Send completed form to:

Naval Historical Center/Underwater Archaeology Branch

805 Kidder Breese St SE

Washington Navy Yard, DC 20374-5060

Project Summary

Please provide a 250-word (maximum) summary. This should include a brief statement of research objectives, scientific methods, and significance of the proposed work to a particular physical area.

Project Summary- Project Significance

Discuss significant previous work in the area of interest and how the proposed effort would enhance or contribute to improving the state of knowledge. Explain how the proposed effort would affect the related physical environment.

Project Summary- Methodology

Describe the methodology you plan to use to accomplish the project's objectives. Please attach a map showing study location(s) and a description of the archeological sites of particular concern.

Project Summary- Environmental Consequences

Provide an analysis of the extent and nature of potential environmental impacts on the resources from permitted activity.

Project Summary- Site Restoration, Preservation and Protection

Provide a detailed plan for site restoration and remediation with recommendations on site preservation and protection of the site location.

Project Summary- Personnel

For the conducting of archeological research, including survey and excavation, identify the principal investigator/supervising archeologist (PI) as well as the research team and the specific task assignments of team members. Provide qualifications and evidence of the ability of each team member to perform their assigned tasks, consistent with or equivalent to the minimum standards of the Uniform Regulations for the Protection of Archeological Resources (43 CFR Part 7), and the Secretary of the Interior's Standards and Guidelines for Archeology and Historic Preservation. Only those persons listed in the permit will be allowed to participate in permitted activities.

Supporting Information - Financial Support

Please provide the contract number, performance period, and name of sponsoring entity, if any. If none, provide sufficient data to substantiate the fiscal capability to complete the proposed research.
