum, would be that the Chief of the Delegation would sign any letters that might be written to any members of the intelligence service located outside of the City of Caracas. This delegate devotes his full time to the handling of the affairs of the Basque Government, i.e., the care of the Basque citizens located in Venezuela and depends on the receipt of this sum for his expenses. Informant [redacted] adopted the attitude that since the Basque organization had given up its source of income to be of assistance to the Bureau, it is only just that this payment be made.

The benefit that would be received by the Bureau from the expenditure of this sum would be negligible. In the opinion of this office, the Basque Intelligence Service can be utilized without having the Chief of the Basque Delegation sign the letters to the representatives located in other cities as herein before set out. This office is not cognizant of the extent of the agreement made in New York at the recent meeting between the Bureau representatives and the representatives of the Basque Government in Exile. Therefore it is not known whether an arrangement was made or whether it was indicated that the sum of \$400.00 would be paid the Chief Delegate in Venezuela for the purposes above set out.

No agreement

B. ORGANIZATION IN THE INTERIOR OF VENEZUELA

This section is devoted to the explanation of the set up of the Basque Intelligence Service outside of Caracas Venezuela and the interior of the country. It states that there is a Basque representative in eleven towns within the interior of Venezuela whose duty it is to make reports on leads furnished by Bureau representatives and to furnish general information of an intelligence nature.

~~CONFIDENTIAL~~

200

In this connection it is desired to point out that this system has been in effect for approximately seven months and has been most disappointing. Leads have been furnished Informant [redacted] (referred to in the memorandum attached as [redacted] by Bureau representatives to be covered in the various cities mentioned. After a delay of from one to three weeks, he has, after continual prompting by this office, sent a letter to the Basque representative in these towns. In all cities except three the Basque representative has completely ignored the request for information and has not replied to the request. X

The three individuals, located in three different towns, who have responded to such requests have done so in a most unsatisfactory manner. Despite the fact that they have received detailed instructions setting forth the type of information desired, their information has been limited to giving the subject's name, address, description and a general allegation of subversive tendencies of subject without factual basis therefor. X

During the discussion of this matter with Informant [redacted] he stated that he and the Basque Organization had been most disappointed with the results obtained from this arrangement and that the system was considered a failure. Therefore these circumstances and the further fact of the paucity of leads in the towns in the outlying districts of Venezuela are pointed out to give the Bureau a basis for the consideration of this item. X

C. [HOTELS] X

In this section there is set forth an elaborate plan for the establishment of informants in the principal hotels in Caracas, some of whom are to be paid informants. In addition thereto the plan sets forth a scheme to have a particular hotel recommended by [redacted] so that the incoming passengers who had no predetermined destination would go to a hotel in which an informant was stationed. X In addition an advertising scheme in connection with the incoming Spanish boats is contemplated in an effort to channel passengers to a hotel in Caracas for the same purpose. The scheme contemplates also the initiation of a passenger service, at Bureau expense, from Puerto Cabello to Caracas, Venezuela to carry passengers to one of the aforementioned hotels. X

While this office feels that all the contacts of the Basque Organization presently in hotels should be used, it is not believed practical to put in effect such an elaborate scheme as set out in the Basque proposals, the effect and use of which is entirely problematical and could be considered as a method to increase the business of a Basque Hotel owner, as set out in the enclosed plan, at the expense of the Bureau.

D. SPANISH SHIPS

This section is devoted to the use of a Basque agent

b7D // [REDACTED] to wit, [REDACTED] This idea is now in use on [REDACTED] and is considered practical and of use to the Bureau representatives in Caracas.

E. CARACAS - PRINCIPAL ORGANIZATION

b7C [REDACTED]

b2 b7D The duties of the group of ten persons forming the principal intelligence committee in Caracas have been, in the past, to discuss the leads furnished them by the Bureau representatives and that individual on said committee who knew the subject of the investigation had the duty to investigate the same. This committee met once a week for the above purpose. The past experience of this office with this method of procedure has been most disappointing. On receipt of a lead by Informant [REDACTED] he would, if he had sufficient time after the handling of his personal affairs, call a meeting of the committee as above set out and assign the lead to one of its members. Two or three weeks later, this committee member would be asked for a report. Almost invariably he would state that he had been so busy with his private business that he had not had the time to investigate the lead.

After calling the matter to the attention of Informant [REDACTED] several times, eventually after three to four months, a report containing information of a type that could be obtained from a city directory or from a credit report was

~~CONFIDENTIAL~~

b2
b7D

forthcoming. These reports do not have much value despite the fact that detailed instructions have been given and are continually being given to Informant [redacted] setting forth the information desired.

Informant [redacted] on his return from his recent trip to the United States, stated that he considered the use of this type of a plan a failure due to the fact that each member of the committee had his own private business and was too busy to bother himself with the investigative effort necessary for the efficient handling of leads. Therefore, according to this informant, the information furnished has been of little value. He suggested the addition to the previous plan of procedure an investigation force of two persons to make the actual investigations. (Section F. Caracas - Reports and Investigations). It is to be noted however that in addition to the payment of B\$ 1000. (\$300) monthly to the central committee for a minimum amount of supervisory work, the new plan calls for the payment of the salary of two investigators. The total of their joint salaries are estimated in the plan as \$495. 00 U. S. monthly.

Until November 1943, the Basque Organization was most helpful with technical services in connection with the Spanish Legation. But since that time their services have been practically worthless and have by necessity been limited to routine investigation. The Basques have taken an interest in work of a second story nature but they have shown very little if any interest in or aptitude for routine investigations.

It became evident as early as January, 1944, that the work of the Basque Intelligence Service was unsatisfactory. Thereupon in the hope that by close supervision and assistance the efforts of the Basques could be crystalized, continued efforts were made to correct the failings of the system. Constant suggestions were made by this office, persuasion methods used, various conferences were held in an effort to coordinate the efforts of and instill a desire in the various members thereof to perform the necessary work. However, there has been no appreciable improvement in the effect of the organization.

