## Message From the Director

For almost 40 years, Defense Logistics Agency (DLA) has provided logistics support to the Department of Defense (DoD) and numerous Federal agencies. Clearly, DLA cannot succeed in isolation – we must understand and work in partnership with our customers and suppliers to meet your needs. This issue of the newly designed **LogLines** is just one example of how DLA is changing its style to present a single face to you, the customer.

I know that as you explore this issue of **LogLines** you will appreciate how we have organized the magazine. Each section highlights various themes that provide ease in locating topics of interest. Sections in this edition include a section focused on the Military components; new items of supply, environmentally oriented products that are now available through the Federal cataloging system, and the Chaplain's Corner that highlights religious items of supply.

DLA exists for one purpose – to ensure our Armed Forces are never logistically unprepared. So we work hard at providing the “right items, at the right time and place, at the right price, every time.” We continually seek ways to lower your costs; exploit emerging information technologies; and pursue smart partnerships with industry, our suppliers and you to achieve this end state. And, while we're making great progress, there remains more to do. Working together, I know we will make this vision a reality. So give us your feedback! We need and want to hear from you.

Henry T. Glisson  
Lieutenant General, USA  
Director

# MILITARY SERVICES

## DLA Finds New, Improved Engine Insulation for The Marines

The Defense Supply Center Columbus (DSCC) in a partnership with the U.S. Tank-Automotive and Armaments Command in Warren, MI, has helped develop a new and improved heat blanket system that will improve the LAV's cooling system performance while making the vehicle safer to maintain and operate.

Used to wrap and insulate manifolds and other exhaust components, the old removable insulation blankets are a "mechanic's nightmare." They're cumbersome to work with, and the fiber and glass insulation composition irritates mechanics' skin. They're also a fire hazard when they absorb gas, oil and other chemicals. Insulation is necessary to cut down on heat emission in the power pack compartment to help protect the driver and improve engine performance. Lower operating temperature also increases battlefield security by reducing the vehicle's heat signature.

The improvement is not a wrap, but insulation permanently bonded to the parts. Parts removed from

the vehicle are cleaned and refurbished and bonded with the insulation by the contractor, High Tech Insulators of Livonia, MI, through a patented process.

"The new maintenance-free hardware simplifies the design and reduces Operation and Support (costs)," said Carl Zink, Fielded Systems team leader, TACOM. "When Marines return from deployment, they spend anywhere from \$800 to 1,000 on each LAV to replace the damaged blankets. The new wrap reduces maintenance downtime and increases fleet readiness."

To facilitate the retrofit of the new bonded thermal wrap material for the 6V53 Detroit diesel engine, DSCC's Logistics Engineering and Readiness Office joined forces with the TACOM Program Manager Office LAV, who requisitions the exhaust parts from the Defense Logistics Agency. Although the initial change was limited to the 6V53 diesel engine, DSCC can arrange adaptation to others. For more information contact DSCC's Mike Rush at (614) 692-1796, DSN 850-1796.

## Benchstock Contracts to SAIC and Raytheon Awarded

Defense Supply Center Philadelphia's (DSCP) General and Industrial Directorate has awarded industrial prime vendor contracts for the Air Force Air Logistic Centers located at Tinker [OK], Warner-Robins [GA], and Hill [Utah]. Similar contracts were also awarded for operations at the Anniston Army Depot [AL], and the Red River Army Depot [TX].

Science Application International Corp., San Diego, who won the contract to support the Logistics Centers, will be responsible for supply chain management of benchstock items. "This support includes providing parts for depot maintenance for the F-15, F-16, C-130, C141, C-5, KC-135, and B-1B aircrafts," said Tony Cosenza, Commodity Business Unit (CBU) Chief in DSCP's General and Industrial Directorate. Overall support will be managed from SAIC's office in Warner-Robins.

The Raytheon Co., Falls Church, VA, won the prime vendor contract for depot maintenance at the U.S. Army's depots at Anniston and Red River. Raytheon, who is DSCP's prime vendor for customers at the Naval Aviation Depot in North Island [CA] and Cherry Point [NC] will be providing parts for various weapon systems including the M-1

Abrams, M60, Sheridan M-551 tanks; the M9 Armored Combat Earth Mover, and the M-88 series Recovery Vehicle.

The industrial prime vendor initiative is an acquisition strategy for integrated logistics that provides items used in the overhaul, repair, and maintenance of weapon systems, which are normally stocked at or near the point of use. The prime vendor forges partnerships across industrial segments in order to secure the wide range of items specified by the customer.

The contractor also partners with the customer in the full spectrum of material management functions, be it forecasting, configuration control, or engineering and technical support. By providing the part when the customer needs it, this initiative frees the customer from having to requisition and store material. And, in addition to decreasing the customer's inventory investments, storage, and handling costs, it [industrial prime vendor] provides a faster response time and an opportunity for infrastructure restructuring.

**For more information on the industrial prime vendor initiative, contact Tony Cosenza at DSN 444-3764, Commercial (215) 737-3764 or via email at: [acosenza@dscp.dla.mil](mailto:acosenza@dscp.dla.mil).**

# Revolutionary contracting vehicle designed to enhance logistics support to the military's automotive fleets

## DLA Streamlines Support to Automotive and Equipment Fleets of Defense.

The Defense Logistics Agency's Defense Supply Center Columbus (DSCC), has established a regional virtual prime vendor contract to streamline support for automotive and equipment fleets.

This innovative contract arrangement, fashioned from proven commercial practices, provides military units complete logistics services — from procurement to delivery — for automotive and equipment parts. The contract will support military land-based vehicle fleets in three U. S. regions. Called the Fleet Automotive Support Initiative, or FASI, this revolutionary total-systems approach is designed to streamline total-parts support to military automotive and equipment fleets. Its emphasis is on speedy delivery and quality technical and logistical services. The contractor can reduce response time in an effort to increase the overall readiness of DLA customers — the military services.

"Today, our warfighters need supplies immediately. This is made more difficult because our equipment is getting older and located in far more locations around the globe," said Air Force Brig. Gen. Mary L. Saunders, DSCC commander. "We've got to be more proactive and take advantage of every opportunity we can. FASI is the giant step along that road."

Under the terms of the agreement, ProcureNet's strategic procurement services will handle procurement and "just-in-time" delivery of automotive and equipment parts and services to the lead Army and Marine Corps installations at Camp Lejeune, NC; Fort Stewart, GA; Fort Hood, TX; and Camp Pendleton and Fort Irwin in CA. A change that will allow them to cover the entire gamut of logistics services in the South, Southwest and Southeast regions, the contract involves annual sales of about \$60 million. The FASI VPS program is not yet available in the West or East.

ProcureNet will provide the services of inventory management, acquisition, post award service, technical support, quality assurance, and on-site customer service for thousands of different automotive items used by the military.

The virtual prime vendor (VPV) concept is designed not only to decrease the response time needed to obtain weapon system and automotive parts, but to reduce both wholesale and retail inventory. Using its own supplier base, as well as the government's, FASI's VPV will deliver parts to designated U.S. locations within a 2-to-10-day delivery time, depending on the priority.

FASI not only aims to reduce the total cost of weapon systems and automotive fleet support logistics, and to speed parts delivery, but it is designed to be flexible enough to provide uninterrupted and seamless support when the customers' requirements change.

And, most important to the military customers, the FASI contractor will provide for surge and sustainment, as well as, mobilization and forecasting for contingency operations.

Another highlight of the FASI concept is known as the FASI Customer Service Representative. The FCSR, or "Fixer," is an individual who works at the customers' installations as the direct interface between the customer and the contractor to cover services such as warranty management, requisition status, order tracking and credit card spot buys.

FASI has many other built-in advantages:

- Strategic transportation and source networks within each region for quicker delivery.
- Direct delivery to reduce the need for large inventories.
- Adjustable inventory levels available to customers to reflect specific items needed for their fleet and to enhanced logistics response time.
- Fixed prices.

## The SHARE Database

The latest tool to help customers find those hard-to-procure items is an automated system that links their demands with our NATO allies' stock. The purpose of the Stock Holding and Assets Requirements Exchange database, more commonly called SHARE, is to help NATO countries buy and sell their excess stocks to each other. The data, which resides at the NATO Maintenance and Supply Agency in Luxembourg, currently holds about 135,000 line items.

The U.S. Navy and the Defense Logistics Agency are on-line with this secured database; Defense Supply Center Philadelphia General and Industrial Directorate hopes to expand its use in the future. Two of the more commonly used features of the SHARE database are Offers and NATO-wide calls.

"Under Offers, countries with excess stock place it in the database for sale," said Laurence Cooper, a customer liaison specialist in the General

and Industrial Directorate. "The parts are listed by national stock number and include quantity, price in U.S. dollars and the country offering the part. These parts can be ordered on-line with delivery anywhere from seven to 60 days later depending on the item, its unique requirements and destination."

Cooper said under NATO-wide calls, any country can post a message seeking a specific quantity of national stock number items they require.

"A country that has the item as excess stock, but hasn't yet posted it could fill that need," he said. "The ability of SHARE to link countries that need stock with those that have an abundance of stock make it a valuable tool when normal supply lines fail."

**For more information on the SHARE program, contact Laurence Cooper at DSN 444-2070; commercial (215)-737-2070 or via email at: [lcooper@dscp.dla.mil](mailto:lcooper@dscp.dla.mil).**

## Sailors and Catalogers Teach Each Other

When the crew of the USS Kingfisher arrived in Muskegon, MI, for the Great Lakes Cruise, they expected a lot of questions from local residents about today's Navy. But they hadn't expected to meet a group of Navy cataloging specialists from the Defense Logistics Agency (DLA).

About 25 DLA catalogers and trainers met the ship to tell the officers and shipmates about DLA products that can help meet the crew's logistics information needs. It was a chance for members of the Defense Logistics Information Service to educate the crew on the Afloat Shopping Guide, the latest Federal Logistics Data on CD-ROM and DVD. They also demonstrated the capabilities FED LOG and other DLIS products offer.

*Navy Lt. j.g. Brian Skubin, USS Kingfisher supply officer, reviews a copy of the Afloat Shopping Guide presented during a ship visit by employees of the Defense Logistics Information Service.*

These demonstrations featured the Logistics Information Network, or LINK, which brings 13 databases together to provide faster, more complete logistics information to customers. When you're using WIN SALTS, it gathers batch queries for input to LINK.

