WASHINGTON, DC 20350-1000

JAN 26 2002

MEMORANDUM FOR DIRECTOR FOR ADMINISTRATION, OFFICE UNDER
SECRETARY OF DEFENSE (ACQUISITION, TECHNOLOGY
AND LOGISTICS)

SUBJECT: David Packard Excellence Award Nominations - ACTION
MEMORANDUM

I am proud to nominate the following CY01 Department of the Navy candidates for the David Packard Excellence in Acquisition Award: (a) Foreign Comparative Test (FCT) Project on Erosion Resistant Coating, (b) Auxiliary Power Unit/Total Logistics Support Team, (c) Manufacturing Resource Planning (MRP II) Process Team, (d) Lewis and Clark Class (T-AKE) Project Team, and (e) Dragon Eye.

The award nominee packages at attachments 1-5 were prepared in accordance with the guidelines established by the October 2001 reissue of USD(A&T) policy memorandum, "Recognizing and Rewarding Acquisition Personnel."

These teams have made highly significant contributions to the larger Navy-Marine Corps team, demonstrating exemplary innovation and best acquisition practices. They are valuable assets to our acquisition community and serve as examples for all. I strongly recommend each of these teams for your consideration, and concurrently request that the Defense Acquisition Executive Certificate of Achievement be awarded to each of the nominees that are not selected to receive the David Packard Excellence in Acquisition Award.

John J. Young Jr.
Assistant Secretary of the Navy
Research, Development & Acquisition