The impression has been received by this office from the conferences held that the local Basque organization desires that the Bureau finance it in all of its activity in

~~CONFIDENTIAL~~

203

Caracas, the majority of such activity being exclusively the private affairs of the Basque Government in Exile.

To summarize, it would appear that the Basque Organization is unable, either because of the fact that the personal affairs of the members of the committee require most of their time or because they lack aptitude for general investigative work, to be of much assistance to this office. It is believed that the result of the plan, as set forth in the attached memorandum, would be that the two investigators would perform all of the investigation required of the organization by this office for which they would be paid and this would leave little of value that could be contributed by the organization itself. With this fact in mind it is noted that the organization desires to receive a considerable amount of money for which the Bureau would receive no material benefit.

After a careful consideration of the plan as submitted, the following observations are made by this office:

1. It is not believed that the Chief of the Basque Delegation in Caracas would be performing services for which he is entitled to receive remuneration.
2. It is not believed that the organization within the interior of Venezuela will be effective as an investigative unit. However, it is recommended that it be maintained for emergency use on the understanding that expenses only of various representatives will be paid.
3. It is recommended that the various contacts in the Hotels in Caracas at present be used but that no plan for the establishment of Basque personnel in other hotels be established at Bureau expense. However, it is felt that an exception should be made to permit the establishment of a contact in [redacted] if future circumstances justify same.

4. [redacted]

5. [redacted]

CONFIDENTIAL

~~CONFIDENTIAL~~

6. It is the opinion of this office that the Central Committee has not and will not perform services of sufficient value to be paid for such services.

7. It is recommended that the suggestion for the employment of one full-time Basque investigator be approved. However, it is felt that the rate of payment should be less than those set out in attached memorandum since past experience has shown that it is not necessary to pay full-time investigators for general investigative services such sums.

It should be remembered however, that in order to maintain the friendship of the Basque Organization, it will probably be necessary to pay more for the work performed than is usual since the Basques feel that they are placing their entire organization at the service of the Bureau. In this connection, it is desired to point out that if their duties are increased from time to time, they usually indicate a desire to have their monthly remuneration increased.

It is requested that the Bureau advise this office concerning its attitude concerning the plan of the Basques as set out in the attached memorandum as well as whether the Bureau is in accord with the idea of this office that the Basques can be of little service to the Bureau representatives in Caracas, Venezuela, and the surrounding territory within Venezuela except as set out herein. The arrangement that has been in effect for some months will be continued until advice to the contrary is received from the Bureau.

Very truly yours,

As a result of the instructions which we have received from our Chiefs in the United States, and after the interviews held with you, we have been entrusted to present a plan of reorganization of the services of our group in Venezuela.

While putting this plan into effect we do so considering the proportional share of the possibilities which our group in Venezuela offers at the present time, that is, neither excessively full with results which would not be worth while, nor too limited which would not permit the entire contribution which our Organization can offer. This is a special recommendation from our Chiefs which coincides entirely with our own desires and enthusiasm. We must also keep previous experience in mind, extracting what is positive from it and pointing out the reasons which, in our judgment, caused the decline of our services within recent times, principally in matters referring to reports and investigations.

DECLASSIFIED BY ~~_____~~
ON ~~_____~~ 2674

Thus we see that when we had at our disposal persons who because of their special occupations were able to give part of their time to these activities, the reports were, in our opinion, sufficiently complete and satisfactory. Each report received all the attention which it required; different sources of information were sought for in order to complete and contrast them, and it may be said that they were not considered finished until all the means of information within our reach had been materially exhausted. The same occurred with other specific assignments and there was also an increase in the number of new matters which we had found out in connection with other assignments and arrangements.

Towards the month of October, 1943, and in accordance with instructions from your Organization that activities should be reduced through special and provisional considerations, the personal situation of those who had been principally occupied with these matters was changed when they took on their employment which took up all their time. Then their reports rested with the members of our group, and the results of this were seen immediately as there were no persons who had sufficient time to develop them properly.

In our opinion, it is evident that while persons who had sufficient time were available, things went well.

well enough, and when the situation of the persons was changed the services, and above all, the reports declined.

We now receive orders to intensify our collaboration with your Organization. Reasons of discipline and personal conviction oblige us to think seriously of a plan which affords us adequate means for efficiently and which also obliges us to accept responsibility for its results.

We have previously consulted with your Organization as to whether the volume of specific reports which you may request is such as to justify using persons giving all their time to this work. Calculating on such a basis and also on matters which will arise from our initiative in disposing of persons entirely given to these activities and living in their atmosphere, we do not hesitate in binding ourselves as we feel sure that their results will not lessen esteem for the collaboration of the Basque group in Venezuela.

A. DELEGATION OF THE BASQUE GOVERNMENT IN VENEZUELA

Before explaining it we wish to point out the situation and influence which the Delegation of the Basque Government has in connection with these services.

The Delegations are the moral and semi-official representation of the Basque Government and President Aguirre among the various Basque groups in America, exercising over all an authority which though not recognized in official or government circles, is not less effective, as has always been shown when the collaboration of a compatriot has been required. In these cases it is always the Delegate, as representative of President Aguirre, who supported by his authority and representation addresses himself to the person concerned.

The Basque Delegation in Venezuela has been functioning since the arrival of the Basque groups in this country in 1939, paying attention to its political and propaganda mission, and giving its compatriots support and protection in a semi-official manner, but not as an accredited diplomatic representation could do. It settles their difficulties about documents, the entry of relatives, immigrants, labor exchange, social aid, etc. The Chief of the Venezuelan Delegation created our present Organization, of which he is the born leader, though for special reasons he delegates his authority to other persons in whom he has confidence. These latter are responsible to him, as he is to President Aguirre.