With more than 7 million items in the Federal Logistics Information System, it can often feel like rough sailing when dealing with such a sea of logistics data. DLIS products are designed to help people sift through all of that, explained Warren Scott, a DLIS training instructor.

Customers can use LINK to quickly search through multiple databases to see what is in stock or available for reuse.

"Like FED LOG, the LINK system can handle a characteristic based search, which helps when a person knows the glove they want has a leather palm or

*Navy Lt. Cmdr. Michael Hall (right) discusses how the ship's communications at sea affect the use of Defense Logistics Information Service products.*

comes in a certain color. LINK helps users find the right glove," Scott explained. "It's especially good for identifying the right bolts and washers among the thousands of variations to choose from. For example, there are lots of plain washers, but you may want one with a certain size hole in the middle," he explained.

LINK can also help users who are not sure which databases need to be searched. "If you know the item name or something else about it, just enter what you have and SMARTLINK will look in the right ones," Scott said.

"Learning about the characteristics of ships helped catalogers understand some of the unique items they have to describe in the logistics information systems they maintain," added Scott.

Information about the complexities of operations in the field and underway help DLA understand the customer's everyday operations.

The Defense Logistics Agency is a leading logistics information broker for the Department of

*Employees of the Defense Logistics Information Service await their chance to tour the USS Kingfisher during its port call in Muskegon, Mich.*

Defense. Its employees are involved in the creation, management and dissemination of logistics information to military and government customers using the latest technology.

Warren Scott, a training instructor for the Defense Logistics Information Service, demonstrates features of the Logistics Information Network to Navy Lt. j.g. Brian Skubin, USS Kingfisher supply officer.

Navy Lt. j.g. Brian Skubin, USS Kingfisher supply officer, reviews the compact discs containing the Federal Logistics Data (FED LOG) on CD-ROM that were presented by visiting Defense Logistics Information Service employee Sheri Rees. Skubin also received a copy of the DVD version of FED LOG.

**For additional information on these programs, visit [www.dlis.dla.mil](http://www.dlis.dla.mil).**

## Speaking One Language in Logistics

Defense activities depend upon logistics more than ever, and the trend is very likely to continue into the future. That is why the use of the NATO Codification System (NCS) has spread rapidly around the world.

The system has been used by NATO members for the past 50 years and has become a key standard for logistics information. With the increasing use of coalition forces, its role is now more important than ever. The system provides a common language of logistics that uses the latest technology to allow military services and allies to share equipment and materials.

The 9th International Symposium on NATO Codification will address the future challenges of the new millennium. Scheduled for September 18-20, 2001 in the Grand Duchy of Luxembourg, about 500 to 600 people are expected to attend. The event is held approximately every four years. The symposium is considered important for everyone involved in military logistics because it keeps participants informed of the latest concepts and benefits of NATO codification and its applications. Such uses range from manufacturing through the supply chain to the logisticians on the front lines.

*As part of the Defense Logistics Agency, Defense Logistics Information Service (DLIS) is a leading logistics information broker for the Department of Defense. As the DoD consolidated center of expertise in cataloging, DLIS serves as the U.S. National Codification Bureau (NCB). The employees at DLIS are involved in the creation, management and dissemination of logistics information to military and government customers using the latest technology. Potential attendees or exhibitors may learn more about the conference by visiting the symposium's World Wide Web page at [www.nato.int/structur/AC/135/main/links/e\\_symposium.htm](http://www.nato.int/structur/AC/135/main/links/e_symposium.htm). Questions about the symposium or requests for copies of the registration flier can be addressed to Brenda Eddy of the U.S. NCB by calling (616) 961-4333 or sending email to [beddy@dlis.dla.mil](mailto:beddy@dlis.dla.mil). Additional information about DLIS or its products and services can be obtained by visiting [www.dlis.dla.mil](http://www.dlis.dla.mil) or calling the Public Affairs Office at (616) 961-7015.*

## DAPS To Issue Smart /Common Access Cards To Navy And Marines

The Document Automation & Production Service (DAPS) has signed a Memorandum of Agreement (MOA) with the Department of the Navy Smart Card Office (DONSCO) to make DAPS the issuing agent for Smart Cards and Common Access Cards (CAC) to the Navy and Marines worldwide.

The intent is to implement seamless functional integration and interoperability of Smart Card technology into business processes within each installation and naval region.

The issuance and deployment of the cards will be in accordance with Department of Defense (DoD) personnel policy and procedures. The Smart Card will be the standard identification card. As a Common Access Card it will also be the principal means to gain physical access to buildings and controlled spaces and for access to the Department's computer network and systems. They are designed to be a single cyber identity, personal identification and physical access card.

Smart Cards include a magnetic strip, an electronic chip, a barcode, a digital photo ID and a signature strip similar to those on credit cards. Among other uses, it can hold information about a service member's inoculations, finance allotments, medical and dental records and other important data.

Congress designated the Navy, under the direction of the DoD's chief information officer, as the lead agency for the \$145 million program, which will be implemented from fiscal 2000 to 2005.

DAPS is scheduled to mass issue more than 195,000 cards to active duty military personnel, DoD civilian employees and eligible contractor personnel in fiscal 2001.

DAPS is positioning itself to be the issuing agent for up to 1.1 million Smart Cards and Common Access Cards across the Department of Defense.

# ITEMS OF INTEREST

**DEFENSE LOGISTICS AGENCY**  
**Document Automation  
& Production Service**

**CAN DO RIGHT NOW**

## **DAPS – A Leader in Document Automation and Management for the Federal Government**

The Document Automation & Production Service delivers solutions and the value federal government customers need in light of tightening budgets and increasing challenges to do more with less. DAPS is armed with more than 50 years of experience and continually harnesses the newest automation technologies to deliver innovation and efficiency.

DAPS is dedicated to the transition from paper to electronic-based document management and is an integral part of the federal government's continuing efforts to transition into an age of electronic documents and business processes. The "forward-moving," not just "forward-thinking," organization is leading the effort to substantially reduce paper-based bulk printing and warehousing and provide network access to digital warehouses and libraries for our customers. This is being accomplished by converting paper documents to digital form and then providing the infrastructure for quick, economical and secure digital distribution and output at the point of need. These services are part of the flow of digital information as it is created, managed and used throughout the Government.

DAPS provides the Government with automated document solutions to break the paper chain. Boundless opportunities are available through the conversion of paper documents, drawings, aperture cards, photos or microfiche to an electronic form. Modular and scalable systems then allow agencies to store, manage and distribute their documents electronically through a myriad of input formats and output media options. DAPS provides and maintains the system; the agencies pay only for the requested services.

DAPS also provides equipment management solutions. It provides effective and affordable "work-group connections" in government offices through the use of Multi-Functional Devices. The MFD family of products can copy, print, scan and fax thus providing a faster, easier and cost-effective solution to office automation. DAPS' full-service support includes supplies, paper, on-site training and advisory services. Pricing is below General Services Administration Federal Supply Schedules, and volume discounts make DAPS the preferred provider.

### **Did you Know?**

In fulfilling the materiel needs of the major warfighters, the Defense Logistics Agency has an inventory of 3.4 million items resulting in \$12.5 billion in sales for FY2000.

## Defense National Stockpile Center

The Defense National Stockpile Center (DNSC), an organization within the Defense Logistics Agency, today has a unique mission to sell strategic and critical materials. In the past these materials were held to reduce the nation's dependence on foreign sources during national emergencies. DNSC employs 236 people at 10 staffed depots throughout the U.S. and at its headquarters at Fort Belvoir, Virginia.

DNSC stores 65 commodities at 59 locations with a current market value of \$2.8 billion. This includes a wide range of forms: ores (raw materials), metals, minerals, alloys, and powders. They range from metals such as zinc, lead, cobalt, and chromium to more exotic materials such as platinum, palladium, and industrial diamonds. There is no one company in the world that sells this wide range of commodities and materials.

DNSC is a very special Defense organization; it produces revenues for the United States. In 1992, Congress mandated DNSC sell the bulk of its commodities. Since then, total sales have produced \$3.6 billion for use in DoD readiness accounts and programs. In fiscal year 2000, sales were at an annual record of \$670 million.

Each fiscal year \$150 million is transferred to the Military Readiness Accounts. Funding also goes to fund Military Personnel Benefits; to offset reductions in Foreign Military Surcharges; and to buy back radio frequencies for military use. The National Defense Authorization Act for Fiscal Year 2001 directs DNSC to transfer \$6.0 million to the American Battle Monuments Commission for the World War II memorial. This money is to be generated from the sale of only one material, titanium sponge.

Since FY 1996, DNSC has also provided 250 short tons of titanium sponge each year to the U.S. Army Armor Upgrade Program. 1,250 short tons of titanium sponge at an estimated market value of \$7.5 million have been transferred to the U.S. Army at no charge. Approximately 500 M1A1 Abrams Tanks have been upgraded.

## NIMA and DLIS Partner to Create Catalogs

Sometimes finding the right map or chart can be as elusive as locating a desired location or target. Cumbersome hardcopy catalogs used to be the only means of searching through the impressive amounts of maps and charts that the National Imagery and Mapping Agency, or NIMA, produces, but electronic cataloging is making the search for the right imagery quite a bit easier.

Once the Defense Logistics Agency (DLA) became responsible for cataloging and distributing maps and charts, it was natural for the agency to offer customers the same type of electronic methods for finding desired imagery products. Through a partnership between NIMA and DLA, warfighters today receive global geospatial information and services in a timely and responsive manner.

Within DLA, the Defense Logistics Information Service (DLIS) in Battle Creek, MI, and the Defense Supply Center Richmond (DSCR) in Richmond, VA, partner to provide support to the warfighter. DLIS creates catalogs of maps and charts, and DSCR warehouses and distributes maps and charts.

When the mission first transitioned to DLA in 1998, NIMA provided separate data feeds to DLIS and DSCR, and only the printed catalogs were available. There was hope that eventually an interactive map catalog could be created, but the first priority was to complete the transition. As the partnership between NIMA and DLA grew, good working relationships were developed both externally with NIMA and internally between DLIS and DSCR. In mid-1999 DLIS undertook an initiative to create the first electronic catalog. At the time there was a need for a revised "crisis catalog" of the Balkans Region. A crisis catalog is a special catalog containing aeronautical, hydrographic, topographic, and digital products that are normally found in different catalogs and wraps them in a single catalog over a particular area of interest.

