

Dear Reader:

Snapshots is a regularly scheduled electronic news magazine published by the Bureau of Land Management Office of Fire and Aviation. It features brief articles and photos that illustrate successful activities to reduce hazardous fuels and assist local communities. Snapshots was initiated after a very difficult year of wildland fire in 2000. Congress provided direction for the Bureau of Land Management and other Federal agencies to reduce the threats to local communities from fire, and to reduce hazardous fuel buildups on public lands.

Snapshots is published electronically every two weeks and distributed to a wide range of interested people and organizations as a PDF format magazine. It is also made available on the BLM Fire and Aviation web page on the internet at <http://www.fire.blm.gov/snapshots.htm>.

An index of the stories published during 2002 follows.

If you would like to be added to the electronic mailing list, please email your request to:

Dave_Vickery@nifc.blm.gov

Thank you for your interest!

Dave Vickery, Editor