~~CONFIDENTIAL~~

CONFIDENTIAL

There are 14 Delegations in America carrying out their work. They are modestly financed from New York. And this month of May will be the last month in which the Delegation of Caracas will receive its allotment of \$400.

When it is considered that these services are closely bound up with the existence of the Delegation, we feel that the said item of B# 1340 (\$400) should be included in the Budget of Expenses which will appear farther on.

B. ORGANIZATION IN THE INTERIOR OF VENEZUELA

At present we have installed Agents provided with suitable instructions at the following places: Maracay, Valencia, Puerto Cabello, Trujillo, Mérida, San Cristobal, Rubio, Tucupita, Ciudad Bolivar, Coro, and Carenero, and there is a likelihood that they will soon be established at Maracaibo, Cumana, and La Guaira.

Their mission is to give information about specific matters which may be requested by the Basque Headquarters, Caracas; to give information about such matters as may come to their knowledge in connection with these services; and to give information about such persons (Germans or other nationalities) as they consider to be principal subversive agents.

All communications with these persons will be taken care of and received through out mediation, and the care of seeing to it that reports on these matters will be made regularly will remain in our hands.

Estimate for this service:

Special for Puerto Cabello	B# 50. monthly
For all the others, as compensation for expenses of postage, telegrams, gifts, etc.	200. monthly

C. HOTELS

With the object of intercepting telephone calls and correspondence, and should the need arise for searches, we have thought of the suitability of introducing persons into some Hotels which offer great interest and where at present we have no access.

~~CONFIDENTIAL~~

We have also considered the idea of being able, through a skillful plan and replying on necessary help, to channel into some chosen hotels those travelers from abroad who are accustomed to arrive without a fixed destination and to stay at hotels which are recommended by the personnel of the transportation companies.

b7D

An arrangement with [redacted] to have these reservations made with [redacted] would be able to supply us with this valuable assistance.

For the Spanish ships we have fixed on [redacted] the property of a friend of ours who on former occasions did us interesting services. [redacted] inspires some confidence in enemy circles (Germans and Spaniards).

For this purpose [redacted] would disseminate propaganda on the Spanish ships, distributing cards, etc. Furthermore, it could offer the passengers a service [redacted]

Naturally these passengers would pay for their journey, but the deficit would have to be covered. It is our opinion that the greater part of the passengers would avail themselves of this service, including those who originally planned to go to another hotel, since finding such a convenience at hand, logically they would take advantage of it even if it were only for a short time.

At present we have contacts in the following hotels:

We must as soon as possible determine exactly how reports are to be picked up. We have at our disposal one person [REDACTED] but this method is not very safe and it would be preferable to look for another more suitable way.

He will submit to your Organization all kinds of suggestions derived from the reports coming from Caracas and the interior of the country as well as others of his own initiative, and he will directly look after the more important special services, serious matters, or those which may involve acts of violence or risk.

Upon this Organization will fall responsibility for the efficiency of all the services, as well as the discretion with which they are to be done. It will have its places for the sending of correspondence, meetings, making of contacts, etc.

F. CARACAS Reports and Investigations

In agreement with the opinion stated previously concerning the efficiency of these services provided that they are entrusted to persons exclusively occupied with these matters, and also referring to the impression of your Organization about sufficient matters to keep these persons active, we have scrupulously chosen two persons, whose descriptions are as follows:

G. COMMUNIST CIRCLES

In the choice of the above-mentioned [REDACTED] for work as an informant we have been influenced to a great extent by our desire to introduce some person into the Communist ranks, a slow and difficult task which requires much tact, but which if it can be accomplished would be very interesting in the future. X

[REDACTED] a person of sound democratic formation and of absolute reliability, politically belongs to a slightly left group within the Basque movement. In our country there exist two distinctly patriotic Basque groups, whose existence is reflected in Venezuela. The more numerous (90%) is composed of Christian Democrats. President Aguirre belongs to this group. The other group (10%) of liberal tendencies rejects church membership as a political doctrine, though the majority of the members of this group personally are practicing

~~CONFIDENTIAL~~

b2
b7D
It happens that in this group of persons of distinctly democratic formation [redacted] for example) are confused with others who without being exactly close to Communism have allowed themselves to be influenced by its doctrines. For a member of this group it would be much easier to pretend a veering towards Communism than for one of ours, who are rather too well defined as contrary to its doctrines.

For this reason we have determined to use [redacted] for these services, considering him for the future as the most suitable to insinuate himself into Communist circles. He offers also the advantage of being [redacted] worker, viewed in those ranks with less suspicion than those of other professions.

b7D
[redacted] He has some oratorical gifts which make him outstanding as a person with possibilities as a leader, which he would like to be.

Today we would not dare propose that mission to him, but we believe that if he is used now for services of information (which moreover he will accomplish well) within a few months we will be able to approach the other matter successfully feeling sure that we will have found the most suitable person among those of the Basque group in Venezuela.

We venture to assert that the plan described fulfills the recommendation of our Chiefs to offer the greatest assistance of which our Organization is capable. We propose to utilize the cooperation of our compatriots to the fullest extent possible and in this we are decidedly optimistic, as all the assistance required for these services has (always been forthcoming on an ample and magnificent style.

From: John Edgar Hoover - Director, Federal Bureau of Investigation

Subject: Basque Organization; Venezuela Administrative

Reference is made to your letter of June 3, 1944, setting forth the results of your conferences with the representatives of the Basque Organization in connection with the plan submitted by that organization for their operations in Venezuela.

Your observations in connection with the plans submitted by the Basque Organization have been carefully noted, and it appears that for the most part your observations have been well taken. However, the Bureau is not in complete agreement with your idea that the Basques can be of little service to your office except as outlined in your letter.

For your information, the Bureau has made no agreements with the Basque Organization in New York concerning payments to be made for the services of the local Basques. The Bureau is of the opinion that the Basque Organization can be developed into a valuable adjunct to your office in covering intelligence activities. For this reason, it is believed that you should seriously endeavor to arrive at a suitable financial agreement with the Basque organization and to develop this organization into a valuable informant group, as you know the Basques in Venezuela have in the past rendered some valuable services and are undoubtedly in a position to continue to render such services.