The 1999 Balkans Region Catalog was issued in both hardcopy and a portable document format (PDF)-linked CD-ROM. The compact disc allowed users to view the catalog electronically and allowed DLA to realize savings in printing and distribution costs. Instead of distributing a heavy, hardcopy catalog, only a small disc was sent. Now, every catalog has the potential to be distributed electronically on a linked compact disc.

As technology advanced and the needs of the customers changed, DLIS leveraged new technology to support the needs of warfighters worldwide. Two major changes led to the transition to a fully interac-

tive map catalog: the streamlining of the data delivery and the use of a Web browser to support the catalog. Now, instead of delivering data to both DLIS and DSCR, NIMA provides a single data delivery to DSCR that is stored in the DLA Automated Data Management System, or DADMS.

Major Joe Anderson, deputy director of DSCR's Product Center 9 remarked that "by using DADMS as the only database, errors are reduced and duplication of data delivery is eliminated." In 1999, DSCR personnel presented a proof of concept for an electronic catalog to DLIS. Further development was performed at DLIS and a prototype was produced in three months. Queries by DLIS to the DADMS data determine which products will appear in the DLA Electronic Catalog of NIMA Products (E-Cat).

The E-Cat is based on HTML and a commercial off-the-shelf geographic data viewer called ArcExplorer. The E-Cat is distributed on CD-ROM and replaces not just one catalog—like the linked disc—but all hardcopy catalogs, which include aeronautical, hydrographic, topographic, and digital. Steve Jalbert, product manager for the E-Cat states, "The E-Cat will revolutionize the way our customers identify and locate maps they need. The job of ordering all JOG charts over a particular country is now reduced from hours to minutes. In addition to providing the warfighter with the most up-to-date map and chart information, production savings for DLA will be substantial."

To complete the transition to a fully electronic catalog and ordering system, DLIS will supplement the E-Cat with a SIPRNet website that will feature the interactive map catalog using cutting edge web-enabled Geographic Information System (GIS) software as well as a direct ordering link to DSCR. Currently, NIMA hosts a SIPRNet Web site that contains all linked CD-ROM catalogs currently produced by DLIS. Darrell Burke, the former NIMA catalog liaison said, "NIMA eagerly awaits the DLIS web site. Once it is up, NIMA will link directly to it so users that come to NIMA for maps can go directly to the catalog and get what they need." DLIS is currently in the process of making the Web-based catalog a reality.

This final phase of the transition to a single portal catalog and order site will make DLA the "one stop map shop" for the armed forces, wherever they may be deployed. For more information, contact Devin Winton, acting chief of the DLIS Electronic Documents Branch, at [dwinton@dlis.dla.mil](mailto:dwinton@dlis.dla.mil) or by calling (616) 961-4888, DSN: 932-4888.

# ITEMS OF SUPPLY

## New Items for the Navy Recruiting Command

Defense Supply Center Philadelphia (DSCP) is now introducing a list of new items procured for the Navy Recruiting Command. All are inscribed with the Navy Logo and are now available to everyone. Listed below is a brief description for each item and corresponding NSNs and size.

**White T-Shirt**, 100% Cotton, Heavy Weight

NSN	Size
8415-01-463-6155	S
8415-01-463-6157	M
8415-01-463-6159	L
8415-01-463-6171	XL
8415-01-463-6164	XXL

**White Mock Neck**, 100% Cotton Premium Jersey, Long Sleeve

NSN	Size
8415-01-463-5533	S
8415-01-463-5537	M
8415-01-463-5551	L
8415-01-463-5570	XL
8415-01-463-5571	XXL

**Gray T-Shirt**, 100% Cotton, Heavy Weight (Heather Gray)

NSN	Size
8415-01-463-7728	S
8415-01-463-7733	M
8415-01-463-7735	L
8415-01-463-7739	XL
8415-01-463-7742	XXL

**Navy Blue Running Shorts**, 100% Nylon Shell, Lightweight, Drawstring, Key Pocket in Rear, Full Cut, V-Notch Side Opening

NSN	Size
8415-01-463-6687	S
8415-01-463-6691	M
8415-01-463-6693	L
8415-01-463-6694	XL
8415-01-463-6696	XXL

**Ball Cap**, Navy and Navy Blue Pantone, Brushed Cotton, Adjustable Strap, Gold Embroidery Logo on the Front

NSN	Size
8415-01-463-5280	N/A

**Ball Cap**, Navy-Khaki, Brushed Cotton, Adjustable Strap, Two Tone with Khaki Crown and Navy Blue Pantone Visor and Navy Pantone Embroidery Logo on the Front

NSN	Size
8415-01-464-0202	N/A

**Why not put your order in today?**

If you have any questions, points of contact are Lisa Hoenes, DSN 444-2704, commercial (215) 737-2704 or Regina Maddred, DSN 444-7139, commercial (215) 737-7139.

## Army's Improved Physical Fitness Uniform (IPFU) Jacket, Pant, Trunks, Long & Short Sleeve T-Shirt

Don't miss out on the new IPFU Uniform. You'll make a fashion statement sporting the new look – gray, fully lined, zip up front jacket with raglan style sleeves and stand up collar. Working up a sweat will be a pleasure while wearing the improved black pants constructed of high performance fabrics that resist wind and rain and allow moisture to pass through.

The pants feature an adjustable waist, reinforced seat and knees, and zipped ankle openings. You'll resemble (although we can't guarantee the same performance) a marathon runner in your stylish black boxer trunks that include an elastic waist with a front barrel lock drawstring. For your convenience, the

trunks contain key/change and ID card patch pockets.

To "top off" the trunks, you have a choice of the heather gray, long sleeve t-shirt with a mock turtle collarette, sleeve cuffs and a hemmed bottom or the heather gray, short sleeve crewneck t-shirt. Both feature moisture management capability that will come in handy during those strenuous workout sessions.

The reflective quality of the new Army logo will keep you safe at night and is contained on the jacket, trunks, long and short sleeve t-shirts. So even when it's not bright, you'll be seen like it's light!

The item is managed by Serlina Rice, DSN 444-3029 or commercial (215) 737-3029.

## **Parka and Trousers, ECWCS in Desert Camouflage**

Look for the **ECWCS Parka** to be available as a stocked item in Desert Camouflage by February 2001! Based on previous demands as a Special Measurement, only the ten largest sizes are being procured at this time. The Desert Camouflage **Trousers**, previously listed as non-stocked direct vendor delivery only items, is now listed as a stocked item. However, assets will not be available for a minimum of 14 months (until a new contract is awarded and can deliver).

**Please contact Terri Knutson at DSN 444-5703, commercial (215) 737-5703 or email [tknutson@dscp.dla.mil](mailto:tknutson@dscp.dla.mil) for additional information or if special requirements exist.**

## **Belt, Individual Equipment Extender**

This item is now open for fielding! We're always looking for ways to make your job easier and this simple item proves to be a winner. The extender provides the ability to adjust the **Individual Equipment Belt** by approximately four inches, thus providing a rapid method of lengthening the equipment belt without the need to adjust the location of items attached to the belt. NSN 8465-01-457-8969 is used with the black buckle at a cost of \$2.80 and NSN 8465-01-457-8980 is used with the older style green buckle at \$2.95.

**Point of contact is Kim Heron, DSN 444-5688, commercial (215) 737-5688, or email [kheron@dscp.dla.mil](mailto:kheron@dscp.dla.mil).**

## **Strap, Shoulder Right and Left Hand (NSN 8465-01-078-9282 & 8465-00-269-0482)**

This item has been improved due to a design change that make the straps wider and thicker *and* soldiers report that the new style straps are much more comfortable than the old straps. The pack frame strap assembly is designed for use with the large and medium field packs for carrying existence loads. Please note - the one catch is that the new strap cannot be used with the old strap.

**Questions may be directed to Donn Supplee, DSN 444-8093, commercial (215) 737-8093 or e-mail [dsupplee@dscp.dla.mil](mailto:dsupplee@dscp.dla.mil).**

## **Changes in Clothing Bag Costs**

The greatest source of pride in DLA lies with the products we supply our valued customers. Our goal is to provide the best product at prices that are both fair and reasonable. Our commitment to the Warfighter is paramount.

**All the Armed Services' Monetary Clothing Allowance Lists (Bags) are less costly than in FY 2000**, discounting any new items (like the new Army Physical Fitness Uniform) or quantity increases (the Air Force added an additional pair of combat boots). This was accomplished by using our national leverage in procuring the items as well as reducing our Cost Recovery Rate by an average of 1.6% on Recruit Items. This is another example of how we at Clothing & Textiles are working to provide superior service to our valued customers.

## Extended Cold Weather Clothing System (ECWCS) Users

For your convenience, Defense Supply Center-Philadelphia has developed an icon that identifies all of the major components of the ECWCS ensemble. If you need to know what Liner goes with the Parka, Cold Weather or the NSN for size M-L of the Trousers, Cold Weather, check out Internet website <http://www.warfighter.net>. Click on the Electronic Catalog. Click on Extended Cold Weather Clothing System (<http://ct.dscp.dla.mil/Ascot/mb/ecwcs/ecwcs.html>). Instead of doing a catalog search, access to all of the information is available from one site!

**Contact Terri Knutson at DSN 444-5703, commercial (215) 737-5703 or if you need additional information email [tknutson@dscp.dla.mil](mailto:tknutson@dscp.dla.mil).**

## Air Force 55/Lightweight Helmets are Here!

After much anticipation, the new lighter weight version of the 55/P helmet is now available. Here are some particulars about the new helmet. Its shell weighs 345 grams (0.75 lbs) lighter than the old one. There are no assets remaining of the old helmet, and the Air Force has advised us that the new helmet will replace it. They have agreed that the lightweight helmet be issued as a substitute for any future requisitions containing the old NSNs. The old helmet consisted of the shell and a few basic components. The new helmet, however, includes many more components than the old one such as the TPL Liner, Styrofoam Liner, Headset (H154A/AIC), Retainer Jack, Nameplate, Pad Set (Earcup), Bayonet Receiver, Absorbent Liner, and Chamois Lens Cover.

It's priced a little higher, but for good reason. For one, the shell is made of a kevlar/graphite composite material that is more expensive than the fiberglass that makes up the old helmet. Secondly, the process of making a kevlar helmet is much more labor intensive and more costly.

