MEMORANDUM FOR SECRETARIES OF THE MILITARY DEPARTMENTS  
DIRECTOR, MISSILE DEFENSE AGENCY

SUBJECT: Fiscal Year (FY) 2002 Major Defense Acquisition Program (MDAP) Lists

The attached lists comprise the Department's FY02 MDAP Lists. Section 2430 of title 10, *United States Code* and DoD Instruction 5000.2 define the following criteria for MDAP designation: an acquisition program that is not a highly sensitive classified program (as determined by the Secretary of Defense) that is estimated to require an eventual total expenditure for Research, Development, Test & Evaluation of more than \$365M, or, for procurement, of more than \$2.19B--both in FY00 constant dollars; or, as otherwise designated by me as the Under Secretary of Defense (Acquisition, Technology, & Logistics) (USD(AT&L)).

As the USD(AT&L), I am the milestone decision authority (MDA) for ACAT ID programs. The cognizant DoD Component Head is delegated authority as the MDA for ACAT IC programs, but may re-delegate that authority to the DoD Component Acquisition Executive, except that the Secretary of the Air Force may re-delegate authority as MDA for DoD Space Systems programs to the Under Secretary of the Air Force. Additionally, two programs have moved from the Major Automated Information System list and have been re-designated as MDAPs. For these two programs, I will be the MDA for the High Performance Computing Modernization program, and the Assistant Secretary of Defense (Command, Control, Communications, and Intelligence) will retain authority as the MDA for the Global Combat Support System-Army program. No further delegation of authority as MDA is authorized for MDAPs.