The Bureau desires that you give your personal attention to this matter and advise the Bureau as to the results of your negotiations with the Basque Organization in Venezuela, particularly in regard to the financial arrangement which you make.

Dear Sir:

Reference is made to your letter of May 3, 1944, to [redacted] at Havana, Cuba, a copy of which was furnished to the office of the Legal Attaché at Bogotá, concerning the desire of the Basque Government in exile in New York City to have its representatives in Latin America work exclusively as informants for the Bureau. There was also transmitted with your letter a memorandum reflecting the results of an interview between Bureau representatives and the Basque Delegates in New York City, and another memorandum reflecting the successful use of the Basque Intelligence Service by the Legal Attaché in Caracas, Venezuela. I was instructed to advise the Bureau at an early date as to the arrangements made with the local Basque representatives and also to give my opinion as to the usefulness of the organization as informants.

Immediately after the receipt of the above instructions, a number of attempts were made to contact [redacted]

[redacted] These attempts were unsuccessful until June 24, 1944, when he, of his own volition, came to my office. He stated that he had been out of Bogotá on a trip to Caracas, Venezuela between May 28th and June 8th. He advised that this trip was made after he had received a letter from [redacted] who had written him asking that he travel to Caracas to discuss matters regarding the Basque Intelligence set-up in Colombia. [redacted] said that upon receipt of the above letter from [redacted] he wired to Mr. IRALA in New York, requesting authorization for the trip. IRALA replied that he thought [redacted] should travel to Caracas as soon as possible in order to confer with [redacted] on matters which had been discussed with the latter when he was in New York during April and May, 1944.

[redacted] stated that while in Venezuela he had been informed of the program being followed by the Basque Delegation there, where

by it furnishes information to the office of the Legal Attaché. [redacted] told [redacted] that it was the desire of the organization in New York that similar arrangements be made where possible for the Basque organization throughout Latin America to cooperate closely and exclusively with the Bureau.

[redacted] stated he would be glad to assist in every way in setting up an effective plan of cooperation in Colombia. He said that in the past the Basque organization here has furnished information to the office of the Military Attaché in the American Embassy, but that this had not proven very satisfactory because of unsatisfactory supervision and that at present the Basques have terminated their relations with the office of the Military Attaché. It was agreed that Assistant to the Legal Attaché, [redacted] and the writer would visit [redacted] office on June 26th to work out the details of the plan of cooperation.

On June 26th [redacted] presented to us a memorandum setting out matters on which the Basque organization could be expected to furnish information. These items are being set out below:

I - General Information about:

- (a) The Spanish Group, member by member, with all the personal and political details that are desired regarding the Franquista Sector and the Republican Sector.
- (b) The political situation (internal and international), and economic information of Colombia, especially that which appertains to the relations with the United States and to Panamerican affairs: Panamericanism, Latin Americanism, (Bloque de los Cien), Indo Americanism, the Monroe Doctrine and Protestantism.
- (c) The Nazi groups and native and European sympathizers; their members, their organizations, their activities, the control of their properties and their propaganda.

II -The Colombia and Foreign Clergy, their affiliation and activity.

III -Vigilance of the Coast of Colombia, Guajira and Venezuela.

IV -Vigilance of the Colombian Pacific Coast and Panama, the Gulf of Darien and of the Maritime and Land Frontiers of Colombia and Panama.

V -Vigilance of Restaurant Asturias of Bogotá, where all Colombian Falangists gather.

[redacted] stated that he, personally, would head the Intelligence organization and that he believed it would be most effective if all our contacts were made through him. He further stated that approximately six people will be regularly employed in the work and that from time to time other members of the Basque group can be called upon to furnish specific information. X

Regarding financial arrangements, [redacted] stated that the agent who will be engaged in furnishing the type of information set out in points I and II above, should have a fixed remuneration of \$250 Colombian pesos (approximately \$145 U.S.) per month. Point III will be covered by [redacted]

[redacted] will not receive any fixed salary but will be reimbursed from time to time for expenses incurred in the work. In order to carry out the vigilance suggested in point IV above, [redacted] stated that [redacted]

[redacted] For vigilance on the Colombian Pacific Coast, [redacted] suggested that for \$500 Colombian pesos (\$290 U.S.) monthly, the services of [redacted] could be obtained. [redacted] will be discussed later in this letter. There will be no fixed salary for the persons covering the remaining three points mentioned above. However, from time to time it will be necessary to remunerate them for any extraordinary expenses incurred. X

[redacted] advised that through May, 1944, the local group had been receiving a draft for \$150 (U.S.) each month from the Basque Delegation in New York City. During the first part of June, [redacted] wrote a letter to Mr. IRALA in New York, requesting that this monthly allotment be raised to \$250 per month. [redacted] said that he understands from a letter of instructions received from President AGUIRRE in New York that in the future this amount, which is used for the maintenance and activities of the Basque organization in Colombia, will be paid to them by the representatives of the Bureau. [redacted] also stated that the cost of his recent trip to Caracas was \$550 Colombian pesos (approximately \$315 U.S.) X

On July 2, 1944, a radiogram from Bogotá to Washington advised the Bureau of preliminary arrangements made with [redacted] and also requested authorization to pay [redacted] an amount to cover the expense of his trip to Caracas and asked the Bureau to advise Bogotá if any agreement had been made with Mr. IRALA to the effect that the Bogotá office would pay the local Basque organization the amount of \$250, which was not received during June from Basque headquarters in New York City. X

b7c
b7D

On July 5, 1944, the Bureau replied that there were no objections to paying for [redacted] travel expenses to Venezuela and that no agreement had been made with IRLA concerning the amount of payments to the local group or as to the time when payment would begin. The Bureau's radiogram further stated the amount of monthly payments and date on which payments are to start were left to my judgment.