**If you need more information about the helmet, please call Donn Supplee, DSN 444-8093 or commercial (215) 737-8093 or email [dsupplee@dscp.dla.mil](mailto:dsupplee@dscp.dla.mil).**

## "The Gym Bag"

Before your warm up, take a minute to check out the new specialty-ordering page located at our [www.warfighter.net](http://www.warfighter.net) (aka ASCOT) web site. "**The Gym Bag**" was developed with our Physical Fitness customers in mind. Stop by our web address: <http://ct.dscp.dla.mil/ctinfo/gymbag> and you'll be able to order a variety of workout items from one easy to use site. If you're not currently an ASCOT customer, all that's required is to follow the registration process. As an added feature, you can check out links to four health and fitness-related web sites from "The Gym Bag."

## Glove, Insert Black

(NSN series 8415-01-466-3174)

Hot new products to help keep you warm. Remember the Green Insert NSN series 8415-00-682-6575 worn alone or under the Glove, Men's & Women's, Light Duty (Flexor Style)? We are still procuring and managing this item, and additionally we now offer the same insert in **Black, NSN series 8415-01-466-3174**. Sizes remain the same as the green insert – sizes 1 through 5 with all sizes available for ordering.

**If you have any questions or concerns about this item please contact John Davis at DSN 444-5796 or commercial (215) 737-5796.**

## Shoes and Boots for Men – Commercial Styles.

We are increasingly introducing commercial type items to replace specification items. The old sizing: XN, N, R, W, XW – has generally been replaced by C, D, E, and EEE widths. As a general rule, use the following as a guideline for ordering men's footwear:

C = narrow  
D = regular  
E = wide

## Boot, Intermediate Cold/Wet W/Safety Toe

(NSN series 8430-01-451-0360)

The black safety boots can help prevent you from becoming a cold weather casualty. These boots are water-proof, mildew resistant, insulated and have a steel safety box toe with welt-around sole construction for wear in an intermediate cold/wet climate. And if those features aren't enough, the item is designed to protect your feet from cold injury and frostbite in areas where moisture and cold are critical factors. All this for a mere \$92.95.

**If you'd like to see what the boots looks like, please contact Wanda Kincaid 215-737-3069 or DSN 444-3069 or visit our web site at: <http://ct.dscp.dla.mil> or <http://www.warfighter.net>**

## Skirt, Woman's, Poly/Wool, AG-489

If you need a 4JP, 6JP, or 8JP Army skirt, you can throw away those special measurement forms. We now stock these sizes, so place your order today! The NSNs are as follows: 8410-1-471-6813 (4JP), 8410-01-471-6815 (6JP), and 8410-01-471-6816 (8JP).

**Any questions regarding these new sizes may be directed to Bernie Berich, DSN 444-3018 or commercial (215) 737-3018 or email [bberich@dscp.dla.mil](mailto:bberich@dscp.dla.mil).**

## Reverse Flag Patch

(NSN 8455-01-475-2208)

DSCP has introduced the reverse flag patch into the supply system. This patch must be worn by all active duty military personnel during periods of overseas deployment.

**Questions may be directed to Dorothy O'Connell, DSN 444-8101, commercial (215) 737-8101 or email: [doconnell@dscp.dla.mil](mailto:doconnell@dscp.dla.mil).**

## Navy Customers

**NOTICE:** Both the **Parka, ECW, Nylon, Green** (NSN series 8415-00-782-3216) and the **Jacket, ECW, Green** (NSN series 8415-00-349-9313) are being phased out of the system.

The replacement item is the **Parka, ECWCS, Woodland Camouflage** (NSN series 8415-01-228-1306) that is procured and stocked in seventeen sizes. Check out PGC 01918 in our electronic catalog at <http://www.warfighter.net> for a complete listing of all the sizes and a description of the replacement item.

**Contact Terri Knutson for additional information, DSN 444-5703 or commercial 215-737-5703 or email [tknutson@dscp.dla.mil](mailto:tknutson@dscp.dla.mil)**

## Searching High and Low for the OG-106 Flyers Jacket?

Well, only sizes XSMALL-SHORT through MEDIUM-LONG remain. The replacement item is the **Aircrew Cold Weather Clothing System (ACWCS) jacket**. This jacket is available in sizes XSMALL-SHORT through XLARGE-LONG and cost \$188.25.

**POC is Janice Kane 215-737-2878 or DSN 444-2878 or email [jkane@dscp.dla.mil](mailto:jkane@dscp.dla.mil).**

## Compact Fluorescent Lamps — Twice the Light at Half Price

For a limited time only, DSCP's General and Industrial Directorate in partnership with the U.S. Department of Energy's Federal Energy Management Program, is offering energy efficient, long-lasting compact fluorescent lamps at half their standard unit price.

Tony Armentani, Lighting Program Manager for DSCP, said "customers using the fluorescent lamps rather than the incandescent ones will realize energy savings nearly five times from what the fluorescent lamps cost to buy and install."

"We recently provided over 500 lamps for use throughout the White House and adjacent executive buildings," said Armentani. "We've provided thousands of these compact fluorescent lamps to federal users who are upgrading their lighting efficiency."

**For more information about this half price sale, call DSCP's customer support team at 1-800-DLA BULB (1-800-352-2852), or visit the CFL promotion Website at <http://www.dscp.dla.mil/gi/general/light3.htm>.**

## DSCP Now Managing New NSN series

For all you marksmen, Clothing & Textiles now manages the NSN 6920 series. The NSNs are too numerous to list but the series consists of various **Armament Training Devices** that include many different targets. There's stock available on most of these NSNs so place your orders now! Also for your information, Clothing & Textiles has added the partial management of NSN 9905 series that consists of various **Identification Plates, Signs, Advertisements & Displays** and the NSN 6930 series that consists of various **Operational Training Devices**.

If you have any questions, Laurie Colello, 215-737-3089 or DSN 444-3089 can be of assistance on these items.

## Attention Army Personnel

Looking for extra warmth to combine with your ACWCS ensemble? DSCP has the answer to your layering needs. The **Coat Liner** and **Trouser Liner** (NSN 8415-01-448-4250 and 8415-01-448-4657, respectively) are intended to be worn *over* the Aircrew Battle Dress Uniform (ABDU) and *under* the Aircrew Cold Weather Clothing System (ACWCS) jacket. We think we've got you covered with our range of sizes - XSMALL-SHORT through XLARGE-LONG available on each item. The Coat Liner price is \$76.00 and the Trouser Liner is \$92.45.

POC is Janice Kane 215-737-2878  
or DSN 444-2878  
or email [jkane@dscp.dla.mil](mailto:jkane@dscp.dla.mil).

## Marine Lifesaving and Diving Prime Vendor Goes Worldwide

The Defense Supply Center Philadelphia's (DSCP) Marine Lifesaving and Diving Prime Vendor program is fully operational worldwide. What this means is that any federal military or civilian agency can use DSCP's contracts to order a host of diving and marine lifesaving supplies and services to satisfy the needs of their respective missions.

The contracts currently cover equipment, repair parts, tools, gases and marine services and support various missions including special warfare groups, explosive ordnance disposal, mobile diving and salvage, underwater construction, counter drug programs, ships and husbandry.

What makes DSCP's prime vendor contracts attractive and easy to use?

**Ease of Ordering** - Once a customer is on file with DSCP and the prime vendor, they can begin ordering immediately. Customers are encouraged to use the online ordering systems provided by the prime vendors, or they can place orders via phone or fax. Either way, orders can readily be placed at the touch of a button or placement of a phone call.

**Web Sites, Electronic Ordering Systems and Catalogs** - As part of a contractual obligation to DSCP, all prime vendors must have a Web site dedicated to the prime vendor program. These Web sites include an electronic catalog with various search methods, item descriptions, and technical data in a user-friendly format. Amron International and MAR-VEL Web sites are fully equipped with an electronic ordering system so that customers can use an electronic shopping cart and place an order all at the touch of a button. Aqua Tech and Atlantic Diving

have Web sites; their electronic ordering systems are being developed. It should be noted that all prime vendors still accept phone and fax orders.

**Competitive Prices** - DSCP's five year, long-term contracts were competed through best value source selection processes to make sure customers get the best possible prices within the competitive market. With the growing popularity of the prime vendor program, more and more orders are being placed. The higher volume of orders ultimately means that costs are driven downward, and savings get passed onto the customer.

**Brand Name Preferences** - DSCP's prime vendors carry products of most of the major diving and marine lifesaving manufacturers including but not limited to: Draeger; Bauer; Gates; Typhoon; Seatec; Poseidon; Miller; XCEL; Aqua Lung; Ocean Tech Systems; Viking; Diving Unlimited Intl.; Dacor; Scott Mask; Mako, and Interspiro.

**24-Hour Customer Support** - Prime vendor representatives are on call 24 hours a day, seven days a week. Customers will never be left waiting to place an order, emergency or otherwise.

**Rapid Delivery Times** - The contract allows 30 days for routine delivery, seven days for urgent delivery and 24 hours for emergency deliveries. Most orders are shipped on receipt of order assuring much quicker delivery times than the standards set in the contract. Deliveries can be made to a centralized location, a deployed unit, or worldwide if necessary. The prime vendor will ship wherever the customer wants.

**Personal Relationship with Prime Vendors** – DSCP's General and Industrial Directorate encourages regular rapport between customers and prime vendors. This allows the prime vendor to get to know the personal needs of the customers. In many cases prime vendors can stock according to customer needs so that hard-to-get or regular-use items are always available without added time to the ordering process. The prime vendor will custom stock according to the customer's needs.

**Commercial Warranties** - Commercial warranties are passed along to customers.

**DSCP Customer Liaison Specialist Assigned to Each Region** - A DSCP customer liaison specialist is assigned to each region. This employee functions as a customer service representative to keep the customer happy and trouble-shoot any program problems should they arise. In the case of an isolated problem with a prime vendor, the ordering process, or any other aspect of the program, the customer service specialist will step in to resolve the issue.

**Inventory Reductions** - A customer will not have to stock as much inventory as in the past. The prime vendor will serve as the customer's inventory. Prime vendors stock most regular-use items. In addition prime vendors will stock specific items on a per-customer basis based on customer use, ordering history, customer knowledge, and communication with the customer.

**Reduced Inventory Burden** - Does the competitive "three bid process" sound familiar? The prime vendor contracts have already been legally competed; there-

fore, competition is not necessary when orders are placed. Think of the time saved; no need to solicit and evaluate bids, process and administer awards.

**Item Variety** - Over 1,700 national stock numbers covering most items that are needed for diving and marine related missions.

**Not Only Diving** - In addition to diving related items, DSCP's contracts cover other marine related mission equipment such as life support equipment/last chance survival gear, life rafts and preservers, dye markers, flares and other marine associated items.

