Free and quick access to full-text DOE R&D reports

The *DOE Information Bridge* provides free public Web access to full-text reports and bibliographic citations of Department of Energy (DOE) research report literature. Reports are primarily from 1995 forward and were produced by DOE, the DOE contractor community, and/or DOE grantees. Legacy reports are added as they become available in electronic format.

The *DOE Information Bridge* includes a growing collection of over 85,000 reports and citations and contains report literature in physics, chemistry, materials, biology, environmental sciences, energy technologies, engineering, computer and information science, and renewable energy.

The *DOE Information Bridge* can be used to access, locate, search, and download full-text and/or bibliographic information electronically. Search and retrieval features include:

- Easy and advanced (fielded) searching
- Boolean searching
- Relevancy ranking
- A count of search results with a link to the search results display

Sorting choices include publication date, report type, title, and research organization.

DOE's Office of Scientific and Technical Information (OSTI), in partnership with the Government Printing Office (GPO), provides access to the *DOE Information Bridge* via GPO Access at www.gpoaccess.gov.

For more information or to provide comments, please contact GPO at gpoaccess@gpo.gov or DOE at bridge@osti.gov.
