

REMINDER TO CUSTOMERS:

Electronic Data Interchange (EDI) is the most effective way to bill our office and receive payments. Please ensure that all data in your EDI transaction is complete and accurate. Errors in EDI transactions cause delays in payment.

Carriers who experience any problems with EDI, especially short payments, should call our Customer Service Resource Center at 1-888-425-7729, selection 1, before submitting a supplemental billing.

As always, you may call Customer Service for information or to discuss any issues you may have.