The program, which is made up of six separate best-value prime vendor contracts, provides regional coverage as follows:

**Pacific Regions:**

Region 1 - Pacific Northwest including Alaska

Region 2 - California

Region 3 - Hawaii, Guam, Japan, Okinawa, Korea

**Pacific Prime Vendors:**

- Amron International
- MAR-VEL Underwater Equipment Inc.
- Aqua Tech Dive Center

**Atlantic Regions:**

Region 4 - Northeast Atlantic Coast and Europe

Region 5 - Southeast Atlantic Coast, Puerto Rico, Cuba, Panama, Bahamas

**Atlantic Prime Vendors:**

- Amron International
- MAR-VEL Underwater Equipment Inc.
- Atlantic Diving Supply Inc.

(CONTINUED ON PAGE 22)

(FROM PAGE 21)

DSCP's marine lifesaving and diving prime vendor program is here so that all federal diving activities, military and civilian, can focus on their missions while leaving the administrative burden of acquiring items, equipment and services to us. For more information, the following are the prime vendor phone numbers and Web sites. DSCP customer liaison specialists' phone numbers and the DSCP Marine Lifesaving and Diving Web site are also provided:

## **Operational Rations Submission Individual Field Feeding Update**

**UNITIZED GROUP RATION (UGR) MENU VARIETY EXPANDED...** Customers please be aware that there are new menus currently available for the **Unitized Tray Pack** and the **Unitized Group Ration, Heat and Serve (UGR-H&S)** programs. There are now 7 breakfast and 14 lunch/dinner menus available for each program. Also, we plan to expand the menu variety of the **Unitized Group Ration, A Option (UGR-A) in the near future**. The UGR-A menus will also increase to 7 breakfast and 14 lunch/dinner. The expansion of the menu varieties is being implemented to offer even greater selection and support to you, our valued customers.

To view item descriptions and the corresponding menus please visit the direct links:  
**Unitized Tray Pack:**

<http://www.dscp.dla.mil/subs/rations/ratmeal/trat.htm>

**UGR-H&S and UGR-A:**

<http://www.dscp.dla.mil/subs/rations/ratmeal/ugr.htm>

For more information on DSCP Subsistence Operational Ration Programs please visit our website at

<http://www.dscp.dla.mil/subs/oprat.htm>.

## **Field Feeding Equipment Update**

**NEW FIELD WASH STAND...** The Operational Rations Field Feeding Equipment Office is now offering to our Military Customers a new item to support field sanitation efforts. The field wash stand is a four-person design, perfect for field feeding and work sites where frequent hand-washing is required. The product features hands-free operation via foot pumps, fresh and grey-water tanks of durable polyethylene, paper towel holders, and soap dispensers. This new Wash Stand greatly enhances personal hygiene in the field. Please note that at this point, the Field Wash Stand is not part of any mandatory field plan. It is not a required item. Units that desire this item must purchase it with their units' funds. For more information please visit the Field Wash Stand web page at <http://www.dscp.dla.mil/subs/rations/ffe/4perwash.htm>.

Point of Contact is Joe Zanolle is commercial (215) 737-5648, DSN 444-5648, and email [jzanolle@dscp.dla.mil](mailto:jzanolle@dscp.dla.mil).

## Let Us Help You Build a Firm Foundation

Spring is rapidly approaching and with spring, comes the thaw, *and* the mud. "DSCP's General and Industrial Directorate Facilities Maintenance Group has a variety of solutions to help you with your soil and load support problems," said John Martino, Technical Specialist. "And all of our ground stabilization systems have been tested by the U.S. Army Corps of Engineers at Waterways Experiment Station in Vicksburg, Mississippi."

Geoweb is a three-dimensional honeycomb-like structure that confines and stabilizes infill material. This product was used extensively during Desert Storm to stabilize the soft sand road conditions. The Geoweb sections collapse into lightweight, compact bundles for easy transport. Installation procedures are simple: (1) level out the mud to create an even surface; (2) install Geo Fabric which will eliminate the under soil from percolating and contaminating the infill, and (3) install the Geoweb by expanding the web to 8 feet x 20 feet. The eight-inch deep honeycombs are then filled with small stones or appropriate infill material. (GEOWEB: NSN 5680-01-198-7955 and GEO FABRIC: NSN 5675-01-471-2647)

The Dura-Base composite interlocking mat system, which is made of high-density polyethylene (HDPE) and is reusable. Each 8' x 14' mat weighs approximately 1,050 pounds and is 4-1/2 inches thick. Installation consists of: (1) leveling the ground/mud; (2) installing the Geo Fabric; (3) dropping the interlocking mats on the fabric; and (4) locking the mats together. (DURA BASE MAT: NSN 5675-01-471-2683 and GEO FABRIC: NSN 5675-01-471-2647)

Additional stabilizing products are also available including the lightweight hexagonal interlocking panels and fiberglass reinforced mats.

**For more information on these products,  
contact Martino at DSN 444-7924;  
Commercial (215) 737-7924  
or via email at: [jmartino@dscp.dla.mil](mailto:jmartino@dscp.dla.mil)**

## Medical Equipment Available Via E-CAT

The Medical Equipment Group has been working with a number of Medical Equipment vendors to offer their products via the E-Cat Web Based Ordering System. The URL for E-CAT is [mebweb.dscp.dla.mil](http://mebweb.dscp.dla.mil). We currently have four vendor catalogs active. Below is a listing of some of the items available.

**marquette**

A GE Medical Systems Company

GE Marquette Medical Systems Complete line of monitors and a majority of their consumables:

- Solar Family of Monitors
- Eagle Family of Monitors
- Telemetry Systems and Alarm Display Units
- Maternal/Fetal Monitors
- Central Monitors
- Modules, installation, and Training
- Corometrics Consumables and Accessories
- Monitoring Consumables and Accessories
- All Consumable and Accessories

**Agilent Technologies**  
Innovating the HP Way

Agilent Technologies will be initially testing with their Automatic External Defibrillators (AED). Other products line to eventually be included are Defibrillators, Patient Monitors and consumable/accessories Star Dental's complete line of Handpiece Systems and related accessories:

## StarDental

- Highspeed Handpieces
  - Lowspeed Handpiece systems
  - Attachments, Couplers, and Handpiece Tubing
  - Sonic Scalers
  - Fiber Optic Illumination Systems
- And much more.....

## MIDWEST

Midwest Dental Products complete line of Handpiece Systems and related accessories:

- Highspeed Handpieces
  - Lowspeed Handpiece systems
  - Attachments, Couplers, and Handpiece Tubing
  - Product maintenance equipment
  - Power Optic Systems
- and much more.....

We are working with a number of other Equipment vendors and will have additional products available shortly. For access, please contact the DSCP E-CAT Help Desk at 1-800-290-8201.

- Encore 200 Series Monitors
- The New Propaq CS Monitors

## Intermediate Sleeping Bag – Modular Sleep System

(SN 8465-01-398-0687)

The old intermediate sleeping bag, NSN 8465-01-049-0888 has been phased out. The new intermediate bag offers warmth in lower temperatures and also boasts a lower price than the old item. Will keep you comfortable to -10 degrees Fahrenheit and is priced at \$71.55 (in case you're wondering, old item was \$73.80). For you taller soldiers there is an X-long version, NSN 8465-01-452-1690, available for \$92.35.

This new intermediate bag is only one of the four components of the new Modular Sleep System, NSN: 8465-01-445-6474 (\$285.05). The other three components are the **Patrol Sleeping Bag**, NSN 8465-01-398-0685 (\$51.40) for a temperature range of 30-50 degrees Fahrenheit; the **Bivy Cover**, NSN 8465-01-416-8517 (\$165.40) for waterproofing protection; and the **Compression Stuff Sack**, NSN: 8465-01-398-5428 (\$17.40) to carry the whole system.

**If you have any questions, please call  
Rhonda Johnson, DSN 444-3072 or  
commercial 215-737-3072 or  
email [rmjohnson@dscp.dla.mil](mailto:rmjohnson@dscp.dla.mil).**

## ASCOT Web Address Goes Commercial

Clothing & Textiles has registered a new web address with a more commercial look - we think it will make it easier for you to remember our ASCOT system! The new address is:

**<http://www.warfighter.net>**

Using the new address will send you to a front-page graphic explaining who we are and a single click on that screen will load ASCOT's main page - simplicity at its best. Now those of you that may have bookmarked the <http://ct.dscp.dla.mil/ascot> address, it remains operational so there will be no problem accessing.

## Are You Cold? Do You Want To Be Comfortable?

The DLA's Defense Supply Center Philadelphia (DSCP) General and Industrial Directorate has space heaters available for your tent, barracks or shelter. They are part of the Family of Space Heaters (FOSH) that have been tested by Natick Laboratories. Tailor Logistic Support Packages have been developed to support this program which includes the following heaters:

- **NSN 4520-01-444-2375:** Space Heater Arctic (SHA). Designed to provide heat for the ten man Arctic tent.
- **NSN 4520-01-478-9207:** Space Heater Small (SHS). A small lightweight quickly deployable heater for small shelters of five or fewer soldiers.
- **NSN 4520-01-329-3451** (Liquid fuel) or **NSN 4520-01-354-1191** (Solid fuel): Space Heater Medium (SHM) or H-45 Heater. All general-purpose tentage (small, medium and large) and temper tents.
- **NSN 4520-01-431-8927:** Space Heater Convective (SHC). Modular command post system tent and other tents housing expensive electronic equipment.

Also available is the Thermoelectric Fan (TEF) which can operate on any flat surface heater with a surface temperature ranging from 500 to 700 degrees Fahrenheit.

- **NSN 4520-01-457-2790:** The TEF significantly increases the comfort level in a heated room, tent or barracks. It does this by moving the heated air to the bottom and corners, providing more even heat distribution throughout the entire shelter. It creates its own power by converting a small amount of heat from the space heater into electricity. This power drives the motor and turns the fan. No external power source is needed. The increased comfort allows the occupants to significantly reduce the fuel valve setting, thereby saving substantial amounts of fuel. According to the Army's estimates, one TEF saves anywhere between \$400 and \$1400 per year (depending on the usage). **The TEF pays for itself in one year.**

**For additional information, contact  
Dan Dilossi at (215) 737-8249,  
DSN 444-8249 or by Email:  
[ddilossi@dscp.dla.mil](mailto:ddilossi@dscp.dla.mil)**

## Customers Outside the Continental United States Can Now Save Time, Money and Space on Metals and Metal Products

In addition to the entire continental United States, our military and non-military customers in Hawaii and Guam can now utilize the Defense Supply Center Philadelphia's (DSCP's) Metals and Metal Products Prime Vendor program.