Regarding [redacted] the Bureau's attention is directed to letters from Bogota dated October 22, 1943 and December 7, 1943, entitled "Colombian Undercover Operative of Civil Intelligence, Panama," wherein full information was set forth on the identity and activities of this individual.

For your information, there is attached a copy of a letter dated June 3, 1944, from the Legal Attache's office in Caracas, setting forth the results of conferences had with the representatives of the Basque Organization in Venezuela concerning the submission of a detailed plan for effective use of the Basque Intelligence Service. The Legal Attache has also set forth his observations concerning the plan and has indicated that he feels that the Basque can be of little service to Bureau representatives except as set out in his letter.

The Legal Attache has been advised that the Bureau does not entirely agree with his attitude that the Basque can be of little service to his office and he has been instructed to endeavor to work out a satisfactory arrangement, both financial and otherwise with the Basque organization.

RE: BASQUE ORGANIZATION
Argentine Administrative

Reference is made to the Bureau's letter of May 3, 1944 regarding this organization and an agreement arrived at in the United States for its use by the Bureau in Latin America. In accordance with instructions therein, I contacted JOSE MARIA DE LASARTE, representative in Argentina, and handed to him the two letters from Basque President, AGUIRRE, which were forwarded to explain the new arrangement.

At the first meeting on May 26, the meaning of the letters was discussed, such as the instructions of AGUIRRE that the Basques here should continue relationship with the office of [redacted] and their conduct with them should be the same as in the past, but that further investigation in various fields was to be undertaken in cooperation with this office. It was specified that information which has in the past been [redacted] should continue to be given them, copies also being given my office, but that information of any sort which we should give the Basques or developed by the latter at our request would not be revealed to any other office than this. These terms were understood both from the letters and our conversation.

DE LASARTE advised at the first meeting that he believed effective work could be done in conjunction with this office; he seemed pleased at the prospect. After a few days' [redacted] the matter he advised that he assessed the needs of the Basques in Argentina at \$2,000 (U.S. currency) per month, money which he would spend on work for this office exclusively and only in the country. He gave this, he said, as the best estimate he could make at this time, although an appraisal made later after the arrangement had been working for some time might result in a different sum. DE LASARTE stated that he believed this sum would meet with AGUIRRE'S approval were he here to assess the needs of his organization in Argentina in the light of their doing most effective work of the type contemplated. In discussing the way in which this money would be spent, he said that some would be used for strengthening his organizational ties in Argentina, in this way increasing the number of people who might be used as informants by them and gaining stronger Basque allegiance, calculated to be of assistance to us in intelligence work. This organizational work has not been carried on to the extent contem-

plated in the past because of failure to receive regular sums of money from AGUIRRE. Part of the money would also be used in making adequate compensation to those employed in connection with our work. As an example of how lack of funds have hampered their work in the past, DE LASARTE said that he has not been able to have a private secretary although he needs one badly. X

There appear to be several reasons why this office should enter into the arrangement contemplated with the Basques here. In the first place, DE LASARTE himself is in charge of the Basque organization in Uruguay, Paraguay and Bolivia, and it is not believed that the Bureau's program of cooperation with them in those countries would progress far if negotiations with regard to this country first failed. It is noted likewise that he is to make a trip to Chile to assist in arrangements there. Aside from this, it is thought that in other countries of Latin America where the Bureau is to work with Basques, relations might be impaired once it became known that the attempt in Argentina was unsuccessful. Secondly, there is the consideration that Argentina has a totalitarian government at present which gives no indication of weakening and which may be of greater concern to the United States in the future than at present. With this in mind, it is believed that a development of the Basques, counting several hundred thousand potential members in this country, should be made in such a way that activity might be carried on even though Argentine-United States relations were broken. Thirdly, there is the fact that, as the Bureau has been informed, numerous arrests of informants of this office have occurred and more may take place in the future; in this situation the acquiring of additional informants seems advisable.

In view of the latter considerations, DE LASARTE was informed on June 8 that this office was agreeable to entering into the arrangement as stipulated and at \$2,000 (U.S. currency) per month. On that date, the first payment was made, \$1,000, and it was agreed that monthly payments would be considered as starting as of that date. No attempt was ever made to bargain with DE LASARTE as to the amount to be paid for the following reasons: it is believed that the latter was sincere in arriving at the sum named as the amount needed and if a lesser sum were given the relationship between DE LASARTE and this office would not be the kind contemplated by those who arrived at the agreement in the United States, nor would it be one which could be exploited to the Bureau's advantage as

CONFIDENTIAL

contemplated by referenced Bureau letter. Nothing definite has been stated regarding the duration of the payments to be made. X

Moreover, negotiations with DE LASARTE^{where} on the basis of the fiction that in the last analysis, the funds used by DE LASARTE have their origin with AGUIRRE in New York. It was not possible to determine whether DE LASARTE actually believes this fiction to be a fact. However, the reasons given in Bureau letter of reference for relying on the fiction seem ample. At present, there seems no need to rely on the fiction. However, if our situation worsens very much and it becomes necessary to withdraw our representatives here, it will be most convenient to be able to rely heavily on the Basques who will be much more likely to work if they feel they are working for AGUIRRE than if they suppose they are merely paid professionals. X

b7
DIA
This office has not expressed approval or disapproval. It is believed that this matter should be left undecided and each expansion dealt with as it comes up. This matter may serve to the advantage of this office. DE LASARTE has stated his belief that the relationships involved will work out over the course of time and that difficulties will not ensue. X

Since the agreement was made here on June 8, the Basques have turned in some information exclusively for this office. General plans have been made for setting up the Basques for most effective work and it is intended that as this relationship develops more detailed plans will be made for the Basque set-up for performing intelligence work. DE LASARTE has seemed willing to accept all suggestions made and seems anxious to work them out to the best advantage of this office. X

Although individual Basque leaders have in the past been given confidential numbers, neither DE LASARTE nor the whole organization as presently headed by him has received such a number. The Basques as presently set up will be designated in the future as Confidential Informant [redacted] X

There is being forwarded with this letter an envelope addressed to President AGUIRRE. It contains some copies of memoranda on information furnished to this office which DE LASARTE asked be forwarded to AGUIRRE as of interest to the latter and also a private letter to the latter concerning the arrangements made for working with this office. X

The above information appearing in this letter has been set forth in detail in an effort to inform the Bureau as thoroughly

as possible of the relationships of the Basques with other organizations in Argentina and with this office as well as the agreement reached with them by this office and the various factors considered in arriving at that agreement.

