NASA STI FACT SHEET

The NASA Scientific and Technical Information (STI) Program offers many products and services to the aerospace community and to the public. Free registration with the program is available to NASA, government agencies, and contractors through the NASA Center for Aerospace Information (CASI). Based on organizational affiliation, each registered user has various levels of access to the STI maintained by the program. A network of information specialists at CASI provides value-added STI in a variety of ways. Following is a list of some of the products and services that can be obtained through the STI Program Web site or by contacting CASI. Many of the products and services are free and available at your desktop. The Internet URL and NASA STI Help Desk e-mail address and phone number are listed at the bottom of the page.