The Hawaii/Guam region prime vendor contract was awarded on November 6, 2000 with implementation to begin in February 2001. This award represents our first metals prime vendor contract outside the continental United States.

Using the Internet from their desk computers, buyers and planners can order metals and metal products and specify when and where the material should be delivered. The easy-to-use electronic ordering system allows users the opportunity to view volume discounts, delivery times, and other special services that are available. Some special services include cutting metals to desired lengths and scrap/salvage removal.

Bill Austin, a division chief in DSCP's Metals Group said, "We are currently conducting market analysis to determine program feasibility in Europe and Japan."

If you are anxious to reduce your in-house efforts and expenditures and would like to take advantage of this money-saving program, give Austin a call. A customer liaison specialist (CLS) will contact you or even visit your activity. Once you have signed on to the program, this CLS will be your own personal program contact.

**Contact Bill Austin at DSN 444-9157,  
Commercial (215) 737-9157,  
or via email at [waustin@dscp.dla.mil](mailto:waustin@dscp.dla.mil)**

## !!!! Notice !!!!

### Are You Ordering The Wrong Handgun Grip?

Many of our customers are ordering the wrong parts when replacing grips on some types of military handguns. Many Defense Supply Center, Columbus, (DSCC) customers who want *LaserGrips*™ handgun (NSN 5855-01-460-9157) grips for the M9 (9 mm) handgun (p/n LG202) are ordering *LaserGrips* for the M1911 (.45-caliber) pistol (NSN 5855-01-460-9153 for p/n LG201) by mistake.

We would like to prevent customers from ordering the wrong item. (There are five NSNs or national stock numbers on the product sheet, but DSCC is having problems with orders only on the first two, which, incidentally, are cataloged and described correctly in FED LOG.)

**Debra B. Perry, Public Affairs Officer, (614)  
692-2502, FAX (614) 693-1563**

***DSCC is a Defense Logistics Agency field activity and one of the largest suppliers of spare parts to the U.S. Military.***

### Discounts and Easy Ordering – Keep Your Office Supplies Coming!

DLA has negotiated a Blanket Purchase Agreement (BPA) for next-day desktop delivery of office products with Boise Cascade Office Products (BCOP). The BPA offers deep discounts (e.g., 77% off list price for copier and printer paper) on over 800 common use items such as transparencies, binders, envelopes, diskettes, and printer cartridges – all are available for next-day delivery. In addition, the agreement makes a full range of ADP equipment (like computer accessories, scanners, and storage devices), business machinery (copiers, fax machines, printers, telephones, etc.) and office furniture available through contractor teaming arrangements. Ordering can be done via phone, fax, or a user-friendly Internet ordering system.

**If you are interested in taking advantage of the low prices and ease of ordering office products that our BPA offers, please contact Suzan Cohen, DSCP-IDB, (215) 737-4518, for more information.**

*We'll send the forms you need to get signed up on our account.*

# CHAPLAIN'S CORNER

# Chaplain's Corner

If you missed out on receiving our 2000 Fall Brochure in the mail then that means you are not on our latest mailing list.

**If you would like to be added, please contact  
Lisa Raucheisen at DSN 444-3057,  
commercial (215) 737-3057,  
or email lraucheisen@dscp.dla.mil**

Due to unavailability from the manufacturers, we are not able to supply these items: NSN 9925-01-459-7014 (Sacramentary), NSN 9925-01-459-8124 (Wine, Sacramental, Mustum) and 9925-01-459-7470 (Burse, Large). All requisitions for these items will be cancelled so please do not order. We regret any inconvenience that this may cause you.

A classic has been replaced, but we know that you will like the change! Juice, Grape, Sacramental, Dehydrated (NSN 9925-01-354-3019) has been replaced by NSN 9925-01-476-1966. The new NSN is obtained direct from the manufacturer to ensure its freshness. These enriched grape juice granules are 100% natural, non-alcoholic and make 32 ounces when prepared.

We have added a few more NSNs to our current product line. We are excited about our ability to offer electronic software for the first time. All of these items are readily available so order today!

**How Do I Order on line?**

Ecclesiastical Supplies can be ordered via the World Wide Web two ways. Ship time averages seven to fourteen days. All you need to do is follow the simple registration procedures and shopping will be available to you as quick as the click of your mouse.

1. Shopping through the Chaplain's Corner. User friendly. Complete registration instructions: [www.chaplainscorner.com](http://www.chaplainscorner.com)
2. DoD Email: Easy to use. Simple Registration instructions. Select Chaplains Corp under major command. Use CHP as the first three letters of your user name, and if you do not have a DODAAC use SP5200: <https://www.emallmom01.dla.mil/scripts/default.asp>

**The Lesson Builder** is the perfect tool for small group bible study leaders, Sunday school teachers, youth workers and chaplains. It enables you, or a volunteer to develop bible studies for small groups quickly, using numerous well now and accepted publications. This item is great for ministry in the Chapel, on shipboard or in the field with Marines.

(NSN 9925-01-478-5183)  
The perfect tool for small group Bible study leaders, Sunday School teachers, youth workers and pastors

Our Price: \$47.95

Retail Price: \$52.95

**The Scholars Library** is the best of both worlds. Easy to use by new computer users, it contains all the research tools you will ever need and is expandable. This item is enough to meet the needs of experienced Bible Scholars. These items also include a training video that will tell you all the tricks of the trade and how to put these two new tools to work for you immediately.

(NSN 9925-01-478-51834)  
The Scholar's Library is the best of both worlds. Easy for use for new computer users, but it contains text that is comprehensive enough to meet the needs of experienced Bible Scholars. In English, Greek and Hebrew

## New Field Items Developed to meet Service Needs

The past four years have placed significant demands, on the services ability, to deploy chaplains and their staffs, worldwide. To meet these 21st century, religious support needs, exciting new field kits and items have been developed by Joint In Process Review Teams (IPTs) and the Defense Logistics Agency (DLA), Defense Supply Center Philadelphia, (DSCP). Now is the time to place your orders and insure that your command is prepared with this new equipment.

## New Kits Extend Ministry

The DSCP has developed Extender Kits for faith groups, which historically do not have religious support in most contingencies. (Catholic, Orthodox, and Muslim) These extender Kits can be ordered as a complete kit and sustained through ordering replacement items. The kits offer the religious support planner with the ability, to extend ministry in any area of operations, through the use of approved lay leaders. The kits provide, a standard for religious support and insure free exercise, for all service members. Review each kit and palace your orders now. Remember they can be ordered as a kit or each item in the kit can be ordered to sustain the kit.

## We offer a wide variety of books to assist you in your daily ministry. Don't delay, order today!

**Where's God Now?** (NSN 9925-01-459-7063) contains scriptures and illustrations that help young service members and teens deal with grief and their reaction to disaster. Excellent to use after training accidents or in responding to crisis. This full color 40 page booklet measures 6 5/8" X 6 5/8".

**Minute Meditations for Each Day** (NSN 9925-01-459-6272) offers short scripture text, a practical reflection, and a meaningful prayer for each day of the year. This book has a flexible cover and measures 4" X 6 1/4".

**Bible, True Love Waits** (NSN 9925-01-459-7049) enables young adults to review scripture on long term relationships. It is packed with articles from Max Lucado, Josh McDowell, James Dobson and others. It is excellent for working with young adult service members in areas of family life and pre-marriage counseling.

Communicate God's Truth and Jesus' love to prisoners in a non-threatening way. **The 4th Man** is excellent for prison ministry. It is available in both English (NSN 9925-01-459-7018) and Spanish (NSN 9925-01-459-7022) versions. This illustrated 32-page booklet depicts stories of Samson the strong man, Jacob the con man, David the murderer and the 4th man, Jesus the prisoner. Strong, masculine illustrations and easy-to-understand text.

Want to reach out to the younger population in a unique way? **New Testament, NIV, Path to Victory** features testimonies and favorite verses of world-famous Christian athletes from major sports. Includes strategies for studying God's Word, including a 28-day reading plan and a "We Are Not Alone" spiritual growth section. The Football Edition can be ordered using NSN 9925-01-459-7002 and the Basketball Edition can be ordered by using NSN 9925-01-459-7007.

**Any information regarding ecclesiastical supplies can be directed to Maryann Bonk, DSN 444-3192 or commercial 215-737-3192.**

We have a wide variety of medals available. Plus, the low cost of these items makes them economical for widespread distribution. Order one or order a sampling. We are sure they will be popular!

# ENVIRONMENTALLY ORIENTED PRODUCTS & SERVICES

## Move & Store Material (MSM) is Environmentally Friendly

Since everyone creates waste on a daily basis, it is everyone's job to treat our environment in a friendly and responsible way. At the Defense Supply Center Philadelphia (DSCP), we are doing our best to help our customers do this in both a cost effective and healthy manner.

The Heavy Equipment Procurement Program (HEPP) initiative was put in place to satisfy your complete recycling and environmental needs. We carry equipment and accessories needed to collect, compact, store, and transport refuse. We currently carry over 860 products in a line that is broken down into two main categories: recycling & pre-fabrication structures. The recycling products include items such as balers/compactors/crushers, trailers, shredders, and conveyors. The pre-fabrication structures range from hazardous material storage buildings to guard houses, showers, and restrooms. We even have the equipment and supplies required to erect your own semi-permanent building. Visit our web site at <http://www.dscp.dla.mil/gi/general/hepp-srch4.htm> to do a complete product search. This site has directions and helpful search hints.

Now that you have decided exactly what you need, how do you get it quickly and at the right price? This is where DSCP shines. We have long-term agreements in place with approximately 35 industry leaders. This allows you, the customer, to choose brand name equipment to fit your needs and to customize with the accessories and options to do the job the right way.

Once you determine what you want, we offer multiple ordering methods such as Military Interdepartmental Purchase Requests (MIPRs), MIL-STRIP Requisitions, or Purchase Orders. You choose the equipment you want and the ordering method that best meets your needs. Since the terms and conditions are already determined, administrative

turnaround time averages less than 16 days and can be shortened in emergencies. As a result of DSCP's "most favored customer" status, we are able to offer substantial discounts and excellent delivery times not available to small purchasing shops. In addition, our cost recovery factor is only 1.387%. These features help keep procurement costs and lead time low, which in turn allows the customer to concentrate on core mission. At DSCP you deal with logisticians who understand the supply chain and manage it from cradle to grave.

