

ATIG WEB SITE: PRESENTATION PORTAL

SYSTEM REQUIREMENTS

These presentations require that the free RealPlayer plug-in be installed on your machine (RealPlayer Basic, at www.real.com/player).

RealPlayer Basic has certain minimum hardware requirements for PC and Mac systems which are listed below.

Please note that dial-up (modem) connections result in less than optimal streaming of audio.

PC Recommendations

- 200MHz processor or better
- 64MB or more of RAM, which generally improves responsiveness
- 56.6Kbps Internet connection or better
- Full duplex sound card
- 8 megabytes of video RAM or better
- SVGA monitor with minimum screen resolution of 800 x 600 and at least 16-bit color
- Windows 95, Windows 98, Windows 2000, Windows 2000 ME (final release version only), Windows NT 4.0 with Service Pack 4 or greater
- IE 4.0.x or Netscape 4.0.x or later
- RealPlayer 8 Basic or greater

Mac Recommendations

- Mac OS 8.1 or later
- 64MB or more of RAM
- 604 PowerPC (200 MHz or better)
- 56.6Kbps Internet connection or better
- SVGA monitor with minimum screen resolution of 800 x 600 and at least 16-bit color
- Microsoft Internet Explorer 4.0x or Netscape 4.0x or later
- RealPlayer 8 Basic or greater