It will be recalled that through the New York headquarters of the Basque organization arrangements have been made for the Bureau to utilize the Basques throughout Latin America as informants. The Legal Attaches have been advised of these arrangements and appropriate use is being made of the Basques.

The main problem with reference to utilizing the Basques was in Argentina

[Large redacted block]

Appropriate instructions were sent both to the head of the Basques in Buenos Aires and to the Legal Attache in Buenos Aires.

The Legal Attache advises that he has had a conference with De Lasarte, head of the Basques in Buenos Aires, and an arrangement has been made that the Basques immediately begin to work for the Legal Attache. They are to extend their organization among the several hundred thousand Basques in Argentina in order to more fully and completely fulfill our needs. De Lasarte has already begun giving to the Legal Attache copies of all the reports

[Large redacted block]

The Legal Attache stated that a complete survey had been made with reference to the work desired by the Bureau and that De Lasarte has submitted a plan which will necessitate the expenditure of about \$2,000 per month. The Legal Attache believed that this is a reasonable estimate and that

De Lasarte is very sincere in his efforts to get the organization functioning, particularly since it appears that it may be possible that diplomatic relations will cease between Argentina and the United States. The Legal Attache strongly recommends that we enter into this arrangement with De Lasarte because of the numerous arrests of informants which have occurred making it essential that our office procure additional reliable informants, because of the possibility that relations may be broken and the Basques can be utilized to procure information in the absence of our representatives and get it out of Argentina through their own sources, and because the Buenos Aires organization also controls the Basque organization in Uruguay, Paraguay, Bolivia, and Chile.

As will be recalled Inspector Gurnea stated that we had insufficient informants in Argentina, this of course being due to the persecution by Argentine authorities which has occurred in the past. The State Department has advised us that we should make preparations for any eventualities including war with Argentina. It appears therefore that the Bureau should go to great lengths to secure additional competent informants immediately to take care of any contingency. It is most likely that this need will continue over a long period in view of the unfriendly attitude of the Argentine Government regardless of whether we actually break off relations with them. It is therefore believed that we should go along with the Legal Attache at least for a trial period in order to try to make full use of the Basques in Argentina.

Reference is made to your letter of June 20, 1944, in the above entitled matter. It will be satisfactory for you to utilize the services of the Basque Organization as outlined in your letter. You should, however, make every effort to extend your coverage through them and to make full use of their services in view of the current need for additional informants in Argentina and the possibility that it may be necessary for all of the Bureau representatives to depart from Argentina. You should closely supervise their work in order to determine whether they produce in accordance with the amounts paid to them and keep the Bureau advised in order that appropriate arrangements may be made to discontinue their services in the event this is considered necessary.

It is believed that full utilization of the Basque Organization, however, will be extremely productive and that they can be utilized for all types of investigations desired by the Bureau. You should from time to time advise the Bureau as to the activities of the Basques and as to the manner in which their services are being utilized. Any problems which arise should be referred to the Bureau in order that they may be taken up with the Basque headquarters in New York.

Dear Sir:

Reference is made to a letter from this office to the Bureau dated June 3, 1944, entitled as above, setting forth the proposed plan of cooperation between the Basques and the Bureau representatives in Venezuela, said plan having been submitted by the Basque organization.

This is to advise that since the date of the submission of the aforementioned plan, the Basque organization has performed fewer and fewer services for the Legal Attache's office. During the various contacts with this group this lackadaisical attitude has become increasingly evident and apparently is based on two premises, to wit; first, the war is won and there is no longer any necessity for them to work and second, (and apparently the real reason) the Basque leaders state that all the members of the Basque organization work eight hours per day in their private or professional jobs and therefore these members do not care to perform investigative services at night or while off duty.

Informant [redacted] has recently declined, on behalf of the Basque intelligence service, to cover leads for this office, stating that the leads were difficult to cover. He has also stated that the investigative work to be handled for this office is being held in abeyance until the Bureau acts on the plan referred to in the reference letter, so informing a representative of this office he, Informant [redacted] made it clear that it is the intention of the Basque organization to have all the investigative work performed by the two full time investigators, as suggested in the aforementioned plan, whose salary will be paid by the Bureau, and the organization will do nothing to earn the large sum of money desired monthly from the Bureau.

Dear Sir:

Basque Intelligence Service

Reference is made to the letter of the Legal Attache in Havana, Cuba dated July 12, 1944 to the Bureau a copy of which was furnished Jerome Doyle of the New York SIS Office under Bureau cover letter dated July 26, 1944.

b7c
b7D

Please be advised that on July 27, 1944 Mr. Doyle conferred with ANTONIO IRALA relative to the administrative problem existing in Cuba with respect to the Basque delegation in that country. Mr. IRALA advised that he would recommend to Dr. AGUIRRE, Basque President, that letters be forwarded to Cuba to [redacted] and [redacted] instructing both of these individuals that immediately all Basque intelligence work in Cuba was to be handled by [redacted] President AGUIRRE was present during Mr. Doyle's conference with IRALA and he stated that he would forward these letters immediately through the New York SIS office to the two Basques in Cuba.