If you check out our product line and do not see the exact product you want, just contact Joe McHenry at (215) 737-7244 or Judy Henry at (215) 737-7256. Our DSN is 444. Due to our close partnerships with our suppliers, we have access to most, if not all, of their product lines. Just talk to Joe or Judy about what you need and they will work with the suppliers to get your equipment. Exceptional customer service is our goal.

Although DSCP is a Department of Defense agency, the military is not our only customer. Most of our products are "commercially available" so many other federal agencies have taken advantage of our services. We have provided equipment for customers such as the National Parks Service, Fish and Wildlife, the Army Corps of Engineers, and the Federal Prison System. If you need environmental equipment, do not hesitate to contact us.

For more information on our Heavy Equipment Procurement Program (HEPP) or to learn more about our construction equipment, material handling equipment and/or our fire truck/rescue vehicles, visit our web site at <http://www.dscp.dla.mil/gi/general/hepp.htm>.

**Your comments, questions or concerns should be directed to Ted Kelly at 215-737-7278, DSN 444-7278, or email [ekelly@dscp.dla.mil](mailto:ekelly@dscp.dla.mil).**

# "Greening" The Government Through The Federal Logistics Information System Initiatives to Help DLA Customers Buy Environmentally Preferable Products and Encourage Suppliers to Sell "Green" Through DLA

The Defense Logistics Agency and the Defense Logistics Information Service have provided America's military commanders and our NATO allies' new weapons in the fight for the environment, and to "Buy **Green**."

DLIS, headquartered in Battle Creek, MI maintains the huge federal catalog system, and the database of almost eight million products used by the United States military, federal and state agencies and our NATO partners the world over. The Federal Logistics Information System is the largest database of product information with the largest customer base in the world. FLIS product data includes shipping information, manufacturer information, item identification data, hazardous materials information; and now, FLIS data contains Environmentally Preferable Product (EPP) information.

FLIS users can now find environmentally preferable products in the federal catalog systems that meet strict, definable environmental criteria set forth by recognized environmental organizations. The environmental criteria used in FLIS have been reviewed and agreed to by representatives from all of the military services through DLA. EPP products are identified by a distinctive "green" tree symbol in the CD / DVD containing Federal Logistics data (FED-LOG), on the World Wide Web through the DoD Electronic Mall and the new DOD Environmental Products guide "green" products catalog.

In partnership with EMALL, EPRO brings all "green" products together in one convenient "shop and buy" program right on the Internet. EPRO showcases exclusively "green" products. Customers can make purchases on-line through government MILSTRIP requisitions or by using the government credit card. Vendors and suppliers receive high visibility for their products that meet the programs "green" criteria. Additionally, military commanders benefit through customizable "Measure of Merit" reports that EPRO can produce to show a user's purchases of Environmentally Preferable Products, whether made by MILSTRIP or by credit card.

**EPRO supports vendors and suppliers to make it easier for them to sell "green" products through DLA.** The unique "Self-Declaration" component of EPRO makes it easier for vendors to show that their products meet the criteria that make them "green." Vendors simply have to obtain an EMALL contract, and document in writing that their products comply with one or more of the identified environmental attributes. Products that meet these requirements will be highlighted in EPRO, and will earn the distinctive "green tree" symbol.

**EPRO offers many important benefits to vendors and to our Federal Catalog system customers, including . . . . .**

- EPRO supports both the government credit card and MILSTRIP requisitions.
- EPRO is widely available, residing on the World Wide Web.
- EPRO is a complete one-stop "shop and buy" program.
- EPRO customers have the option to register on-line, or to simply browse through the products offered.
- Customers can select from National Stock Numbered (NSN) products and manufacturer part numbered products.
- EPRO offers vendors and suppliers "self-declaration" in which vendors can determine if their products meet program criteria.
- EPRO makes it easy to register on-line.
- REPRO can produce important "Measure of Merit" reports on all purchases of "green" products.

A study by the DLA safety and environmental policy office has estimated savings for the federal government and to the taxpayers by introducing Environmental Attributes into the Federal Catalog System will exceed \$87 million. These savings are

expected to come from increased purchases of environmentally preferable products that reduce costs associated with management of the hazardous materials waste stream. Additional savings come from the efficient use of energy and water resources and recycled materials.

By combining expertise in logistics information management and partnering with leading environmental organizations and the military services, the DLA and the DLIS are working hard to encourage, promote and facilitate the "greening" of the logistics pipeline. It is hoped that these efforts will help launch additional savings through the production, sale, procurement and wide scale integration of environmentally preferable products.

Information on EPRO, "vendor Self-Declaration," or other aspects of the DLA "Buying Green" program can be obtained through the DLIS Customer Support Center at: (888) 352-9333. Access to EPRO and information on the "Buy Green" program is through our website at: [www.epro.dlis.dla.mil](http://www.epro.dlis.dla.mil). Inquiries can also be addressed by email at: [environmental@dlis.dla.mil](mailto:environmental@dlis.dla.mil).

### **Did you Know?**

If every commuter carried just one more passenger daily, we'd save 600,000 gallons of gasoline and keep 12 million pounds of pollution out of the atmosphere every year.

**Did you Know?**

By recycling 1 ton of paper you save:  
 17 trees  
 6953 gallons of water  
 463 gallons of oil  
 587 pounds of air pollution  
 3.06 cubic yards of landfill space  
 4077 Kilowatt hours of energy

**Did you Know?**

- Junk Mail**
- Americans receive almost 4 million tons of junk mail a year.
  - About 44% of the junk mail is never opened.
  - Every person in the United States receives junk mail that represents the equivalent of one and a half trees a year.
  - If only 100,000 people stopped their junk mail, we could save up to 150,000 trees annually.
  - If a million people did this, we could save up to a million and a half trees.

**Did you Know?**

Tissue and towels  
 Approximately 5.8 million tons of tissue grades, consisting of toilet and facial tissue, paper napkins, towels, diapers, and various other sanitary products are produced in the U.S. annually. In 1992, approximately 3.5 million tons of scrap paper was used to make to manufacture these products.

Source: American Paper Institute

**Did you Know?**

If all morning newspapers read around the country were recycled, 41,000 trees would be saved daily and 6 million tons of waste would never end up in landfills.

# NIB/NISH - JAVITS-WAGNER-O'DAY(JWOD)

# The Javits-Wagner-O'Day Program Defense Supply Center Philadelphia (DSCP)

## Quality, Value and Equipment

Your purchases of supplies and services, including SKILCRAFT brand products, provided under the Javits-Wagner-O'Day (JWOD) Program, create thousands of jobs for people who are blind or who have other disabilities working in nonprofit agencies located across the country. JWOD customers are assured of quality products and services, equal to or better than comparable commercial choices, delivered when you need them at a reasonable price. At the same time, federal customers are complying with mandatory source requirements stipulated by the JWOD Act of 1971 and the Federal Acquisition Regulation (FAR), Subpart 8.7.

If you are new to the JWOD Program, please use this information to obtain DLA products and services and become a JWOD customer. If you are already a JWOD supporter, we hope this information will remind you of the wide range of quality products and services available through the Program. We appreciate your business!

## JWOD Products Distributed by DLA

A number of JWOD military-specific products are distributed through DLA. The most common ordering method is through requisition:

FEDSTRIP-Fill our Form 344 and send to the appropriate Inventory Control Point.

MILSTRIP-Fill out Form DD1348 and send to the appropriate Inventory Control Point.

Some items are available through the DLA's Prime Vendor Programs. These include medical/surgical products, available through the Defense Supply Center Philadelphia (DSCP) Medical/Surgical Prime Vendor Program or on DSCP DAPAS. The items are

listed as NIB or NISH in the manufacturer field or the electronic database, where product and price updates are made monthly. JWOD items also appear on the Med Catalog available on CD ROM. To obtain JWOD products, you must specify that you want JWOD (NIB/NISH) items.

JWOD food and non-subsistence (equipment) products are available through the DSCP Subsistence Prime Vendor Program and Military Unique Subsistence Items Contract (MUSIC). These items are available through the designated vendors for specific regions. MUSIC items are sold almost exclusively to the U.S. Navy for shipboard use and are carried by Prime Vendors servicing the Navy. As other electronic catalog and vendor programs evolve, JWOD products will be represented where appropriate. To obtain more information, contact your regional Prime Vendor.

## GSA Advantage!

To be sure you are getting JWOD products such as office products and supplies, tap into GSA Advantage which is an Internet-based shopping service allowing Federal customers to browse, search, review prices and delivery options and order on-line. Payment methods include the IMPAC card or interfund billing. JWOD items are identified throughout the system. The ordering function is open to all authorized users (with Activity Address Code or IMPAC cards) for Stock Program orders. Browse the system at <http://www.gsa.gov>. For more information, call toll free (877) 472-3777, or send an email to [GSA.Advantage@gsafss.gov](mailto:GSA.Advantage@gsafss.gov).

# The Javits-Wagner-O'Day Program Defense Supply Center Philadelphia (DSCP)

In the bandage factory at Elwyn Industries, workers surrounded by rolls of olive green fabric and spools of cotton are busily producing bandages and field dressings for America's warfighters. "The Defense Supply Center Philadelphia buys several different types of bandages from Elwyn," said Tom Walsh, executive director for the business services division at Elwyn Industries. "We buy more than one million bandages each year," he added.

*Engineering capabilities and a wide variety of instrumentation enables Elwyn employees to create quality products that meet DSCP's military specifications.*

*Photo by: Dena Selkow*

Elwyn, Inc., an affiliated workcenter of the National Institute of the Severely Handicapped and a nonprofit human services organization, was established almost 150 years ago as a school for children with mental retardation. It now operates as a full service human development organization. NISH is the national nonprofit agency designated to provide technical assistance to Community Rehabilitation Programs interested in obtaining federal contracts.

Walsh said Elwyn offers many educational and therapeutic programs for adults and children diagnosed with mental health or retardation problems

including education, employment, vocational training, rehabilitative services, and residential placement.

Elwyn has been a partner of DSCP's medical directorate for more than 13 years, providing a wide variety of bandages and first aid dressings, said Brig. Gen. J.A. "Yogi" Mangual, Commander of DSCP. Contracts with DSCP enable Elwyn to employ more than 150 people with special challenges at the Kevin Dugan Center on Elwyn's 400 acre Media, PA campus, where the bandages are made.

