Background

On November 12, 2003, the Bureau of Industry and Security published a proposed rule that would implement a new, internet based, system for submitting export license applications, classification requests, encryption review requests and License Exception AGR notices. See 68 FR 64009. The proposed rule would make use of this new system mandatory with a limited number of exceptions. The deadline for public comment on the proposed rule was January 12, 2004. The Bureau is now extending that deadline to February 12, 2004, to allow the public additional time to comment on the rule.

SUPPLEMENTARY INFORMATION: This proposal addresses the approval of local MBUAPCD Rule 438 and rescission of MBUAPCD Rules 407, 409, 410, 411, and 422 as SIP revisions. In the Rules section of this **Federal Register**, we are approving this SIP revision in a direct final action without prior proposal because we believe this SIP revision is not controversial. If we receive adverse comments, however, we will publish a timely withdrawal of the direct final rule and address the comments in subsequent action based on this proposed rule. We do not plan to open a second comment period, so anyone interested in commenting should do so at this time. If we do not receive adverse comments, no further activity is planned. For further information, please see the direct final action.
