SPECIAL BIBLIOGRAPHY SERIES

The Special Bibliography Series provides students, faculty, analysts and area specialists with comprehensive subject coverage of major topics and geographical areas addressed in the curricula and research programs of the Air University. Compiled and edited by the staff of the Air University Library, each bibliography reflects selected book holdings (including GPO publications), periodical articles, and military and defense document holdings present in the library's collection. The series began in 1953. Since that time, over 1500 individual titles have been published.

This special bibliography on Grenada includes citations on the Fall 1983 invasion and was compiled by Stephen B. Chun, library staff specialist on Latin America, and bibliographic liaison officer to Air Force Reserve Officer Training Corps and Air Force Civil Air Patrol.
