**NTIS**  
Information is our business.

Let NTIS' Electronic Media Services take your paper documents, diskettes, and microfiche, and put them in a state-of-the-art electronic media format!

Electronic Media Services

*Then...*

**EMS** has been a recognized leader in federal electronic information production and distribution since 1989.

*Our experienced team of project managers and contractors can help your agency meet all its electronic media needs on time and within budget.*

### You'll find it easy to work with EMS

*EMS provides professional project coordination and consultation services for federal agencies.*

*Flexible interagency agreements and deposit account services replace traditional governmental procurement and payment procedures. Federal agencies are now able to retain EMS services and acquire their electronic media products and services faster than ever.*

*EMS project managers work for you!*

### EMS value-added services include

- Personalized, partnership approach to business
- Expertise in project management
- Specialty printing and packaging
- Product assembly, storage, and distribution
- Professional marketing opportunities
- Public sale availability
- Ongoing fulfillment capabilities
- High-volume manufacturing

**EMS** offers unmatched levels of experience, flexibility, and a full range of quality electronic media services to agencies looking for solutions.

### Data Capture and Conversion

- Convert paper documents, data, and image files into the electronic format of your choice

### Electronic Applications Development

- Create customized multimedia CD-ROMS
- Develop interactive courseware products
- Build hybrid CD-ROMs with links to the Internet, intranets, and World Wide Web

### Optical Disc Mastering and Replication

- Designed for high-volume information dissemination
- Excellent medium for archival purposes - EFOIA, E-mail
- Cost effective and easy to use

### Diskette and Tape Duplication

- Duplicate all types of magnetic tapes and diskettes

## Easy Access to EMS