The foregoing information was furnished Supervisor [redacted] telephonically on July 28, 1944 so that the Legal attache in Havana could be advised before August 1, 1944 of the action taken by the Basque headquarters in New York City. This was done in accordance with the request of the Legal Attache in Havana.

A letter was received July 29, 1944 addressed to [redacted] which is being attached to this letter for delivery to Havana, Cuba. Apparently one letter is to be written by the Basque to settle this Cuban problem and the letter is being sent to the nominal head of the Basque delegation in Cuba.

Re: BASQUE ORGANIZATION
VENEZUELA - ADMINISTRATIVE

Dear Sir:

Reference is made to the Bureau letters of July 21, 1944 and July 26, 1944 addressed to the New York Office for the attention of Jerome Doyle of the New York SIS Office concerning the Basque organization in Venezuela.

Both letters of reference contained enclosures which were letters to the Bureau from the Legal Attache in Caracas, Venezuela. The letters set out the proposed organization of the Basque Intelligence in Venezuela together with the criticism of this proposed organization as outlined by the Legal Attache in Caracas. In addition, the Legal attache stated it was his opinion that the Basque Organization was exhibiting a lackadaisical attitude which was apparently based on the premises that the war was won and that the Basque members would rather work on private jobs than offer their investigative services.

~~DEFERRED RECORDING~~

These letters were discussed on July 27, 1944 by Jerome Doyle with President AGUIRRE of the Basque Republic and ANTONIO IRLA secretary to the President. It was ascertained that Venezuela Informant [redacted] has already advised Basque headquarters in New York that he has turned over to the Legal Attache in Caracas a detailed memorandum setting out the planned Basque Organization in that country. It was suggested by President AGUIRRE that the Basque representative in Venezuela sit down with the Legal Attache of that country and that the Legal Attache tell him what parts of his proposals were acceptable and what parts were not. Mr. IRLA stated that in his opinion the Basques in Venezuela would perform considerable services if they have an actual work plan agreed upon with the Legal Attache's Office. He attributed this to the fact that it is the nature of the Basques to desire to work under an organized plan rather than haphazardly. He added further, that since the plan was submitted either a counter plan by the Legal Attache should be offered to the Basques or the plan itself should be discussed with the Basques and amended according to [redacted]

~~CONFIDENTIAL~~

b2
b7D
Mr. IRALA was of the opinion that Venezuela Informant [redacted] was not lackadaisical nor let up his efforts with the thought that the war was already won. He attributes any lack of spirit on the part of [redacted] by the fact that the work in Venezuela is not as exciting as it was a year ago, that No. [redacted] must accustom himself to the change in pace. He stated further that No. [redacted]

[redacted] These additional plans have served to distract No. [redacted] from his work in Venezuela but it is felt by Mr. IRALA that No. [redacted] desire to assist in the war effort cannot be questioned. [redacted]

[redacted] Upon receipt of this information, Mr. IRALA stated that it would be communicated to [redacted] through official channels. X

Mr. IRALA stated that a letter of censure could be written by President AGUIRRE to [redacted] and the Basques in Venezuela but he felt that until some formal plan of organization was agreed upon between the Legal Attache in Venezuela and the Basques in that country, a letter of censure would be premature and unfair to the Basques in Venezuela. X

b7C
The substance of the foregoing was brought to the attention of [redacted] telephonically on July 28, 1944 and it is set out herewith in detail so that the Bureau might take appropriate action with respect to the entire matter.

Reference is made to the letters of this office directed to the Bureau, dated June 3, 1944, and July 19, 1944, entitled as above. Reference is also made to Bureau cable No. 302, dated July 24, 1944, and to Bureau letter dated June 21, 1944, both entitled as above.

This is to advise that further conferences have been held between representatives of this office and the Basque organization. The plan submitted by the Basques and transmitted to the Bureau, attached to reference letter of June 3, 1944, was discussed. The principal expenditures set out in such plan are as follows:

- (1) \$400 monthly to Basque delegate in Venezuela.
- (2) \$300 monthly to Central Intelligence organization, consisting of [redacted]

1. During the last eight months, the Basque Intelligence group has done very little work for the Legal Attaché's office and it feels that it can perform very few services in the future.

2. The Basques consider, and have so stated, that their organization has failed to furnish information of value and has failed to be of service to this office and have expressed a desire to discontinue the arrangement presently in existence.

3.

The only other type of work in which the Basques could be of assistance is in connection with general investigations of Spanish matters. In the past they have failed in this undertaking, as set out in reference letter dated June 3, 1944, and they have so stated. They have further advised they do not desire to carry out such investigations in the future. In this regard the Basques suggest that this office hire from their ranks an investigator, placing him on a salary, to handle all the investigative work, thus leaving the remaining Basques nothing to do.

Since any future work of this organization would be limited to general investigations of Spanish matters, it is desired to point out that there is presently pending in this office only two cases which fall into this category; to wit, SPANISH REPUBLICAN ACTIVITIES; SUBVERSIVE ACTIVITIES - S, and INSTITUTO CULTURAL; ET AL; SUBVERSIVE ACTIVITIES - S. It is believed that this office does not have sufficient investigative work, of a type that the Basques can perform, to keep one full-time, general investigator occupied. X

4. In the plan as submitted, the Basques request that the payment of \$300 monthly to the Central Basque organization be continued even though they stated that practically the sole contribution of this committee will be the giving of an occasional word of advice to the full-time investigator. It is believed by this office that the Basque Intelligence Group may be of some possible use in the future. Reference is made to your letter of July 31, 1944, in the above-entitled matter. As you have been repeatedly instructed, you are to work out a plan of operation with the Basques and a method of payment which will be in accord with their actual and potential value. The Bureau does not have any special agreement with the Basque headquarters in New York City as to the amount to be paid to any organization in the field. It is desired, however, that you advise the Bureau what plan you work out with the Basques in order that their New York headquarters may be informed, and in order that appropriate action may be taken to insure that the local Basque organization cooperates with you fully.

