Major Duties:

This position is located in the Animal Improvement Programs Laboratory (AIPL), Animal and Natural Resources Institute, Beltsville Agricultural Research Center, Beltsville, MD. The overall mission of the AIPL is the development and implementation of genetic evaluation procedures for economically important traits of dairy animals, the results of which are used by the U. S. dairy industry as the primary source of information for genetic improvement. The purpose of this position is to provide scientific support to research geneticists conducting studies to improve the genetic producing ability and production efficiency of U. S. dairy animals. More specifically, the incumbent assists the researchers in conducting, reporting, and implementing research projects; determines records required from master files and specific data necessary for appropriate statistical computer analysis, and specific output needed in a form that permits rapid and efficient interpretation of results; interprets results of assigned portions of research projects and makes assessment of readiness for publication; prepares assigned portions of manuscripts and submits to supervisor for inclusion in scientific journals and agricultural periodicals, and for presentation at national scientific meetings and other State, regional, or national meetings and workshops; summarizes DHI data, including checking accuracy of incoming data, preparing summary reports, and responding to questions from the field; cooperates with dairy scientists, computer specialists, and research scientists to develop subject matter specifications to implement research in the USDA genetic evaluations system and other systems under development.

Qualifications Required: Your education and experience will be evaluated against all qualification requirements (basic and any additional requirements) listed below.

Basic Requirements

Applicants must have a degree in animal science, dairy science, poultry science; or a related discipline or field of animal science that included at least 30 semester hours in the basic biological and agricultural sciences, and 20 semester hours in animal science. At least 10 of the required 20 semester hours in animal science must have been in courses dealing with the breeding, feeding, production, and management of livestock, and the care and preparation of their products. A combination of education and experience may be used to meet this requirement, as follows: a major in the basic biological and agricultural sciences including a minimum 20 semester hours in animal science subjects described above, plus appropriate experience or education.

This position has a positive education requirement. You must provide a copy of your academic transcripts OR a list of college courses with credit hours, dates completed, and grades received to verify education when applying for this position. If this information is not provided, your education may not be appropriately evaluated, and you may lose consideration for this position. If you are selected for this position, you will have to provide an official copy of your transcripts prior to entering on duty.

Additional Requirements:

Candidates for GS-7 must have 1 full year of directly related graduate level education or superior academic achievement, or 1 year of specialized professional experience equivalent to at least GS-5. Candidates for GS-9 must have 2 years of directly related graduate education leading to a master's, or a master's or equivalent graduate degree, or 1 year of specialized experience equivalent to at least GS-7 level. candidates for GS-7 must have 1 full year of directly related graduate level education or superior academic achievement, or 1 year of specialized professional experience equivalent to at least GS-5.