*On a tour of the bandage factory at Elwyn Industries, Brig. Gen. J.A. "Yogi" Mangual thanks an Elwyn production worker for her support in making medical products for America's warfighters.*

*Photo by: Bill Ernst*

In total, Elwyn employs more than 2,300 people in the areas of janitorial/custodial production and service workers, contract assembly, packaging services, and warehousing. More than half of these people are employed in its programs and facilities in Delaware County, PA. Elwyn is headquartered in Media, PA and operates 11 centers, including sites in Delaware, Pennsylvania, New Jersey, California and several international locations.

# Maximizing Web-based Services for All Users

Enhanced electronic services for NISH customers are a key initiative for the organization. The objective is to expand NISH's Web-based services and applications to include an enhanced and redesigned Web site, adding Extranet and Intranet capability to the system .

The capacity of this initiative has far-reaching implications for people with disabilities, Community Rehabilitation Programs (CRPs), federal customers and leaders of vocational rehabilitation organizations. The initiative is also clearly aligned with NISH's redefined mission and goal to "develop and maintain employment and training opportunities for people with severe disabilities."

In order to effectively meet the information needs of all NISH's customers - both internal and external - an Internet/Extranet/Intranet Steering Committee is in place that includes representatives from the Committee For Purchase From People Who Are Blind or Severely Disabled staff (the Committee), the National Industries for the Blind (NIB) and a CRP that provides both products and services to the federal government through the Javits-Wagner-O'Day (JWOD) Program.

Each month, the Steering Committee members meet with key team leaders of the project initiative. These key team leaders are NISH staff responsible for the Internet redesign and Extranet and Intranet development. For each development area, the team leaders guide sub-teams of NISH national, regional and information technology staff to develop and manage project plans for delivering these services.

Using this approach, NISH, NIB, the Committee and CRPs are able to determine how all members of the JWOD community can maximize the services NISH provides. A primary goal is to streamline the efforts of all customers when posting information to [www.nish.org](http://www.nish.org), [www.nib.org](http://www.nib.org) and [www.jwod.gov](http://www.jwod.gov) (Committee Web site) as well as more effectively directing Web users and customers to and from these sites for the resources they need. The Steering Committee also provides a forum to exchange information about individual information technology (IT) efforts that may be aligned with the other organizations' IT plans.

For more information on the Electronic and Information Technology Accessibility Standards, visit [www.access-board.gov/sec508/508standards.htm](http://www.access-board.gov/sec508/508standards.htm).

# CONFERENCES AND EXPOS

## Conference Helps Logisticians Meet New Challenges!!!

Defense activities depend upon logistics information more than ever, and the trend is very likely continue into the future. That is why the use of the NATO Codification System (NCS) has spread rapidly around the world.

The system has been used by NATO members for the past 50 years and has become a key standard for logistics information. With the increasing use of coalition forces, its role is now more important than ever. The system provides a common language of logistics that uses the latest technology to allow military services and allies to share equipment and materials.

The 9th International Symposium on NATO Codification will address the future challenges of the new millennium. Scheduled for Sept. 18 to 20 in the Grand Duchy of Luxembourg, about 500 to 600 people are expected to attend. The event is held approximately every four years.

Vendors will be there to help logisticians understand the choices they have for data processing systems. High level military and NATO personnel will attend to discuss the future of logistics and how the NCS is expected to contribute. This is a 'don't miss' event for organizations interested in the future of logistics!

The speakers for the symposium will include representatives of the U.S. Department of Defense, the National Armaments Directors, the director general of NAMSA, senior logisticians from NATO operational commands, directors of NATO codification bureaus in member nations, and private contractors and exhibitors. Key themes to be discussed at the symposium will explore the evolution of the NCS and emerging challenges facing the system.

The symposium is considered important for everyone involved in military logistics because it keeps participants informed of the latest concepts and benefits of NATO codification and its applications. Such uses range from manufacturing through the supply chain to the logisticians on the front lines.

As part of the Defense Logistics Agency, DLIS is a leading logistics information broker for the Department of Defense. As the DoD consolidated center of expertise in cataloging, DLIS serves as the U.S. National Codification Bureau (NCB). The employees here are involved in the creation, management and dissemination of logistics information to military and government customers using the latest technology.

Potential attendees or exhibitors may learn more about the conference by visiting the symposium's World Wide Web page at [www.nato.int/structur/AC/135/main/links/e\\_symposium.htm](http://www.nato.int/structur/AC/135/main/links/e_symposium.htm).

**Questions about the symposium or requests for copies of the registration flier can be addressed to Brenda Eddy of the U.S. NCB by calling (616) 961-4333 or sending email to [beddy@dlis.dla.mil](mailto:beddy@dlis.dla.mil).**

**Additional information about DLIS or its products and services can be obtained by visiting [www.dlis.dla.mil](http://www.dlis.dla.mil) or calling the Public Affairs Office at (616) 961-7015.**

## Lights, Camera, Action . . .

The Defense Supply Center Philadelphia General and Industrial Directorate recently tried a new approach to marketing its Fire Fighting, Safety, Search & Rescue Prime Vendor (PV) program – INFOMERCIALS.

During the Fire-Rescue International Conference 2000, held on August 25-28, 2000 in Dallas, Texas., our Fire Fighting PV infomercials were shown every hour, around the clock, at each of the eight hotels involved in the conference, on shuttle buses between the hotels and the Convention Center, and at the Dallas Convention Center. The conference and infomercial audience consisted of worldwide civilian and military fire chiefs, fire marshals, fire emergency service personnel, fire and crash rescue officers, and manufacturers, dealers, and vendors demonstrating new equipment. As a result of the infomercial exposure, the Fire Fighting team is following up on new leads and points of contact for the ongoing expansion of this PV program.

Under this program, our Prime Vendors offer one stop shopping on a full range of fire fighting, safety, search and rescue, environmental, emergency, and incidental equipment and services to military fire fighting communities throughout the continental United States, Panama, Guantanamo Bay, Puerto Rico, Alaska, Hawaii, Guam, and the Midway Islands. The PV program is also available to non-Department of Defense federally funded organizations.

**If you are already a customer or are interested in becoming one, the Fire Fighting Team welcomes your comments and/or inquiries. Contact Shirley Jones, the Fire Fighting Program Manager, at DSN 444-4421, Com (215) 737-4421, via Email at: [sbjones@dscp.dla.mil](mailto:sbjones@dscp.dla.mil) or visit or Web site: <http://www.dscp.dla.mil/gi/general/fire.htm>**

# GSA's International Products & Services EXPO...

**Your free training source for  
best practices in procurement,  
innovations in technology,  
and many other career-building topics  
designed with you in mind!**

**GSA's** annual training extravaganza will be held in Orlando, Florida on May 22-24, 2001. EXPO 2001 is a dual Conference/Exposition designed for the Federal acquisition community to aid in everyday procurement decisions.

The Conference tracks will feature topics including Professional Procurement, Winning Partnerships, Travel & Transportation, E-Business, and much, much more! You won't want to miss this FREE opportunity to help you keep pace with the changes that impact your agency. As procedures are streamlined and simplified, those involved must learn how to work faster, contain costs, be more effective, and maintain the highest standards of quality.

The trade show will showcase over 800 of GSA's commercial partners - across 500,000 square feet - each featuring a sampling of the wide-range of products and services available through GSA. From the latest in information technology, furniture and appliances, tools, vehicles, athletic equipment, office supplies and so much more. This is *the* premier government trade show located in one of the world's most popular tourist and convention destinations.

Meet and interact with your peers and experts from around the country at this must-see event! Take charge of your own professional development and chart your career by keeping abreast of procurement and technology innovations. For more information on registration, check out our web site at...

**[expo.gsa.gov](http://expo.gsa.gov)**  
*Your best source for up-to-date information on EXPO 2001*

**ORANGE COUNTY CONVENTION CENTER**

**Come visit DLA at the EXPO  
Booth #4045**

5 4 3 2 1

The countdown is on...

*Don't miss this opportunity!*

### International Products & Services

# Expo 2001

GSA is offering over 100 hours of diverse training in a three day period. Our goal is to meet your distinct training needs. Classes range from procurement regulations and financial management, to winning partnerships and travel and transportation. The cost to attend? Absolutely nothing. That's right! Admission to the EXPO is free to all federal employees.

What could be better than that? Skills you need, at a price you don't have to pay

# Join Us!

at the

## Defense Logistics Agency Expo and Training Symposium

Sponsored by the National Defense Industrial Association (NDIA)

**September 12 and 13, 2001**  
**Jacksonville, FL at the Adams Mark Hotel**

**Theme... DLA Logistics Transformation...**

- **Customer Focus**
- **Partnerships**
- **Military Quality of Life**

Come use displays and thousands of products  
and services offered by DLA.

Attend your choice of training on the latest updates in Customer  
Initiatives, E-Business, Logistics Support, and much more!

This year marks DLA's 40th Anniversary of service to our Military  
Customers. Please come to the Expo and help us commemorate  
four decades of DLA achievements.

For additional information, Look for us on the  
web at [www.ndia.org](http://www.ndia.org). Information will also be available  
in the summer edition of LogLines.

Defense Logistics Information Service (DLIS) Customer Service

**Customer Service Office**

**Defense Logistics Information Service**

74 Washington Ave. N

Battle Creek, MI 49017-3084

**Phone:** DSN 932-4725 / (616)961-4725 / 1-888-352-9333

**Fax:** DSN 932-5305 / (616) 961-5305

**Email:** [subscriptions@dlis.dla.mil](mailto:subscriptions@dlis.dla.mil)

Our WebCall service (<http://www.dlis.dla.mil/cust.asp>) is available Monday - Friday from 7:00 am - 4:30 pm Eastern Standard Time; Web Calls are forwarded to our Customer Support Center over the Internet. Once we receive notice of your request one of our agents will place a telephone call back to you.

The Customer Service Office (CSO) is accessible 24 hours a day. Technicians are available from 7:00 am - 5:30 pm Eastern Standard Time; phone calls are forwarded to voice mail after that, including instructions for emergency customer assistance. You can always send your inquiry via email or fax anytime.

Our technicians can help you locate a supply item in the database, assist you in obtaining LOGRUN access, or give you step by step instructions over the phone to connect your disc drive units to your PC for CD-ROM products. Direct all questions, problems, comments, or inquiries to the CSO technician who will get you the information you need.
