# ENVIRONMENTAL PLANNING TEAM

## Our Role

Provide environmental planning services to ensure Fleet's readiness objectives

- Direct support to program decision makers
- Leverage local knowledge at NAVFAC Field Divisions and Activities
- Provide consistent environmental planning support world-wide for entire program

## Project Support

- Program Environmental Planning
- Site Permits and Authorizations
- Multiple-Agency Coordination
- Installation Authorizations
- Major Issues Identification and Resolution

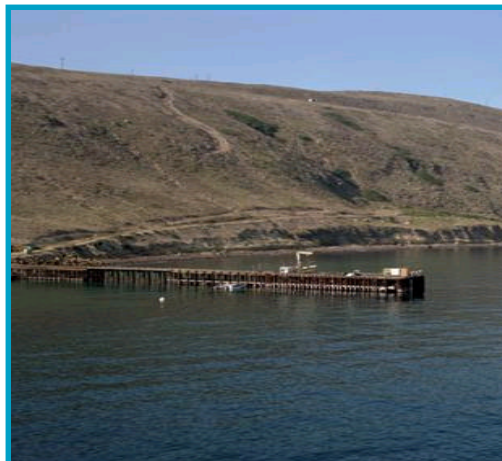

## Program Life-Cycle Support

- Life-Cycle Program Environmental Planning
- Environmental, Safety, and Health (ESH) Evaluations
- NEPA Documentation and Coordination for Testing, Homeporting, Training, and Operations
- World-Wide Fleet Introduction Support
- Milestones Decision Documentation
- T&E Planning Support Across Multiple AORs

## Team Objectives

- ✓ Be an integral part of NAVFAC Planning and Environmental communities
- ✓ Integrate environmental considerations into system planning, design, manufacturing and testing by proactively participating in IPTs
- ✓ Provide comprehensive and consistent environmental planning support world-wide
- ✓ Focus on early identification of issues to provide solutions that are attuned with the program's cost, schedule, and performance objectives

## Team Mission

Provide clients with integrated environmental planning for the life-cycle of a program by considering environmental factors early.

The Environmental Planning Team will consider environmental issues in the context of minimizing impacts to system readiness, performance, cost, and schedule.