The Bureau of course does not desire to pay the Basques any money in the event they can be of no value to you; it is still the Bureau's opinion, however, that, based on past experiences with the Basques in Venezuela, they can be utilized not only with reference to investigations of Spanish activities, but also investigations of all other matters of interest to you. However, in the event their services are not satisfactory, you should not hesitate to advise the Bureau and to make appropriate arrangements to adjust payments made to them. The Bureau will endeavor to assist you as much as possible by taking up the matter with the Basque headquarters in New York, which will issue instructions to the local organization concerning cooperating with you.

Your previous letters have been discussed with the Basque headquarters, and there is attached hereto a copy of a letter received from the New York Field Division concerning contacts with them.

Dear [redacted]

I have read your letter of July 8 and the reports that you enclosed of November, February, and the notes of July. I enjoyed them very much because in them you covered very well not only the Colombian situation, but the continental and universal problem of the danger that threatens the democracy and freedom under the heading of order, of the false Christian conception led, in addition, by reactionary men who are not convinced that their world has already passed. All that you do in this sense will have a wholesome effect greater in extension and intensity than you can imagine. The case of Colombia is only an index of the anti-human reactionary, crouched, waiting for his hour. To discover him, wherever he may be, is necessary work and an effective contribution in favor of those at the head of the democracy who in spite of their weaknesses wish to finish him once and for all.

Your trip to Venezuela has been mutually effective because if you came away comforted, they also were very much satisfied with your visit. The experience that exile brings us will have advantageous effects in the near future in which without the difficulties that circumstances impose on free communication we can be united to communicate with each other the results obtained. I assure you that we should feel great satisfaction and at the same time we shall learn to know how difficult are the causes of liberty but how it can be won day by day when decisively the spirit has taken the definite road to triumph.

b7c
b7D

I am enclosing a letter that I directed to our good friend [redacted]. In it you will see what is my desire and the request that I am making of him. I recognize neither his reasons nor yours in the sense of resignation. Both of you, now more than ever, have the duty of remaining at your posts, increasing your mutual confidence and enthusiasm and thinking that freedom will be won more easily as our aspirations and purposes are presented in block. I consider as not received your letters, and because of your spiritual formation and your won acquired prestige I do not have to argue with you any more about the request and purpose that are enclosed in these lines.

 Let us advance in all parts. Here and there. The spirit of our people which acknowledges a brilliant tension will have the translation that it expects in freedom if it is directed with ability and tenacity. For this result that I hope to see with you, the maximum union among the Basques is necessary and the generous contribution of all the forces beginning with those such as you who have won prestige, as president Santos said to my satisfaction a short time ago. [redacted] and you are patriots and excellent friends. You must stimulate each other mutually conferring in all matters related to Euzkadi. Even when you received rigorous instructions in definite and delicate necessities, I believe that your good judgment will appreciate in [redacted] an excellent comrade and collaborator, and he will reciprocate with that discretion shown on many occasions, positions and commissions of great confidence.

Continue your work with the viewpoint of the Fatherland and its freedom. Thousands of Basques work for it united in generous strength with the Allied powers to whom perhaps we shall always owe our national existence. Therefore, all sacrifice that we make for the United Nations will be small. Our enemy is against freedom, against democracy calling itself Nazism, Falangism, Argentinism, or whatever it wishes. Wherever an anti-Democratic bud, consequently anti-human, is produced there must the Basques be fighting against it always in the camp of freedom. In this way we are only following our history and fulfilling our duty.

My affectionate greetings to all our compatriots. For you a warm embrace.

267-468

I received your letter in which you announced to me your purpose of putting into my hands the position of Counselor of the Colombian Delegation. Your reasons - at least those expressed - did not convince me. I am sure that you will respond to the request I am making that you withdraw your resignation.

Today more than ever it is necessary that our governmental organization make a strong appearance of unity. The slightest fissure, although based on good reason, causes damage. In addition to this fact you have gained esteem and prestige by your competence - some days ago I heard with complacency very favorable opinions from President Santos - I think that what he says has basis. Therefore, I do not doubt that you will listen to my request, [Redacted] and you, understanding each other well, have constituted a representation of the highest category. There is no reason why you should not constitute it in the future. Much more so because perhaps now occasions will be presented suddenly in which it will be necessary to discharge whatever knowledge, friends, or prestige we have been cultivating.

As events move our hour approaches. It is as inexorable as the invasion of Normandy. I must have some motive to assure you in this way. In your advance or retreat, in the perfect or imperfect realization of our purposes in the greater or lesser freedom to attain for our country, we are the ones who have the principal if not the exclusive responsibility. Because our good friend the United Nations, do enough when they open to us the roads that lead to freedom. But the march along them is for us to do. If you knew what we have won by presenting a united national front that here they know is the greatest and sanes part of Euskadi! Therefore, in the face of the definite accomplishments that are inevitable we must accentuate our unity and with it the firmest will to triumph. I have known you for some time and your friendship honors me. Therefore I know that more than reasoning, unnecessary in your case, will be my request as President and my affection as friend which will convince you. I am sending a copy of this letter to [Redacted]

With greetings to [Redacted] I embrace you with the affection of always.

Re: BASQUE ORGANIZATION
VENEZUELA - ADMINISTRATIVE

Dear Sir:

Reference is made to Bureau cable to this office No. 657, dated August 8, 1944, and to Bureau letter to this office dated August 8, 1944, relative to the above set out subject matter.

This is to advise that an arrangement has been made with the Basque Organization, through Informant to continue the services of the Intelligence Unit of the Basques. Effective as of August 1, 1944, a monthly sum of \$400 will be delivered to Informant for the services that will be performed for this office.

The use of the informants located in the various towns throughout Venezuela, those presently located in in Caracas, Venezuela, and those located on will be continued. In addition to general investigation, the Basques will concentrate on obtaining political information and information concerning the unrest presently existing in Venezuela.

Very truly yours
